**Tribal consultation.**

For initial and renewal waiver requests, please describe the efforts the State has made to ensure Federally recognized tribes in the State are aware of and have had the opportunity to comment on this waiver proposal.

Although New Hampshire does not have any federally recognized tribes, New Hampshire implements Federal protections for American Indian/Alaskan Native (AI/AN) required for mandatory managed care, and by Section 5006 of the American Recovery and Reinvestment Act of 2009 (ARRA). New Hampshire assures premium and cost sharing protections are provided in accordance with 42 CFR 447.56 and 42 CFR 438.14 for managed care protections. An AI/AN individual will be able to access covered benefits through Indian Health Services, Tribal, or urban Indian organization (I/T/U) facilities. Indian Health Care Improvement Act (IHCA), I/T/U facilities are entitled to payment notwithstanding network restriction.

**Program History.**

For renewal waivers, please provide a brief history of the program(s) authorized under the waiver. Include implementation date and major milestones (phase-in timeframe; new populations added; major new features of existing program; new programs added).

On July 1, 2022, the Adult Dental benefit was signed into law. The legislation required the Department of Health and Human Services (DHHS) to implement a comprehensive adult dental benefit by April 1, 2023. The Department was charged with the task of planning for an adult dental benefit that includes diagnostic, preventive, limited periodontal, restorative, and oral surgery services for all Medicaid eligible adults age 21 and older.

Through a competitive procurement process, Northeast Delta Dental was selected for this contract and approved by Governor and Council on November 2, 2022.

The contract began on April 1, 2023, with eligible individuals enrolled in the plan and services underway, including two mobile clinics held on the first day in Colebrook and Concord.

A primary focus during the initial years of the Adult Dental benefit is developing an adequate provider network to support member access to preventative services and medically necessary procedures. As the program nears the end of its second year, the network includes 190 providers (20% increase since year one) at 132 locations (24% increase since year one). This includes 24 oral surgeons. 19,332 unique members have received services, and 63,417 claims have been paid.

On March 7, 2025, New Hampshire submitted a request for a Temporary Extension through June 30, 2025, in order to provide a more thorough independent assessment as the service utilization in the early months of the program was relatively lower due to the developing provider network.

## Section A: Program Description

### Part I: Program Overview

#### A. Statutory Authority (1 of 3)

**1. Waiver Authority.** The State's waiver program is authorized under section 1915(b) of the Act, which permits the Secretary to waive provisions of section 1902 for certain purposes. Specifically, the State is relying upon authority provided in the following subsection(s) of the section 1915(b) of the Act (if more than one program authorized by this waiver, please list applicable programs below each relevant authority):

- a. **1915(b)(1)** - The State requires enrollees to obtain medical care through a primary care case management (PCCM) system or specialty physician services arrangements. This includes mandatory capitated programs.  
-- *Specify Program Instance(s) applicable to this authority*

**Adult Dental**

- b. **1915(b)(2)** - A locality will act as a central broker (agent, facilitator, negotiator) in assisting eligible individuals in choosing among PCCMs or competing MCOs/PIHPs/PAHPs in order to provide enrollees with more information about the range of health care options open to them.  
-- *Specify Program Instance(s) applicable to this authority*

**Adult Dental**

- c. **1915(b)(3)** - The State will share cost savings resulting from the use of more cost-effective medical care with enrollees by providing them with additional services. The savings must be expended for the benefit of the Medicaid beneficiary enrolled in the waiver. Note: this can only be requested in conjunction with section 1915(b)(1) or (b)(4) authority.  
-- *Specify Program Instance(s) applicable to this authority*

**Adult Dental**

- d. **1915(b)(4)** - The State requires enrollees to obtain services only from specified providers who undertake to provide such services and meet reimbursement, quality, and utilization standards which are consistent with access, quality, and efficient and economic provision of covered care and services. The State assures it will comply with 42 CFR 431.55(f).  
-- *Specify Program Instance(s) applicable to this authority*

**Adult Dental**

The 1915(b)(4) waiver applies to the following programs

**MCO**

**Additional Information.** Please enter any additional information not included in previous pages:

On July 1, 2022 New Hampshire's Governor, Christopher T. Sununu, signed legislation (Chapters 285 and 319, Laws of 2022) requiring New Hampshire to implement a comprehensive adult dental benefit by April 1, 2023.

Through this legislation, New Hampshire was charged with the task of planning for an adult dental benefit that includes diagnostic, preventive, limited periodontal, restorative, and oral surgery services for all Medicaid eligible adults age 21 and older. The removable prosthodontics portion of the benefit is limited to those eligible adults who participate in the Developmental Disability, Acquired Brain Disorder, and Choices for Independence 1915(c) waivers, and nursing facility residents. On December 1, 2022 DHHS submitted an amendment to its 1115 demonstration waiver to cover removable prosthodontics for nursing facility residents, age 21 and older and on December 21, 2022 NH submitted amendments to three of our 1915(c) Home and Community Based Services waivers to cover removable prosthodontics for waiver participants aged 21 and older.

On November 3, 2022 DHHS posted the initial 1915(b) waiver application on the DHHS website at <https://www.dhhs.nh.gov/programs-services/medicaid/medicaid-dental-services-new-hampshire-smiles-program-adults>. On November 7, 2022 DHHS presented a draft of this 1915(b) to its Medical Care Advisory Committee. In addition, all documentation of all necessary and appropriate state plan amendments and waivers to implement the provision of the adult dental benefit for individuals age 21 and older was submitted to New Hampshire's Fiscal Committee for review at its November 18, 2022 meeting. DHHS accepted public comments through November 30, 2022. All public comments could be submitted by mail or email to: [AdultDental@dhhs.nh.gov](mailto:AdultDental@dhhs.nh.gov). No public comments were received.

**Section A: Program Description****Part I: Program Overview****B. Delivery Systems (1 of 3)**

**1. Delivery Systems.** The State will be using the following systems to deliver services:

- a. **MCO:** Risk-comprehensive contracts are fully-capitated and require that the contractor be an MCO or HIO. Comprehensive means that the contractor is at risk for inpatient hospital services and any other mandatory State plan service in section 1905(a), or any three or more mandatory services in that section. References in this preprint to MCOs generally apply to these risk-comprehensive entities.
- b. **PIHP:** Prepaid Inpatient Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments or other payment arrangements that do not use State Plan payment rates; (2) provides, arranges for, or otherwise has responsibility for the provision of any inpatient hospital or institutional services for its enrollees; and (3) does not have a comprehensive risk contract. Note: this includes MCOs paid on a non-risk basis.

**The PIHP is paid on a risk basis**

**The PIHP is paid on a non-risk basis**

- c. **PAHP:** Prepaid Ambulatory Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments, or other payment arrangements that do not use State Plan payment rates; (2) does not provide or arrange for, and is not otherwise responsible for the provision of any inpatient hospital or institutional services for its enrollees;

and (3) does not have a comprehensive risk contract. This includes capitated PCCMs.

**The PAHP is paid on a risk basis**

**The PAHP is paid on a non-risk basis**

- d. **PCCM:** A system under which a primary care case manager contracts with the State to furnish case management services. Reimbursement is on a fee-for-service basis. Note: a capitated PCCM is a PAHP.
- e. **Fee-for-service (FFS) selective contracting:** State contracts with specified providers who are willing to meet certain reimbursement, quality, and utilization standards.

**C. Choice of MCOs, PIHPs, PAHPs, and PCCMs (1 of 3)**

**1. Assurances.**

The State assures CMS that it complies with section 1932(a)(3) of the Act and 42 CFR 438.52, which require that a State that mandates Medicaid beneficiaries to enroll in an MCO, PIHP, PAHP, or PCCM must give those beneficiaries a choice of at least two entities.

The State seeks a waiver of section 1932(a)(3) of the Act, which requires States to offer a choice of more than one PIHP or PAHP per 42 CFR 438.52. Please describe how the State will ensure this lack of choice of PIHP or PAHP is not detrimental to beneficiaries ability to access services.

New Hampshire ensures that having one PAHP is not detrimental to beneficiaries' ability to access services because the plan specializes in dental services serving adults, age 21 and older, with both routine and complex dental needs. Primary dental providers (PDPs) and care managers assist in referring members for specialty care when deemed necessary either by the PDP or through the risk assessment process. General dentists and dental specialists are included in network adequacy requirements.

2. Details. The State will provide enrollees with the following choices (please replicate for each program in waiver):

Program: " Medicaid Care Management Dental Services. "

Two or more MCOs

Two or more primary care providers within one PCCM system.

A PCCM or one or more MCOs

Two or more PIHPs.

The State seeks an exception for rural area residents under section 1932(a)(3)(B) of the Act and 42 CFR 438.52(b), and assures CMS that it will meet the requirements in that regulation, including choice of physicians or case managers, and ability to go out of network in specified circumstances. #### F. Services (1 of 5)

List all services to be offered under the Waiver in Appendices D2.S. and D2.A of Section D, Cost-Effectiveness.

**1. Assurances.**

The State assures CMS that services under the Waiver Program will comply with the following federal requirements:

- Services will be available in the same amount, duration, and scope as they are under the State Plan per 42 CFR 438.210(a)(2).
- Access to emergency services will be assured per section 1932(b)(2) of the Act and 42 CFR 438.114.
- Access to family planning services will be assured per section 1905(a)(4) of the Act and 42 CFR 431.51(b)

The State seeks a waiver of section 1902(a)(4) of the Act, to waive one or more of more of the regulatory requirements listed above for PIHP or PAHP programs. Please identify each regulatory requirement for which a waiver is requested, the managed care program(s) to which the waiver will apply, and what the State proposes as an alternative requirement, if any. (See note below for limitations on requirements that may be waived).

The CMS Regional Office has reviewed and approved the MCO, PIHP, PAHP, or PCCM contracts for compliance with the provisions of 42 CFR 438.210(a)(2), 438.114, and 431.51 (Coverage of Services, Emergency Services, and Family Planning) as applicable. If this is an initial waiver, the State assures that contracts that comply with these provisions will be submitted to the CMS Regional Office for approval prior to enrollment of beneficiaries in the MCO, PIHP, PAHP, or PCCM.

This is a proposal for a 1915(b)(4) FFS Selective Contracting Program only and the managed care regulations do not apply. The State assures CMS that services will be available in the same amount, duration, and scope as they are under the State Plan.

The state assures CMS that it complies with Title I of the Medicare Modernization Act of 2003, in so far as these requirements are applicable to this waiver.

Note: Section 1915(b) of the Act authorizes the Secretary to waive most requirements of section 1902 of the Act for the purposes listed in sections 1915(b)(1)-(4) of the Act. However, within section 1915(b) there are prohibitions on waiving the following subsections of section 1902 of the Act for any type of waiver program:

- Section 1902(a)(4)(C) -- freedom of choice of family planning providers
- Sections 1915(b)(1) and (4) also stipulate that section 1915(b) waivers may not waive freedom of choice of emergency services providers.

- 2. Emergency Services.** In accordance with sections 1915(b) and 1932(b) of the Act, and 42 CFR 431.55 and 438.114, enrollees in an MCO, PIHP, PAHP, or PCCM must have access to emergency services without prior authorization, even if the emergency services provider does not have a contract with the entity.

The PAHP, PAHP, or FFS Selective Contracting program does not cover emergency services.

Emergency Services Category General Comments (optional):

The PAPH covers emergency services without prior authorization, even if the emergency services provider does not have a contract with the entity.

**4. FQHC Services.** In accordance with section 2088.6 of the State Medicaid Manual, access to Federally Qualified Health Center (FQHC) services will be assured in the following manner:

The program is **voluntary**, and the enrollee can disenroll at any time if he or she desires access to FQHC services. The MCO/PIHP/PAHP/PCCM is not required to provide FQHC services to the enrollee during the enrollment period.

The program is **mandatory** and the enrollee is guaranteed a choice of at least one MCO/PIHP/PAHP/PCCM which has at least one FQHC as a participating provider. If the enrollee elects not to select a MCO/PIHP/PAHP/PCCM that gives him or her access to FQHC services, no FQHC services will be required to be furnished to the enrollee while the enrollee is enrolled with the MCO/PIHP/PAHP/PCCM he or she selected. Since reasonable access to FQHC services will be available under the waiver program, FQHC services outside the program will not be available. Please explain how the State will guarantee all enrollees will have a choice of at least one MCO/PIHP/PAHP/PCCM with a participating FQHC:

New Hampshire has 2 FQHCs enrolled that have dental providers. The FQHCs are located in Littleton and Conway New Hampshire.

Please check each of the monitoring activities below used by the State. A number of common activities are listed below, but the State may identify any others it uses. If federal regulations require a given activity, this is indicated just after the name of the activity. If the State does not use a required activity, it must explain why.

For each activity, the state must provide the following information:

- Personnel responsible (e.g. state Medicaid, other state agency, delegated to plan, EQR, other contractor)
- Detailed description of activity
- Frequency of use
- How it yields information about the area(s) being monitored

a.

**Accreditation for Non-duplication** (i.e. if the contractor is accredited by an organization to meet certain access, structure/operation, and/or quality improvement standards, and the state determines that the organizations standards are at least as stringent as the state-specific standards required in 42 CFR 438 Subpart D, the state deems the contractor to be in compliance with the state-specific standards)

**Consumer Self-Report data**

**Activity Details:**

New Hampshire collects consumer self-reported data from multiple sources. The PAHP is required to hire a licensed vendor to annually conduct the CAHPS. The state aggregates CAHPS data to monitor annual trends as well as comparing results with regional and national averages. The state reviews all CAHPS data at the dental plan level to identify outliers and potential performance issues that require follow-up with the plan.

**CAHPS**

Enrollment/Disenrollment: The State Medicaid agency monitors timely enrollment/disenrollment, as defined in the PAHP contract.

Program Integrity: The State Medicaid Agency monitors Dental Fraud, Waste, and Abuse through a number of semi-annual and annual reports.

## Section C: Monitoring Results

### Renewal Waiver Request

---

Section 1915(b) of the Act and 42 CFR 431.55 require that the State must document and maintain data regarding the effect of the waiver on the accessibility and quality of services as well as the anticipated impact of the project on the States Medicaid program. In Section B of this waiver preprint, the State describes how it will assure these requirements are met. For an initial waiver request, the State provides assurance in this Section C that it will report on the results of its monitoring plan when it submits its waiver renewal request. For a renewal request, the State provides evidence that waiver requirements were met for the most recent waiver period. Please use Section D to provide evidence of cost-effectiveness.

CMS uses a multi-pronged effort to monitor waiver programs, including rate and contract review, site visits, reviews of External Quality Review reports on MCOs/PIHPs, and reviews of Independent Assessments. CMS will use the results of these activities and reports along with this Section to evaluate whether the Program Impact, Access, and Quality requirements of the waiver were met.

**This is a renewal request.**

**This is the first time the State is using this waiver format to renew an existing waiver.**The State provides below the results of the monitoring activities conducted during the previous waiver period.

**The State has used this format previously**The State provides below the results of the monitoring activities conducted during the previous waiver period.

For each of the monitoring activities checked in Section B of the previous waiver request, the State should:

- **Confirm** it was conducted as described in Section B of the previous waiver preprint. If it was not done as described, please explain why.
- **Summarize the results** or findings of each activity. CMS may request detailed results as appropriate.
- **Identify problems** found, if any.
- **Describe plan/provider-level corrective action**, if any, that was taken. The State need not identify the provider/plan by name, but must provide the rest of the required information.
- **Describe system-level program changes**, if any, made as a result of monitoring findings.

**The Monitoring Activities were conducted as described:**

Yes    No

If No, please explain:

**Provide the results of the monitoring activities:**

Accreditation: URAC accreditation continues to be required for the dental health plan participation.

Consumer Self-Report: The dental CAHPS survey was completed by 550 members of the adult dental program in 2024. Of those 550 members, 80% reported satisfaction with their regular dentist, 77% reported satisfaction with all dental care, and 64% were satisfied with their dental plan.

Data Analysis (non-claim), Grievances and appeals data: During the reporting period of 4/1/2023 - 6/30/2024, the plan resolved 95 appeals and 39 grievances related to dental services.

Enrollee Hotline: The PAHP supplies customer service center guidance and training materials to the Department for review and input. The Department has found insufficiencies with how the customer service center informs members of their eligibility for denture services and this was corrected through updating materials and retraining.

Network Adequacy: As of 3/21/2025, the DO has a total of 10 “Partially Met” and 2 “Not Met” items that remain outstanding from the EQRO 2024 DO Contract Compliance Audit. The DO CAPs will remain open until all items have reached a “Met” status.

Performance Measures: In the initial reporting periods, we experienced delays from the Dental Organization in preparing all required reports timely and in the correct format. Those process issues have now been resolved after working with the Dental Organization in a new tracking activity.

Other:  
 Program Integrity: The required annual and monthly reports are collected from the PAHP. This includes summaries of FWA investigations and provider recovery letters. To date, the PAHP has identified waste and abuse cases and conducted four education initiatives as well as overpayment recoveries. Initially the PAHP did not meet the reporting specifications, partially due to differences between managed care organization and dental organization operational norms. Reporting challenges have been managed with changes from the PAHP’s data collection and State tailoring of specifications to meet unique needs of the Dental program.

Enrollment/Disenrollment: The State monitors enrollment through the 834 interface processes. There have not been identified issues with members included on the 834 file not being timely enrolled into the PAHP.

Marketing Materials: The PAHP supplies all marketing materials to the Department for review and approval. The Department review has identified corrections to make language consistent with other Medicaid programs and linking to appropriate State materials or websites. There have been no issues with the PAHP not producing necessary materials or failing to seek Department review.

- The fiscal staff in the Medicaid agency has reviewed these calculations for accuracy and attests to their correctness.
- The State assures CMS that the actual waiver costs will be less than or equal to or the States waiver cost projection.
- Capitated rates will be set following the requirements of 42 CFR 438.6(c) and will be submitted to the CMS Regional Office for approval.
- Capitated 1915(b)(3) services will be set in an actuarially sound manner based only on approved 1915(b)(3) services and their administration subject to CMS RO prior approval.
- The State will monitor, on a regular basis, the cost-effectiveness of the waiver (for example, the State may compare the PMPM Actual Waiver Cost from the CMS 64 to the approved Waiver Cost Projections). If changes are needed, the State will submit a prospective amendment modifying the Waiver Cost Projections.
- The State will submit quarterly actual member month enrollment statistics by MEG in conjunction with the States submitted CMS-64 forms.

**B. Expedited or Comprehensive Test**

To provide information on the waiver program to determine whether the waiver will be subject to the Expedited or Comprehensive cost effectiveness test. *Note: All waivers, even those eligible for the Expedited test, are subject to further review at the discretion of CMS and OMB.*

- b. The State provides additional services under 1915(b)(3) authority.
- c. The State makes enhanced payments to contractors or providers.
- d. The State uses a sole-source procurement process to procure State Plan services under this waiver.
- e. The State uses a sole-source procurement process to procure State Plan services under this waiver. *Note: do not mark this box if this is a waiver for transportation services and dental pre-paid ambulatory health plans (PAHPs) that has overlapping populations with another waiver meeting one of these three criteria. For transportation and dental waivers alone, States do not need to consider an overlapping population with another waiver containing additional services, enhanced payments, or sole source procurement as a trigger for the comprehensive waiver test. However, if the transportation services or dental PAHP waiver meets the criteria in a, b, or c for additional services, enhanced payments, or sole source procurement then the State should mark the appropriate box and process the waiver using the Comprehensive Test.*

If you marked any of the above, you must complete the entire preprint and your renewal waiver is subject to the Comprehensive Test. If you did not mark any of the above, your renewal waiver (not conversion or initial waiver) is subject to the Expedited Test:

- Do not complete **Appendix D3**
- Your waiver will not be reviewed by OMB *at the discretion of CMS and OMB.*

The following questions are to be completed in conjunction with the Worksheet Appendices. All narrative explanations should be included in the preprint. Where further clarification was needed, we have included additional information in the preprint.

**D. PCCM portion of the waiver only: Reimbursement of PCCM Providers**

**Under this waiver, providers are reimbursed on a fee-for-service basis. PCCMs are reimbursed for patient management in the following manner (please check and describe):**

a. **Management fees are expected to be paid under this waiver.**

The management fees were calculated as follows.

- 1. Year 1: \$  per member per month fee.
- 2. Year 2: \$  per member per month fee.
- 3. Year 3: \$  per member per month fee.
- 4. Year 4: \$  per member per month fee.

b. **Enhanced fee for primary care services.**

Please explain which services will be affected by enhanced fees and how the amount of the enhancement was determined.

c. **Bonus payments from savings generated under the program are paid to case managers who control beneficiary utilization.** Under **D.I.H.d.**, please describe the criteria the State will use for awarding the incentive payments, the method for calculating incentives/bonuses, and the monitoring the State will have in place to ensure that total payments to the providers do not exceed the Waiver Cost Projections (Appendix D5). Bonus payments and incentives for reducing utilization are limited to savings of State Plan service costs under the waiver. Please also describe how the State will ensure that utilization is not adversely affected due to incentives inherent in the bonus payments. The costs associated with any bonus arrangements must be accounted for in Appendix D3. Actual Waiver Cost.

d. **Other reimbursement method/amount.**

\$

Please explain the State's rationale for determining this method or amount.

**E. Member Months**

Please mark all that apply.

- a. [Required] Population in the base year and R1 and R2 data is the population under the waiver.
- b. For a renewal waiver, because of the timing of the waiver renewal submittal, the State did not have a complete R2 to submit. Please ensure that the formulas correctly calculated the annualized trend rates. *Note: it is no longer acceptable to estimate enrollment or cost data for R2 of the previous waiver period.*
- c. [Required] Explain the reason for any increase or decrease in member months projections from the base year or over time:

The cost effectiveness projections include an enrollment decrease beginning June 2023 for a period of nine months following the expected end of the PHE and beginning of the enrollment unwind process. The monthly member month projections for January 2025 through June 2027 are consistent with December 2024 experience.

d. [Required] Explain any other variance in eligible member months from BY/R1 to P2:

The only variance in member months from R1 to P2 is described above.

e. [Required] Specify whether the BY/R1/R2 is a State fiscal year (SFY), Federal fiscal year (FFY), or other period:

R1 is April 2023 to March 2024 and R2 is April 2024 to March 2025 (SFY 2025).

**Section D: Cost-Effectiveness**

**F. Appendix D2.S - Services in Actual Waiver Cost**

**For Conversion or Renewal Waivers:**

- a. **[Required] Explain if different services are included in the Actual Waiver Cost from the previous period in Appendix D3 than for the upcoming waiver period in Appendix D5.**

Explain the differences here and how the adjustments were made on Appendix D5:

The same services are included in Appendix B3 and Appendix B5.

- b. **[Required] Explain the exclusion of any services from the cost-effectiveness analysis.**

For States with multiple waivers serving a single beneficiary, please document how all costs for waiver covered individuals taken into account.

The cost effectiveness analysis only includes adult dental state plan services for the listed MEGs, and all state plan services are capitated by DHHS. We excluded all adult dental services covered by a separate 1915(c) waiver or 1115 waiver (i.e., dentures) for individuals that are eligible for those services. New Hampshire currently has several 1915(c) waivers covering home and community based services as follows:

Choices For Independence (CFI)  
 Developmentally Disabled (DD)  
 Acquired Brain Disorder (ABD)  
 In-Home Supports Services (IHS)

All adult dental state plan services are included in the cost effectiveness calculations.

**G. Appendix D2.A - Administration in Actual Waiver Cost**

**[Required] The State allocated administrative costs between the Fee-for-service and managed care program depending upon the program structure.** *Note: initial programs will enter only FFS costs in the BY. Renewal and Conversion waivers will enter all waiver and FFS administrative costs in the R1 and R2 or BY.*

**The allocation method for either initial or renewal waivers is explained below:**

- a. **The State allocates the administrative costs to the managed care program based upon the number of waiver enrollees as a percentage of total Medicaid enrollees***Note: this is appropriate for MCO/PCCM programs.*
- b. **The State allocates administrative costs based upon the program cost as a percentage of the total Medicaid budget. It would not be appropriate to allocate the administrative cost of a mental health program based upon the percentage of enrollees enrolled.***Note: this is appropriate for statewide PIHP/PAHP programs.*
- c. **Other**

Please explain:

**H. Appendix D3 - Actual Waiver Cost**

- a. The State is requesting a 1915(b)(3) waiver in **Section A.I.A.1.c** and will be providing non-state plan medical services. The State will be spending a portion of its waiver savings for additional services under the waiver.
- b. **The State is including voluntary populations in the waiver.**  
Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- c. **Capitated portion of the waiver only -- Reinsurance or Stop/Loss Coverage:** Please note how the State will be providing or requiring reinsurance or stop/loss coverage as required under the regulation. States may require MCOs/PIHPs/PAHPs to purchase reinsurance. Similarly, States may provide stop-loss coverage to MCOs/PIHPs/PAHPs when MCOs/PIHPs/PAHPs exceed certain payment thresholds for individual enrollees. Stop loss provisions usually set limits on maximum days of coverage or number of services for which the MCO/PIHP/PAHP will be responsible. If the State plans to provide stop/loss coverage, a description is required. The State must document the probability of incurring costs in excess of the stop/loss level and the frequency of such occurrence based on FFS experience. The expenses per capita (also known as the stoploss premium amount) should be deducted from the capitation year projected costs. In the initial application, the effect should be neutral. In the renewal report, the actual reinsurance cost and claims cost should be reported in Actual Waiver Cost.

**Basis and Method:**

- 1. **The State does not provide stop/loss protection for MCOs/PIHPs/PAHPs, but requires MCOs/PIHPs/PAHPs to purchase reinsurance coverage privately. No adjustment was necessary.**
- 2. **The State provides stop/loss protection**  
Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- d. **Incentive/bonus/enhanced Payments for both Capitated and fee-for-service Programs:**
  - 1. **[For the capitated portion of the waiver] the total payments under a capitated contract include any incentives the State provides in addition to capitated payments under the waiver program.** The costs associated with any bonus arrangements must be accounted for in the capitated costs (Column D of Appendix D3 Actual Waiver Cost). Regular State Plan service capitated adjustments would apply.

**Document**

- i. **Document the criteria for awarding the incentive payments.**
- ii. **Document the method for calculating incentives/bonuses, and**
- iii. **Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs do not exceed the Waiver Cost Projection.**

- 2. **For the fee-for-service portion of the waiver, all fee-for-service must be accounted for in the fee-for-service incentive costs (Column G of Appendix D3 Actual Waiver Cost).** For PCCM providers, the amount listed should match information provided in D.I.D Reimbursement of Providers. Any adjustments applied would need to meet the special criteria for fee-for-service incentives if the State elects to provide incentive payments in addition to management fees under the waiver program (See D.I.I.e and D.I.J.e)

**Document:**

- i. Document the criteria for awarding the incentive payments.**
- ii. Document the method for calculating incentives/bonuses, and**
- iii. Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs/PCCMs do not exceed the Waiver Cost Projection.**

**J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (1 of 5)**

**a. State Plan Services Trend Adjustment** the State must trend the data forward to reflect cost and utilization increases. The R1 and R2 (BY for conversion) data already include the actual Medicaid cost changes for the population enrolled in the program. This adjustment reflects the expected cost and utilization increases in the managed care program from R2 (BY for conversion) to the end of the waiver (P2). Trend adjustments may be service-specific and expressed as percentage factors. Some states calculate utilization and cost separately, while other states calculate a single trend rate. The State must document the method used and how utilization and cost increases are not duplicative if they are calculated separately. . **This adjustment must be mutually exclusive of programmatic/policy/pricing changes and CANNOT be taken twice. The State must document how it ensures there is no duplication with programmatic/policy/pricing changes.**

- 1. [Required, if the States BY or R2 is more than 3 months prior to the beginning of P1] The State is using actual State cost increases to trend past data to the current time period (i.e., trending from 1999 to present).

The actual trend rate used is:

Please document how that trend was calculated:

- 2. [Required, to trend BY/R2 to P1 and P2 in the future] When cost increases are unknown and in the future, the State is using a predictive trend of either State historical cost increases or national or regional factors that are predictive of future costs (same requirement as capitated ratesetting regulations) (i.e., trending from present into the future).

- i. **State historical cost increases.**

Please indicate the years on which the rates are based: base years. In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the States cost increase calculation

includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

**ii. National or regional factors that are predictive of this waivers future costs.**

Please indicate the services and indicators used. In addition, please indicate how this factor was determined to be predictive of this waivers future costs. Finally, please note and explain if the States cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

Trend is based on nationwide changes in dental costs and does not include any other factors.

We used a 5.0% PMPM trends for P1 to P2 since the dental capitation rates have not yet been calculated for July 2026 to June 2027.

**3. The State estimated the PMPM cost changes in units of service, technology and/or practice patterns that would occur in the waiver separate from cost increase.**

Utilization adjustments made were service-specific and expressed as percentage factors. The State has documented how utilization and cost increases were not duplicated. This adjustment reflects the changes in utilization between R2 and P1 and between years P1 and P2.

- i. Please indicate the years on which the utilization rate was based (if calculated separately only).**
- ii. Please document how the utilization did not duplicate separate cost increase trends.**

**Part I: State Completion Section**

**J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (2 of 5)**

**b. State Plan Services Programmatic/Policy/Pricing Change Adjustment:** This adjustment should account for any programmatic changes that are not cost neutral and that affect the Waiver Cost Projection. For example, changes in rates, changes brought about by legal action, or changes brought about by legislation. For example, Federal mandates, changes in hospital payment from per diem rates to Diagnostic Related Group (DRG) rates or changes in the benefit coverage of the FFS program. **This adjustment must be mutually exclusive of trend and CANNOT be taken twice. The State must document how it ensures there is no duplication with trend.** If the State is changing one of the aspects noted above in the FFS State Plan then the State needs to estimate the impact of that adjustment. *Note: FFP on rates cannot be claimed until CMS approves the SPA per the 1/2/01 SMD letter. Prior approval of capitation rates is contingent upon approval of the SPA.* The R2 data was adjusted for changes that will occur after the R2 (BY for conversion) and during P1 and P2 that affect the overall Medicaid program.

Others:

- Additional State Plan Services (+)
- Reductions in State Plan Services (-)
- Legislative or Court Mandated Changes to the Program Structure or fee
- Graduate Medical Education (GME) Changes - This adjustment accounts for **changes** in any GME payments in the program. 42 CFR 438.6(c)(5) specifies that States can include or exclude GME payments from the capitation rates. However, GME payments must be included in cost-effectiveness calculations.
- Copayment Changes - This adjustment accounts for changes from R2 to P1 in any copayments that are

collected under the FFS program, but not collected in the MCO/PIHP/PAHP capitated program. States must ensure that these copayments are included in the Waiver Cost Projection if not to be collected in the capitated program. If the State is changing the copayments in the FFS program then the State needs to estimate the impact of that adjustment.

- 1. The State has chosen not to make an adjustment because there were no programmatic or policy changes in the FFS program after the MMIS claims tape was created. In addition, the State anticipates no programmatic or policy changes during the waiver period.
- 2. An adjustment was necessary. The adjustment(s) is(are) listed and described below:

**c. Administrative Cost Adjustment:** This adjustment accounts for changes in the managed care program. The administrative expense factor in the renewal is based on the administrative costs for the eligible population participating in the waiver for managed care. Examples of these costs include per claim claims processing costs, additional per record PRO review costs, and additional Surveillance and Utilization Review System (SURS) costs; as well as actuarial contracts, consulting, encounter data processing, independent assessments, EQRO reviews, etc. *Note: one-time administration costs should not be built into the cost-effectiveness test on a long-term basis. States should use all relevant Medicaid administration claiming rules for administration costs they attribute to the managed care program.* If the State is changing the administration in the fee-for-service program then the State needs to estimate the impact of that adjustment.

- 1. No adjustment was necessary and no change is anticipated.
- 2. An administrative adjustment was made.
  - i. Administrative functions will change in the period between the beginning of P1 and the end of P2.

Please describe:

DHHS' administrative expenses are trended to P1 and P2 at the same annual trend rate as the state plan service costs.

- iii. [Required, when State Plan services were purchased through a sole source procurement with a governmental entity. No other State administrative adjustment is allowed.] If cost increase trends are unknown and in the future, the State must use the lower of: Actual State administration costs trended forward at the State historical administration trend rate or Actual State administration costs trended forward at the State Plan services trend rate.  
Please document both trend rates and indicate which trend rate was used.

- A. Actual State Administration costs trended forward at the State historical administration trend rate.

Please indicate the years on which the rates are based: base years

In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the States cost increase calculation includes more factors than a price increase.

**d. 1915(b)(3) Adjustment:** The State must document the amount of State Plan Savings that will be used to provide additional 1915(b)(3) services in *Section D.I.H.a* above. The Base Year already includes the actual trend for the State Plan services in the program. This adjustment reflects the expected trend in the 1915(b)(3) services between the Base Year and P1 of the waiver and the trend between the beginning of the program (P1) and the end of the program (P2). Trend adjustments may be service-specific and expressed as percentage factors.

- 1. [Required, if the States BY is more than 3 months prior to the beginning of P1 to trend BY to P1] The State is using the actual State historical trend to project past data to the current time period (i.e., trending from 1999 to present).

The actual documented trend is:

Please provide documentation.

- 2. [Required, when the States BY is trended to P2. No other 1915(b)(3) adjustment is allowed] If trends are unknown and in the future (i.e., trending from present into the future), the State must use the lower of State historical 1915(b)(3) trend or States trend for State Plan Services. Please document both trend rates and indicate which trend rate was used.

**i. A. State historical 1915(b)(3) trend rates**

- 1. Please indicate the years on which the rates are based: base years

- 2. Please provide documentation.

**B. State Plan Service trend**

Please indicate the State Plan Service trend rate from Section D.I.J.a. above

**e. Incentives (not in capitated payment) Trend Adjustment:** If the State marked **Section D.I.H.d** , then this adjustment reports trend for that factor. Trend is limited to the rate for State Plan services.

1. List the State Plan trend rate by MEG from Section D.I.I.a

2. List the Incentive trend rate by MEG if different from Section D.I.I.a

3. Explain any differences:

## Section D: Cost-Effectiveness

### Part I: State Completion Section

#### J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (5 of 5)

**p. Other adjustments** including but not limited to federal government changes.

- If the federal government changes policy affecting Medicaid reimbursement, the State must adjust P1 and P2 to reflect all changes.
- Once the States FFS institutional excess UPL is phased out, CMS will no longer match excess institutional UPL payments.
- Excess payments addressed through transition periods should not be included in the 1915(b) cost effectiveness process. Any State with excess payments should exclude the excess amount and only include the supplemental amount under 100% of the institutional UPL in the cost effectiveness process.
- For all other payments made under the UPL, including supplemental payments, the costs should be included in the cost effectiveness calculations. This would apply to PCCM enrollees and to PAHP, PIHP or MCO enrollees if the institutional services were provided as FFS wrap around. The recipient of the supplemental payment does not matter for the purposes of this analysis.
- **Pharmacy Rebate Factor Adjustment (Conversion Waivers Only) \***: Rebates that States receive from drug manufacturers should be deducted from Base Year costs if pharmacy services are included in the capitated base. If the base year costs are not reduced by the rebate factor, an inflated BY would result. Pharmacy rebates should also be deducted from FFS costs if pharmacy services are impacted by the waiver but not capitated.

*Basis and Method:*

1. Determine the percentage of Medicaid pharmacy costs that the rebates represent and adjust the base year costs by this percentage. States may want to make separate adjustments for prescription versus over the counter drugs and for different rebate percentages by population. States may assume that the rebates for the targeted population occur in the same proportion as the rebates for the total Medicaid population **which includes accounting for Part D dual eligibles**. Please account for this adjustment in **Appendix D5**.
2. The State has not made this adjustment because pharmacy is not an included capitation service and the capitated contractors providers do not prescribe drugs that are paid for by the State in FFS or **Part D for the dual eligibles**.

- 1. Please explain caseload changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in Section D.I.E.c & d:

The cost effectiveness projections include an enrollment decrease beginning June 2023 for a period of 9 months following the expected end of the PHE and beginning of the enrollment unwind process. The monthly member month projections for January 2025 through June 2027 are consistent with December 2024 experience.

The only variance in member months from R1 to P2 is described above.

2. Please explain unit cost changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in the States explanation of cost increase given in Section D.I.I and D.I.J:

We used a 5.0% PMPM trends for P1 to P2 since the dental capitation rates have not yet been calculated for July 2026 to June 2027.

3. Please explain utilization changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in the States explanation of utilization given in Section D.I.I and D.I.J:
