RE: IA 23-0009

Dear Ms. Matney:

We have reviewed the proposed amendment to Attachment 4.19-D of your Medicaid State plan submitted under transmittal number (TN) 23-0009. This SPA updates the non-aggregate quality assurance assessments to the maximum aggregate non-Medicare revenues of a nursing facility.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), and 1903(a) of the Social Security Act and the implementing Federal regulations at 42 CFR 447 Subpart C.

This is to inform you that Medicaid State plan amendment IA 23-0009 is approved effective April 1, 2023. The CMS-179 and the amended plan page(s) are attached.

If you have any additional questions or need further assistance, please contact Fred Sebree at Fredrick.sebree@cms.hhs.gov.

Sincerely,

Instructions on Back

INSTRUCTIONS FOR COMPLETING FORM CMS-179

Use Form CMS-179 to transmit State plan material to the Center for Medicaid & CHIP Services for approval. Submit a separate typed transmittal form with each plan/amendment.

Block 1 - Transmittal Number - Enter the State Plan Amendment transmittal number. Assign consecutive numbers on a **calendar year** basis with the first two digits being the two-digit year (e.g., 21-0001, 21-0002, etc.). Because states have different state fiscal years, a calendar year is required for consistency.

Block 2 - State - Enter the two-letter abbreviation code of the State/District/Territory submitting the plan material.

Block 3 - Program Identification - Enter the applicable Title of the Social Security Act (Title XIX Medicaid or Title XXI CHIP).

Block 4 - Proposed Effective Date - Enter the proposed effective date of material. The effective date of a new plan may not be earlier than the first day of the calendar quarter in which an approvable plan is submitted. With respect to expenditures for assistance under such plan, the effective date may not be earlier than the first day on which the plan is in operation on a statewide basis or earlier than the day following publication of notice of changes.

Block 5 - Federal Statute/Regulation Citation - Enter the appropriate statutory/regulatory citation.

Block 6 - Federal Budget Impact - 6(a) - IN WHOLE DOLLARS, NOT IN THOUSANDS, Enter 1st **Federal Fiscal Year** (FFY) impacted by the SPA & estimated Federal share of the cost of the SPA for 1st FFY. The first FFY should be the FFY inclusive of the earliest effective date of any amended payment language; **6 (b)** - Enter 2nd FFY impacted by the SPA & estimated Federal share of the cost for 2nd FFY. In general, the estimates should include any amount not currently approved in the state's plan for assistance.

Block 7 - Page No.(s) of Plan Section or Attachment - Enter the page number(s) of plan material amended and transmitted. If additional space is needed, use bond paper. **New pages** should be included in Block 7, but not in Block 8.

Block 8 - Page No.(s) of the Superseded Plan Section or Attachment (if Applicable) - Enter the page number(s) (including the transmittal number) that is being superseded. If additional space is needed, use bond paper. **Deleted pages** should be included in Block 8, but not in Block 7.

Block 9 - Subject of Amendment - Briefly describe plan material being transmitted.

Block 10 - Governor's Review - Check the appropriate box. See SMM section 13026 A.

Block 11 - Signature of State Agency Official - Authorized State official signs this block.

Block 12 - Typed Name - Type name of State official who signed block 11.

Block 13 - Title - Type title of State official who signed block 11.

Block 14 - Date Submitted - Enter the date that the state transmits plan material to CMCS. Unless the state officially withdraws this SPA and then resubmits it, this date should not be revised. Documentation of version revisions will be maintained in the CMCS administrative record.

Block 15 - Return To - Type the name and address of State official to whom this form should be returned.

Block 16–22 (FOR CMS USE ONLY).

Block 16 - Date Received - Enter the date plan material is received by CMCS. This is the date that the submission is received by CMCS via the subscribed submission process.

Block 17 - Date Approved - Enter the date CMCS approved the plan material.

Block 18 - Effective Date of Approved Material - Enter the date the plan material becomes effective. If more than one effective date, list each provision and its effective date in Block 22 or attach a sheet.

Block 19 - Signature of Approving Official - Approving official signs this block.

Block 20 - Typed Name of Approving Official - Type approving official's name.

Block 21 - Title of Approving Official - Type approving official's title.

Block 22 - Remarks - Use this block to reference and explain agreed to changes and strike-throughs to the original CMS-179 as submitted, a partial approval, more than one effective date, etc. If additional space is needed, use bond paper.

Methods and Standards for Establishing Payment Rates for Nursing Facility Services

For facilities receiving both an ICF and SNF Medicaid rate on June 30, 2001, the June 30, 2001, Medicaid rate referenced above is the patient-day-weighted average of the ICF and SNF Medicaid rates effective June 30, 2001, excluding the case-mix transition add-on amount.

The subsections below reflect the details of this reimbursement plan.

2. Definition of Allowable Costs and Calculation of Per Diem Costs

Allowable costs are determined using Medicare methods. Cost is allowable only to the extent that it relates to patient care; is reasonable, ordinary, and necessary; and is not in excess of what a prudent and cost-conscious buyer would pay for the given services or item. Only these costs are considered in calculating the Medicaid nursing facility reimbursable cost per diem for purposes of this section.

For purposes of calculating the Medicare-certified hospital-based nursing facility Medicaid reimbursement rate, facility costs are divided into two components:

- The "direct care component" is the portion attributable to the salaries and benefits of registered nurses, licensed practical nurses, certified nursing assistants, rehabilitation nurses, and contracted nursing services.
- The "non-direct care component" is the portion attributable to administrative, environmental, property, and support care costs reported on the financial and statistical report.

Each nursing facility's per diem allowable direct care and non-direct care cost shall be established.

Effective July 1, 2001, and every second year thereafter, the per diem allowable cost shall be arrived at by dividing total reported allowable costs by total inpatient days during the reporting period. For the period beginning July 1, 2021, per diem allowable costs shall be arrived at by dividing total reported allowable costs by total inpatient days during the July 1, 2019 reporting period.

Effective April 1, 2023, and thereafter, total reported allowable costs shall be adjusted for inflation, using the SNF total market basket index, from the midpoint of the cost report period to, April 1, 2023.

3. Cost Normalization

The per diem allowable direct care costs are normalized by dividing a facility's per diem direct care costs by the facility's cost report period case-mix index. The facility cost report period case-mix index is the average of quarterly facility-wide average case-mix indices, carried to four decimal places.

Methods and Standards for Establishing Payment Rates for Nursing Facility Services

The quarters used in this average are the quarters that most closely coincide with the financial and statistical reporting period. For example, a 01/01/2001-12/31/2001 financial reporting period would use the facility-wide average case-mix indices for quarters ending 03/31/01, 06/30/01, 09/30/01, and 12/31/01.

4. Calculation of Patient-Day-Weighted Medians

A patient-day-weighted median is established for each of the Medicare-certified hospital-based nursing facility rate components.

The per diem normalized direct care cost for each facility is arrayed from low to high to determine the direct care component patient-day-weighted median cost based on the number of patient days provided by facilities.

The per diem non-direct care cost for each facility is also arrayed from low to high to determine the non-direct care component patient-day-weighted median cost based on the number of patient days provided by facilities.

For the fiscal period beginning July 1, 2001, and ending June 30, 2003, the direct care and non-direct care patient-day-weighted medians shall be calculated using the latest Medicare cost report with a fiscal year end of December 31, 2000, or earlier, inflated from the midpoint of the cost report period to July 1, 2001.

Effective July 1, 2003, and each second year thereafter, the patient-day-weighted medians used in rate setting shall be recalculated, using the latest completed Medicare cost report with a fiscal year end of the preceding December 31 or earlier. Effective April 1, 2023, and thereafter, total reported allowable costs shall be adjusted for inflation, using the SNF total market basket index, from the midpoint of the cost report period April 1, 2023.

5. Excess Payment Allowance Calculation

The Medicare-certified hospital-based nursing facility excess payment allowance is calculated as follows:

a. For the direct care component, subject to the limit provided below, the excess payment allowance is equal to zero (0) percent times the difference of the following (if greater than zero):
   - The direct care patient-day-weighted median times 95 percent times the provider's Medicaid average case-mix index, minus
   - A provider's normalized allowable per patient day direct care costs times the provider's Medicaid average case-mix index.

Methods and Standards for Establishing Payment Rates for Nursing Facility Services

However, for purposes of calculating the per diem cost for administrative, environmental, and property expenses, total patient days are the greater of the actual inpatient days or 85 percent of the facility's license capacity.

Effective April 1, 2023, and thereafter, total reported allowable costs shall be adjusted for inflation, using the SNF total market basket index, from the midpoint of the cost report period to April 1, 2023.

b. Cost Normalization

The per diem allowable direct care costs are normalized by dividing a facility's per diem direct care costs by the facility's cost report period case-mix index. The facility cost report period case-mix index is the average of quarterly facility-wide average case-mix indices, carried to four decimal places.

The quarters used in this average are the quarters that most closely coincide with the financial and statistical reporting period. For example, a 01/01/2001-12/31/2001 financial reporting period would use the facility-wide average case-mix indices for quarters ending 03/31/01, 06/30/01, 09/30/01, and 12/31/01.

c. Calculation of Patient-Day-Weighted Medians

A patient-day-weighted median is established for each of the non-state-owned nursing facility rate components.

The per diem normalized direct care cost for each non-state-owned facility is arrayed from low to high to determine the direct care component patient-day-weighted median cost based on the number of patient days provided by facilities.

The per diem non-direct care cost for each facility is also arrayed from low to high to determine the non-direct care component patient-day-weighted median cost based on the number of patient days provided by facilities.

Methods and Standards for Establishing Payment Rates for Nursing Facility Services

For the fiscal period beginning July 1, 2001, and ending June 30, 2003, the non-state-owned direct care and non-direct care patient-day-weighted medians shall be calculated using the latest financial and statistical report with a fiscal year end of December 31, 2000, or earlier, inflated from the midpoint of the cost report period to July 1, 2001.

Effective July 1, 2003, and each second year thereafter, the patient-day-weighted medians used in rate setting shall be recalculated using the latest completed financial and statistical report with a fiscal year end of the preceding December 31 or earlier. Effective April 1, 2023, and thereafter, total reported allowable costs shall be adjusted for inflation, using the SNF total market basket index, from the midpoint of the cost report period to April 1, 2023.

d. Excess Payment Allowance Calculation

Two classes of non-state-operated providers are recognized for computing the excess payment allowance calculation.

- Facilities that are located in a metropolitan statistical area (MSA) as defined by CMS.
- Facilities that are not located in an MSA.

For non-state-operated facilities not located in an MSA, the excess payment allowance is calculated as follows:

(1) For the direct care component, subject to the limit provided below, the excess payment allowance is equal to zero (0) percent times the difference of the following (if greater than zero):

- The direct care non-state-operated patient-day-weighted median times 95 percent times the provider's Medicaid average case-mix index, minus
- A provider's normalized allowable per patient day direct care costs times the provider's Medicaid average case-mix index.

In no case shall the excess payment allowance exceed ten percent times the non-state-operated direct care patient-day-weighted median.

Methods and Standards for Establishing Payment Rates for Nursing Facility Services

K. Nursing Facility Quality Assurance Assessment Pass-Through and Quality Assurance Rate Add-On

1. Quality assurance assessment pass-through. Effective April 1, 2023, a quality assurance assessment pass-through rate shall be added to the Medicaid reimbursement rate as otherwise calculated pursuant to Section 4.19-D. The quality assurance assessment pass-through rate shall be equal to the quality assurance assessment Medicaid cost divided by Medicaid patient days.

2. Quality assurance assessment rate add-on. Effective April 1, 2023, a quality assurance rate add-on of $37.00 per patient day shall be added to the Medicaid reimbursement rates as otherwise calculated pursuant to Section 4.19-D.
