Section A. Verification Procedures for Factors of Eligibility

Eligibility Factor	Self-Attestation Accepted without Additional Verification (Y/N)	Self-Attestation Accepted with Post-Eligibility Verification (Y/N)	Electronic Data Source Used (Y/N)	Reasonable Compatibility Standard Used	Specify Reasonable Compatibility Standard for Income	Ask for a Reasonable Explanation from the Individual (Y/N)	Paper Documentation Required from the Individual (Y/N)	Comments
Income	YES	YES	YES	Both are above, at or below the applicable income standard. Percent & Dollar Threshold	The greater amount of 10% or \$100	YES	YES	The state has implemented the use of state wage and unemployment income information from the CT. Department of Labor as the initial review of self attested income. The reasonable compatibility standard of 10% or \$100 is used (whichever is greater). Self-attested income may then be compared to IRS and Social Security income from the FDSH. Self-attested income is reasonably compatible if within the greater of 10% or \$100. Connecticut received a waiver from CMS under section 1902(e)(14) of the Act to allow the state to determine eligibility based on self-attested amounts and provide a 90-day Reasonable Opportunity Period for the household to resolve inconsistencies on an interim basis. In the future, CT plans to implement earnings from the Work Number as an electronic data source. Self-attestation is accepted without verification when no electronic source is available (eg. alimony and self-employment income for non-filers). There is no estimated time of completion regarding the implementation of the Work Number. This has been removed from scope for 2015. Implementation of the Work Number has not yet been prioritized for 2016.

* States must check electronic data sources determined useful to verify income in accordance with 42 CFR 435.948 but can be done post-enrollment.

If the information obtained from electronic data sources and the information provided by or on behalf of the individual are both above, at or below the applicable income standard, the State must determine the applicant eligible or ineligible for Medicaid/CHIP. (NOTE: this option is prepopulated for the state and is not an option that can be changed).

** States must follow statute, regulations, and guidance for verification of SSN, citizenship and immigration status including obtaining such information through the federal data services hub if available.

*** States must accept self-attestation of pregnancy unless they have information that is not reasonably compatible with such attestation.

Section B1. Use of Electronic Data Sources

11. Commercial database: (Please describe any commercial databases in the space below)												

Electronic Data Source	Determined Useful (Y/N)	Accuracy Considered (Y/N)	Timeliness Considered (Y/N)	Ability to Access Considered (Y/N)	Age of Data Considered (Y/N)	Comprehensive Considered (Y/N)	Other Criteria Used (Y/N) (Please Describe in Comments section)	Data Source Used at Application (Y/N)	Data Source Used at Renewal (Y/N)	Data Source Used Post-Enrollment (Y/N)	If Data Source Used for Post-Enrollment - Frequency Used (e.g. monthly, quarterly)	Comments
Work Number	YES	YES	YES	YES	YES	YES	NO	NO	NO	YES	Other (specify in comments)	The Work Number is a user-paid, verification of employment, data base. The Work number allows requestors to receive immediate confirmation of an individual's employment and salary for verification purposes. The information on the Work Number is updated whenever an employer updates their payroll information. FDSH TALX/Work Number is considered as a future option for incorporation into the Exchange intake process but it has not yet been prioritized on a systems schedule. Connecticut plans to continue using their existing implementation for periodic post-enrollment data matching. During the replacement of EMS, Connecticut plans to examine each electronic interface and data match in light of the capabilities of the FDSH but also considering the multi-program needs of the Department of Social Services i.e., solutions not limited to MAGI Medicaid.
12. Other: (Please describe any additional electronic data sources in the space below)												
State Department of Labor (DOL) New Hires Match	YES	YES	YES	YES	YES	YES	NO	NO	NO	YES	Other (specify in comments)	The New Hires Match is a biweekly report that matches applicants and recipients against DOL newly hired employment data.

1 The state marked any criterion YES if they were considered in determining the usefulness of the electronic data source: however, the determination of whether the data source was useful/not useful did not rest solely on these criteria.

12. PARIS*	YES	NO	NO	NO	NO	NO	NO	NO	NO	NO	NO	YES	NO	NO	YES	Quarterly	Connecticut receives a quarterly PARIS report indicating individuals that are receiving Medicaid benefits in other states. An evaluation is done and a determination is made to establish if an individual will maintain eligibility for Medicaid benefits in Connecticut. Can be used for residency verification if need be.
State Department of Corrections (DOC) Match	YES	NO	NO	NO	NO	NO	NO	YES	NO	NO	NO	YES	NO	NO	YES	Monthly	This is a electronic data match of convicted Connecticut residents that are in state correctional facilities. Connecticut's legacy eligibility system does not support Medicaid suspensions. As Connecticut must rely on our legacy system during the initial implementation of the Affordable Care Act, we must advise incarcerated individuals that they are not eligible for Medicaid. We understand that incarceration does not preclude medicaid eligibility for an individual--it only prohibits federal reimbursement for most services. Although our legacy eligibility system does not support Medicaid suspension, Connecticut has administrative processes that support the prompt provision of Medicaid coverage for individuals leaving public institutions, as well as to grant Medicaid for in-patient admissions, and process to provide long-term care benefits to DOC individuals being placed in a dedicated long-term care facility . It is our intent to continue this process until we are able to refine our current process, and will access our ability to support Medicaid suspensions with the development of our new integrated eligibility system.

* Under 42 CFR 435.945(d), all State Medicaid eligibility systems must conduct a match with PARIS for Interstate benefit information. If used for other purposes, please indicate in Section D.

Section D. Additional Verification Questions

	Question	Response
1	If paper documentation is required when a data source is not available or the information obtained from a data source is not reasonably compatible with the information provided by or on behalf of the individual, briefly describe how the state determined that establishing and using an electronic data source was not effective, considering such factors as cost and program integrity in accordance with 42 CFR 435.952(c):	State plans to use multiple backup data sources before requesting documentation when information from data sources are inconsistent with the individual's attestation.
2	Please describe how the state uses PARIS?	Connecticut receives a quarterly PARIS report indicating individuals that are receiving Medicaid benefits in other states. An evaluation is done and a determination is made to establish if an individual will maintain eligibility for Medicaid benefits in Connecticut, as well as other State and federal benefit programs.
3	Please indicate (YES) or (NO) if the State intends to request Secretarial approval to solely use alternative data sources for financial verification other than those listed in 42 CFR 435.948 (Numbers 1-8 in Section B-1).	NO

	Question	Response
