2. Executive summary

The executive summary should be reported in the fillable box below. This executive summary is intended for summary level information only.

The State of Wisconsin was approved for the extension and amendment of the BadgerCare Reform Waiver as of October 31, 2018, authorizing the Wisconsin Division of Medicaid Services to operate the BadgerCare Reform Services through December 31, 2023.

The BadgerCare Reform demonstration primarily provides authority for the state to provide a robust benefit package to non-pregnant, non-disabled, non-elderly childless adults with incomes of up to and including 100 percent of the FPL. This demonstration approval continues coverage for this population for five years. It also allows Wisconsin to require these childless adult beneficiaries, ages 19 through 49, with certain exceptions, to participate in and timely document and report 80 hours per month of community engagement activities. Qualifying activities include employment, job training, community service, or enrollment in an allowable work program. The community engagement incentive will not apply to beneficiaries ages 50 and older so as to ensure alignment and consistency with the state's Supplemental Nutrition Assistance Program (SNAP) requirements, which is intended to minimize confusion for beneficiaries who may receive both SNAP and Medicaid. To help ensure the success of these beneficiaries, CMS is allowing states to align the community engagement requirements in Medicaid with the work requirements in other federal programs.

Per guidance from CMS, starting in DY7 the Transitional Medicaid Assistance (TMA) population is no longer considered a part of the target population for the waiver. Based on this, the State of Wisconsin will no longer be submitting data on this population.

Please note that this data reflects disenrollment that occurred after the implementation of comprehensive changes to stop terminations and reinstate eligibility in response to COVID-19. Any disenrollment during this time occurred only if a beneficiary voluntarily declined assistance or if they were no longer a resident of Wisconsin (including if they passed away). There were 4,393 beneficiaries who were determined ineligible for Medicaid other than at renewal and 4,289 after the state processed a change in circumstance. 4,468 beneficiaries were no longer eligible for the demonstration due to transfer to another Medicaid eligibility group.</p> <p>Annual Disenrollment: The state of Wisconsin does not have any annual mid-year loss of demonstration eligibility data trend to report. Fig 4, in Attachment A provides data on other ineligibility trends. Please note the counts for the first quarter in 2020 reflects disenrollment that occurred prior to the implementation of comprehensive changes to stop terminations and reinstate eligibility in response to COVID-19.</p>
8.1.3 Discuss any data trends related to enrollment duration at time of disenrollment. Describe and explain changes (+ or -) greater than two percent.	DY 7 Q4 and Annual	AD_12-14	<p>This metric is recommended, but not required. The state of Wisconsin has reviewed the recommended metrics provided by CMS but at this point Wisconsin plans to satisfy the required metrics prior to completing any recommended metrics.</p>

<p>8.1.4 Discuss any data trends related to renewals. Describe and explain changes (+ or -) greater than two percent.</p>	<p>DY 7 Q4 and Annual</p>	<p><i>AD_15-22</i></p>	<p>The total beneficiaries whose renewals were completed this quarter increased from 346 to 398. This represents a 15% increase from the previous quarter. During this public Health Emergency (PHE), the state of Wisconsin has adjusted its policies where we have been postponing renewals for beneficiaries. However, members may still complete their renewals voluntarily – for example, if they also have a renewal for SNAP due in the same month. These renewals are completed at member request, and a relatively small drop in the number of renewing members translates into a large drop in percentage. 198 of those beneficiaries were determined ineligible and disenrolled from Medicaid for the same reasons noted above: voluntarily declining benefits or no longer being a resident of the state (including individuals who passed away). 140 were determined ineligible because they transferred to another Medicaid eligibility category. No beneficiaries were disenrolled from Medicaid because they did not complete their renewal and 25 retained eligibility by completing their renewal forms. This data reflects renewal trends after comprehensive changes to ensure that no member lost eligibility during the COVID-19 public health emergency.</p> <p>Annual Renewal – In demonstration year 7 the total number of beneficiaries whose renewals were completed has dropped significantly. From the beginning to the end of demonstration year 7 the total number beneficiaries whose renewal were completed decreased from 8,572 to 398. As mentioned above, during this public Health Emergency (PHE), the state of Wisconsin has adjusted its policies where we have been postponing renewals for beneficiaries. However, members may still complete their renewals voluntarily – for example, if they also have a renewal for SNAP due in the same month. The graph in Fig 5 in the accompanying attachment A shows the childless adult's renewal trend for demonstration year 7. Please note that the data for the first quarter reflects renewal trends prior to comprehensive changes to ensure that no member lost eligibility during the COVID-19 public health emergency.</p> <p>Fig 6, in Attachment A provides data on additional renewal trends. Beneficiaries who were determined ineligible for the demonstration at renewal and disenrolled from Medicaid decreased from 818 in the first quarter to 198 in the fourth quarter. Beneficiaries determined ineligible for the demonstration at renewal, because they transferred to another Medicaid eligibility category decreased from 158 in the first quarter to 140 in the fourth quarter. Beneficiaries disenrolled from Medicaid because they did not complete their renewal decreased from 3500 in the first quarter 1 to 0 in the fourth quarter and Beneficiaries who retained eligibility for the demonstration after completing their renewal forms decreased from 4144 in the first quarter to 25 in the fourth quarter.</p>

DISENROLLMENT TRENDS

Please Note: Starting in the 2nd quarter of demonstration year 7 the data reflects disenrollment that occurred after the implementation of comprehensive changes to stop terminations and reinstate eligibility in response to COVID-19. Any disenrollment during this time occurred only if a beneficiary voluntarily declined assistance or if they were no longer a resident of Wisconsin (including if they passed away).

RENEWAL TRENDS

Please Note: Starting in the 2nd quarter of demonstration year 7, during the public Health Emergency (PHE), the state of Wisconsin has adjusted its policies where we have been postponing renewals for beneficiaries. However, members may still complete their renewals voluntarily – for example, if they also have a renewal for SNAP due in the same month. These renewals are completed at member request, and a relatively small drop in the number of renewing members translates into a large drop in percentage.
