**REIMBURSEMENT METHODOLOGY**  

Case management services for the Infant and Toddler Program (EarlySteps) shall be prior authorized. The standard unit of service covers both service provision and overhead costs. Contacts are on a one-to-one basis between a case manager and a participant or between a case manager and others when this contact is for the benefit of the participant. 

Reimbursement for Targeted Case Management is based on cost using an independent cost model approach to rate setting. In this approach, a model of the costs providers incur in delivering a particular service is constructed. In constructing the models, the primary cost drivers include the following:  

1. Direct service staff wages;  
2. Direct service staff employee related expenses (ERE);  
3. The productivity of direct service staff, i.e. the amount of a direct service staff’s time in each workday that can be billed;  
4. Supervisory costs;  
5. Key Staff costs;  
6. Travel and office space costs;  
7. Program support costs; and  
8. Overhead expenses.  

Case management agencies shall provide annual cost reports based on the state fiscal year, July 1 through June 30. Completed reports are due within 90 calendar days after the end of each state fiscal year or by September 28 of each calendar year.  

Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of case management and the fee schedule and any annual/periodic adjustments to the fee schedule are published on the agency’s provider website at [www.lamedicaid.com](http://www.lamedicaid.com). The agency’s fee schedule rate was set as of May 21, 2008 and is effective for services provided on or after that date. All rates are published on the agency’s website.
