ATTACHMENT 3.1-A identifies the medical and remedial services provided to the categorically needy. (Note: Other programs to be offered to Categorically Needy beneficiaries would specify all limitations on the amount, duration and scope of those services. As PACE provides services to the frail elderly population without such limitation, this is not applicable for this program. In addition, other programs to be offered to Categorically Needy beneficiaries would also list the additional coverage—that is in excess of established service limits—for pregnancy-related services for conditions that may complicate the pregnancy. As PACE is for the frail elderly population, this also is not applicable for this program.)

Regular Post Eligibility

The state applies post-eligibility treatment of income rules to PACE participants who are eligible under section 1902(a)(10)(A)(ii)(VI) of the Act (42 C.F.R. §435.217 of the regulations).

Yes __ No __X__

Post-eligibility for states that have elected to apply the rules to PACE participants

Note: Section 2404 of the Affordable Care Act mandated that, for the five-year period beginning January 1, 2014, the definition of an “institutionalized spouse” in section 1924(h)(1) of the Social Security Act include all married individuals eligible for certain home and community-based services (HCBS), including HCBS delivered through 1915(c) waivers. As of this writing, the ACA provision has been extended through December 31, 2019. This means that married individuals eligible in the eligibility group described at 42 C.F.R. §435.217 must have their post-eligibility treatment-of-income rules determined under the rules described in section 1924(d). Because states that elect to apply post-eligibility treatment-of-income rules to PACE participants may only do so to the same extent the rules are applied to individuals eligibility under 42 C.F.R. §435.217, application of the post-eligibility treatment-of-income rules must be applied to married individuals receiving PACE services consistent with the provisions described herein under “Spousal post-eligibility” so long as the amendment to section 1924 of the Act made by the ACA remains in effect.

II. Rates and Payments

A. The State assures CMS that the capitated rates will be less than the cost to the agency of providing State plan approved services to an equivalent non-enrolled population group based upon the following methodology. Please attach a description of the negotiated rate setting methodology and how the State will ensure that rates are less than the amount the state would have otherwise paid for a comparable population.

1._X__ Rates are set at a percent of the amount that would otherwise been paid for a comparable population.
2.___ Experience-based (contractors/State’s cost experience or encounter date) (please describe)
3.___ Adjusted Community Rate (please describe)
4.___ Other (please describe)

The Kentucky Department for Medicaid Services provides their rate setting vendor with their most recent statewide FFS claims data, and enrollment information for the same period for the nursing home certifiable population in the state. This included both the nursing home and waiver populations in the state (institutional and non-institutional). The PACE comparable population is then identified by limiting to members that are at least 55 years of age and reside in counties within the PACE service area. Once the PACE comparable population is identified, the PACE amounts that would otherwise have been paid (AWOPs) are developed using the appropriate rating cohorts.

**AWOP Development**

The state’s rate setting vendor, with assistance from an actuarial firm uses the most recent available claims as the base data for the AWOP development. The base data is summarized by rating cohort and category service and then several adjustments are applied to ensure the data reflects the expected experience in the upcoming contract period. The adjustments that are made to the data to arrive at the projected AWOPs include but are not limited to:

- IBNR
- Nursing Facility Reimbursement Adjustment
- Prospective Trend
- Patient Liability Reduction
- Administrative Loading

Once the above adjustments are made to the data, a regional analysis is conducted to split the experience between the counties within the PACE service area. Finally, the nursing home and waiver AWOPs are blended to create separate PMPMs by age category for each county. The Kentucky Department for Medicaid Services establishes the Medicaid rates at a percentage of the calculated AWOPs.

B. The State Medicaid Agency assures that the rates were set in a reasonable and predictable manner.

C. The State will submit all capitated rates to the CMS Regional Office for prior approval, and will include the name, organizational affiliate of any actuary used, and attestation/description of the capitation rates.

III. Enrollment and Disenrollment

The State assures that there is a process in place to provide for dissemination of enrollment and disenrollment data between the State and the State Administering Agency. The State assures that it has developed and will implement procedures for the enrollment and disenrollment of participants in the State’s management information system, including procedures for any adjustment to account for the difference between the estimated number of participants on which the prospective monthly payment was based and the actual number of participants in that month.
