Most contacts occur in community locations where the member lives, works, attends school and/or socializes.

An individual providing Peer Support Services must successfully complete an OBH approved peer training program prior to providing peer support services. Training provides the Peer Support Specialist with a basic set of competencies necessary to perform the peer support function. The Peer Support Specialist must also complete a minimum of ten (10) Continuing Education Units (CEU) per calendar year.

Credentialed Peer Support Specialists (CPSS) must have lived experience with a mental illness and/or substance use challenge or condition and must be at least 21 years of age. CS is utilized when additional crisis supports are necessary to stabilize the crisis and ensure community tenure in instances in which more intensive inpatient psychiatric care is not warranted or when the member’s needs are better met at this level.
