

NADAC Equivalency Metrics

Table 1: Illustrates the aggregate mean and median discounts for single source legend drugs and innovator multiple source legend drugs (both commonly known as brand legend drugs), as well as non-innovator multiple source legend drugs (commonly known as generic legend drugs) comparing the published National Average Drug Acquisition Cost (NADAC) values to that of the wholesale acquisition cost (WAC) and average wholesale price (AWP). The data in this table is limited to the five most recent quarters of available pricing data.
