Re: Colorado State Plan Amendment (SPA) 21-0004

Dear Ms. Bimestefer:

The Centers for Medicare & Medicaid Services (CMS) reviewed your Medicaid State Plan Amendment (SPA) submitted under transmittal number (TN) 21-0004. This amendment proposes to add medication-assisted treatment (MAT) as a mandatory benefit in the Medicaid state plan. This letter is to inform you that Colorado’s Medicaid SPA Transmittal Number 21-0004 is approved effective October 1, 2020 until September 30, 2025, pursuant to 1905(a)(29) of the Social Security Act and Section 1006(b) of the SUPPORT Act.

Section 1006(b) of the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities Act (“SUPPORT Act”), signed into law on October 24, 2018, amended section 1902(a)(10)(A) of the Social Security Act (the Act) to require state Medicaid plans to include coverage of MAT for all individuals eligible to enroll in the state plan or waiver of the state plan. Section 1006(b) also added a new paragraph 1905(a)(29) to the Act to include the new required benefit in the definition of “medical assistance” and to specify that the new required benefit will be in effect for the period beginning October 1, 2020, and ending September 30, 2025.

Section 1006(b) of the SUPPORT Act also added section 1905(ee)(1) to the Act to define MAT, for purposes of the new required coverage, as:

. . . all drugs approved under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355), including methadone, and all biological products licensed under section 351 of the Public Health Service Act (42 U.S.C. 262) to treat opioid use disorders; and[,] . . . with respect to the provision of such drugs and biological products, counseling services and behavioral therapy.

Pursuant to section 1135(b)(5) of the Act, due to the COVID-19 public health emergency (PHE), CMS issued an approval letter on January 6, 2022 allowing Colorado to modify the SPA submission requirements at 42 C.F.R. 430.20, to allow the state to submit a SPA implementing section 1905(a)(29) of the Act by March 31, 2021 that would take effect on October 1, 2020.
CMS conducted our review of your submittal according to statutory requirements in Title XIX of the Act and implementing regulations.

RE: Companion Letter for Transmittal Number CO-21-0004

Dear Ms. Johnson:

This letter is being as a companion to the approval of transmittal number (TN) 21-0004, This State Plan Amendment (SPA) was for 1905(a)(29) Medication Assistance Treatment (MAT) services.

The State indicated that the Opioid Treatment Program (OTP) was a bundled methodology, and it was listed as a fee schedule on Attachment 4.19-B, Item 13.d Rehabilitative Services: Substance Use Disorder Treatment.

The proposed plan language in 21-0004 reads, “All counseling and behavioral therapy services available for MAT for Opioid Use Disorder (OUD) services that are not specific to OUD shall be reimbursed using the same methodology as described in Attachment 4.19-B, item 13.d Rehabilitative Services: Substance Use Disorder Treatment.” While this proposed plan language is acceptable, and so we are approving SPA 21-0004, CMS has determined the fee schedule language in Attachment 4.19-B, Item 13.d Rehabilitative Services: Substance Use Disorder Treatment is not comprehensive, and additional language is needed to describe any bundled payments. CMS expects that States will develop bundled rates based upon actual service data maintained by providers. In approving a bundled rate, CMS will require States to describe the development of the rates in the State plan. The State must:

1. Ensure that providers of a bundled service maintain data that supports a conclusion that the rate developed by the Medicaid agency is economic and efficient. That data normally consists of information: 
• showing the provision by practitioner of the individual covered Medicaid services included in the bundled payment and;

• the cost by practitioner and type of service actually delivered under the bundled rate.

2. 42 CFR 431.107 requires that each provider or organization furnishing services agree to keep any records necessary to disclose the extent of services the provider furnishes to beneficiaries and, on request, furnish the Medicaid agency any information maintained and any information regarding payments claimed by the provider for furnishing services under the plan.

The State Medicaid Manual in Section 2500.2(A) requires that a State Medicaid agency report “only expenditures for which all supporting documentation is available, in readily reviewable form, which has been compiled and which is immediately available when the claim is filed” on the CMS-64. This section continues by stating that “… supporting documentation includes as a minimum the following: date of service; name of recipient; Medicaid identification number; name of provider agency and person providing the service; nature, extent or units of service; and the place of service.”

In accordance with these requirements, States must include language in the State plan identifying the data to be maintained by providers, assuring that the state will review that data in order to develop and revise as necessary, economic and efficient rates, and explaining how the data was used to develop the rates.

3. States must include language in the State plan assuring that rates do not include costs related to room and board (for bundled rates paid in residential settings) or other unallowable facility costs.

4. States must include in the State plan a description of the State’s proposal for monitoring the provision of services paid under a bundled rate to ensure that beneficiaries receive the types, quantity and intensity services required to meet their medical needs.

Please submit a State plan amendment that includes the above information no later than 90 days after receipt of this letter. If you have any additional questions or need further assistance, please contact LaJoshica (Josh) Smith at 214-767-6453 or lajoshica.smith@cms.hhs.gov.

Sincerely,

Todd McMillion
