Notes: The term “states” includes the 50 states, the District of Columbia, Guam, Puerto Rico, and U.S. Virgin Islands.

This table includes measures that were reported by at least 25 states for the 2024 Child Core Set and that met CMS standards for data quality. The 2024 Core Set generally corresponds to services provided in calendar year 2023. This table includes data for states that indicated they used Child Core Set specifications to report the measures. It excludes states that indicated they used “other specifications,” did not report the measures for the 2024 Core Set, or if they reported a denominator of less than 30. Additionally, some states were excluded because data cannot be displayed per the CMS cell-size suppression policy, which prohibits the direct reporting of data for beneficiary and record counts of 1 to 10 and values from which users can derive values of 1 to 10. State means are calculated as the unweighted average of all state rates. When a state reported separate rates for its Medicaid and CHIP populations, the state mean and state median rates were calculated using the rate that is most representative of the state’s measure-eligible population, typically the combined Medicaid and CHIP rate. State- and measure-level performance data are available at <https://www.medicaid.gov/medicaid/quality-of-care/core-set-data-dashboard/main>.

^a Combination 3 includes four doses of diphtheria, tetanus, and acellular pertussis (DTaP) vaccines, three doses of polio vaccine (IPV), one dose of MMR vaccine, three doses of haemophilus influenza type B (HiB) vaccine, three doses of hepatitis B (Hep B) vaccine, one dose of varicella zoster virus (VZV) vaccine, and four doses of pneumococcal conjugate vaccine (PCV).

^b Combination 10 rate includes the vaccines included in the Combination 3 rate plus one hepatitis A (Hep A) vaccine, two or three rotavirus (RV) vaccines, and two influenza vaccines.

^c Combination 1 includes one dose of meningococcal vaccine and one tetanus, diphtheria toxoids and acellular pertussis (Tdap) vaccine.
