# November 2023 Medicaid and CHIP Enrollment Trends Snapshot

Center for Medicaid and CHIP Services

Enrollment Snapshot

- To monitor states' progress after the end of the Medicaid continuous enrollment condition and states' return to regular eligibility operations, including conducting full renewals, this Enrollment Snapshot captures high level information on the most recently submitted month of Performance Indicator Enrollment Data[1] within the context of trends prior to the COVID-19 public health emergency (PHE), as well as trends prior to the end of the Medicaid continuous enrollment condition,[2,3] focusing on:
  - Total Medicaid and CHIP enrollment;
  - Medicaid enrollment;
  - CHIP enrollment;
  - Adult enrollment; and
  - Child enrollment.

- This analysis also captures high level information on the trend in the number of Medicaid and CHIP applications received by states.

[1] Performance Indicator Enrollment Data counts individuals receiving full-scope and comprehensive Medicaid and CHIP benefits.
[2] February 2020 serves as the baseline prior to the impacts of the COVID-19 pandemic and the enactment of the Families First Coronavirus Response Act (FFCRA) in March 2020. March 2023 serves as the baseline before states began disenrolling individuals from Medicaid coverage after the end of the Medicaid continuous enrollment condition. For more information, please visit https://www.medicaid.gov/resources-for-states/coronavirus-disease-2019-covid-19/unwinding-and-returning-regular-operations-after-covid-19/index.html.
[3] Section 6008 of FFCRA included a Medicaid continuous enrollment condition through March 31, 2023, and states that complied received a temporary federal medical assistance percentage (FMAP) increase.

Key Findings

- In November 2023, **85,815,827** individuals were enrolled in Medicaid and CHIP, a decrease of **1,503,283** individuals (1.7%) from October 2023.[1]
  - **78,710,401** individuals were enrolled in Medicaid in November 2023, a decrease of **1,523,107** individuals (1.9%) from October 2023.
  - **7,105,426** individuals were enrolled in CHIP in November 2023, an increase of **19,824** individuals (0.3%) from October 2023.[2]

- As of November 2023, enrollment in Medicaid and CHIP has decreased by **8,034,913** individuals (8.6%) since March 2023, the final month of the Medicaid continuous enrollment condition under the Families First Coronavirus Response Act (FFCRA) and amended by the Consolidated Appropriations Act, 2023.[3]
  - Medicaid enrollment has decreased by **8,007,036** individuals (9.2%).
  - CHIP enrollment has decreased by **27,877** individuals (0.4%).

- Between February 2020 and March 2023, enrollment in Medicaid and CHIP increased by **22,975,671** individuals (32.4%) to **93,850,740**.
  - Medicaid enrollment increased by **22,637,644** individuals (35.3%).
  - CHIP enrollment increased by **338,027** individuals (5.0%).

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data as of January 5, 2024.
[1] Performance Indicator Enrollment Data counts individuals receiving full-scope and comprehensive Medicaid and CHIP benefits.
[2] The November 2023 increase in CHIP enrollment is primarily driven by Texas and Pennsylvania. In Texas, CHIP enrollment increased by 3.1 percent (9,892 individuals). In Pennsylvania, CHIP enrollment increased by 6.3 percent (16,790 individuals).
[3] Families First Coronavirus Response Act, Pub. L. No. 116-127, Sec 6008, Temporary Increase of Medicaid FMAP. Note that Sec. 6008 of the FFCRA is amended by the Consolidated Appropriations Act, Pub. L. No. 117-328.

Key Findings (continued)

- In November 2023, **2,276,062** applications for Medicaid and CHIP were submitted directly to states.[1]

  - The number of applications submitted directly to states was 3.8 percent higher in November 2023 compared to October 2023.

- In November 2023, **792,381** applications were transferred from the Federally Facilitated Marketplace (FFM) to states.[2]

  - The number of transferred applications was 333.3 percent higher in November 2023 compared to October 2023. This increase coincides with the first month of Open Enrollment. Last year, in November 2022, the number of transferred applications was 408.2 percent higher compared to October 2022, with a total of 676,794 transferred applications.

Figure 1. National Medicaid and CHIP enrollment, February 2020 to November 2023, CMS Performance Indicator Data
	Medicaid and CHIP enrollment	Medicaid enrollment	CHIP enrollment
November 2023	85,815,827	78,710,401	7,105,426
October 2023	87,319,110	80,233,508	7,085,602
March 2023	93,850,740	86,717,437	7,133,303
February 2020	70,875,069	64,079,793	6,795,276
Monthly comparison, October 2023 to November 2023
- Medicaid and CHIP enrollment: −1.7%
- Medicaid enrollment: −1.9%
- CHIP enrollment: +0.3%

Cumulative trend since March 2023
- Medicaid and CHIP enrollment: −8.6%
- Medicaid enrollment: −9.2%
- CHIP enrollment: −0.4%

Cumulative trend from February 2020 to March 2023
- Medicaid and CHIP enrollment: +32.4%
- Medicaid enrollment: +35.3%
- CHIP enrollment: +5.0%

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data as of January 5, 2024.
**Note:** This analysis includes preliminary enrollment data from 50 states and the District of Columbia. February 2020 serves as the baseline of enrollment prior to the impacts of the COVID-19 pandemic and the Families First Coronavirus Response Act (FFCRA) Medicaid continuous enrollment condition. The grey area on the line graphs represents the overall trend between February 2020 and December 2022, and is included to provide additional context to the annual trend from December 2022 to November 2023. March 2023 serves as the baseline of enrollment prior to the end of FFCRA's Medicaid continuous enrollment condition, after which states may initiate the disenrollment of individuals who have not had their Medicaid eligibility successfully renewed in the past 12 months. For additional information on Medicaid and CHIP enrollment from December 2019 to November 2023, please see Appendix A.
Data Context: The November 2023 increase in CHIP enrollment is primarily driven by Texas and Pennsylvania. In Texas, CHIP enrollment increased by 3.1 percent (9,892 individuals). In Pennsylvania, CHIP enrollment increased by 6.3 percent (16,790 individuals).

Figure 2. National adult and child enrollment in Medicaid and CHIP, February 2020 to November 2023, CMS Performance Indicator Data

	Adult Medicaid enrollment	Child Medicaid and CHIP enrollment	Child Medicaid enrollment	CHIP enrollment
November 2023	44,976,636	38,799,107	31,815,967	6,983,140
October 2023	45,817,578	39,448,827	32,484,865	6,963,962
March 2023	49,430,675	42,087,954	35,101,864	6,986,090
February 2020	34,132,212	35,037,068	28,339,309	6,697,759

Cumulative trend from February 2020 to March 2023

Adult Medicaid enrollment	Child Medicaid and CHIP enrollment	Child Medicaid enrollment	CHIP enrollment
+44.8%	+20.1%	+23.9%	+4.3%

Nationally, total Medicaid and CHIP enrollment decreased by 1.7 percent from October 2023 to November 2023. Total Medicaid and CHIP enrollment increased between 0 and 5 percent in 10 states. In 1 state (Connecticut), total Medicaid and CHIP enrollment increased by more than 2 percent.[1] In 9 states, total Medicaid and CHIP enrollment increased by less than 2 percent. In 24 states, total Medicaid and CHIP enrollment decreased by less than 2 percent. In 14 states and the District of Columbia, total Medicaid and CHIP enrollment decreased between 2 and 5 percent. In 2 states (Colorado and Texas), total Medicaid and CHIP enrollment decreased by more than 5 percent.[2]

Source: Medicaid and CHIP Eligibility and Enrollment Performance Indicator Data as of January 5, 2024.
Note: This table summarizes adult and child enrollment in Medicaid and CHIP since December 2019. This table is provided as a supplement to Figure 2, and includes preliminary enrollment data from 49 states and the District of Columbia. Arizona is excluded from both Figure 2 and Appendix B because the state did not report the breakouts for adult and child enrollment between December 2019 and November 2023.

Background

- This is a Center for Medicaid & CHIP Services (CMCS) Medicaid and CHIP Coverage Learning Collaborative (MAC LC) project that monitors Medicaid and Children's Health Insurance Program (CHIP) enrollment trends, primarily using the Centers for Medicare and Medicaid Services (CMS) Performance Indicator Data.

- The MAC LC is a CMCS project that provides a forum for facilitated discussion and learning across CMS and states, with the goal of implementing and improving the programs, tools, and systems needed to ensure high-performing state health insurance programs. The MAC LC has enabled CMS to more effectively identify issues and also monitor and improve program performance.

- This snapshot is a companion to the November 2023 Medicaid & CHIP Application, Eligibility, and Enrollment Data posted on Medicaid.gov.

- The Enrollment Trends project primarily relies on Performance Indicator Data. All states—including the District of Columbia—provide data each month about their Medicaid and CHIP eligibility and enrollment activity. These data reflect a range of indicators related to key application, eligibility, and enrollment processes within the state Medicaid and CHIP agency. The complete data set is available on Data.Medicaid.gov.
