1. Title page for the state’s eligibility and coverage policies demonstration or eligibility and coverage policies components of the broader demonstration

State	Michigan
Demonstration name	Healthy Michigan Plan Project No. 11-W-00245/5
Approval date	December 21, 2018
Approval period	January 1, 2019 through December 31, 2023
Implementation date	January 1, 2020

2. Executive summary

On April 1, 2014, Michigan expanded its Medicaid program to include adults with income up to 133 percent of the FPL. To accompany this expansion, the Michigan “Adult Benefits Waiver” was amended and transformed to establish the Healthy Michigan Plan (HMP), through which the state intended to test innovative approaches to beneficiary cost sharing and financial responsibility for care for the new adult eligibility group, which was authorized under section 1902(a)(10)(A)(i)(VIII) of the Act (the “adult group”). Beneficiaries receiving coverage under the sunset ABW program transitioned to the state plan and the HMP on April 1, 2014. Individuals in the new adult population with incomes above 100 percent of the FPL are required to make contributions equal to two percent of their family income toward the cost of their health care. In addition, all newly eligible adults with income from 0 to 133 percent of the FPL are required to pay copayments through an account operated in coordination with the Medicaid Health Plan (MHP).

A MI Health Account was established for each enrolled individual to track beneficiaries’ contributions and how they were expended. Beneficiaries receive quarterly statements that summarized the MI Health Account funds balance and flows of funds into and out of the account, and the use of funds for health care service copayments. Beneficiaries have opportunities to reduce their regular monthly contributions or average utilization based contributions by demonstrating achievement of recommended Healthy Behaviors. HMP beneficiaries receive a full health care benefit package as required under the Affordable Care Act, which includes all of the Essential Health Benefits and the requirements for an alternative benefit plan, as required by federal law and regulation, and there are no limits on the number of individuals who can enroll.

In September 2015, the state sought CMS approval of an amendment to HMP to implement additional directives contained in the state law (Public Act 107 of 2013). CMS approved the amendment on December 17, 2015, which effectuated the Marketplace Option, a premium assistance program for a subset of HMP eligible beneficiaries. However, the Marketplace Option was never implemented. In December 2017, the state submitted an application to extend the HMP demonstration. In September 2018, the state submitted an additional application to amend certain elements of the HMP to comply with new state law provisions, including a community engagement requirement, and changes to eligibility for health care coverage and cost-sharing requirements for certain beneficiaries. The state also requested to end the Marketplace Option program.

As approved, beneficiaries in the demonstration between 100 percent and 133 percent of the FPL who have had 48 months of cumulative eligibility for health care coverage through HMP will be required to pay premiums of five percent of income and have completed a health risk assessment (HRA) at their next redetermination or have engaged in specified healthy behaviors within the twelve month period prior to the annual redetermination deadline as conditions of eligibility. Additionally, beneficiaries ages 19 through 62 are required to meet a community engagement requirement as a condition of HMP eligibility. On March 4, 2020, a federal judge ruled that approval of the HMP work requirements was unlawful. This ruling stopped MDHHS’ implementation and enforcement of community engagement requirements.

DY 11– Q3	AD_1-5	Overall enrollment in the Healthy Michigan Plan demonstration this quarter showed growth. From July to September 2020, the state saw a growth in overall population. The state intends to report the required metrics in future quarterly reports.
8.1.5 Discuss any data trends related to cost sharing limits. Describe and explain changes (+ or -) greater than two percent.	DY 11– Q3	AD_23	The cost sharing limits metric this quarter was consistent with previous quarters. Typically, the state sees a larger number of beneficiaries reach their cost sharing limit in the first month of the quarter than the subsequent months.
8.1.6 Discuss any data trends related to appeals and grievances. Describe and explain changes (+ or -) greater than two percent.	DY 11– Q3	AD_24-28	The state has reviewed the recommended metrics provided by CMS. The state plans to satisfy and refine CMS required metrics prior to completing recommended metrics. 8.1.7 Discuss any data trends related to access to care. Describe and explain changes (+ or -) greater than two percent.	DY 11– Q3	AD_29-37	The state reported required access to care metrics showed an increase in active provider participation from the previous quarter. This increase is likely attributable to providers returning to more typical service levels after the previous quarter where there were greater restrictions on available care to limit the spread of COVID-19.
8.1.8 Discuss any data trends related to quality of care and health outcomes. Describe and explain changes (+ or -) greater than two percent.	DY 11– Q3	AD_38-44	During this quarter, the state was able to report quality of care measures for the first time. The reported metrics reflect calendar year 2019 data. The state will review data trends on an annual basis as described in the technical specifications.

This ruling stopped MDHHS' implementation and enforcement of the work community engagement requirements. The state suspended Medicaid closures on April 6, 2020 due to the COVID-19 public health emergency. Additionally, the state rescinded its work requirements for the Healthy Michigan Plan in policy bulletin MSA 20-10 published April 28, 2020. These policies remain in effect this quarter.</p> <p>On August 7, 2020, MDHHS issued a policy bulletin MSA 20-37 suspending all Medicaid renewals for COVID-19 public health emergency. This quarter, MDHHS suspended the implementation of the requirement for beneficiaries who have incomes above 100% of the federal poverty level and have been enrolled in HMP for 48 cumulative months to pay 5% of their income toward cost-sharing as a condition of continued enrollment in the program. Due to the COVID-19 public health emergency, beneficiaries will only lose eligibility for HMP at this time if they are deceased, move out-of-state, or request to opt out of the program. No new implantation date is currently available.</p>

3. Other demonstration reporting			
3.1 General reporting requirements			
3.1.1 Does the state foresee the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes?	DY 11– Q3		The state expects future changes may be needed to demonstration STCs based on technical corrections and state legislation.

Michigan has historically experienced issues with a 60-day timeline to complete quarterly monitoring reports due to data lag. The state believes it can meet reporting requirements within 90 days of a quarter's end.

Metric description	Data source
The number of beneficiaries enrolled in the demonstration whose income and eligibility group were subject to the community engagement requirement and who did not have an individual exemption from the requirement or an approved good cause circumstance	Administrative records
The number of beneficiaries enrolled in income and eligibility groups that were subject to the community engagement requirement, but had an individual exemption from the policy. This excludes circumstances that give rise to good cause.	Administrative records
The number of beneficiaries enrolled in the demonstration who met the state criteria for good cause circumstances, such as serious illness, birth or death of a family member, severe weather, family emergencies, or life-changing event	Administrative records

The MSC-AD, FUA-AD, FUM-AD, and IET_AD measures (metrics AD_38A, AD_39, and AD_40) are Healthcare Effectiveness Data and Information Set ("HEDIS®") measures that are owned and copyrighted by the National Committee for Quality Assurance ("NCQA"). NCQA makes no representations, warranties, or endorsement about the quality of any organization or physician that uses or reports performance measures and NCQA has no liability to anyone who relies on such measures or specifications.

The measure specification methodology used by CMS is different from NCQA’s methodology. NCQA has not validated the adjusted measure specifications but has granted CMS permission to adjust. Calculated measure results, based on the adjusted HEDIS specifications, may be called only "Uncertified, Unaudited HEDIS rates."

Certain non-NCQA measures in the CMS 1115 eligibility and coverage demonstration contain HEDIS Value Sets (VS) developed by and included with the permission of the NCQA. Proprietary coding is contained in the VS. Users of the proprietary code sets should obtain all necessary licenses from the owners of these code sets. NCQA disclaims all liability for use or accuracy of the VS with the non-NCQA measures and any coding contained in the VS.

^a States should create a new metrics report for each reporting quarter.

^b The reporting topics correspond to the prompts for reporting topic AD.Mod_1 in the monitoring report template.

^c Report metrics that are one annual value for a demonstration year only in the report specified in the reporting schedule.

^d Report count metrics in the numerator column. Administrative costs (AD_45) should also be reported in the numerator column.

^e If applicable. See CMS-provided technical specifications.

^f Add columns as necessary to report additional income groups.

^g Add columns as necessary to report exempt groups.

Metric description

The number of beneficiaries enrolled in the demonstration whose income and eligibility group were subject to the community engagement requirement and who did not have an individual exemption from the requirement.

The number of beneficiaries enrolled in income and eligibility groups that were subject to the community engagement requirement, but had an individual exemption from the policy. This excludes circumstances that give rise to good cause.

The number of beneficiaries enrolled in the demonstration who met the state criteria for good cause circumstances, such as serious illness, birth or death of a family member, severe weather, family emergencies, or life-changing event

The number of demonstration beneficiaries in suspension status due to failure to meet the community engagement requirement, including those newly suspended for noncompliance during the measurement period

The number of beneficiaries enrolled in the demonstration who were subject to the community engagement requirement and met the requirement by engaging in qualifying activities

The number of beneficiaries enrolled in the demonstration who were subject to the community engagement requirement but did not meet the requirement. This includes beneficiaries who have not yet begun qualifying activities and those who logged some hours, but failed to meet total required hours.

The number of beneficiaries enrolled in the demonstration who were subject to the community engagement requirement and met additional requirements to retain active benefit status after previously failing to meet the requirement. This captures beneficiaries who successfully satisfy the “opportunity to cure” requirement and therefore are not suspended (if state has this policy).

The number of prior demonstration beneficiaries who were disenrolled from Medicaid for noncompliance with the community engagement requirement and are in a non-eligibility period, meaning they are prevented from re-enrolling for some defined period of time. The count should include those prevented from re-enrolling until their redetermination date.

The number of beneficiaries enrolled in the demonstration who were subject to the community engagement requirement and met the requirement by satisfying requirements in other programs such as SNAP or TANF, regardless of whether they are “deemed” by the state to be in compliance with Medicaid requirements or must take reporting action

The number of beneficiaries enrolled in the demonstration who were subject to and met the community engagement requirement, who were self-employed or employed in subsidized and/or unsubsidized settings. Includes both those “deemed” by the state to be in compliance with Medicaid requirements because they are working more than the number of required hours and those who must report their hours.

The number of beneficiaries enrolled in the demonstration who were subject to and met the community engagement requirement by engaging in on-the-job training, job skills training, vocational education and training, job search activities, job search training, a state-sponsored workforce program, or similar activity

The number of beneficiaries enrolled in the demonstration who were subject to and met the community engagement requirement by engaging in education related to employment, general education, accredited English-as-a-second-language education, accredited homeschooling, or a state-designated class

The number of beneficiaries enrolled in the demonstration who were subject to the community engagement requirement and met the requirement through a state-specified activity not captured by other reporting categories, including community work experience, community service/public service, volunteer work, caregiving for a dependent, participation in substance use disorder treatment, enrollment in Medicaid employer-sponsored insurance premium assistance, or other activity.

The number of beneficiaries enrolled in the demonstration who were subject to the community engagement requirement and met the requirement by engaging in a combination of activities defined in metrics CE_35 through CE_38, such as a combination of employment and education

This does not include beneficiaries who are meeting SNAP and/or TANF work requirements

The number of beneficiaries enrolled in the demonstration who were exempt from the community engagement requirement because they are pregnant

The number of beneficiaries enrolled in the demonstration who were exempt from the community engagement requirement because they are a student enrolled a number of hours/week, defined by state

The number of beneficiaries enrolled in the demonstration who were exempt from the community engagement requirement because a medical professional determined the beneficiary had an acute medical condition separate from disability or frailty

Executive Summary

This Performance Monitoring Report (PMR) is produced by the Quality Improvement and Program Development (QIPD) Section of the Managed Care Plan Division (MCPD) to track quality, access, and utilization in the Michigan Medicaid program to better support high quality care for beneficiaries.

The Michigan Department of Health and Human Services (MDHHS) monitors the performance of the State's Medicaid Health Plans (MHPs) through 33 key performance measures aimed at improving the quality and efficiency of health care services provided to the Michigan residents enrolled in a Medicaid program. These measures include MDHHS Administrative Measures; Healthy Michigan Plan (HMP) Measures; MDHHS Dental Measures; CMS Core Set Measures; Health Equity HEDIS Measures; HEDIS Measures and Managed Care Quality Measures. **This report focuses only on the following HMP Measures:**

Healthy Michigan Plan (HMP) Measures				
<i>Adults' Generic Drug Utilization</i>	<i>Completion of Annual HRA</i>	<i>Outreach & Engagement to Facilitate Entry to PCP</i>	<i>Transition into Consistently Fail to Pay (CFP) Status</i>	<i>Transition out of Consistently Fail to Pay (CFP) Status</i>

Data for these measures are represented on a quarterly basis. The body of the report contains a cross-plan analysis of the most current data available for each of these measures. Measurement Periods may vary and are based on the specifications for that individual measure. Appendix A contains specific three letter codes identifying each of the MHPs. Appendix B contains the one-year plan specific analysis for each measure.

MHPs are contractually obligated to achieve specified standards for most measures. The following table displays the number of MHPs meeting or exceeding the standards for the performance measure versus total MHPs, as reported in the Performance Monitoring Report, during the listed quarter for fiscal year 2020 unless otherwise noted.

The Performance Monitoring Report contains data for all Michigan Medicaid Health Plans, where data is available. Ten Medicaid Health Plans are contracted with the State of Michigan to provide comprehensive health care services.

As of January 1, 2020, Trusted Health Plan Michigan (TRU) is no longer an active Medicaid Health Plan. However, their information will continue to appear in the quarterly PMRs until such data is no longer available.

Cross-Plan Performance Monitoring Analyses

The following section includes a cross-plan analysis for each performance measure. An analysis of the most current data available for each performance measure is included. For detailed questions regarding measurement periods or standards, see the Performance Monitoring Specifications.

Executive Summary

This Dental Performance Monitoring Report (PMR) is produced by the Quality Improvement and Program Development (QIPD) Section of the Managed Care Plan Division (MCPD) to track quality, access, and utilization in the Michigan Medicaid program to better support high quality care for beneficiaries.

The Michigan Department of Health and Human Services (MDHHS) monitors the performance of the State's Medicaid Health Plans (MHPs) through 33 key performance measures aimed at improving the quality and efficiency of health care services provided to the Michigan residents enrolled in a Medicaid program. These measures include MDHHS Administrative Measures; Healthy Michigan Plan (HMP) Measures; MDHHS Dental Measures; CMS Core Set Measures; Health Equity HEDIS Measures; HEDIS Measures and Managed Care Quality Measures. **This report focuses only on the following MDHHS Dental Measures:**

MDHHS Dental Measures		
<i>Diagnostic Dental Services</i>	<i>Preventive Dental Services</i>	<i>Restorative (Dental Filings) Dental Services</i>
<i>Comprehensive Diabetes Care: Diagnostic Dental Exam</i>	<i>Comprehensive Diabetes Care: Preventive Dental Visit</i>	<i>Comprehensive Diabetes Care: Restorative Dental Visit</i>
<i>Diagnostic Dental Visits in Pregnant Women</i>	<i>Preventive Dental Visits in Pregnant Women</i>	<i>Restorative Dental Visits in Pregnant Women</i>
<i>Adults: Any Dental</i>		

Data for these measures will be represented on a quarterly basis. The body of the report contains a cross-plan analysis of the most current data available for each of these measures. Measurement Periods may vary and are based on the specifications for that individual measure. Appendix A contains specific three letter codes identifying each of the MHPs. Appendix B contains the one-year plan specific analysis for each measure.

The following table displays the number of MHPs meeting or exceeding the standards for the performance measure versus total MHPs, as reported in the Performance Monitoring Report, during the listed quarter for fiscal year 2020 unless otherwise noted.

Introduction

Pursuant to PA 208 of 2018, sections 105d(1)e and 105d(12), a Health Risk Assessment has been developed for the Healthy Michigan Plan (form DCH-1315). It is designed as a two part document, where the beneficiary completes the first three sections and the health care provider completes the last section. It includes questions on a wide range of health issues, a readiness to change assessment, and a discussion about behavior change between the beneficiary and the health care provider. The topics in the assessment cover all of the behaviors identified in PA 208 including alcohol use, substance use disorders, tobacco use, obesity and immunizations. It also includes the recommended healthy behaviors identified in the Michigan Health and Wellness 4X4 Plan, which include annual physicals, healthy diet, regular physical exercise and reducing tobacco use. As of April 2018, three new questions were added on the topics of annual dental visit, access to transportation and unmet basic needs. The question on anxiety and depression was removed and replaced with a question on chronic stress based on feedback regarding the most meaningful ways to ask about self-reported behavioral health status.

Health Risk Assessment Part 1

Health Risk Assessments completion through Michigan ENROLLS

In February 2014, the enrollment broker for the Michigan Department of Health and Human Services (Michigan ENROLLS) began administering the first section of the Health Risk Assessment to Healthy Michigan Plan beneficiaries who call to enroll in a health plan. In addition to asking new beneficiaries all of the questions in Section 1 of the Health Risk Assessment, call center staff inform beneficiaries that an annual preventive visit, including completion of the last three sections of the Health Risk Assessment, is a covered benefit of the Healthy Michigan Plan.

Completion of the Health Risk Assessment is voluntary; callers may refuse to answer some or all of the questions. Beneficiaries who are auto-assigned into a health plan are not surveyed. Survey results from Michigan ENROLLS are updated daily in CareConnect360 for secure transmission to the appropriate health plan to assist with outreach and care management.

The completion of the Health Risk Assessment with the enrollment broker was temporarily put on hold in Many 2019.

Health Risk Assessment Part 2

Health Risk Assessments completion with Provider Attestation

In April 2014, the Healthy Michigan Plan was launched, and an initial preventive health visit to a primary care provider was promoted for all new beneficiaries. Beneficiaries were also encouraged to complete the last section of the Health Risk Assessment at this initial appointment. This final section of the Health Risk Assessment is designed as a tool for identifying annual healthy behavior goals.

Completion of this section of the Health Risk Assessment is also voluntary. Healthy Michigan Plan Beneficiaries who complete a Health Risk Assessment with a health care provider attestation and agree to maintain or address healthy behaviors are eligible for an incentive. Beginning in April 2018, in discussion with the beneficiary, health care providers also choose between 4 statements to attest to whether the beneficiary achieved or made significant progress towards the healthy behavior goal(s) he or she had previously selected to work on the year before. Only beneficiaries who both made significant progress towards the previous year goal AND select one or more goals for the upcoming year are eligible for an incentive.

The data displayed in Part 2 of this report reflect the healthy behavior goals selected in the final section of the Health Risk Assessment. As shown in Table 13, a total of 16,665 Health Risk Assessments were completed in the July-September 2020 quarter. Health Risk Assessment completion is reported by age, gender and Federal Poverty Level in Table 14.

Among beneficiaries who completed the Health Risk Assessment, 12,789 or 76.7% of beneficiaries agreed to address health risk behaviors. In addition, 3,466 or 20.8% of beneficiaries who completed the Health Risk Assessment chose to maintain current healthy behaviors, meaning that 97.5% of beneficiaries are choosing to address or maintain healthy behaviors. The healthy behaviors goal statements selected are reported in Table 15. Healthy behavior goal statements are also reported by age and FPL in Figures 15-2 and 15-3.

Of the 12,789 beneficiaries who agreed to address health risk behaviors, 52.8% chose to address more than one healthy behavior. Tables 13 and 14 report the most frequently selected health risk behaviors to address, alone and in combination. Figure 18 is a Venn diagram representing the overlapping nature of the multiple healthy behaviors selected.

Additional Healthy Behaviors

To improve the ability of individuals to participate in the Healthy Behaviors Incentives Program, additional mechanisms to document healthy behaviors were added April 1, 2018 for individuals who may have completed healthy behavior activities but do not have a submitted Health Risk Assessment for documentation. The mechanisms include documented participation in approved wellness and population health management programs and claims/encounters review for beneficiaries who utilize preventive and wellness services. Completion of these additional healthy behavior options is also voluntary. The data displayed in this section of the report reflect counts of the number of wellness programs and preventive services completed by beneficiaries. Beneficiaries may choose to complete one or more of these programs in a given 12 month period, however, they will still only be eligible for one incentive per year. The last section of this report focuses on the number of distinct HMP beneficiaries who completed one or more healthy behavior activities.

A total of 7,851 wellness programs were completed in the July-September 2020 quarter. Wellness Program completion is reported by age, gender and Federal Poverty Level in Table 20. Wellness Programs are reported by health domain in Table 21.

A total of 333,948 Preventive Services were completed in the July-September 2020 quarter. Preventive Services completion is reported by age, gender and Federal Poverty Level in Table 23. Preventive Services are reported by health domain in Table 24.

A total of 320,622 distinct HMP beneficiaries completed at least one healthy behavior in the previous twelve months, October 01, 2019-September 30, 2020. Healthy Behavior completion is reported by type of healthy behavior activity in Table 25.

All Managed Care Plans offer a tobacco cessation program which follows standardized criteria. For this reason, 97.17% of wellness programs reported are tobacco cessation programs. Completed wellness programs by program type are displayed in Table 21 for the quarter July-September 2020.

Welcome, Introductions, Announcements

Alison Hirschel and Bill Mayer opened the meeting and introductions were made. Following introductions, Dr. Mayer announced that Warren White will be retiring and leaving his position on the Medical Care Advisory Council (MCAC). Ms. Hirschel also announced that as a follow-up to the previous MCAC meeting, a proposal for an increase in the Federal Matching Assistance Percentage (FMAP) rate as part of a COVID-19 relief package is still pending in Congress, and she has completed a draft letter in support of this measure. The letter will be submitted to the members of the MCAC for comments shortly, and once finalized, will be sent to each member of Michigan's congressional delegation on behalf of the MCAC.

Budget Update

Farah Hanley shared that following the consensus revenue estimating conference (CREC) in May that projected a budget shortfall of \$3 billion in fiscal year (FY) 2020 and FY2021, the state convened an additional CREC in August to better assess the impact of the current COVID-19-related health emergency on the state budget. The CREC held in August found that the budget gap is now estimated at \$1 billion for FY20 and \$1 billion for FY21 due to greater than expected sales tax revenue. Ms. Hanley indicated that in light of the revised budget forecast, the legislature is continuing discussions with the Governor's office on a budget agreement for FY21, and that many of the reductions included in the executive budget recommendation that was released in February are still planned for implementation.

Federal Stimulus Update

In response to an inquiry, Ms. Hanley indicated that legislation intended to provide relief funds for state and local governments has passed the U.S. House of Representatives, but that the future prospects for such assistance remain uncertain. However, the State of Michigan has received a federal grant of \$375 million to assist with COVID-19 testing and contact tracing efforts that must be used or forfeited by September 30, 2020.

Covid-19 Updates and Policies

To date, the Michigan Department of Health and Human Services (MDHHS) has released 26 policy bulletins related to the COVID-19-related health emergency. The following bulletins that have been released since the previous MCAC meeting on May 27, 2020 were discussed:

- MSA 20-25 – COVID-19 Response: COVID-19 Durable Medical Equipment, Prosthetics, Orthotics, Supplies (DMEPOS) Supplemental Billing Policy to Bulletin MSA 20-14
- MSA 20-28 – COVID-19 Response: Temporary Suspension of Certain Provider Enrollment Requirements; Temporary Suspension of Certain Restrictions and Requirements of the Michigan Public Health Code
- MSA 20-32 – COVID-19 Response: Emergency Temporary Removal of Prior Authorization for Walking Boots and Wheelchair Batteries. Temporary Coverage of Spirometers for Cystic Fibrosis Beneficiaries in the Home Setting
- MSA 20-35 – Medicaid Compliance with Interim Final Rule CMS 5531: Improving Care Planning for Medicaid Home Health Services; COVID-19 Response: Temporary Waiver of Beneficiary Signature for Home-Delivered DMEPOS

- MSA 20-41 – COVID-19 Response: Private Duty Nursing and Hospice Alternative Staffing Provisions; Virtual Supervisory Visits; Prior Authorization for Private Duty Nursing
- MSA 20-42 – COVID-19 Response: Telemedicine Policy Rate Change; MI Care Team Health Action Plan Telemedicine Coverage
- MSA 20-52 – COVID-19 Response: COVID-19 Test Ordering and Pharmacy Enrollment
- MSA 20-53 – COVID-19 Response: Telemedicine Policy Changes for Audiology Services
- MSA 20-56 – COVID-19 Response: Recission of Portions of Bulletin MSA 20-28 – Executive Order 2020-61
- MSA 20-57 – COVID-19 Response: COVID-19 Specimen Collection

In addition, Laura Kilfoyle shared that while many policies that have been issued in response to the COVID-19 Health Emergency regarding telemedicine expansion are intended to be temporary, MDHHS has convened a work group to review the temporary telemedicine expansion policies and determine the feasibility of implementing some changes long-term.

Long-Term Care

Brian Barrie shared that while long-term care facilities in the state initially experienced a relatively high rate of COVID-19 infection among residents relative to the general population, MDHHS has since largely been able to control the spread of the virus in nursing homes and other long-term care facilities. As a result of the health emergency, MDHHS staff are continuing to evaluate the department's response to both look for opportunities to expand on mitigation strategies that have worked well and continue to examine potential areas for improvement.

Direct Care Worker Premium Pay

In April 2020, MDHHS authorized a temporary wage increase of \$2 per hour for in-home providers of personal care services in an effort to compensate workers for the risk of COVID-19 infection and better ensure continuation of services for beneficiaries. In June 2020, the wage increase was extended through September 30, 2020 and expanded to include direct care workers employed by nursing facilities. MDHHS staff are continuing to evaluate ongoing need and available funding for subsequent premium pay extensions.

Center for Health and Research Transformation (CHRT) Evaluation

MDHHS is working with the University of Michigan in partnership with CHRT to evaluate the department's COVID-19 response as it relates to long-term services and supports programs, with a focus on nursing homes. The comprehensive evaluation will:

- examine Michigan's Regional Hub strategy compared to similar efforts undertaken by other states, including an in-depth data analysis;
- review Best Practices nationally and develop recommendations for preparedness in the event of a second COVID-19 outbreak; and
- develop recommendations for the State of Michigan to continue safely operating of all long-term-care facilities in Michigan including nursing facilities, adult foster care homes, homes for the aged, etc.

Mr. Barrie noted that while the initial report by CHRT is due to MDHHS the week of August 31, data analysis and collection will be ongoing.

Nursing Facility Task Force

The CHRT evaluation is also intended to assist the work of the Michigan Nursing Home COVID-19 Preparedness Task Force, which was established by Executive Order (EO) 2020-135 on June 26, 2020. The task force was convened to develop an action plan for nursing homes to deal with any potential future outbreak of COVID-19 and must submit its recommendations to the governor by August 31, 2020. The task force was divided into four workgroups, with each focusing on a different element of a broad topic. The areas of focus for each workgroup include:

1. Addressing the placement of COVID-19-positive individuals in nursing homes,
2. Maximizing availability and distribution of testing supplies and personal protection equipment (PPE),
3. Ensuring the health of nursing facility staff and providing for staff education on practices for mitigating the spread of infection, such as proper use of PPE, and
4. Quality of life of nursing home residents. This group examined visitation practices in nursing homes and focused on developing recommendations for how to address the feeling of social isolation among nursing home residents.

Regional Hubs

MDHHS established regional hubs to care for COVID-19-affected nursing home residents per EO 2020-50. While the department initially granted a regional hub designation to 20 facilities located in Southeast Michigan, additional Regional Hub designations were subsequently granted throughout the state in identified areas of need, with a peak capacity of 900 beds. As of August 26, 2020, only nine regional hub facilities remain in operation with a total capacity of 300 beds. Mr. Barrie indicated that the reduction in regional hub bed capacity is commensurate with the decline in the need for such care due to falling COVID-19 caseloads.

While the CHRT evaluation found that housing COVID-19-affected nursing home residents did not appear to contribute to an increased infection rate among the general nursing home population, MDHHS plans to implement changes to the operation of regional hub sites in the future based on CHRT recommendations, including revising the selection process for regional hub sites, increasing oversight and monitoring of regional hub operations, and clarifying the role of non-hub facilities in the care of COVID-19-affected nursing facility residents.

Long-Term Care Facility Visitation

A meeting attendee further addressed concerns about the effect of current visitation restrictions in all long-term care facilities on the quality of life among residents, and requested that the MCAC consider drafting a letter addressed to the governor and MDHHS leadership in support of revisions to current policy to allow opportunities for visitation by family members of residents. MDHHS staff and meeting attendees continued to discuss this issue at length. In response to the discussion by MCAC members, Kate Massey indicated that MDHHS staff are actively discussing the preliminary findings of the Nursing Home COVID-19 Preparedness Task Force workgroup on quality of life in nursing home residents to evaluate where it may be feasible to implement policy changes to address these concerns, and offered to provide updates to the MCAC as they are available on this process and other issues. Following discussion, meeting attendees agreed that a letter in support of Long-Term Care Facility visitation changes on behalf of the MCAC was not needed at this time.

MI Health Link Update

The MI Health Link demonstration for individuals who are dually eligible for Medicare & Medicaid is currently scheduled to sunset on December 31, 2020. To continue the demonstration, MDHHS has a tentative agreement in place for a one-year extension with the

Integrated Care Organizations to provide services to beneficiaries who meet program eligibility criteria and is currently working through contract negotiations. Brian Barrie noted that while Centers for Medicare & Medicaid Services (CMS) staff have expressed support for the department's initial request for a five-year extension of the MI Health Link demonstration, federal authority for the program is currently set to expire in 2023. MDHHS is also working to incorporate several proposed program improvements into the MI Health Link demonstration beyond 2021. In response to the request from meeting attendees to review the list of proposed changes, Mr. Barrie offered to share the information with the MCAC prior to the formal stakeholder review process.

Provider Relief Fund

MDHHS staff shared that as part of the Coronavirus Aid, Relief and Economic Security (CARES) act, congress has authorized a designated Provider Relief Fund in the amount of \$175 billion to assist medical providers with both replacing lost revenue as a result of the COVID-19 health emergency and to assist providers in making preparations to continue to treat patients during this time. Included in this fund is a portion set aside for Medicaid and Children's Health Insurance Program (CHIP) providers. In addition to a PowerPoint presentation on the topic, meeting attendees were provided with copies of letters L 20-40, issued June 29, 2020, and L 20-53, issued August 18, 2020, which were released to all providers to share information on these available funds, and the documents were discussed. MDHHS staff additionally noted that following the release of the letters, the application deadline for relief funds was extended to September 13, 2020.

Medicaid and Special Program Enrollment Update

Jackie Prokop shared that due to the current health emergency, MDHHS has suspended the eligibility renewal process for all Medicaid programs. As a result of this and other factors, the department is experiencing higher-than-usual caseloads of Medicaid beneficiaries. To highlight the difference in caseload since the previous MCAC meeting, Ms. Prokop shared and discussed a copy of a report from the MDHHS-Data Warehouse that was compiled to compare caseload numbers from February 2020 to July 2020, broken down to reflect caseload numbers in the following individual programs:

- Family Related Medicaid,
- Children Under 21,
- Pregnant Women and Children,
- MIChild,
- Non-Supplemental Security Income (SSI) Aged, Blind, and Disabled,
- SSI Aged, Blind and Disabled,
- Healthy Michigan Plan,
- Total Medicaid Recipients,
- Family Independence Program,
- Food Assistance Program, and
- Child Day Care.

COVID-19 Mitigation

Bill Mayer opened the discussion on immunization outreach by emphasizing the importance of lessening the impact of influenza and other preventable diseases through vaccination, and therefore ensuring that as many health care resources as possible are available for treatment of COVID-19-affected individuals. Following introduction, MDHHS staff shared a PowerPoint presentation with meeting attendees containing information on the state's immunization rates for influenza and other diseases, as well as the department's efforts to promote vaccine administration. The presentation also contained preliminary information on a potential COVID-19 vaccination that is currently in the process of development. MDHHS staff and meeting attendees discussed the issue of vaccine outreach at length.

Healthy Michigan Plan (HMP)

Delay October 1, 2020 Changes – 5% Premium, Loss of Coverage

Jackie Prokop announced that due to the COVID-19 health emergency, MDHHS has suspended implementation of the requirement for Healthy Michigan Plan (HMP) beneficiaries who have incomes above 100% of the federal poverty level and have been enrolled in HMP for 48 cumulative months to pay 5% of their income toward cost-sharing as a condition of continued enrollment in the program. Because of the health emergency, beneficiaries will only lose eligibility for HMP at this time if they are deceased, move out-of-state, or request to opt out of the program. As of August 26, 2020, no new implementation date has been set for these changes to HMP.

Behavioral Health Integration Update

Following the discontinuation of the Stakeholder298 process that was previously discussed with the MCAC, MDHHS staff have been working to develop a new approach to behavioral health and physical health integration. While the discussions are ongoing, work on this topic has largely been put on hold due to the COVID-19 health emergency to focus on pandemic response.

Flint Waiver Update

MDHHS has submitted an extension request for the Waiver for People Impacted by Flint Water, which is currently set to expire in February 2021. Up to this point, conversations with CMS have been constructive, and MDHHS staff expressed confidence in receiving approval for the extension request prior to the current program's expiration.

Future Agenda Items

Potential future agenda items that were discussed include:

- Follow-up on the work of the Nursing Home COVID-19 Preparedness Task Force, including efforts to address visitation policy in all long-term care facilities.

- Updates on the development of a COVID-19 vaccine, as well as other vaccine updates.
- Discussion on the potential end of the current COVID-19 health emergency and plans to move forward with MDHHS policies and projects that have been put on hold during this time.

The meeting was adjourned at 4:06 p.m.
