Demonstration name	Healthy Michigan Plan (HMP) Project No. 11-W-00245/5
Approval date	December 21, 2018
Approval period	January 1, 2019 through December 31, 2023
Implementation date	January 1, 2020

2. Executive summary

On April 1, 2014, Michigan expanded its Medicaid program to include adults with income up to 133 percent of the FPL. To accompany this expansion, the Michigan “Adult Benefits Waiver” was amended and transformed to establish the HMP, through which the state intended to test innovative approaches to beneficiary cost sharing and financial responsibility for care for the new adult eligibility group, which was authorized under section 1902(a)(10)(A)(i)(VIII) of the Act (the “adult group”). Beneficiaries receiving coverage under the sunseting ABW program transitioned to the state plan and the Healthy Michigan Plan on April 1, 2014.

HMP beneficiaries receive a full health care benefit package as required under the Affordable Care Act, which includes all of the Essential Health Benefits and the requirements for an alternative benefit plan, as required by federal law and regulation, and there are no limits on the number of individuals who can enroll. Individuals in the new adult population with incomes above 100 percent of the FPL are required to make contributions equal to two percent of their family income toward the cost of their health care. In addition, all newly eligible adults with income from 0 to 133 percent of the FPL are required to pay copayments through an account operated in coordination with the Medicaid Health Plan (MHP). A MI Health Account was established for each enrolled individual to track beneficiaries’ contributions and how they were expended. Beneficiaries receive quarterly statements that summarized the MI Health Account funds balance and flows of funds into and out of the account, and the use of funds for health care service copayments. Beneficiaries have opportunities to reduce their regular monthly contributions or average utilization based contributions by demonstrating achievement of recommended Healthy Behaviors.

In September 2015, the state sought the Centers for Medicare & Medicaid Services (CMS) approval of an amendment to HMP to implement additional directives contained in the state law (Public Act 107 of 2013). CMS approved the amendment on December 17, 2015, which effectuated the Marketplace Option, a premium assistance program for a subset of HMP eligible beneficiaries. However, the Marketplace Option was never implemented. In December 2017, the state submitted an application to extend the HMP demonstration. In September 2018, the state submitted an additional application to amend certain elements of the HMP to comply with new state law provisions, and changes to eligibility for health care coverage and cost-sharing requirements for certain beneficiaries. The state also requested to end the Marketplace Option program.

As approved, beneficiaries in the demonstration between 100 percent and 133 percent of the FPL who have had 48 months of cumulative eligibility for health care coverage through HMP will be required to pay premiums of five percent of income and have completed a health risk assessment (HRA) at their next redetermination or have engaged in specified healthy behaviors within the twelve- month period prior to the annual redetermination deadline as conditions of eligibility.

3. Operational Updates

The Michigan Department of Health and Human Services (MDHHS) regularly meets with Medicaid Health Plans and provider groups to address operational issues, programmatic issues, and policy updates and clarifications. Additionally, MDHHS provides updates to the Medical Care Advisory Council (MCAC) at regularly scheduled quarterly meetings. Overall enrollment in the Healthy Michigan Plan demonstration this year showed significant growth. This is attributable to new enrollees due to COVID-19

health insurance losses and the department's suspension on certain Medicaid renewals and case closures. The department has suspended most Medicaid renewals and case closures due to the COVID-19 public health emergency.

Due to the COVID-19 public health emergency, beneficiaries will only lose eligibility for HMP at this time if they are deceased, move out-of-state, or request to opt out of the program. Additionally, MDHHS suspended the implementation of the requirement for beneficiaries who have incomes above 100% of the federal poverty level and have been enrolled in HMP for 48 cumulative months to pay 5% of their income toward cost-sharing as a condition of continued enrollment in the program.

4. Performance Metrics

Enrollment

MDHHS began enrolling new beneficiaries into the program beginning April 1, 2014. Beneficiaries who were enrolled in the ABW were automatically transitioned into the Healthy Michigan Plan effective April 1, 2014. Potential enrollees can apply for the program via the MDHHS website, by calling a toll-free number or by visiting their local MDHHS office. At this time, MDHHS does not anticipate any changes in the population served or the benefits offered.

The following table shows this quarter's demonstration enrollment activity. Total enrollment includes the unduplicated number of beneficiaries enrolled in the demonstration at any time during the quarter. New Enrollment includes members that began a new enrollment spell during the quarter and have not had Medicaid coverage within the prior 3 months. Disenrollment for a reporting month contains individuals with program enrollment in the prior reporting month that do not have program enrollment for the current reporting month. Re-enrollments include individuals who have disenrolled and re-enrolled in the demonstration. Individuals under the re-enrollment category also include individuals that may have previously been enrolled in other Medicaid programs.

Cost Sharing Limits

Table 5 contains the monthly count of beneficiaries who reached the 5% of income limit on cost sharing and premiums during the month. The cost sharing limits metric this quarter was consistent with previous reports. Typically, the state sees a larger number of beneficiaries reach their cost sharing limit in the first month of the quarter than the subsequent months.

Access to Care

The reported access to care metrics showed similar active provider participation as the previous quarter. Table 6 shows the number of primary care and specialty providers enrolled to deliver Medicaid services at the end of the quarter. Active provider participation is defined as providers enrolled to deliver Medicaid services with service claims for 3 or more HMP beneficiaries during the quarter.

Provider Type	Availability	Active Participation
Primary Care Provider	53,965	17,203

Quality of Care and Health Outcomes

The following Quality of Care and Health Outcomes metrics reflect calendar year 2020 data. The state will review data trends on an annual basis as described in the technical specifications. The tables for the program quality metrics are located in the Appendix of this report due to their size. HMP population data on Medical Assistance with Smoking and Tobacco Use Cessation is illustrated in Table 7. This metric saw a slight decrease from 2019 to 2020. This metric consists of the following components: advising smokers and tobacco users to quit, discussing cessation medications, and discussing cessation strategies.

The percentage of Emergency Department (ED) visits for beneficiaries age 18 and older who have a principal diagnosis of alcohol or other drug (AOD) abuse or dependence, and who had a follow-up visit with a corresponding principal diagnosis for AOD is shown in Table 8. Two rates are reported including follow up within 7 and 30 days of the ED visit. These measures saw a slight decrease from 2019 to 2020.

The percentage of ED visits for beneficiaries age 18 and older who have a principal diagnosis of mental illness or intentional self-harm, and who had a follow-up visit with a corresponding principal diagnosis for mental illness is shown in Table 9. Two rates are reported including the percentage of ED visits for mental illness or intentional self-harm for which the beneficiary received follow-up within 7 and 30 days of the ED visit. This measure stayed about the same from 2019 to 2020.

The percentage of beneficiaries age 18 and older with a new episode of AOD abuse or dependence who received the Initiation of AOD Treatment and Engagement of AOD Treatment is shown in tables 10 – 13. The following diagnosis cohorts are reported for each rate: (1) Alcohol abuse or dependence, (2) Opioid abuse or dependence, (3) Other drug abuse or dependence, and (4) Total AOD abuse or dependence. A total of 8 separate rates are reported for this measure.

The number of inpatient hospital admissions for diabetes short-term complications per 100,000 beneficiary months for beneficiaries age 18 and older is shown in table 14. This measure saw a slight increase from 2019 to 2020. The number of inpatient hospital admissions for chronic obstructive pulmonary disease (COPD) or asthma per 100,000 beneficiary months for beneficiaries age 40 and older is reported in table 15. This measure saw a substantial decrease from an overall rate of 42.43 in 2019 to

24.54 in 2020. The number of inpatient hospital admissions for heart failure per 100,000 beneficiary months for beneficiaries age 18 and older is shown in table 16. This measure saw a slight decrease from 2019 to 2020. The number of inpatient hospital admissions for asthma per 100,000 beneficiary months for beneficiaries aged 18 to 39 is shown in table 17. This measure decreased from 2019 to 2020.

Administrative costs

The following table shows administrative costs specific to the HMP demonstration. This includes cost of contracts or contract amendments and staff time equivalents required to administer demonstration policies, including premium collection, health behavior incentives, premium assistance, and/or retroactive eligibility waivers.

Table 18: HMP Demonstration Administrative Costs		
Current Quarter CY 2022 Q2	Previous Quarter CY 2021 Q1	Demonstration Year to Date CY 2022
\$3,697,452	\$2,981,963	\$6,679,415

5. Budget Neutrality and Financial Reporting Requirements

CMS has determined that this demonstration is budget neutral based on CMS’s assessment that the waiver authorities granted for the demonstration are unlikely to result in any increase in federal Medicaid expenditures for medical assistance. No expenditure authorities are associated with the demonstration. The state does not expect program changes with financial or budget neutrality impact.

6. Evaluation Activities and Interim Findings

The MDHHS has arranged for the University of Michigan’s Institute for Healthcare Policy & Innovation (IHPI) to serve as the Healthy Michigan Plan (HMP) independent evaluator. IHPI has developed a comprehensive plan to address the waiver objectives of the State and the CMS. In accordance with the HMP §1115 Demonstration Waiver Special Terms and Conditions, on December 16, 2019, the State submitted an initial version of IHPI’s evaluation design for the demonstration period ending December 31, 2023. The evaluation design received final approval from CMS on July 15, 2021.

Demonstration evaluation activities for the Healthy Michigan Plan are conducted by an interdisciplinary team of researchers from the IHPI. Below is a summary of the key activities for the CY2022 second quarterly report:

Objective: Assessment of beneficiary experiences with HMP coverage and policies.

During this quarter, the IHPI evaluation team summarized and incorporated beneficiary interviews into the draft interim report. The team also completed initial analyses of the 2021 Healthy Michigan Voices (HMPV) beneficiary survey data and incorporated findings in the draft interim report.

Quarter 2 – April 1, 2022 – June 30, 2022

Objective: Assessment of HMP’s impact through key informant interviews

Results from key informant interviews on social determinants/innovations in care delivery were summarized and incorporated into the draft interim report. The team completed the analysis of key informant interviews on costs and the results were summarized and incorporated into the draft interim report.

Objective: Describe utilization patterns and characteristics of HMP beneficiaries for surveys and utilization analyses.

Analyses utilizing administrative claims, enrollment, and payment data were completed.

Objective: Assess the impact of HMP on various outcomes through external data sources (credit data, BRFSS, ACS, HCUP, and Medicare cost report data).

IHPI has compiled results of all completed analyses and prepared a draft of the interim evaluation report which was shared with MDHHS for review July 1, 2022.

Performance Monitoring Report

Executive Summary

This Performance Monitoring Report (PMR) is produced by the Quality Improvement and Program Development (QIPD) Section of the Managed Care Plan Division (MCPD) to track quality, access, and utilization in the Michigan Medicaid program to better support high quality care for beneficiaries.

The Michigan Department of Health and Human Services (MDHHS) monitors the performance of the State's Medicaid Health Plans (MHPs) through 22 key performance measures aimed at improving the quality and efficiency of health care services provided to the Michigan residents enrolled in a Medicaid program. These measures include Healthy Michigan Plan (HMP) Measures, MDHHS Dental Measures, CMS Core Set Measures, HEDIS Measures, and Managed Care Quality Measures. **This report focuses only on the following HMP Measures:**

Healthy Michigan Plan (HMP) Measures				
<i>Adults' Generic Drug Utilization</i>	<i>Completion of Annual HRA</i>	<i>Outreach & Engagement to Facilitate Entry to PCP</i>	<i>Transition into Consistently Fail to Pay (CFP) Status</i>	<i>Transition out of Consistently Fail to Pay (CFP) Status</i>

Data for these measures are represented on a quarterly basis. The body of the report contains a cross-plan analysis of the most current data available for each of these measures. Measurement Periods may vary and are based on the specifications for that individual measure. Appendix A contains specific three letter codes identifying each of the MHPs. Appendix B contains the one-year plan specific analysis for each measure.

MHPs are contractually obligated to achieve specified standards for most measures. The following table displays the number of MHPs meeting or exceeding the standards for the performance measure versus total MHPs, as reported in the Performance Monitoring Report, during the listed quarter for fiscal year 2022 unless otherwise noted.

¹ Results with a denominator less than 9 for the Transition into or out of CFP Status measure do not include those with a result of "N/A".

Healthy Michigan Plan Enrollment

Michigan Medicaid Managed Care (HMP-MC) enrollment has remained steady over the past year. In June 2022, enrollment was 782,503, up 27,779 enrollees (3.7%) from July 2021. An increase of 3,996 enrollees (0.5%) was realized between May 2022 and June 2022.

Figure 1: HMP-MC Enrollment, July 2021 – June 2022

Figure 2: HMP-MC Enrollment by Medicaid Health Plan, June 2022

Medicaid Health Plan News

The Performance Monitoring Report contains data for all Michigan Medicaid Health Plans, where data is available. Ten Medicaid Health Plans are contracted with the State of Michigan to provide comprehensive health care services.

As of October 1, 2021, Total Health Care (THC) is no longer an active Medicaid Health Plan. However, their information will continue to appear in the quarterly PMRs until such data is no longer available.

Cross-Plan Performance Monitoring Analyses

The following section includes a cross-plan analysis for each performance measure. An analysis of the most current data available for each performance measure is included. For detailed questions regarding measurement periods or standards, see the Performance Monitoring Specifications.

Summary:

In **Cohort 1**, for income levels over 100% FPL, six plans (without a rate of “N/A”: **AET, BCC, MCL, PRI, UNI, and UPP**), met or exceeded the standard, while two plans (MER and MOL) did not. Results ranged from 1.74% to 3.30%. For income levels up to 100% FPL, six plans (without a rate of “NA”: **AET, BCC, MER, PRI, UNI, and UPP**) met or exceeded the standard, while two plans (MCL and MOL) did not. Results ranged from 1.61% to 3.30%.

In **Cohort 2**, for income levels over 100% FPL, all plans (without a rate of “N/A”) met or exceeded the standard. Results ranged from 2.65% to 5.11%. For income levels up to 100% FPL, eight plans (**AET, BCC, MCL, MER, MOL, PRI, UNI, and UPP**) met or exceeded the standard, while one plan (HAP) did not. Results ranged from 1.83% to 4.22%.

In **Cohort 3**, for income levels over 100% FPL, all plans (without a rate of “N/A”) met or exceeded the standard. Results ranged from 3.47% to 6.85%. For income levels up to 100% FPL, all plans met or exceeded the standards. Results ranged from 3.31% to 6.17%.

Executive Summary

This Dental Performance Monitoring Report (PMR) is produced by the Quality Improvement and Program Development (QIPD) Section of the Managed Care Plan Division (MCPD) to track quality, access, and utilization in the Michigan Medicaid program to better support high quality care for beneficiaries.

The Michigan Department of Health and Human Services (MDHHS) monitors the performance of the State's Medicaid Health Plans (MHPs) through 22 key performance measures aimed at improving the quality and efficiency of health care services provided to the Michigan residents enrolled in a Medicaid program. These measures include Healthy Michigan Plan (HMP) Measures, MDHHS Dental Measure, CMS Core Set Measures, HEDIS Measures, and Managed Care Quality Measures. **This report focuses only on the following MDHHS Dental Measures:**

MDHHS Dental Measures		
<i>Diagnostic Dental Services</i>	<i>Preventive Dental Services</i>	<i>Restorative (Dental Filings) Dental Services</i>
<i>Comprehensive Diabetes Care: Diagnostic Dental Exam</i>	<i>Comprehensive Diabetes Care: Preventive Dental Visit</i>	<i>Comprehensive Diabetes Care: Restorative Dental Visit</i>
<i>Diagnostic Dental Visits in Pregnant Women</i>	<i>Preventive Dental Visits in Pregnant Women</i>	<i>Restorative Dental Visits in Pregnant Women</i>
<i>Adults: Any Dental</i>		

Data for these measures will be represented on a quarterly basis. The body of the report contains a cross-plan analysis of the most current data available for each of these measures. Measurement Periods may vary and are based on the specifications for that individual measure. Appendix A contains specific three letter codes identifying each of the MHPs. Appendix B contains the one-year plan specific analysis for each measure.

The following table displays the number of MHPs meeting or exceeding the standards for the performance measure versus total MHPs, as reported in the Performance Monitoring Report, during the listed quarter for fiscal year 2022 unless otherwise noted.

Managed Care Enrollment

Michigan Medicaid Managed Care (MA-MC) enrollment has remained steady over the past year. In June 2022 enrollment was 2,237,245 up 80,929 enrollees (3.8%) from July 2021. An increase of 9,809 enrollees (0.4%) was realized between May 2022 and June 2022.

Figure 1: Medicaid Managed Care Enrollment, July 2021 – June 2022

¹ N/A will be shown for measures where the standard is Informational Only. Also, measures with a denominator less than 10 do not include Total Health Care (THC).

Medicaid Health Plan News

The Performance Monitoring Report contains data for all Michigan Medicaid Health Plans, where data is available. Nine Medicaid Health Plans are contracted with the State of Michigan to provide comprehensive health care services.

As of October 1, 2021, Total Health Care (THC) is no longer an active Medicaid Health Plan. However, their information will continue to appear in the quarterly PMRs until such data is no longer available.

Cross-Plan Performance Monitoring Analyses

The following section includes a cross-plan analysis for each performance measure. An analysis of the most current data available for each performance measure is included. For detailed questions regarding measurement periods or standards, see the Performance Monitoring Specifications.

Diagnostic Dental Services**Measure**

The percentage of Healthy Michigan Plan members between the ages of 19 and 64 who received at least one diagnostic dental service within the measurement period.
