Centers for Medicare & Medicaid Services
233 North Michigan Avenue, Suite 600
Chicago, Illinois 60601-5519

Dear Ms. Toback,

Re: Project Number 11-W-00245/5 - Healthy Michigan Plan

Enclosed is the quarterly report for the Healthy Michigan Plan. It covers the third quarter of calendar year 2022. The report provides operational information, program enrollment, and policy changes related to the waiver as specified in the Special Terms and Conditions.

Should you have any questions related to the information contained in this report, please contact Jacqueline Coleman by e-mail at colemanj@michigan.gov.

Sincerely.

Keith White, Director Actuarial Division

cc: Angela Garner Nicole McKnight

Enclosure (5)

1. Title page for the state's eligibility and coverage policies demonstration or eligibility and coverage policies components of the broader demonstration

State	Michigan
Demonstration name	Healthy Michigan Plan (HMP) Project No. 11-W-00245/5
Approval date	December 21, 2018
Approval period	January 1, 2019 through December 31, 2023
Implementation date	January 1, 2020

2. Executive summary

On April 1, 2014, Michigan expanded its Medicaid program to include adults with income up to 133 percent of the FPL. To accompany this expansion, the Michigan "Adult Benefits Waiver" was amended and transformed to establish the HMP, through which the state intended to test innovative approaches to beneficiary cost sharing and financial responsibility for care for the new adult eligibility group, which was authorized under section 1902(a)(10)(A)(i)(VIII) of the Act (the "adult group"). Beneficiaries receiving coverage under the sunsetting ABW program transitioned to the state plan and the Healthy Michigan Plan on April 1, 2014.

HMP beneficiaries receive a full health care benefit package as required under the Affordable Care Act, which includes all of the Essential Health Benefits and the requirements for an alternative benefit plan, as required by federal law and regulation, and there are no limits on the number of individuals who can enroll. Individuals in the new adult population with incomes above 100 percent of the FPL are required to make contributions equal to two percent of their family income toward the cost of their health care. In addition, all newly eligible adults with income from 0 to 133 percent of the FPL are required to pay copayments through an account operated in coordination with the Medicaid Health Plan (MHP). A MI Health Account was established for each enrolled individual to track beneficiaries' contributions and how they were expended. Beneficiaries receive quarterly statements that summarized the MI Health Account funds balance and flows of funds into and out of the account, and the use of funds for health care service copayments. Beneficiaries have opportunities to reduce their regular monthly contributions or average utilization based contributions by demonstrating achievement of recommended Healthy Behaviors.

In September 2015, the state sought the Centers for Medicare & Medicaid Services (CMS) approval of an amendment to HMP to implement additional directives contained in the state law (Public Act 107 of 2013). CMS approved the amendment on December 17, 2015, which effectuated the Marketplace Option, a premium assistance program for a subset of HMP eligible beneficiaries. However, the Marketplace Option was never implemented. In December 2017, the state submitted an application to extend the HMP demonstration. In September 2018, the state submitted an additional application to amend certain elements of the HMP to comply with new state law provisions, and changes to eligibility for health care coverage and cost-sharing requirements for certain beneficiaries. The state also requested to end the Marketplace Option program.

As approved, beneficiaries in the demonstration between 100 percent and 133 percent of the FPL who have had 48 months of cumulative eligibility for health care coverage through HMP will be required to pay premiums of five percent of income and have completed a health risk assessment (HRA) at their next redetermination or have engaged in specified healthy behaviors within the twelve- month period prior to the annual redetermination deadline as conditions of eligibility.

3. Operational Updates

The Michigan Department of Health and Human Services (MDHHS) regularly meets with Medicaid Health Plans and provider groups to address operational issues, programmatic issues, and policy updates and clarifications. Additionally, MDHHS provides updates to the Medical Care Advisory Council (MCAC) at regularly scheduled quarterly meetings. Overall enrollment in the Healthy Michigan Plan demonstration this year showed significant growth. This is attributable to new enrollees due to COVID-19

health insurance losses and the department's suspension on certain Medicaid renewals and case closures. The department has suspended most Medicaid renewals and case closures due to the COVID-19 public health emergency.

Due to the COVID-19 public health emergency, beneficiaries will only lose eligibility for HMP at this time if they are deceased, move out-of-state, or request to opt out of the program. Additionally, MDHHS suspended the implementation of the requirement for beneficiaries who have incomes above 100% of the federal poverty level and have been enrolled in HMP for 48 cumulative months to pay 5% of their income toward cost-sharing as a condition of continued enrollment in the program.

4. Performance Metrics

Enrollment

MDHHS began enrolling new beneficiaries into the program beginning April 1, 2014. Beneficiaries who were enrolled in the ABW were automatically transitioned into the Healthy Michigan Plan effective April 1, 2014. Potential enrollees can apply for the program via the MDHHS website, by calling a toll-free number or by visiting their local MDHHS office. At this time, MDHHS does not anticipate any changes in the population served or the benefits offered.

The following table shows this quarter's demonstration enrollment activity. Total enrollment includes the unduplicated number of beneficiaries enrolled in the demonstration at any time during the quarter. New Enrollment includes members that began a new enrollment spell during the quarter and have not had Medicaid coverage within the prior 3 months. Disenrollment for a reporting month contains individuals with program enrollment in the prior reporting month that do not have program enrollment for the current reporting month. Re-enrollments include individuals who have disenrolled and re-enrolled in the demonstration. Individuals under the re-enrollment category also include individuals that may have previously been enrolled in other Medicaid programs.

Table 1: HMP Enrollment Activity							
July 2022 August 2022 September 2022							
Total Enrollment	1,021,819	1,028,580	1,033,277				
New Enrollment	10,508	10,906	10,419				
Re-enrollment	12,285	11,410	10,801				
Disenrollment	7,156	7,306	8,519				

The following table demonstrates demongraphic characteristics of this quarter's enrolled beneficiaries:

Cost Sharing Limits

Table 5 contains the monthly count of beneficiaries who reached the 5% of income limit on cost sharing and premiums during the month. The cost sharing limits metric this quarter was consistent with previous reports. Typically, the state sees a larger number of beneficiaries reach their cost sharing limit in the first month of the quarter than the subsequent months.

Table 5: HMP Cost Sharing Limit by Subgroup									
Subgroup	July 2022	August 2022	September 2022

Access to Care

The reported access to care metrics showed similar active provider participation as the previous quarter. Table 6 shows the number of primary care and specilaty providers enrolled to deliver Medicaid services at the end of the quarter. Active provider participation is defined as providers enrolled to deliver Medicaid services with service claims for 3 or more HMP beneficiaries during the quarter.

Table 6: HMP Access to Care July – September 2022					
Provider Type	Availability	Active Participation			
Primary Care Provider	55,114	17,019			
Specialist Provider	87,427	39,310			

Quality of Care and Health Outcomes

The following Quality of Care and Health Outcomes metrics reflect calendar year 2020 data. The state will review data trends on an annual basis as described in the technical specifications. The tables for the program quality metrics are located in the Appendix of this report due to their size. HMP population data on Medical Assistance with Smoking and Tobacco Use Cessation is illustrated in Table 7. This metric saw a slight decrease from 2019 to 2020. This metric consists of the following components: advising smokers and tobacco users to quit, discussing cessation medications, and discussing cessation strategies.

The percentage of Emergency Derpartment (ED) visits for beneficiaries age 18 and older who have a principal diagnosis of alcohol or other drug (AOD) abuse or dependence, and who had a follow-up visit with a corresponding principal diagnosis for AOD in shown in Table 8. Two rates are reported including follow up within 7 and 30 days of the ED visit. These measures saw a slight decrease from 2019 to 2020.

The percentage of ED visits for beneficiaries age 18 and older who have a principal diagnosis of mental illness or intentional self-harm, and who had a follow-up visit with a corresponding principal diagnosis for mental illness is shown in Table 9. Two rates are reported including the percentage of ED visits for mental illness or intentional self-harm for which the beneficiary received follow-up within 7 and 30 days of the ED visit. This measure stayed about the same from 2019 to 2020.

The percentage of beneficiaries age 18 and older with a new episode of AOD abuse or dependence who received the Initiation of AOD Treatment and Engagement of AOD Treatment is shown in tables 10-13. The following diagnosis cohorts are reported for each rate: (1) Alcohol abuse or dependence, (2) Opioid abuse or dependence, (3) Other drug abuse or dependence, and (4) Total AOD abuse or dependence. A total of 8 separate rates are reported for this measure.

The number of inpatient hospital admissions for diabetes short-term complications per 100,000 beneficiary months for beneficiaries age 18 and older is shown in table 14. This measure saw a slight increase from 2019 to 2020. The number of inpatient hospital admissions for chronic obstructive pulmonary disease (COPD) or asthma per 100,000 beneficiary months for beneficiaries age 40 and older is reported in table 15. This measure saw a substantial decrease from an overall rate of 42.43 in 2019 to

24.54 in 2020. The number of inpatient hospital admissions for heart failure per 100,000 beneficiary months for beneficiaries age 18 and older is shown in table 16. This measure saw a slight decrease from 2019 to 2020. The number of inpatient hospital admissions for asthma per 100,000 beneficiary months for beneficiaries aged 18 to 39 is shown in table 17. This measure decreased from 2019 to 2020.

Administrative costs

The following table shows administrative costs specific to the HMP demonstration. This includes cost of contracts or contract amendments and staff time equivalents required to administer demonstration policies, including premium collection, health behavior incentives, premium assistance, and/or retroactive eligibility waivers.

Table 18: HMP Demonstration Administrative Costs					
Current Quarter Previous Quarter Demonstration Year to D					
CY 2022 Q3	CY 2022 Q2	CY 2022			
\$2,988,304	\$3,697,452	\$9,667,719			

5. Budget Neutrality and Financial Reporting Requirements

CMS has determined that this demonstration is budget neutral based on CMS's assessment that the waiver authorities granted for the demonstration are unlikely to result in any increase in federal Medicaid expenditures for medical assistance. No expenditure authorities are associated with the demonstration. The state does not expect program changes with financial or budget neutrality impact.

6. Evaluation Activities and Interim Findings

The MDHHS has arranged for the University of Michigan's Institute for Healthcare Policy & Innovation (IHPI) to serve as the Healthy Michigan Plan (HMP) independent evaluator. IHPI has developed a comprehensive plan to address the waiver objectives of the State and the CMS. In accordance with the HMP §1115 Demonstration Waiver Special Terms and Conditions, on December 16, 2019, the State submitted an initial version of IHPI's evaluation design for the demonstration period ending December 31, 2023. The evaluation design received final approval from CMS on July 15, 2021.

Demonstration evaluation activities for the Healthy Michigan Plan are conducted by an interdisciplinary team of researchers from the IHPI. Below is a summary of the key activities for the CY2022 third quarterly report:

Objective: Assessment of beneficiary experiences with HMP coverage and policies

During this quarter, the IHPI evaluation team continued discussions relative to longitudinal analyses of survey data to be included in the summative evaluation report.

Objective: Assess the impact of HMP on various outcomes through external data sources (credit data, BRFSS, ACS, HCUP, and Medicare cost report data).

The IHPI evaluation team continued preparing for analyses of credit data, including communicating with Experian regarding questions that arose about the data. Results of analyses utilizing BRFSS, ACS, HCUP, and Medicare cost report data were included in the draft interim evaluation report which was shared with BPHASA for their review July 1, 2022.

Objective: Develop and finalize interim evaluation report

The IHPI evaluation team made requested revisions to the draft interim evaluation report and shared an updated version with BPHASA in mid-August 2022. Team members presented results from the interim report as part of the MCAC meeting on August 24, 2022, and presented as part of the Healthy Michigan Plan Waiver Request Public Hearing on October 7, 2022.

Executive Summary

This Performance Monitoring Report (PMR) is produced by the Quality Improvement and Program Development (QIPD) Section of the Managed Care Plan Division (MCPD) to track quality, access, and utilization in the Michigan Medicaid program to better support high quality care for beneficiaries.

The Michigan Department of Health and Human Services (MDHHS) monitors the performance of the State's Medicaid Health Plans (MHPs) through 22 key performance measures aimed at improving the quality and efficiency of health care services provided to the Michigan residents enrolled in a Medicaid program. These measures include Healthy Michigan Plan (HMP) Measures, MDHHS Dental Measures, CMS Core Set Measures, HEDIS Measures, and Managed Care Quality Measures. This report focuses only on the following HMP Measures:

Healthy Michigan Plan (HMP) Measures							
Adults' Generic	Completion of	Outreach & Engagement	Transition into	Transition out of			
Drug Utilization	Annual HRA	to Facilitate Entry to PCP	Consistently Fail to	Consistently Fail to			
			Pay (CFP) Status	Pay (CFP) Status			

Data for these measures are represented on a quarterly basis. The body of the report contains a cross-plan analysis of the most current data available for each of these measures. Measurement Periods may vary and are based on the specifications for that individual measure. Appendix A contains specific three letter codes identifying each of the MHPs. Appendix B contains the one-year plan specific analysis for each measure.

MHPs are contractually obligated to achieve specified standards for most measures. The following table displays the number of MHPs meeting or exceeding the standards for the performance measure versus total MHPs, as reported in the Performance Monitoring Report, during the listed quarter for fiscal year 2022 unless otherwise noted.

Table 1: Fiscal Year 2022¹

Transition out of CFP Status – Cohort 3	9/9	8/9	6/8	8/8	8/8	9/9	8/8	9/9

¹ Results with a denominator less than 9 for the Transition into or out of CFP Status measure do not include those with a result of "N/A".

October 2022 HMP 3

_

Healthy Michigan Plan Enrollment

Michigan Medicaid Managed Care (HMP-MC) enrollment has remained steady over the past year. In September 2022, enrollment was 788,335, up 21,706 enrollees (2.8%) from October 2021. An increase of 1,844 enrollees (0.2%) was realized between August 2022 and September 2022.

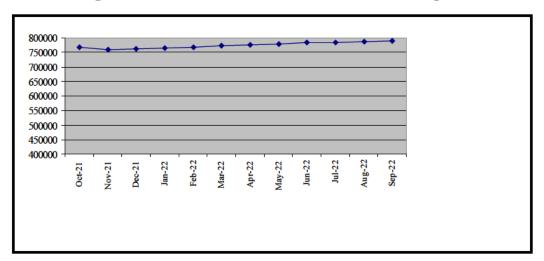

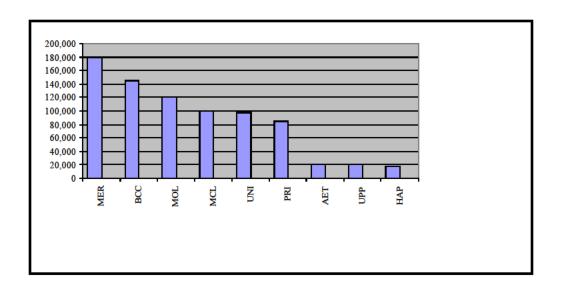

Figure 1: HMP-MC Enrollment, October 2021 – September 2022

Medicaid Health Plan News

The Performance Monitoring Report contains data for all Michigan Medicaid Health Plans, where data is available. Ten Medicaid Health Plans are contracted with the State of Michigan to provide comprehensive health care services.

As of October 1, 2021, Total Health Care (THC) is no longer an active Medicaid Health Plan. However, their information will continue to appear in the quarterly PMRs until such data is no longer available.

Cross-Plan Performance Monitoring Analyses

The following section includes a cross-plan analysis for each performance measure. An analysis of the most current data available for each performance measure is included. For detailed questions regarding measurement periods or standards, see the Performance Monitoring Specifications.

Adults' Generic Drug Utilization

Measure

The percentage of generic prescriptions filled for adult members of health plans during the measurement period.

Standard

N/A – Informational Only

Measurement Period February 2022 – April 2022

Data Source

MDHHS Data Warehouse

Measurement Frequency

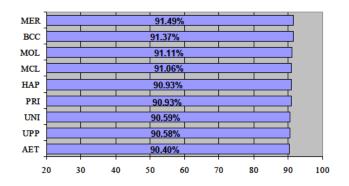

Quarterly

Summary: Results ranged from 90.40% to 91.49%.

Table 2: Comparison across Medicaid Programs

Medicaid Program		Denominator	Percentage
Michigan Medicaid All	3,959,261	4,345,848	91.10%
Fee for Service (FFS) only	4,669	5,158	90.52%

Adult's Generic Drug Utilization Percentages

^{*}Numerator depicts the number of eligible beneficiaries who had generic prescriptions filled. Denominator depicts the total number of eligible beneficiaries.

Completion of Annual Health Risk Assessment (HRA)

Measure

The percentage of Healthy Michigan Plan members enrolled in a health plan who had an incentive eligible Health Risk Assessment (HRA) completed during the measurement period.

Standard

At or above 12% (as shown on bar graph below) April 2021 – March 2022

Data Source Measurement Frequency

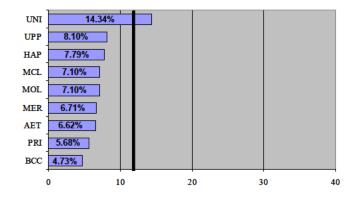

MDHHS Data Warehouse Quarterly

Summary: One plan (UNI), met or exceeded the standard, while eight plans (AET, BCC, HAP, MCL, MER, MOL, PRI, and UPP), did not. Results ranged from 4.73% to 14.34%.

Table 3: Program Total

Medicaid Program Numerator		Denominator	Percentage	
HMP-MC	50,110	661,481	7.58%

Measurement Period

Completion of Annual HRA Percentages

^{*}Numerator depicts the number of eligible beneficiaries who completed at least one incentive eligible HRA with an attestation date during the measurement period. Denominator depicts the total number of eligible beneficiaries.

Outreach and Engagement to Facilitate Entry to Primary Care

Measure

The percentage of Healthy Michigan Plan members who have an ambulatory or preventive care visit within 150 days of enrollment into a health plan who had not previously had an ambulatory or preventive care visit since enrollment in Healthy Michigan Plan.

Standard Enrollment Dates

At or above 50% (as shown on bar graph below) October 2021 – December 2021

Data Source Measurement Frequency

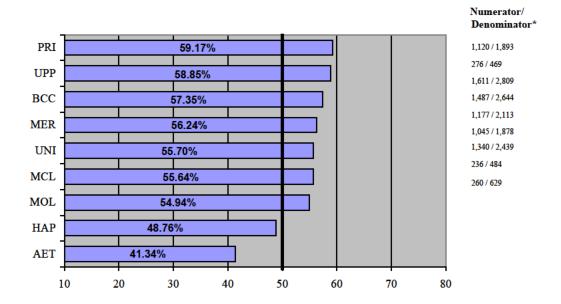

MDHHS Data Warehouse Quarterly

Summary: Seven plans (BCC, MCL, MER, MOL, PRI, UNI, and UPP) met or exceeded the standards, while one two plans (AET and HAP) did not. Results ranged from 41.34% to 59.17%.

Table 4: Program Total²

Medicaid Program	Numerator	Denominator	Percentage

Figure 5: Outreach & Engagement to Facilitate Entry to Primary Care

Outreach & Engagement to Facilitate Entry to Primary Care Percentages

October 2022 HMP 8

_

^{*}Numerator depicts the number of eligible beneficiaries who had an ambulatory or preventive care visit within 150 days of enrollment in a health plan. Denominator depicts the total number of eligible beneficiaries.

² This includes visits during the HMP FFS period prior to enrollment in a Medicaid health plan.

Transition into Consistently Fail to Pay (CFP) Status

Measure

The percentage of Healthy Michigan Plan members who transitioned from non-CFP status into CFP status during the last quarter of the measurement period.

Standard **Measurement Period**

Income level over 100% FPL – At or **below** 30% Income level up to 100% FPL – At or **below** 7%

August 2021 – September 2022

Data Source Measurement Frequency MDHHS Data Warehouse

Quarterly

**This is a reverse measure. A lower rate indicates better performance.

Summary:

In Cohort 1, for income levels over 100% FPL, all plans met or exceeded the standard. Results ranged from 5.82 to 9.60%. For income levels up to 100% FPL, all plans met or exceeded the standard. Results ranged from 3.07% to 4.95%.

In *Cohort 2*, for income levels over 100% FPL, all plans met or exceeded the standard. Results ranged from 4.49% to 8.79%. For income levels up to 100% FPL, all plans met or exceeded the standard. Results ranged from 3.20% to 4.19%.

In Cohort 3, for income levels over 100% FPL, all plans met or exceeded the standard. Results ranged from 5.05% to 13.49%. For income levels up to 100% FPL, all plans met or exceeded the standard. Results ranged from 2.63% to 4.91%.

Transition out of Consistently Fail to Pay (CFP) Status

Measure

The percentage of Healthy Michigan Plan members who transitioned from CFP status to non-CFP status during the last quarter of the measurement period.

Standard Measurement Period

Income level over 100% FPL – At or above 2% Income level up to 100% FPL – At or above 2%

August 2021 – September 2022

Data Source Measurement Frequency

MDHHS Data Warehouse Quarterly

Summary:

In *Cohort 1*, for income levels over 100% FPL, all plans met or exceeded the standard. Results ranged from 2.69 to 8.26%. For income levels up to 100% FPL, all plans met or exceeded the standard. Results ranged from 4.49% to 5.79%.

In *Cohort 2*, for income levels over 100% FPL, all plans (without a rate of "N/A) met or exceeded the standard. Results ranged from 4.24% to 7.28%. For income levels up to 100% FPL, all plans met or exceeded the standard. Results ranged from 2.00% to 5.47%.

In *Cohort 3*, for income levels over 100% FPL, all plans (without a rate of "N/A) met or exceeded the standard. Results ranged from 2.50% to 7.14%. For income levels up to 100% FPL, all plans met or exceeded the standards. Results ranged from 2.70% to 4.38%.

Appendix A: Three Letter Medicaid Health Plan Codes

Below is a list of three letter codes established by MDHHS identifying each Medicaid Health Plan.

AET	Aetna Better Health of Michigan
BCC	Blue Cross Complete of Michigan
HAP	HAP Empowered
MCL	McLaren Health Plan
MER	Meridian Health Plan of Michigan
MOL	Molina Healthcare of Michigan
PRI	Priority Health Choice
THC	Total Health Care
UNI	UnitedHealthcare Community Plan
UPP	Upper Peninsula Health Plan

Executive Summary

This Dental Performance Monitoring Report (PMR) is produced by the Quality Improvement and Program Development (QIPD) Section of the Managed Care Plan Division (MCPD) to track quality, access, and utilization in the Michigan Medicaid program to better support high quality care for beneficiaries.

The Michigan Department of Health and Human Services (MDHHS) monitors the performance of the State's Medicaid Health Plans (MHPs) through 22 key performance measures aimed at improving the quality and efficiency of health care services provided to the Michigan residents enrolled in a Medicaid program. These measures include Healthy Michigan Plan (HMP) Measures, MDHHS Dental Measure, CMS Core Set Measures, HEDIS Measures, and Managed Care Quality Measures. This report focuses only on the following MDHHS Dental Measures:

MDHHS Dental Measures				
Diagnostic Dental Services	Preventive Dental Services	Restorative (Dental Filings) Dental Services		
Comprehensive Diabetes Care: Diagnostic Dental Exam	Comprehensive Diabetes Care: Preventive Dental Visit	Comprehensive Diabetes Care: Restorative Dental Visit		
Diagnostic Dental Visits in Pregnant Women	Preventive Dental Visits in Pregnant Women	Restorative Dental Visits in Pregnant Women		
Adults: Any Dental				

Data for these measures will be represented on a quarterly basis. The body of the report contains a cross-plan analysis of the most current data available for each of these measures. Measurement Periods may vary and are based on the specifications for that individual measure. Appendix A contains specific three letter codes identifying each of the MHPs. Appendix B contains the one-year plan specific analysis for each measure.

The following table displays the number of MHPs meeting or exceeding the standards for the performance measure versus total MHPs, as reported in the Performance Monitoring Report, during the listed quarter for fiscal year 2022 unless otherwise noted.

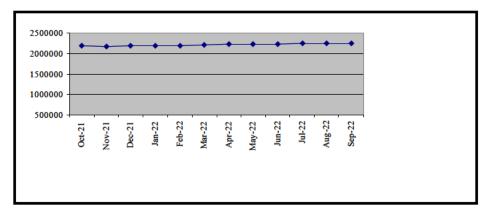

Performance Monitoring Report Table 1: Fiscal Year 2022¹

Quarterly Reported Measures	Reported in 1 st Quarter	Reported in 2 nd Quarter	Reported in 3 rd Quarter	Reported in 4 th Quarter
Diagnostic Dental Services	0/10	0/10	0/9	0/9
Preventive Dental Services	2/10	2/10	2/9	2/9
Restorative (Dental Fillings) Dental Services	0/10	0/10	0/10	0/9

Adults: Any Dental Visit	N/A	N/A	N/A	N/A

Managed Care Enrollment

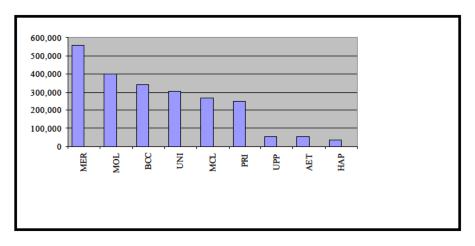

Michigan Medicaid Managed Care (MA-MC) enrollment has remained steady over the past year. In September 2022 enrollment was 2,257,087 up 71,281 enrollees (3.3%) from October 2021. An increase of 4,986 enrollees (0.2%) was realized between August 2022 and September 2022.

Figure 1: Medicaid Managed Care Enrollment, October 2021 – September 2022

¹ N/A will be shown for measures where the standard is Informational Only. Also, measures with a denominator less than 10 do not include Total Health Care (THC).

Figure 2: Medicaid Managed Care Enrollment by Health Plan, September 2022

Medicaid Health Plan News

The Performance Monitoring Report contains data for all Michigan Medicaid Health Plans, where data is available. Nine Medicaid Health Plans are contracted with the State of Michigan to provide comprehensive health care services.

As of October 1, 2021, Total Health Care (THC) is no longer an active Medicaid Health Plan. However, their information will continue to appear in the quarterly PMRs until such data is no longer available.

Cross-Plan Performance Monitoring Analyses

The following section includes a cross-plan analysis for each performance measure. An analysis of the most current data available for each performance measure is included. For detailed questions regarding measurement periods or standards, see the Performance Monitoring Specifications.

Diagnostic Dental Services

Measure

The percentage of Healthy Michigan Plan members between the ages of 19 and 64 who received at least one diagnostic dental service within the measurement period.

Standard Measurement Period
At or above 30% (as shown on bar graph below) April 2021 – March 2022

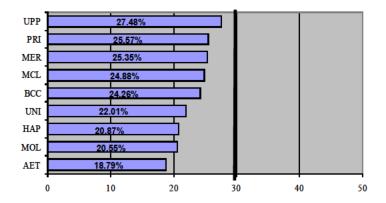

Data SourceMeasurement FrequencyMDHHS Data WarehouseQuarterly

Summary: None of the health plans met or exceeded the standard. Results ranged from 18.79% to 27.48%.

Table 2: Comparison across Medicaid Programs

Medicaid Program	Numerator	Denominator	Percentage
HMP Fee for Service (FFS)	1,286	10,442	12.32%
Only			
HMP Managed Care (MC)	147,079	618,837	23.77%
Only

Diagnostic Dental Services Percentages

^{*}Numerator depicts the number of eligible beneficiaries between the ages of 19 and 64 who had at least one diagnostic dental service. Denominator depicts the total number of eligible beneficiaries.

Preventive Dental Services

Measure

The percentage of Healthy Michigan Plan members between the ages of 19 and 64 who received at least one preventive dental service within the measurement period.

Standard Measurement Period
At or above 17% (as shown on bar graph below) April 2021 – March 2022

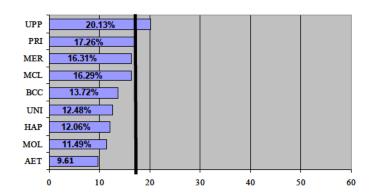

Data SourceMeasurement FrequencyMDHHS Data WarehouseQuarterly

Summary: Two plans (**PRI and UPP**) met or exceeded the standard, while seven plans (AET, BCC, HAP, MCL, MER, MOL, and UNI), did not. Results ranged from 9.61% to 20.13%.

Table 3: Comparison across Medicaid Programs

Medicaid Program	Numerator	Denominator	Percentage
HMP Fee for Service (FFS)	586	10,442	5.61%
Only			
HMP Managed Care (MC)	89,363	618,837	14.44%

Preventive Dental Services Percentages

^{*}Numerator depicts the number of eligible beneficiaries between the ages of 19 and 64 who had at least one preventive dental service. Denominator depicts the total number of eligible beneficiaries.

Restorative (Dental Fillings) Services

Measure

The percentage of total eligible Healthy Michigan Plan members between the ages of 19 and 64 who received at least one restorative (dental fillings) dental service within the measurement period.

Standard Measurement Period
At or above 14% (as shown on bar graph below) April 2021 – March 2022

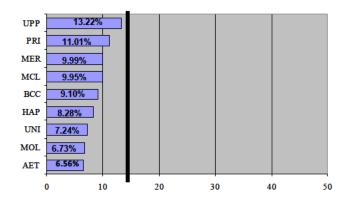

Data SourceMeasurement FrequencyMDHHS Data WarehouseQuarterly

Summary: None of the plan met or exceeded the standard. Results ranged from 6.56% to 13.22%.

Introduction

Pursuant to PA 208 of 2018, sections 105d(1)e and 105d(12), a Health Risk Assessment has been developed for the Healthy Michigan Plan (form DCH-1315). It is designed as a two part document, where the beneficiary completes the first three sections and the health care provider completes the last section. It includes questions on a wide range of health issues, a readiness to change assessment, and a discussion about behavior change between the beneficiary and the health care provider. The topics in the assessment cover all of the behaviors identified in PA 208 including alcohol use, substance use disorders, tobacco use, obesity and immunizations. It also includes the recommended healthy behaviors identified in the Michigan Health and Wellness 4X4 Plan (5-year plan 2012-2017), which include annual physicals, healthy diet, regular physical exercise and reducing tobacco use. As of April 2018, three new questions were added on the topics of annual dental visit, access to transportation and unmet basic needs. The question on anxiety and depression was removed and replaced with a question on chronic stress based on feedback regarding the most meaningful ways to ask about self-reported behavioral health status.

Health Risk Assessment Part 1

Health Risk Assessments completion through Michigan ENROLLS

In February 2014, the enrollment broker for the Michigan Department of Health and Human Services (Michigan ENROLLS) began administering the first section of the Health Risk Assessment to Healthy Michigan Plan beneficiaries who call to enroll in a health plan. In addition to asking new beneficiaries all of the questions in Section 1 of the Health Risk Assessment, call center staff inform beneficiaries that an annual preventive visit, including completion of the last three sections of the Health Risk Assessment, is a covered benefit of the Healthy Michigan Plan.

Completion of the Health Risk Assessment is voluntary; callers may refuse to answer some or all of the questions. Beneficiaries who are auto-assigned into a health plan are not surveyed. Survey results from Michigan ENROLLS are updated daily in CareConnect360 for secure transmission to the appropriate health plan to assist with outreach and care management.

The completion of the Health Risk Assessment with the enrollment broker was temporarily put on hold in May 2019.

Health Risk Assessment Part 2

<u>Health Risk Assessments completion with Provider Attestation</u>

In April 2014, the Healthy Michigan Plan was launched, and an initial preventive health visit to a primary care provider was promoted for all new beneficiaries. Beneficiaries were also encouraged to complete the last section of the Health Risk Assessment at this initial appointment. This final section of the Health Risk Assessment is designed as a tool for identifying annual healthy behavior goals.

Completion of this section of the Health Risk Assessment is also voluntary. Healthy Michigan Plan Beneficiaries who complete a Health Risk Assessment with a health care provider attestation and agree to maintain or address healthy behaviors are eligible for an incentive. Beginning in April 2018, in discussion with the beneficiary, health care providers also choose between 4 statements to attest to whether the beneficiary achieved or made significant progress towards the healthy behavior goal(s) he or she had previously selected to work on the year before. Only beneficiaries who both made significant progress towards the previous year goal AND select one or more goals for the upcoming year are eligible for an incentive.

The data displayed in Part 2 of this report reflect the healthy behavior goals selected in the final section of the Health Risk Assessment. As shown in Table 13, a total of 18,071 Health Risk Assessments were completed in the April-June 2022 quarter. Health Risk Assessment completion is reported by age, gender and Federal Poverty Level in Table 14.

Among beneficiaries who completed the Health Risk Assessment, 14,288 or 79.1% of beneficiaries agreed to address health risk behaviors. In addition, 3,404 or 18.8% of beneficiaries who completed the Health Risk Assessment chose to maintain current healthy behaviors, meaning that 97.9% of beneficiaries are choosing to address or maintain healthy behaviors. The healthy behaviors goal statements selected are reported in Table 15. Healthy behavior goal statements are also reported by age and FPL in Figures 15-2 and 15-3.

Of the 14,288 beneficiaries who agreed to address health risk behaviors, 52.2% chose to address more than one healthy behavior. Tables 13 and 14 report the most frequently selected health risk behaviors to address, alone and in combination.

Health Risk Assessment Completion with Health Care Provider

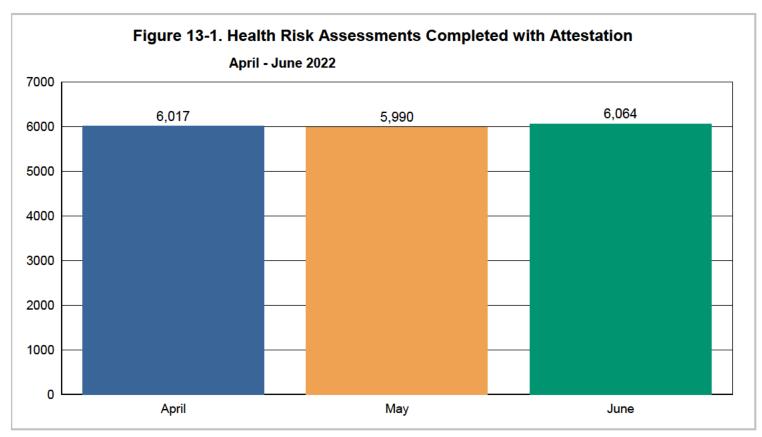

Table 13. Count of Health Risk Assessments (HRA) Completed with Attestation by Month submitted

MONTH	COMPLETE	TOTAL
July 2021	6,640	465,830

TOTAL	18,071	100.00%

Healthy Behaviors Statement Selection

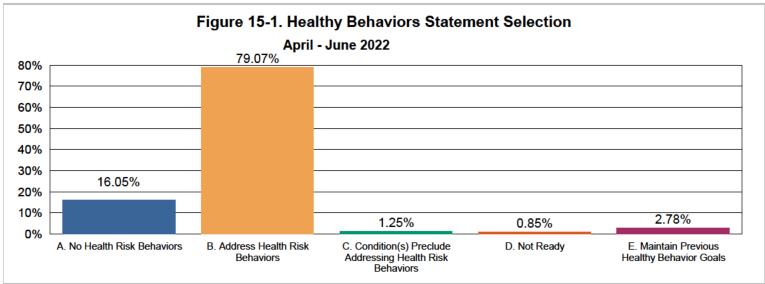

<u>Section 4. Healthy Behaviors:</u> In discussion with the beneficiary, health care providers choose between 5 statements to attest to the healthy behaviors goals that the beneficiary will strive for this year. The 5 statements are:

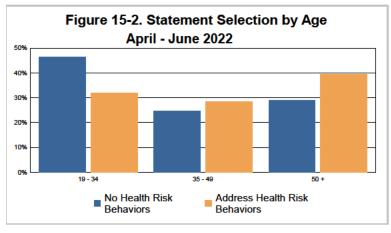

- A. Patient does not have health risk behaviors that need to be addressed at this time.
- B. Patient has identified at least one behavior to address over the next year to improve their health.
- C. Patient has a serious medical, behavioral or social condition or conditions which precludes addressing unhealthy behaviors at this time.
- D. Unhealthy behaviors have been identified, patient's readiness to change has been assessed, and patient is not ready to make changes at this time.
- E. Patient has committed to maintain their previously achieved Healthy Behavior Goal(s).

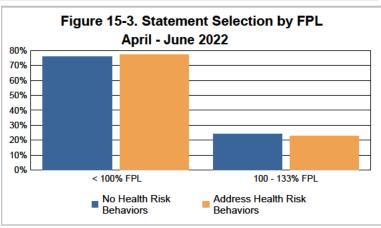

Figures 15-1 through 15-3 show Healthy Behaviors Statement Selections for the total population, and by age and FPL.

Table 15. Healthy Behaviors Statement Selection April - June 2022

CHECK-UP	TOTAL	PERCENT
A. No Health Risk Behaviors	2,901	16.05%
B. Address Health Risk Behaviors	14,288	79.07%
C. Condition(s) Preclude Addressing Health Risk Behaviors	225	1.25%
D. Not Ready	154	0.85%
E. Maintain Previous Healthy Behavior Goals	503	2.78%
TOTAL	18,071	100.00%

Selection of Health Risk Behaviors to Address

<u>Section 4. Healthy Behaviors:</u> In discussion with the beneficiary, when Statement B, "Patient has identified at least one behavior they intend to address over the next year to improve their health" is selected, providers choose one or more of the following 11 statements to identify the healthy behaviors the beneficiary has chosen to address for the year:

- 1. Increase physical activity, Learn more about nutrition and improve diet, and/or weight loss.
- 2. Reduce/quit tobacco use.
- 3. Annual Influenza vaccine.
- Agrees to follow-up appointment for screening or management (if necessary) of hypertension, cholesterol and/or diabetes.
- 5. Reduce/quit alcohol consumption.
- 6. Treatment for Substance Use Disorder.
- 7. Dental Visit.
- 8. Follow-up appointment for maternity care/reproductive health.
- 9. Follow-up appointment for recommended cancer or other preventative screening(s).
- 10. Follow-up appointment for mental health/behavioral health.
- 11. Other: explain _____

Of the 14,288 HRAs submitted through April-June 2022 where the beneficiary chose to address health risk behaviors, 52.18% of beneficiaries chose more than one healthy behavior to address. The top 10 most selected behavior combinations and the rate that each behavior was selected in combination and alone are presented in the tables below:

Table 16. Health Risk Behaviors Selected in Combination and Alone

Health Risk Behavior	Chose this behavior and at least one more	Chose ONLY this behavior
Weight Loss	63.97%	24.94%
Tobacco Cessation	22.70%	5.54%
Immunization Status (Annual Flu Vaccine)	25.72%	2.40%
Follow-up for Chronic Conditions	30.52%	4.30%
Addressing Alcohol Abuse	2.91%	0.30%
Addressing Substance Abuse	1.45%	0.16%
Dental visit	18.49%	3.14%
Follow-up appointment for maternity care/reproductive health	1.88%	0.20%
Follow-up appointment for recommended cancer or other preventative screening(s)	17.86%	2.07%
Follow-up appointment for mental health/behavioral health	8.83%	2.26%
Other	6.98%	2.51%

Table 17. Top 10 Most Selected Health Risk Behavior Combinations

Health Risk Behavior Combination	Count	Percent
1. Weight Loss ONLY	3,564	24.94%
2. Tobacco Cessation ONLY	791	5.54%
3. Weight Loss, Follow-up for Chronic Conditions	723	5.06%
4. Follow-up for Chronic Conditions	615	4.30%
5. Weight Loss, Immunization Status	571	4.00%
6. Weight Loss, Tobacco Cessation	427	2.99%
7. Other	359	2.51%
8. Immunization Status (Annual Flu Vaccine)	343	2.40%
9. Follow-up for Behavioral Health	323	2.26%
10. Cancer Screening	295	2.07%
Total for Top 10	8,011	56.07%
Total for All Other Combinations	6,277	43.93%
Total	14,288	100.00%

Healthy Behaviors Goals Progress

<u>Section 4. Healthy Behaviors Goals Progress:</u> In discussion with the patient, health care providers choose between 4 statements to attest to whether the patient achieved or made significant progress towards the health behavior goal(s) he or she had previously selected to work on the year before. The 4 statements are:

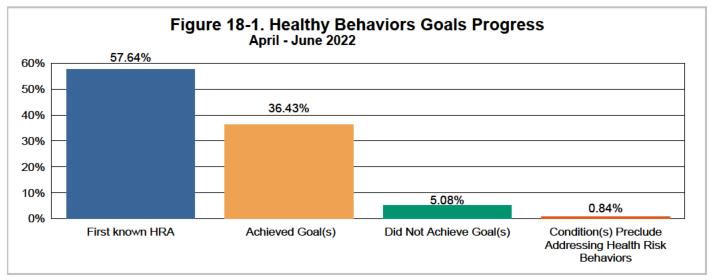

- A. Not applicable this is the first known Healthy Michigan Plan Health Risk Assessment for this patient.
- B. Yes.
- C. No.
- D. Patient had a serious medical, behavioral, or social condition or conditions which precluded addressing unhealthy behaviors.

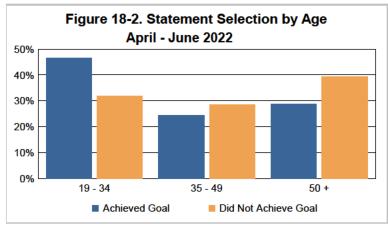

914 Health Risk Assessments were submitted during this quarter where this question was not available because the Healthy Behavior Goals Progress question was not available on the original form of the Health Risk Assessment.

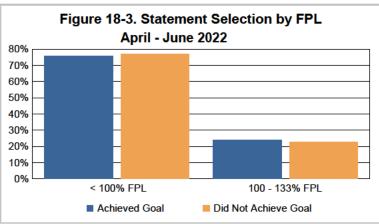

Figures 18-1 through 18-3 show Healthy Behavior Goals Progress for the total population, and by age and FPL.

Table 18. Healthy Behaviors Goals Progress
April - June 2022

GOALS PROGRESS	TOTAL	PERCENT
A. First known HRA	9,890	57.64%
B. Achieved Goal(s)	6,251	36.43%
C. Did Not Achieve Goal(s)	872	5.08%
D. Condition(s) Preclude Addressing Health Risk Behaviors	144	0.84%
TOTAL	17,157	100.00%

Additional Healthy Behaviors

To improve the ability of individuals to participate in the Healthy Behaviors Incentives Program, additional mechanisms to document healthy behaviors were added April 1, 2018 for individuals who may have completed healthy behavior activities but do not have a submitted Health Risk Assessment for documentation. The mechanisms include documented participation in approved wellness and population health management programs and claims/encounters review for beneficiaries who utilize preventive and wellness services. Completion of these additional healthy behavior options is also voluntary. The data displayed in this section of the report reflect counts of the number of wellness programs and preventive services completed by beneficiaries. Beneficiaries may choose to complete one or more of these programs in a given 12 month period, however, they will still only be eligible for one incentive per year. The last section of this report focuses on the number of distinct HMP beneficiaries who completed one or more healthy behavior activities.

A total of 3,892 wellness programs were completed in the April-June 2022 quarter. Wellness Program completion is reported by age, gender and Federal Poverty Level in Table 20. Wellness Programs are reported by health domain in Table 21.

A total of 362,762 Preventive Services were completed in the April-June 2022 quarter. Preventive Services completion is reported by age, gender and Federal Poverty Level in Table 23. Preventive Services are reported by health domain in Table 24.

A total of 369,917 distinct HMP beneficiaries completed at least one healthy behavior in the previous twelve months, July 01, 2021-June 30, 2022. Healthy Behavior completion is reported by type of healthy behavior activity in Table 25.

Wellness Programs

Wellness Programs: The Managed Care Plans offer a range of wellness and population health management programs to their members as part of the Healthy Behaviors Incentives Program. All Managed Care Plans offer a tobacco cessation program which follows standardized criteria. For this reason, 94.35% of wellness programs reported are tobacco cessation programs. Completed wellness programs by program type are displayed in Table 21 for the quarter April-June 2022.

Table 21. Wellness Program Completition by Type of Wellness Program

Michigan Department of Health and Human Services Behavioral and Physical Health and Aging Services Administration

Medical Care Advisory Council

Meeting Minutes

Date: Wednesday, August 24, 2022

Time: 1:00 p.m. – 3:00 p.m.

Where: Teams Meeting

Attendees: Council Members: Alison Hirschel, Amber Bellazaire, Amy Zaagman, April

Stopczynski, Bill Mayer, Deb Brinson, Dianne Haas, Dominick Pallone, Farah Jalloul, Kim Singh, Kristen Reese, Marion Owen, Melissa Samuel, Philip

Bergquist, Salli Pung, Barry Cargill, David Herbel

<u>Staff</u>: Katie Commey, Lyndia Deromedi, Pamela Diebolt, Erin Emerson, Amy Epkey, Elizabeth Gallagher, Farah Hanley, Eric Houghtaling, Nicole Hudson, Laura Kilfoyle, Marie LaPres, Alymamah Mashra, Alicia McGirl, Emily Morris, Nell Newton, Deja Peterson, Mary Schrauben, Carmen Starkweather, Meghan Vanderstelt, Scott Wamsley, Jeffery Wieferich, Emily Morris, Jed Miller, Steven Prichard

<u>Other Attendees:</u> Virginia Gibson, Kelly Bidelman, John Ayanian, Erica Solway, Stephanie Myers, Pat Anderson, Tiffany Stone, Sarah Clark, Cathy Sunlin, Erin Beathard, Jackie Prokop

Welcome, Introductions, Announcements

Bill Mayer opened the meeting.

FY23 Budget Update

Amy Epkey shared that since the FY23 budget has been signed into law, Michigan Department of Health and Human Services (MDHHS) staff have been working to utilize appropriated funds. Meeting attendees were invited to submit any questions related to budget implementation.

Healthy Michigan Plan Renewal Update

Erin Emerson provided an update on the Healthy Michigan Plan Waiver renewal process. A PowerPoint presentation was shared with attendees and the document was discussed. Formal public comments are due by October 31, 2022; however, MDHHS will continue to accept comments throughout the renewal process. Comments may be submitted to healthymichigan.gov. An additional public hearing will be held in September or early October and will be announced on the MDHHS website at www.michigan.gov/healthymichiganplan >> 2023 HMP Demonstration Waiver Extension Request Information.

Medical Care Advisory Council

Meeting Minutes August 24, 2022 Page 2

In response to a question about the five-year length of the waiver renewal request, Erin Emerson responded that CMS has limited waiver renewal periods to five years in the past, and 10-year extensions have only been granted to a couple of states. However, she offered the possibility of discussing a long-term extension with CMS prior to the formal submission of the waiver request in December 2022. In response to a follow-up question regarding cost-sharing requirements, Ms. Emerson noted that MDHHS is required by state law to include a request for cost-sharing provisions in the waiver application submission, but the state anticipates having a discussion on this topic with CMS staff.

In addition, staff from the University of Michigan's Institute for Healthcare Policy & Innovation (IHPI) shared findings from the Health Michigan Plan Interim Evaluation Report. A PowerPoint presentation was provided and the document was discussed.

A meeting attendee asked if the researchers discussed identifying and sharing best practices for the expansion of care management and community health worker (CHW) use during the interviews that were conducted for the study. In response, IHPI staff shared that while they don't recall that specific point being discussed, many interviewees shared the belief that the Healthy Michigan Plan provided the incentive for many entities to work together. One example of this cooperation that was shared is in the increased integration of behavioral health and physical health services that have taken place within the University of Michigan's Primary Care Practice.

A meeting attendee also asked if the researcher's findings indicated that beneficiaries viewed cost-sharing requirements as a barrier to receiving care. In response, IHPI staff shared that 70-80 percent of interviewees for the study found it reasonable to share in some portion of the cost of medical care. Further, some beneficiaries shared that by contributing toward their care they could expect a higher quality and standard of care.

A meeting attendee asked if language or cultural differences may act as a barrier to beneficiaries completing the Health Risk Assessment (HRA) process. In response, IHPI staff shared that while the beneficiaries that were interviewed did not have concerns with this issue, some of the providers surveyed indicated they employed staff who represent the different cultural backgrounds of their patient population to better facilitate the HRA process. In addition, IHPI staff noted that the interviews for the study were conducted in English, Spanish and Arabic to provide better opportunity for beneficiaries to voice any concerns.

COVID-19 Updates

Public Health Emergency (PHE) Extension

On July 15, 2022, the Biden administration extended the current COVID-19 PHE through October 2022. States will receive 60 days' notice prior to the termination of the PHE.

Medical Care Advisory Council

Meeting Minutes August 24, 2022 Page 3

Novovax Vaccine

MDHHS staff from the Public Health Administration shared that the U.S. Food & Drug Administration (FDA) has granted Emergency Use Authorization (EUA) for the Novavax COVID-19 vaccine for use in individuals age 12 years and older. In contrast to the other mRNA COVID-19 vaccines that are currently available, the Novavax vaccine is protein-based. It is currently available for ordering by all Medicaid-enrolled providers and is able to be stored at standard vaccine refrigeration temperatures. As of August 24, 2022, 130 doses of the Novavax vaccine have been administered in Michigan. MDHHS staff and meeting attendees continued to discuss this issue.

Long-Term Care

Special Needs Plan Final Rule for MI Health Link

On April 29, 2022, CMS released the Contract Year (CY) 2023 Medicare Advantage and Part D final rule that, in part, would require the State of Michigan to discontinue the MI Health Link program unless the State of Michigan chooses to transition the MI Health Link demonstration to a dual special needs program (D-SNP). Under these requirements, states must submit a transition plan to CMS by October 1, 2022, while the current MI Health Link program may continue to operate through 2025 during the transition period. MDHHS staff are currently working to develop a transition plan for submission to CMS. MDHHS staff and meeting attendees continued to discuss this issue at length.

Michigan Health Endowment Fund (MHEF) Health Equity Grant Update

MDHHS has received a grant from MHEF to help ensure equitable access to home and community-based services (HCBS) programs. As part of this process, MDHHS staff are currently working with partners from the University of Michigan and Michigan State University to examine data on health equity in these programs to identify strategies for improving outcomes, as well as engaging with stakeholder and advisory groups.

Electronic Visit Verification (EVV) Update

MDHHS has issued a request for proposals (RFP) for the implementation of an EVV system for providers of personal care services, with responses due by September 16, 2022. Additional information about this process is available on the MDHHS website at www.michigan.gov/evv.

Infant Formula Shortage

Infant formula shortages continue to be an issue across the State of Michigan. The Abbott factory in Sturgis, Michigan resumed its operations on June 4, 2022, but operations were once again discontinued due to heavy rains and plant flooding. The MDHHS Women, Infants and Children (WIC) program continues to monitor different options for addressing shortages across the state, and has taken actions consistent with those of other statewide agencies to respond to

Medical Care Advisory Council

this issue.

Monkeypox Update

MDHHS staff from the Public Health Administration gave an update on the department's response to the Monkeypox virus. A PowerPoint presentation was provided and the document was discussed.

Policy Updates

A policy update handout was distributed and the following policies were discussed:

- Proposed Policy 2210-Doula Medicaid Coverage of Doula Services
- Proposed Policy 2223-Telemedicine Telemedicine Policy Post-COVID-19 Public Health Emergency

In addition, MDHHS is working to develop policy to enroll Community Health Workers (CHWs) as a new Medicaid provider type as required by language included in the FY23 budget.

General Updates

A meeting attendee requested that future updates be provided regarding the change to attending/ordering/referring claim editing that was referenced in bulletin MSA 21-45.

The meeting was adjourned at 3:00 p.m.
