

March 2024 Medicaid and CHIP Enrollment Trends Snapshot

Center for Medicaid and CHIP Services

Enrollment Snapshot

- To monitor states' progress after the end of the Medicaid continuous enrollment condition and states' • return to regular eligibility operations, including conducting full renewals, this Enrollment Snapshot captures high level information on the most recently submitted month of Performance Indicator Enrollment Data¹ within the context of trends prior to the COVID-19 public health emergency (PHE), as well as trends prior to the end of the Medicaid continuous enrollment condition,^{2,3} focusing on:
 - Total Medicaid and CHIP enrollment; —
 - Medicaid enrollment; _
 - CHIP enrollment; —
 - Adult enrollment; and —
 - Child enrollment. _
- This analysis also captures high level information on the trend in the number of Medicaid and CHIP ulletapplications received by states.

¹ Performance Indicator Enrollment Data counts individuals receiving full-scope and comprehensive Medicaid and CHIP benefits.

² February 2020 serves as the baseline prior to the impacts of the COVID-19 pandemic and the enactment of the Families First Coronavirus Response Act (FFCRA) in March 2020. March 2023 serves as the baseline before states began disenrolling individuals from Medicaid coverage after the end of the Medicaid continuous enrollment condition. For more information, please visit https://www.medicaid.gov/resources-for-states/coronavirus-disease-2019-covid-19/unwinding-and-returning-regular-operations-after-covid-19/index.html. ³ Section 6008 of FFCRA included a Medicaid continuous enrollment condition through March 31, 2023, and states that complied received a temporary federal medical assistance percentage (FMAP) increase.

Key Findings

- In March 2024, 82,751,338 individuals were enrolled in Medicaid and CHIP, a decrease of 636,453 individuals (0.8%) • from February 2024.¹
 - 75,645,578 individuals were enrolled in Medicaid in March 2024, a decrease of 644,997 individuals (0.8%) from February 2024.
 - 7,105,760 individuals were enrolled in CHIP in March 2024, an increase of 8,544 individuals (0.1%) from February 2024.
- As of March 2024, enrollment in Medicaid and CHIP has decreased by **11,116,668** individuals (11.8%) since March ٠ 2023, the final month of the Medicaid continuous enrollment condition under the Families First Coronavirus Response Act (FFCRA) and amended by the Consolidated Appropriations Act, 2023.²
 - Medicaid enrollment has decreased by **11,084,981** individuals (12.8%). ____
 - CHIP enrollment has decreased by **31,687** individuals (0.4%).
- Between February 2020 and March 2023, enrollment in Medicaid and CHIP increased by 23,023,434 individuals ۲ (32.5%) to **93,868,006**.
 - Medicaid enrollment increased by **22,681,263** individuals (35.4%). ____
 - CHIP enrollment increased by **342,171** individuals (5.0%). —

¹ Performance Indicator Enrollment Data counts individuals receiving full-scope and comprehensive Medicaid and CHIP benefits.

² Families First Coronavirus Response Act, Pub. L. No. 116-127, Sec 6008, Temporary Increase of Medicaid FMAP. Note that Sec. 6008 of the FFCRA is amended by the Consolidated Appropriations Act, Pub. L. No. 117-328.

Florida and Oregon's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. Colorado's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of June 3, 2024.

Key Findings (continued)

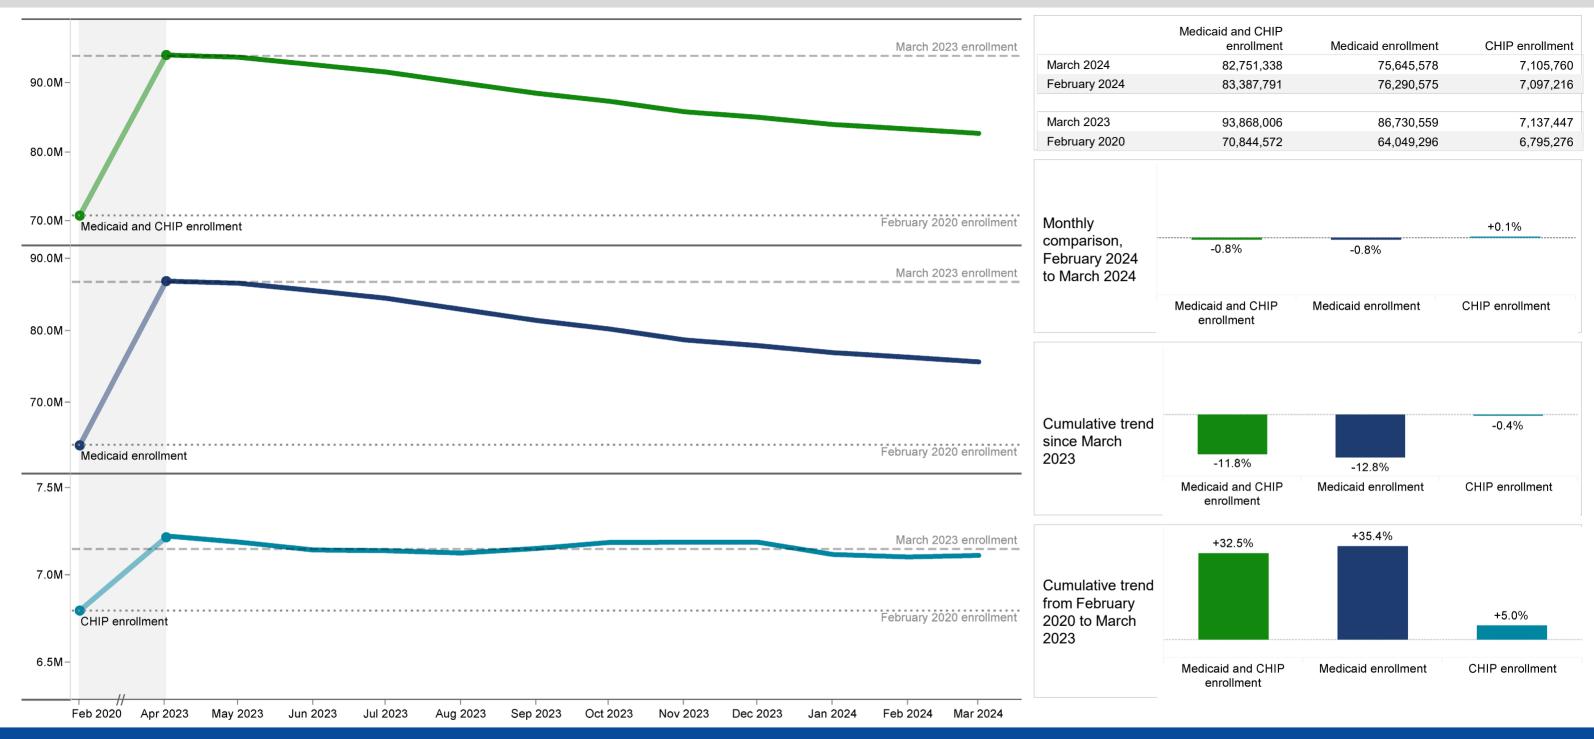

- In March 2024, 2,119,550 applications for Medicaid and CHIP were submitted directly to states.¹ ullet
 - The number of applications submitted directly to states was 3.5 percent lower in March 2024 compared to February 2024.
- In March 2024, **217,821** applications were transferred from the Federally Facilitated Marketplace (FFM) • to states.²
 - The number of transferred applications was 1.7 percent lower in March 2024 compared to February — 2024.

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, preliminary data submitted by May 7, 2024, with data through March 2024. Oregon's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. South Carolina's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 28, 2024.

¹ These counts include applications received by 50 states and the District of Columbia. For additional information, please see Figure 4.

² These counts include account transfer data from 33 states that use the federal healthcare.gov platform. For additional information, please see Figure 6.

Nationally, total Medicaid and CHIP enrollment decreased by 0.8 percent from February 2024 to March 2024. Total Medicaid and CHIP enrollment increased between 0 and 5 percent in 8 states. In 1 state (Texas), total Medicaid and CHIP enrollment increased by more than 2 percent.⁽¹⁾ In 7 states, total Medicaid and CHIP enrollment increased by less than 2 percent. In 38 states and the District of Columbia, total Medicaid and CHIP enrollment decreased by less than 2 percent. In 3 states, total Medicaid and CHIP enrollment decreased between 2 and 5 percent. In 1 state (Colorado), total Medicaid and CHIP enrollment decreased by more than 5 percent.⁽²⁾

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, preliminary data submitted by May 7, 2024, with data through March 2024. Florida and Oregon's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. Colorado's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of June 3, 2024. Note: This analysis includes preliminary enrollment data from 50 states and the District of Columbia.

Data Context: (1) In Texas, total Medicaid and CHIP enrollment increased by 2.4 percent (100,845 individuals). The state extended Medicaid and CHIP postpartum coverage from 60 days to 12 months effective March 1, 2024. (2) In Colorado, total Medicaid and CHIP enrollment decreased by 6.0 percent (78,314 individuals).

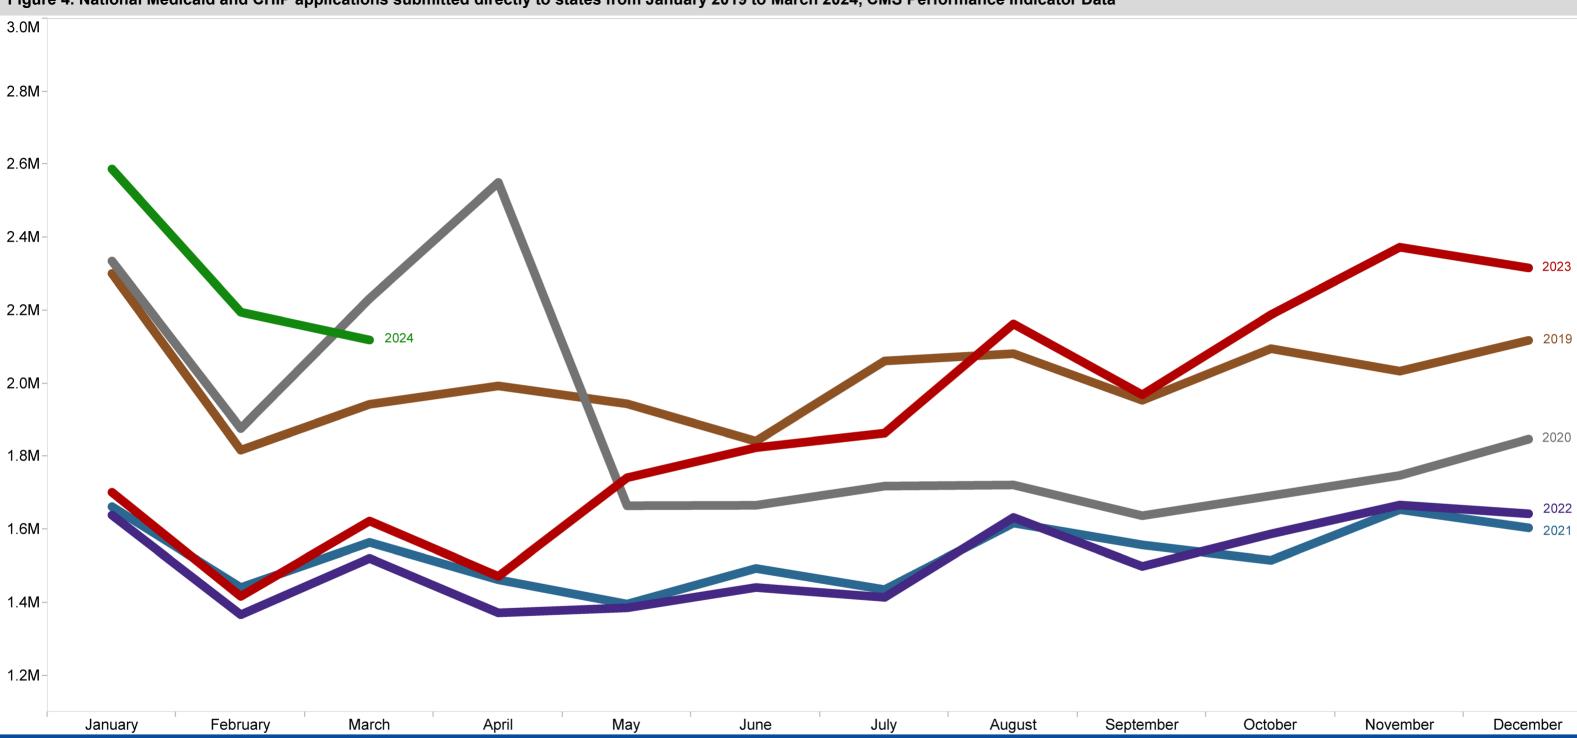

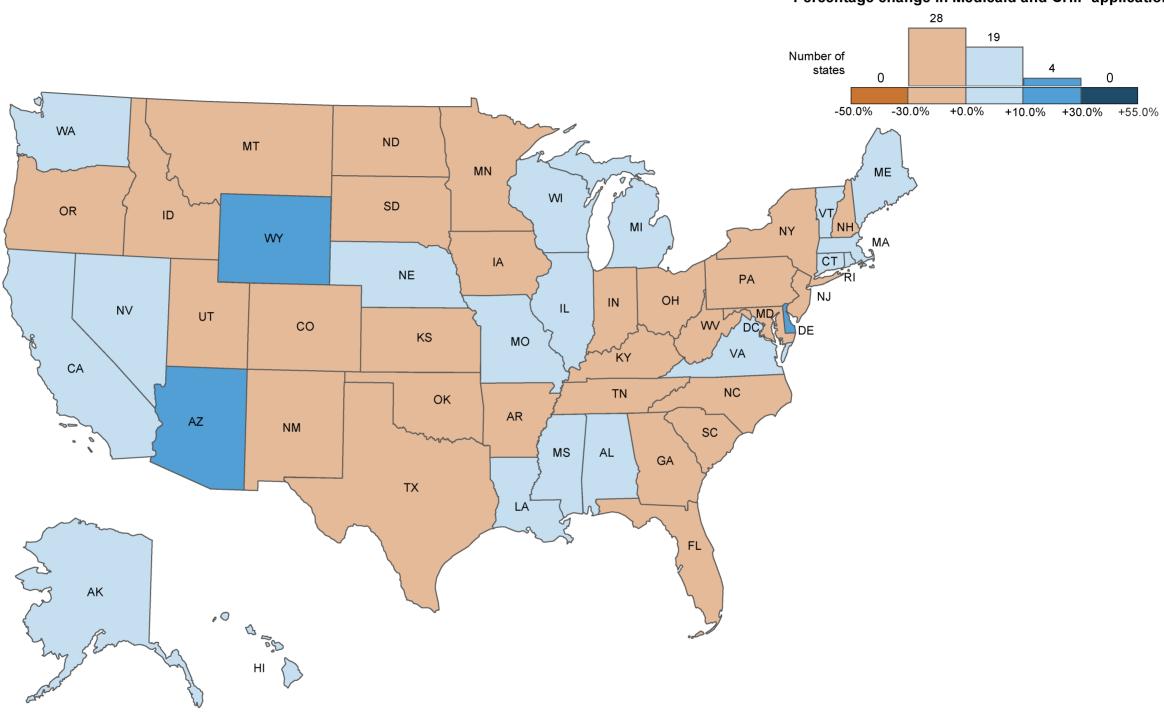

Figure 4. National Medicaid and CHIP applications submitted directly to states from January 2019 to March 2024, CMS Performance Indicator Data

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, preliminary data submitted by May 7, 2024, with data through March 2024. Oregon's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. South Carolina's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 28, 2024. Note: Applications submitted directly to states include applications received by any state agency to make Medicaid or CHIP eligibility determinations, including the Medicaid agency, a separate CHIP agency, or a state-based marketplace. Applications transferred from the FFM are not included. This analysis includes preliminary data from 50 states and the District of Columbia. Fluctuations in state-reported Medicaid and CHIP applications may be observed throughout a given year as a result of open enrollment activities or other seasonal changes.

Data Context: Tennessee did not report applications data in January and February 2019. Maine did not report applications data from January 2019 to April 2023. In the February 2024 Enrollment Snapshot, New York corrected its historic applications data from June 2017 to September 2023. This data update altered the historic national application data depicted in these reports, as the data presented in reports from February 2024 onward are significantly lower than those previously reported. For this reason, the application data presented in this report is not comparable to data in reports published before February 2024.

Nationally, the number of Medicaid and CHIP applications submitted directly to states was 3.5 percent lower in March 2024 compared to February 2024. In 28 states, applications decreased by less than 30 percent. In 19 states, applications increased by less than 10 percent. In 3 states and the District of Columbia, applications increased between 10 and 30 percent.

Oregon's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. South Carolina's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 28, 2024. **Note:** Applications submitted directly to states include applications received by any state agency to make Medicaid or CHIP eligibility determinations, including the Medicaid agency, a separate CHIP agency, or a state-based marketplace. Applications transferred from the FFM are not included. This analysis includes preliminary data from 50 states and the District of Columbia.

Percentage change in Medicaid and CHIP applications

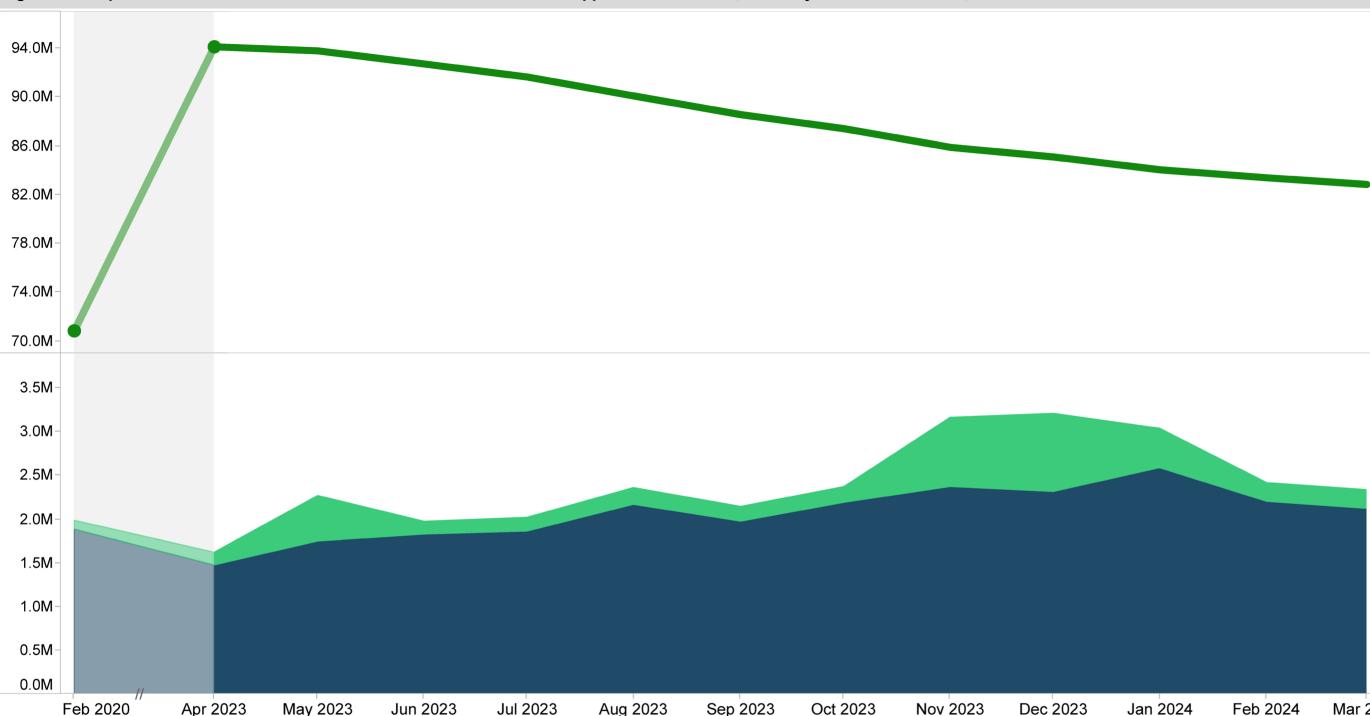

Figure 6. Comparison of Medicaid and CHIP enrollment with the number of applications received, February 2020 to March 2024, CMS Performance Indicator Data

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, preliminary data submitted by May 7, 2024, with data through March 2024. Florida's March 2024 Enrollment Data and Oregon's March 2024 Enrollment and Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. South Carolina's March 2024 Applications Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 28, 2024. Colorado's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of June 3, 2024.

Note: Applications submitted directly to states include applications received by any state agency to make Medicaid or CHIP eligibility determinations, including the Medicaid agency, a separate CHIP agency, or a state-based marketplace. Applications transferred from the FFM to states include the total number of accounts electronically transferred from the FFM to states for Medicaid or CHIP. This analysis includes preliminary enrollment and applications data from 50 states and the District of Columbia, and account transfer data from 33 states that use the federal healthcare.gov platform. The grey area on the graphs represents the overall trend between February 2020 and April 2023, and is included to provide context to the annual trend from April 2023 to March 2024. Data Context: Maine did not report applications data in June 2020. Kansas did not report applications data from February 2020 to April 2023. In the February 2024 Enrollment Snapshot, New York corrected its historic applications data from June 2017 to September 2023. This data update altered the historic national application data depicted in these reports, as the data presented in reports from February 2024 onward are significantly lower than those previously reported. For this reason, the application data presented in this report is not comparable to data in reports published before February 2024.

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, preliminary data submitted by May 7, 2024, with data through March 2024. Florida and Oregon's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of May 13, 2024. Colorado's March 2024 Enrollment Data from the Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data, as of June 3, 2024. **Note:** This table summarizes adult and child enrollment in Medicaid and CHIP since December 2019. This table is provided as a supplement to Figure 2, and includes preliminary enrollment data from 49 states and the District of Columbia. Arizona is excluded from both Figure 2 and Appendix B because the state did not report the breakouts for adult and child enrollment between December 2019 and March 2024.

Background

- This is a Center for Medicaid & CHIP Services (CMCS) Medicaid and CHIP Coverage Learning ٠ Collaborative (MAC LC) project that monitors Medicaid and Children's Health Insurance Program (CHIP) enrollment trends, primarily using the Centers for Medicare and Medicaid Services (CMS) Performance Indicator Data.
- The MAC LC is a CMCS project that provides a forum for facilitated discussion and learning across CMS ulletand states, with the goal of implementing and improving the programs, tools, and systems needed to ensure high-performing state health insurance programs. The MAC LC has enabled CMS to more effectively identify issues and also monitor and improve program performance.
- This snapshot is a companion to the March 2024 Medicaid & CHIP Application, Eligibility, and ulletEnrollment Data posted on Medicaid.gov.
- The Enrollment Trends project primarily relies on Performance Indicator Data. All states—including the ulletDistrict of Columbia—provide data each month about their Medicaid and CHIP eligibility and enrollment activity. These data reflect a range of indicators related to key application, eligibility, and enrollment processes within the state Medicaid and CHIP agency. The complete data set is available on Data.Medicaid.gov.
