Methods Used to Assure Transportation

Emergency and non-emergency transportation services are available to eligible Medicaid recipients.

Transportation services are available from public, private and commercial sources. The Agency for Health Care Administration (Agency) delegates oversight of non-emergency and emergency transportation services to managed care plans for recipients enrolled in a managed care plan as authorized under the 1115 Managed Medical Assistance Waiver and the 1915 (b)(c) Long-term Care Waiver. The Agency delegates oversight of non-emergency transportation services to qualified contracted entities (e.g., transportation brokers) for recipients not enrolled in a managed care plan as authorized under the 1915(b)(4) Non-Emergency Transportation Waiver. The Agency reimburses for emergency transportation services through a fee-for-service arrangement for recipients not enrolled in a managed care plan.

Non-emergency Transportation Services

Non-emergency transportation services are available to eligible Medicaid recipients who are unable to obtain transportation to a Medicaid-compensable service or make arrangements through any other available means. Medicaid reimburses for non-emergency transportation services that are provided by any of the following:

- Commercial airlines.
- Non-emergency medical vehicles (Wheelchair or stretcher vans).
- Taxi.
- Transportation network companies.
- Private vehicle.
- Private Non-profit agencies.
- Multi-load passenger van.
- Mass transit and public transportation systems.
- Ground and air ambulances.
- Ground ambulances subcontracted for use as Stretcher vans.

Non-emergency transportation services require prior approval by the managed care plan for recipients enrolled in a managed care plan or by the Agency’s contracted transportation broker for recipients who are not enrolled in a managed care plan.

Medicaid does not reimburse the following for non-emergency transportation:

- Services provided in an inappropriate vehicle.
- Services available to the public free of charge.
- The time spent waiting on a recipient to receive a medical service.
- Services for inter-facility transfers based upon the preference of the recipient or the recipient’s family.
- Transport to home and community-based waiver services.

Amendment 2021-0010
Effective 12/27/2021
Supersedes 2019-0007
Approval: 02/01/2022
Recipients in the following eligibility categories are not eligible to receive non-emergency transportation services:

- Recipients who have their own means of transportation;
- Recipients who, at the time of application for enrollment and/or at the time of enrollment, reside in an institution, except:
  - Recipients who reside in nursing facilities; and,
  - Pregnant women residing in institutions pursuant to section 1012 of Public Law No: 115-271;
- Qualified Medicare Recipients;
- Special Low Income Medicare recipients;
- Qualified Medicare Recipients Renal Dialysis;
- Qualified Individuals at Level 1;
- Recipients who reside in residential commitment programs/facilities operated through the Department of Juvenile Justice;
- Undocumented non-citizens; and
- Recipients who are enrolled in the Family Planning Waiver.

Florida attests that all the minimum requirements outlined in 1902(a)(87) of the Social Security Act are met.

**Emergency Transportation Services**

Medicaid reimburses for emergency transportation services via land ambulance or air ambulance.

Medicaid does not reimburse the following for emergency transportation:

- Services for interfacility transfers based upon the preference of the recipient or the recipient’s family.
- Transporting recipients who expire prior to pick up.

Transportation is also available to and from school under the provisions of Part B or Part C of the Individuals with Disabilities Education Act (I.D.E.A.) for children who receive school-based Medicaid compensable services that are indicated on their Individual Education Plans (IEP) or Individual Family Support Plans (IFSP).
