

**Overview:** The Monitoring Report for the section 1115 demonstrations consists of a Monitoring Report Workbook (Part A), Monitoring Report Template (Part B), and a Budget Neutrality Workbook (Part C). This Part B Template is specifically customized for the state of Georgia for its Georgia Pathways to Coverage demonstration and aligns with applicable requirements in the demonstration’s special terms and conditions (STCs). For more information and any questions, the state should contact the CMS section 1115 demonstration team.<sup>1</sup>

---

<sup>1</sup> This version of Georgia’s Monitoring Report Template (Part B) consists of the qualifying hours and activities requirement, non-applicability of retroactive eligibility policy, and the Health Insurance Premium Payment program for employer sponsored insurance in the Pathways demonstration. As the state implements the remaining policies in its demonstration, CMS and the state will coordinate to update this Monitoring Report template to include those additional policies.

## **1. Title page for the state’s demonstration**

*The state should complete this title page as part of its Quarterly Monitoring Report.*

*This section collects information on the approval features of the state’s section 1115 demonstration overall, followed by information for each demonstration policy. The state completed this title page as part of its Georgia Pathways to Coverage Monitoring Protocol. The state should complete this table using the corresponding information from its CMS-approved Monitoring Protocol and submit this as the title page of all Monitoring Reports. The content of this table should stay consistent over time. Definitions for certain rows are below the table.*

Overall section 1115 demonstration	
State	Georgia
Demonstration name	Georgia Pathways to Coverage
Approval period for section 1115 demonstration	10/15/2020 – 09/30/2025
Demonstration year and quarter	DY5Q1
Reporting period	10/01/2024 – 12/31/2024
Budget neutrality	<input checked="" type="checkbox"/> The state attests that it is submitting a budget neutrality report for this reporting period.
Qualifying hours and activities requirement	
Qualifying hours and activities requirement effective date <sup>a</sup>	10/15/2020
Implementation date, if different from qualifying hours and activities effective date <sup>b</sup>	07/01/2023
Health Insurance Premium Payment program	
Health Insurance Premium Payment program effective date <sup>a</sup>	10/15/2020
Implementation date, if different from Health Insurance Payment premium Program date <sup>b</sup>	01/06/2024
Non-applicability of retroactive eligibility	
Non-applicability of retroactive eligibility effective date <sup>a</sup>	10/15/2020
Implementation date, if different from non-applicability of retroactive eligibility effective date <sup>b</sup>	N/A

<sup>a</sup> **Demonstration effective dates:** For monitoring purposes, CMS defines the effective date of the demonstration as the effective date listed in the state's STCs at time of the demonstration approval including qualifying hours and activities requirement, the Health Insurance Premium Payment program, and non-applicability of retroactive eligibility policy. For example, if the state's STCs at the time of the demonstration approval note that the demonstration is effective January 1, 2024 – December 31, 2028, the state should consider January 1, 2024 to be the effective date of the demonstration. Note that the effective date is considered to be the first day the state may begin its demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in

certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2023, with an effective date of January 1, 2024 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

<sup>b</sup> **Implementation date of policy:** The date of implementation for the demonstration policy in the state's demonstration.

## 2. Executive summary

*The executive summary should be brief with a recommended word limit of 500 words. However, if the state believes additional information is important, the state can choose to provide additional detail beyond the recommended word limit.*

*The following executive summary covers DY4Q4.*

The Georgia Pathways to Coverage program successfully launched on July 1, 2023. The State started receiving applications during the month of July 2023, and the earliest enrollments into the Pathways program were effective August 1, 2023. Members enrolled into one of the State's three contracted Care Management Organizations (CMOs). On January 6, 2024, the Mandatory Health Insurance Premium Payment (HIPP) Program launched. Members began being referred to the Third-Party Liability (TPL) vendor for a cost-effectiveness determination in mid-January 2024.

In November 2023, the State added an additional screen in the application screen flow in Customer Portal. This screen provides information on the Pathways program and asks the applicant if, after reading about the program, they are still interested in the program. If the applicant selects 'no,' they are not presented with additional Pathways screens.

Since the launch of Pathways, the State has regularly distributed informational materials on the program through organic social media channels and in the form of toolkits sent directly to program stakeholders. The State scaled marketing and outreach efforts in August 2024 to increase awareness of the program and encourage potentially eligible individuals to apply. Marketing advertisements ran on traditional (e.g., Broadcast TV/Radio, print, transit ads), digital (e.g., streaming TV/radio), and social media (e.g., Meta) channels. Outreach efforts leveraged existing relationships that organizations have with potential Pathways members to share information, encourage applications, and establish a Pathways presence at existing community events. As of December 2024, 88,243 applicants submitted a complete Pathways application. Of those, 67,023 received an eligibility determination. Of those receiving an eligibility determination, 16% were approved for Pathways; 26% were approved for Traditional Medicaid; and 58% were determined ineligible for Traditional Medicaid and Pathways. The top three qualifying activities submitted at application are employment, higher education, and self-employment. Applicants were determined ineligible for Pathways and Medicaid primarily due to reasons related to being over income (and potentially eligible for Marketplace coverage), no responses or incomplete responses to requests for verification of information needed to make an eligibility determination, and failure to meet qualifying hours and activities.

**Instructions:** The state should complete tables 3 and 4 to provide narrative information on metrics trends, implementation updates, and other demonstration reporting topics. For metrics trends, the state should mention in the “State Response” column any notable changes in metrics reported between the previous measurement period to the current measurement period. For implementation updates, the state should make note of any changes or expected changes in relation to the demonstration’s special terms and conditions (STCs) or approved implementation plan in the “State Response” column.

### 3. Narrative information on implementation by demonstration policy

Enrollment in the demonstration increased each month throughout the quarter.</li> <li>b. Mid-year loss of demonstration eligibility generally stayed in the same range throughout the year but grew throughout the year.</li> <li>c. The State has not completed any annual renewals on existing Pathways members.</li> <li>d. For bullets d-f, the State is not currently reporting on metrics related to these elements. Data trends are therefore unavailable at this time.</li> </ul>
<b>1.2 Implementation update</b>			
<p>Highlight significant demonstration operations or policy considerations that could positively or negatively impact beneficiary enrollment, compliance with requirements, access to services, timely provision of services, or any other provision that has potential for beneficiary impacts. Also note any activity that may accelerate or create delays or impediments in achieving the demonstration's approved goals or objectives, if not already reported elsewhere in this document. See Monitoring Report Instructions for more detail.</p>			<p>The State has not suspended or terminated members for failing to meet qualifying hours and activities on a monthly basis. The State is continuing the pause of suspensions and terminations for failure to meet qualifying activities on a monthly basis beyond January 2025. Metrics will be provided when suspensions and terminations reactivate.</p> <p>In this quarter, the State decided to begin renewals for Pathways members starting January 2025.</p>
<b>2. Demonstration evaluation update</b>			
<b>2.1 Narrative information</b>			
<p>Provide updates on evaluation work and timeline. The appropriate content will depend on when this report is due to</p>			<p>There is one outstanding deliverable in the current evaluation work timeline. The Interim Evaluation report was submitted in</p>

Prompt	State Has No Trends/Update to Report (place an X)	Related Metric(s) (if any)	State Response
CMS and the timing for the demonstration. There are specific requirements per 42 Code of Federal Regulations (CFR) § 431.428a(10) for annual [monitoring] reports. See Monitoring Report Instructions for more details.			December 2024. The last deliverable is the Summative Evaluation report, which has not yet started.
Provide status updates on deliverables related to the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs.			There is one outstanding deliverable in the current evaluation work timeline. The Interim Evaluation report was submitted in December 2024. The last deliverable is the Summative Evaluation report, which has not yet started.
List anticipated evaluation-related deliverables related to this demonstration and their due dates.			The Summative Evaluation Report is due 3/30/2027.
<b>3. Other demonstration reporting</b>			
<b>3.1 General reporting requirements</b>			
Describe whether the state foresees the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes.			The State is currently considering policy changes for inclusion in its waiver extension application, which will be submitted by March 2025. It is possible that any policy changes will require changes to the STCs, the implementation plan, and / or the monitoring protocol.
Compared to the details outlined in the STCs and the monitoring protocol, describe whether the state has formally requested any changes or whether the state expects to formally request any changes to: <ul style="list-style-type: none"> <li>a. The schedule for completing and submitting monitoring reports.</li> <li>b. The content or completeness of submitted monitoring reports and or future monitoring reports.</li> </ul>			The State will formally ask for a reconsideration of submitting monthly reports. The STCs only address quarterly monitoring reports and one Annual Monitoring Report each demonstration year. The State would like to report on a cadence consistent with what was agreed to in the STCs and consistent with other states' 1115 reporting requirements.
Describe whether the state has identified any real or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation.			The State has not identified any real or anticipated issues submitting timely post-approval demonstration deliverables.

Prompt	State Has No Trends/Update to Report (place an X)	Related Metric(s) (if any)	State Response
Provide updates on the results of beneficiary satisfaction surveys, if conducted during the reporting year, including updates on grievances and appeals from beneficiaries, per 42 CFR 431.428(a)5.			No additional beneficiary satisfaction surveys have been conducted by the State during the reporting period.
<b>3.2 Post-award public forum</b>			
If applicable within the timing of the demonstration, provide a summary of the annual post-award public forum held indicating any resulting action items or issues. A summary of the post-award public forum should be included here for the period during which the forum was held and in the annual monitoring report.			N/A - No post-awards were received in this quarter.
<b>4. Notable state achievements and/or innovations</b>			
<b>4.1 Narrative information</b>			
Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies (1) pursuant to the demonstration hypotheses or (2) that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms (e.g., number of impacted beneficiaries).			N/A - No achievements were received in this quarter.

\*The state should remove all example text from the table prior to submission.
