Re: Iowa State Plan Amendment (SPA) 21-0007

Dear Director Matney:

We have reviewed the proposed amendment to add section 7.4 Medicaid Disaster Relief for the COVID-19 National Emergency to your Medicaid state plan, as submitted under transmittal number (TN) 21-0007. This amendment proposes to implement temporary policies, which are different from those policies and procedures otherwise applied under your Medicaid state plan, during the period of the Presidential and Secretarial emergency declarations related to the COVID-19 outbreak (or any renewals thereof).

On March 13, 2020, the President of the United States issued a proclamation that the COVID-19 outbreak in the United States constitutes a national emergency by the authorities vested in him by the Constitution and the laws of the United States, including sections 201 and 301 of the National Emergencies Act (50 U.S.C. 1601 *et seq.*), and consistent with section 1135 of the Social Security Act (Act). On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of the United States Department of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences of the COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. This authority took effect as of 6PM Eastern Standard Time on March 15, 2020, with a retroactive effective date of March 1, 2020. The emergency period will terminate, and this state plan provision will no longer be in effect, upon termination of the public health emergency, including any extensions.

Pursuant to section 1135(b)(5) of the Act, for the period of the public health emergency, CMS is modifying the requirement at 42 C.F.R. §430.20 that the state submit SPAs related to the COVID-19 public health emergency by the final day of the quarter, to obtain a SPA effective date during the quarter, enabling SPAs submitted after the last day of the quarter to have an effective date in a previous quarter, but no earlier than the effective date of the public health emergency.

The State of Iowa also requested a waiver to modify the tribal consultation timeline applicable to this SPA submission process. Pursuant to section 1135(b)(5) of the Act, CMS is also allowing states to modify the timeframes associated with tribal consultation required under section 1902(a)(73) of the Act, including shortening the number of days before submission or conducting consultation after submission of the SPA.

These modifications of the requirements related to SPA submission timelines and tribal consultation apply only with respect to SPAs that meet the following criteria: (1) the SPA provides or increases beneficiary access to items and services related to COVID-19 (such as by waiving or eliminating cost sharing, increasing payment rates or amending ABPs to add services or providers); (2) the SPA does not restrict or limit payment or services or otherwise burden beneficiaries and providers; and (3) the SPA is temporary, with a specified sunset date that is not later than the last day of the declared COVID-19 public health emergency (or any extension thereof). We nonetheless encourage states to make all relevant information about the SPA available to the public so they are aware of the changes.

We conducted our review of your submittal according to the statutory requirements at section 1902(a) of the Act and implementing regulations. This letter is to inform you that Iowa's Medicaid SPA Transmittal Number 21-0007 is approved effective March 1, 2020. This SPA does not supersede any provisions approved in the Disaster Relief SPAs approved on May 18, 2020, July 20, 2020, July 24, 2020, and April 30, 2021.

Enclosed is a copy of the CMS-179 summary form and the approved state plan pages.

Please contact Laura D'Angelo at (816) 426-6425 or by email at [Laura.Dangelo1@cms.hhs.gov](mailto:Laura.Dangelo1@cms.hhs.gov) if you have any questions about this approval. We appreciate the efforts of you and your staff in responding to the needs of the residents of the State of Iowa and the health care community.

Alissa Mooney DeBoy

On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of the United States Department of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. ## Section G – Other Policies and Procedures Differing from Approved Medicaid State Plan /Additional Information

Iowa will temporarily modify the provider recertification process for providers of 1915(i) state plan HCBS, including: (i) case management providers; (ii) home-based habilitation providers; (iii) day habilitation providers; (iv) prevocational habilitation providers; and (v) supported employment habilitation providers. To the extent that such a provider is unable to complete the desk or onsite review process required for recertification due to the burden of submitting additional documentation caused by resource capacity issues during the PHE, the IME will extend the certification process in 90-day increments through the established exception to policy (ETP) process. The IME will only extend certification for providers who are in good standing, do not have outstanding corrective action plans (CAPS) and/or CAPS that have not been met, and who are not under active investigation for reported noncompliance with HCBS quality standards. Providers seeking to have their certification extended due to resource capacity issues directly related to the PHE may request an ETP. The IME reviews each request on an individual basis and determines if the provider is in good standing and whether sufficient detail has been provided to determine that an ETP is warranted. If the provider's circumstances meet the criteria established the provider will be granted an ETP to extend their certification for 90 days. Should the provider require additional time, the provider may submit subsequent ETP requests and provide IME with documentation detailing the circumstances that are preventing the provider from completing the recertification process, with a maximum allowance of four (4) 90-day extensions per provider. IME assures extensions of recertifications due to the provider's inability to participate in the review process will not exceed the end date of the Disaster SPA authority.
