Re: Colorado State Plan Amendment (SPA) 21-0026

Dear Ms. Bimestefer:

We have reviewed the proposed amendment to add section 7.4 Medicaid Disaster Relief for the COVID-19 National Emergency to your Medicaid state plan, as submitted under transmittal number (TN) 21-0026. This amendment proposes to implement temporary policies, which are different from those policies and procedures otherwise applied under your Medicaid state plan, during the period of the Presidential and Secretarial emergency declarations related to the COVID-19 outbreak (or any renewals thereof).

On March 13, 2020, the President of the United States issued a proclamation that the COVID-19 outbreak in the United States constitutes a national emergency by the authorities vested in him by the Constitution and the laws of the United States, including sections 201 and 301 of the National Emergencies Act (50 U.S.C. 1601 *et seq.*), and consistent with section 1135 of the Social Security Act (Act). On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of the United States Department of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences of the COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. This authority took effect as of 6PM Eastern Standard Time on March 15, 2020, with a retroactive effective date of March 1, 2020. The emergency period will terminate, and this state plan provision will no longer be in effect, upon termination of the public health emergency, including any extensions.

We conducted our review of your submittal according to the statutory requirements at section 1902(a) of the Act and implementing regulations. This letter is to inform you that Colorado's Medicaid SPA Transmittal Number 21-0026 is approved effective July 1, 2021. This SPA is in addition to Disaster Relief SPAs approved on April 21, 2020, May 6, 2020, May 20, 2020, October 1, 2020, April 15, 2021, April 20, 2021, May 28, 2021, July 21, 2021, and August 11, 2021.

Enclosed is a copy of the CMS-179 summary form and the approved state plan pages.

Please contact Curtis Volesky at 303-844-7033 or by email at Curtis.volesky@cms.hhs.gov if you have any questions about this approval. We appreciate the efforts of you and your staff in responding to the needs of the residents of the State of Colorado and the health care community.

On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of the United States Department of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. This authority took effect as of 6PM Eastern Standard Time on March 15, 2020, with a retroactive effective date of March 1, 2020. The emergency period will terminate, and waivers will no longer be available, upon termination of the public health emergency, including any extensions.

The changes identified below are implemented for the duration of the Presidential and Secretarial emergency declarations related to the COVID-19 outbreak (or any renewals thereof), unless a shorter period has been identified elsewhere in the below amendment for specific items.

4. Other payment changes:

Attachment 4.19, Payment for Services, 66(b), 4.19(m) Medicaid Reimbursement for the Administration of Vaccines under the Pediatric Immunization Program (TN# 16-0007), requires that pediatric immunizations be provided specifically through the Vaccines for Children (VFC) program, by providers enrolled as VFC providers. The Department authorizes all providers licensed to administer vaccines to administer pediatric immunizations if the vaccine product used was provided free of cost by the federal government, outside of the VFC program. Authorization will end upon termination of the COVID-19 public health emergency.

Attachment 4.19, Payment for Services, 66(b), 4.19(m) Medicaid Reimbursement for the Administration of Vaccines under the Pediatric Immunization Program (TN#16-007) also sets a reimbursement rate of \$18.93 per vaccine administration, plus or minus any approved physician rate adjustments, with the exception of those services and providers subject to the minimum payments described at 42 CFR 447.405. The Department authorizes a payment of \$41.18 for administration of a COVID-19 vaccine.

The Department will issue a one-time per member per month COVID-19 increased workload payment for intellectual and developmental disabilities targeted case management payment for the month of June 2021. The Department identified the services listed below to develop a rate of \$78.00 per adult waiver member and \$64.47 per children's waiver member. This rate takes into account the existing per member per month rate the case management agency received for the member and is a payment for the additional workload that is above and beyond the per member per month scope of work. Members are active on 1915c Medicaid waiver programs but the tasks below are reflective of state plan targeted case management tasks.

- Tracking and operationalizing multiple policy changes, including more than fifty operational memos, implemented by the Department related to COVID.
- Obtaining member paperwork that would have previously been completed in person. Case managers are now sending paperwork for physical and digital signatures and tracking the receipt of paperwork. This requires multiple attempts to obtain needed signatures and the member must be tracked for potential closure at the end of the PHE due to missing documents:
 - Maintaining tracking documents to know who has submitted physical or digital and those who have not.
 - Increased volume and costs associated with mailing of forms and providing pre-paid return envelopes
 - Purchase and implementation of computer software to support digital signatures
- Increased caseloads and tracking for Maintenance of Effort
 - Colorado is requiring CCB's to maintain member eligibility for their waiver program during the public health emergency under the Maintenance of Effort. This action is creating increased caseloads for case management agencies for the duration of the PHE. and requires additional tracking for the CCB on the member who may no longer be eligible for their program but still needs engagement and support outside of the waiver program.
- Rate increases for HCBS services outside of standard annual rate adjustments
 - Prior authorization request (PAR) correction related to the temporary rate increases for residential services
 - Retainer payment authorization

TN: 21-0026Supersedes TN: 21-0023Approval Date: 10/1/2021Effective Date: 7/1/2021

- Case manager was required to call the member to discuss whether the member wanted other services, coordinate any service changes and receive the member's approval to issue the retainer payment to the provider.
 - Service modality changes
- Service Plan and prior authorization revisions for Day Habilitation. Required member outreach, service plan and PAR revisions.
 - Retainer payment authorization
 - Service modality changes - implementation of the individualized 1:1 service option and tiered service flexibility.

The Department amends allowable health care costs for nursing facility cost reports to accommodate emergency workforce changes and efficient distribution:

Attachment 4.19-D, Nursing Facility Benefits, Page 3, Item 14(b) amended to: Non-prescription drugs ordered by a physician; excluding COVID-19 vaccines where Medicaid reimbursement is available directly to a 3rd party.

Attachment 4.19-D, Nursing Facility Benefits, Page 3, Item 14, add new Subpart i. Effective April 1, 2020 and ending June 30, 2020, salaries, taxes and benefits for unlicensed workers performing healthcare tasks during a public healthcare emergency or declared state of emergency.

Attachment 4.19-D, Nursing Facility Benefits, Class I Health Care State-Wide Maximum Allowable Per Diem Reimbursement Rates (Limit), Page 22, add new Subpart 7. Effective April 1, 2020 and ending June 30, 2020, salaries, taxes and benefits for unlicensed workers performing healthcare tasks during a public healthcare emergency or declared state of emergency.

Attachment 4.19, Payment for Services, Subpart (a), Page 57 (TN# 92-1), describes the methods and standards used to determine rates for payment for inpatient hospital services. The "Inappropriate level of care days are not covered" box is checked. This amendment unchecks that box and checks the box indicating "Inappropriate level of care days are covered and are paid under the State plan at lower rates than other inpatient hospital services, reflecting the level of care actually received, in a manner consistent with section 1861(v)(1)(G) of the Act." The rate will be equal to the estimated adjusted State-wide average rate per patient-day paid for services provided in skilled nursing facilities under the State Plan.
