Nathan Checketts State Medicaid Director Division of Health Care Financing Utah Department of Health PO Box 144102 Salt Lake City, UT 84114-4102

Dear Mr. Checketts:

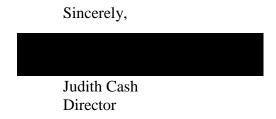

On March 13, 2020, the President of the United States issued a proclamation that the Coronavirus Disease 2019 (COVID-19) outbreak in the United States constitutes a national emergency by the authorities vested in him by the Constitution and the laws of the United States, including sections 201 and 301 of the National Emergencies Act (50 U.S.C. 1601 et seq.), and consistent with section 1135 of the Social Security Act (Act) (as amended (42 U.S.C. 1320b-5)). On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences of the COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. This authority took effect as of 6PM Eastern Standard Time on March 15, 2020, with a retroactive effective date of March 1, 2020.

Pursuant to the foregoing authority, CMS approved a State plan amendment adding section 7.5 Medicaid Disaster Relief for the COVID-19 National Emergency to your Medicaid state plan, as submitted under transmittal number (TN) UT-20-0009. This amendment during the period of the Presidential and Secretarial emergency declarations is retroactive to March 1, 2020, and provides for coverage of testing to diagnose or detect SARS-CoV-2, antibodies to SARS-CoV-2, or COVID-19, tests conducted in non-office settings such as parking lots are covered, exempting requirements in 42 CFR 440.30(b). Coverage also includes laboratory processing of self-collected test systems that the FDA has authorized for home use, if available to diagnose or detect SARS-CoV-2, antibodies to SARS-CoV-2, or COVID-19, even if those self-collected tests would not otherwise meet the requirements in § 440.30(a) or (b), as long as the self-collection of

the test is intended to avoid transmission of COVID-19. This allowance is in effect through the public health emergency period. The agency assures that newly added benefits or adjustments to benefits comply with all applicable statutory requirements, including the statewide requirements found at 1902(a)(1), comparability requirements found at 1902(a)(10)(B), and free choice of provider requirements found at 1902(a)(23).

With this letter, and attachment, we are approving coverage of the same foregoing services, under the same terms and for the same period, with respect to the current Alternative Benefit Plans (ABP) for the Adult Expansion Population which is authorized under your section 1115 demonstration, Primary Care Network (PCN) 11W001458. Attached is an amended ABP that provides for this new temporary coverage.

We appreciate your state's commitment to addressing the significant challenges posed by the COVID-19 pandemic and we look forward to our continued partnership in providing services to your state's Medicaid enrollees. Should the state have additional questions regarding the requests discussed above, your section 1115 Project Officer, Dina Payne is available to answer any questions.

Directly Observed Therapy (DOT)/Behavior Modification services will provide for directly observed administration of tuberculosis medication, which means the direct observation of patients swallowing anti-tuberculosis medication. Recipients must be assessed as medically appropriate for DOT based upon the recipient's risk of non-adherence to medication regimen necessary to cure and prevent the spread of an infectious, potentially fatal disease which may not respond to conventional therapies. Services shall be furnished five or more days per week, unless otherwise ordered by the physician in the recipient's plan of care. This service is provided in accordance with a therapeutic goal in the plan of care. The plan of care will include a behavior modification program to aid in establishing a pattern of adherence to treatment. The behavior modification program will be developed on an individual basis based on the patients history of non-compliance. Daily monitoring of adherence and behavior modification is necessary to ensure completion of the prescribed drug therapy, since inconsistent or incomplete treatment is likely to lead to drug resistance or reactivation, posing a major threat to the public health. DOT includes security services designed to encourage completion of medically necessary regimens of prescribed drugs by certain non-compliant TB infected individuals on an outpatient basis.

Retroactive to March 1, 2020, and through the end of the current public health emergency, including extensions, coverage of testing to diagnose or detect SARS-CoV-2, antibodies to SARS-CoV-2, or COVID-19, tests conducted in non-office settings such as parking lots are covered, exempting requirements in 42 CFR 440.30(b). Coverage also includes laboratory processing of self-collected test systems that the FDA has authorized for home use, if available to diagnose or detect SARS-CoV-2, antibodies to SARS-CoV-2, or COVID-19, even if those self-collected tests would not otherwise meet the requirements in § 440.30(a) or (b), as long as the self-collection of the test is intended to avoid transmission of COVID-19. This allowance is in effect through the public health emergency period. The agency assures that newly added benefits or adjustments to benefits comply with all applicable statutory requirements, including the statewide requirements found at 1902(a)(1), comparability requirements found at 1902(a)(10)(B), and free choice of provider requirements found at 1902(a)(23).
