RE: GA-25-0011

Dear Executive Director Portman,

The Centers for Medicare & Medicaid Services (CMS) has reviewed the proposed Georgia state plan amendment (SPA) to Attachment 4.19-B GA-25-0011, which was submitted to CMS on September 25, 2025. This plan amendment updates the Neonatologists and Maternal Fetal Medicine Specialists reimbursement rate.

We reviewed your SPA submission for compliance with statutory requirements including in sections 1902(a)(2), 1902(a)(13), 1902(a)(30), and 1903 as it relates to the identification of an adequate source for the non-federal share of expenditures under the plan, as required by 1902(a)(2), of the Social Security Act and the applicable implementing Federal regulations.

Based upon the information provided by the state, we have approved the amendment with an effective date of July 1, 2025. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Ysabel Gavino via email at [maria.gavino@cms.hhs.gov](mailto:maria.gavino@cms.hhs.gov).

Sincerely,

A solid black rectangular box redacting the signature of Todd McMillion.

## **Increased Primary Care Services Payment**

### **Physician Services-Primary Care Payment**

The state will continue to reimburse for services provided by physicians with a primary specialty designation of family medicine, pediatric medicine or internal medicine as if the requirements of 42 CFR 447.400 remain in effect. The rates will be 100 percent of those in effect for these services and providers during CY 2014 unless otherwise noted. A provider must meet one of the following requirements listed below to qualify for the enhanced payment.

- a. A provider must be Board certified with a specialty or subspecialty designation in family medicine, general internal medicine or pediatrics that is recognized by the American Board of Medical Specialties (ABMS), the American Board of Physician Specialties (ABPS), or the American Osteopathic Association (AOA), and must actually practice their specialty.
- b. A non-board-certified provider who practices in the field of family medicine, general internal medicine, or pediatrics or a subspecialty under one of these specialties, is eligible if he/she can attest that 60 percent of their paid Medicaid procedures billed are for certain specified procedure codes for evaluation and management services and certain vaccines for children administration codes.
- c. Physician extenders (physician assistants, nurse practitioners and nurse midwives) are also eligible for increased payment for designated services as long as they practice under the supervision of an eligible physician with professional responsibility for the provision of care.

Physicians and physician extenders who are reimbursed through Federally Qualified Health Centers (FQHC), Rural Health Centers (RHC), public health departments, nursing homes or a facility's encounter (visit, or per diem rate) or who are not practicing in one of the designated primary care specialties are not eligible for increased rates.

Effective with payments made after October 1, 2021, eligible primary care physicians who receive the Medicare enhanced rate are eligible to receive supplemental reimbursement via the Physician Upper Payment Limit (UPL) Program.

The state will also reimburse at the above-mentioned CY 2014 rates for services provided by physicians and physician extenders with an obstetrical and/or gynecological specialty designation unless otherwise noted.
