**Re: Acceptance of Award and Special Terms and Conditions – Covered Connecticut  
Demonstration Project Number Project Number 11-W-00402/1**

Dear Ms. O'Malley,

After reviewing the approval package sent by CMS on December 15, 2022, the State of Connecticut Department of Social Services (DSS), Connecticut's single State Medicaid and agency, acknowledges and accepts CMS award and special terms and conditions (STCs) for the above-referenced demonstration waiver pursuant to section 1115 of the Social Security Act, Project Number 11-W-00402/1.

DSS appreciates CMS's partnership in the review of this demonstration, which will expand access to health care coverage for eligible individuals by providing premium and cost-sharing assistance to leverage federal premium subsidies and cost-sharing reductions on qualified health plans offered through Access Health Connecticut, the state's health insurance exchange and by providing dental and non-emergency medical transportation benefits. We look forward to continue working together with CMS in implementing this demonstration.

If you have any questions, please contact me at [William.Woolston@ct.gov](mailto:William.Woolston@ct.gov). Thank you.

Sincerely,

William Gui Woolston, Ph.D.  
Director of Medicaid and Division of Health Services
