

Adult Medicaid Quality Grant Grant Program Assessment

Overall Assessment Goals

- Help the Centers for Medicare & Medicaid Services (CMS) and other Medicaid stakeholders gain a deeper understanding of the feasibility of implementing the core measures
- Identify effective strategies grantees have implemented that have resulted in successful collection, reporting, analysis, and use of the measures
- Assess the strengths and weaknesses of the grant program
- Disseminate information about the grant program to CMS, state and federal Medicaid agencies, and other key stakeholders

Technical Approach to the Assessment

- Review and Assessment of the Grant Program
- Summarize the Grantee Projects
- Learning and Diffusion
