Case management includes contacts with non-eligible individuals that are directly related to identifying the eligible individual's needs and care, for the purposes of helping the eligible individual access services; identifying needs and supports to assist the eligible individual in obtaining services; providing case managers with useful feedback, and alerting case managers to changes in the eligible individual's needs. For instance, a case manager might also work with state children and youth agencies for children who are involved with the foster care system.

(42 CFR 440.169(e))

If another case manager is involved upon release or for case management after the 30-day post release mandatory service period, states should ensure a warm hand off to transition case management and support continuity of care of needed services that are documented in the person-centered care plan. A warm handoff should include a meeting between the eligible juvenile, and both the pre-release and post-release case manager. It also should include a review of the person-centered care plan and next steps to ensure continuity of case management and follow-up as the eligible juvenile transitions into the community.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES -  
OTHER TYPES OF CARE

Revised: December 22, 2025

---

19. Case Management Services (continued)

E-1. Incarcerated Juveniles

Reimbursement is based on the lesser of the billed amount or the Title XIX (Medicaid) maximum allowable bundled rate.

Payment for Targeted Case Management services located at Supplement 1, Pages 39 - 45 is established prospectively using a standardized rate-setting methodology for eligible individuals who are under 21 years of age and eligible for any Medicaid eligibility group, or who are eligible under the mandatory former foster care group ages 18 through 25, and who were eligible for Medicaid immediately before becoming an inmate of a public institution or while an inmate of a public institution. Services are provided during incarceration when the individual is within thirty (30) days of their scheduled release date following adjudication and for at least thirty (30) days following release, as determined to be medically necessary. Payment is limited to one bundled unit per individual per thirty-day period

Rates reflect the reasonable and efficient costs a provider would incur and are developed using an independent rate build-up approach informed by publicly available economic data, including wage and compensation information from the U.S. Bureau of Labor Statistics Occupational Employment and Wage Statistics and Employer Costs for Employee Compensation. The bundled rate incorporates direct staff wages, associated fringe benefits and payroll taxes, supervisory costs, and allowable administrative and program support costs. The rate does not include costs related to room and board or other unallowable facility costs

All providers furnishing Targeted Case Management services under the bundled payment are reimbursed exclusively through the applicable bundled payment rate. Providers may not bill separately for individual service components, administrative activities, overhead costs, or any other services that are included in the bundled rate. Payment through the bundle constitutes payment in full for all covered Targeted Case Management services delivered during the applicable billing period, and no additional or duplicative reimbursement is permitted for the same services.

Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers. The agency's fee schedule rate was set as of (insert date here) and is effective for services provided on or after that date. All rates are published within [Fee Schedules - Arkansas Department of Human Services](#) on the Division of Medical Services website. Rates will be rebased at least once every three years.
