

**Medicaid Section 1115 Substance Use Disorder Demonstrations
Monitoring Report Template**

Note: PRA Disclosure Statement to be added here

1. Title page for the state’s substance use disorder (SUD) demonstration or the SUD component of the broader demonstration

The title page is a brief form that the state completed as part of its monitoring protocol. The title page will be populated with the information from the state’s approved monitoring protocol. The state should complete the remaining two rows. Definitions for certain rows are below the table.

State	Rhode Island
Demonstration name	Rhode Island Comprehensive Demonstration: Opioid Use Disorder/Substance Use Disorder Program
Approval period for section 1115 demonstration	1/1/2019 – 12/31/2024
SUD demonstration start date^a	1/12019
Implementation date of SUD demonstration, if different from SUD demonstration start date^b	7/1/2019
SUD (or if broader demonstration, then SUD -related) demonstration goals and objectives	<p>Effective upon CMS’ approval of the OUD/SUD Implementation Plan Protocol, the demonstration benefit package for Rhode Island Medicaid recipients will include OUD/SUD treatment services, including short term residential services provided in residential and inpatient treatment settings that qualify as an Institution for Mental Diseases (IMD), which are not otherwise matchable expenditures under section 1903 of the Act. The state will be eligible to receive FFP for Rhode Island Medicaid recipients who are short-term residents in IMDs under the terms of this demonstration for coverage of medical assistance, including OUD/SUD benefits that would otherwise be matchable if the beneficiary were not residing in an IMD.</p> <p>Rhode Island must aim for a statewide average length of stay of 30 days in residential treatment settings, to be monitored pursuant to the SUD Monitoring Plan as outlined below, to ensure short-term residential treatment stays. Under this demonstration, beneficiaries will have access to high quality, evidence-based OUD and other SUD treatment services ranging from medically supervised withdrawal management to on-going chronic care for these conditions in cost-effective settings while also improving care coordination and care for comorbid physical and mental health conditions.</p> <p>The coverage of OUD/SUD treatment services and withdrawal management during short term residential and inpatient stays in IMDs will expand Rhode Island’s current SUD benefit package available to all Rhode Island Medicaid recipients, including peer support services authorized under 1115 demonstration authority as described in STC 99. Room and board costs are not considered allowable costs for residential treatment service providers unless they qualify as inpatient facilities under section 1905(a) of the Act.</p>

SUD demonstration year and quarter	SUD DY6Q2
Reporting period	03/01/2024-06/30/2024

^a **SUD demonstration start date:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state’s STCs at time of SUD demonstration approval. For example, if the state’s STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on December 15, 2020, with an effective date of January 1, 2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

^b **Implementation date of SUD demonstration:** The date the state began claiming or will begin claiming federal financial participation for services provided to individuals in institutions for mental disease.

2. Executive summary

The executive summary should be reported in the fillable box below. It is intended for summary-level information only. The recommended word count is 500 words or less.

Quarterly Metrics that saw a +/-2% change in counts or rates from month to month in 2024 quarter 1 are as follows: Metric 3: Medicaid Beneficiaries with SUD Diagnosis, Metric 6: Any SUD Treatment, Metric 8: Outpatient Services, Metric 9: Intensive Outpatient and Partial Hospitalization Services, Metric 10: Residential and Inpatient Services, Metric 11: Withdrawal Management, Metric 12: Medication Assisted Treatment (MAT), Metric 23: Emergency Department Utilization for SUD per 1,000 Medicaid Beneficiaries, and Metric 24: Inpatient Stays for SUD per 1,000 Medicaid Beneficiaries.

Month-to-month change is not calculated due to small cell size <11 for Metric 7: Early Intervention.

For Metric 3, 6, 8, 9, 11, 12, 23, and 24 Rhode Island is not aware of specific factors that would have contributed to the month-to-month changes.

For Metric 10, the March increase may be related to the opening of a new residential facility, Galilee Mission, and the addition of beds at another facility. Rhode Island was not able to identify any external factors that led to the decrease from December 2023 to January

2024, such as changes in how many providers were operating or their service offerings. RI did determine that out of the 66 inpatient and residential facilities that submitted claims for services provided in December 2023, only 11 submitted claims for these services in January. However, RI has no reason to believe that these facilities made operational or policy changes that caused this. It is possible that for unknown reasons there was a much longer data lag than usual, such that the analysis missed the claims for January, but the state does not have a specific reason to think this would have happened.

13. Other SUD demonstration reporting		
13.1 General reporting requirements		
13.1.1 The state reports changes in its implementation of the demonstration that might necessitate a change to approved STCs, implementation plan, or monitoring protocol.	X	
13.1.2 The state anticipates the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes.	X	
13.1.3 Compared to the demonstration design and operational details, the state expects to make the following changes to: 13.1.3.a The schedule for completing and submitting monitoring reports	X	
13.1.3.b The content or completeness of submitted monitoring reports and/or future monitoring reports	X	
13.1.4 The state identified real or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation.	X	
13.1.5 Provide updates on the results of beneficiary satisfaction surveys, if conducted during the reporting year, including updates on grievances and appeals from beneficiaries, per 42 CFR § 431.428(a)5.	X
