

FFY 2022 MEDICAID MANAGED CARE ORGANIZATION (MCO)
DRUG UTILIZATION REVIEW (DUR) ANNUAL ABBREVIATED SURVEY

ABOUT THE SURVEY

42 CFR 438.3(s)(4) and (5) require that each Medicaid managed care organization (MCO) must operate a drug utilization review (DUR) program that complies with the requirements described in Section 1927 (g) of the Social Security Act (the Act) and submit an annual report on the operation of its DUR program activities. Such reports are to include: descriptions of the nature and scope of the DUR programs; a summary of the interventions used in retrospective DUR (RetroDUR) and an assessment of the education program; and an assessment of the DUR program's impact on quality of care. If medication is associated with a prescription and the medication is dispensed, the expectation is prospective and retrospective requirements are to be applicable. If medications are clinically administered, the expectation is only for retrospective reviews. If traditional drug benefits are not part of the benefit package, then the MCO would not be required to have a prospective program unless they review a Healthcare Common Procedure Coding System (HCPCS) request for clinical appropriateness and have a DUR component engrained in that process. It is expected that if the drug benefit is handled separately there are file transfers of the drug claim file so MCOs can coordinate that aspect of the care. Covered Outpatient Drugs (COD) are referenced throughout this survey and refers to participating labelers in the Medicaid Drug Rebate Program (MDRP).

This report covers the period October 1, 2021 to September 30, 2022 and is due for submission to CMS Central Office by no later than June 30, 2023. This abbreviated version of the MCO survey is for MCOs that have pharmacy benefits covered through the FFS program, but the MCOs still have some portion of benefits for covered outpatient drugs.

Answering the attached questions and returning the requested materials as attachments to the report will constitute compliance with the above-mentioned statutory and regulatory requirements. If you have any questions regarding the DUR Annual Report, please contact your state's Medicaid Pharmacy Program.

Pursuant to 42 C.F.R. Subpart A, Section § 438.3 (s), Medicaid managed care programs must submit to CMS an annual report on the operation of its DUR program activities for that Federal Fiscal Year (FFY). Individual managed care plan's survey results will be published online and will be publicly available similar to the FFS surveys which have been published on [Medicaid.gov](https://www.medicaid.gov) since 2012. **Please confirm and acknowledge there is no proprietary or confidential information submitted in this report by checking the box below:**

- ☐ I confirm I am aware this survey will be posted online. Confidential and proprietary information has been removed from this survey.

PRA DISCLOSURE STATEMENT (CMS-R-153)

This mandatory information collection (section 4401 of the Omnibus Budget Reconciliation Act of 1990 and section 1927(g) of the Social Security Act) is necessary to establish patient profiles in pharmacies, identify problems in prescribing and/or dispensing, determine each program's ability to meet minimum standards required for Federal financial participation, and ensure quality pharmaceutical care for Medicaid patients. State Medicaid agencies that have prescription drug programs are required to perform prospective and retrospective DUR in order to identify aberrations in prescribing, dispensing and/or patient behavior. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. The control number for this information collection request is 0938-0659 (Expires: 02/28/2025). Public burden for all of the collection of information requirements under this control number is estimated at 64 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CMS, 7500 Security Boulevard, Attn: Paperwork Reduction Act Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244- 1850.
