RE: Louisiana State Plan Amendment (SPA) 23-0034

Dear Director Sullivan:

We have reviewed the proposed amendment to Attachment 4.19-A of your Medicaid state plan submitted under transmittal number (TN) 23-0034 effective for services on or after October 1, 2023. The purpose of this SPA is to amend the provisions governing payments for well baby and transplant services, within the inpatient hospital services program, in order to align with current practices.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903(a), and 1923 of the Social Security Act and the regulations at 42 CFR 447 Subpart C. We hereby inform you that Medicaid State plan amendment 23-0034 is approved effective October 1, 2023. We are enclosing the CMS-179 and the amended plan pages.

If you have any questions, please call Tom Caughey at (517) 487-8598.

Sincerely,

Rory Howe
Director

22. REMARKS

Instructions on Back

STATE OF LOUISIANA

PAYMENT FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING RATES - INPATIENT HOSPITAL CARE

The following payments shall be made in addition to the prospective rate described above:

a. Infant Care

(1) Nursery Boarder Infants Payment

On some occasions a newborn remains in a hospital nursery after the mother has been discharged. Reimbursement is established at the weighted median for all hospitals providing maternity care, based on 1991 cost inflated to the implementation year as described in "Inflation Factor" above, and annually thereafter.

(2) Well Baby Care

A separate prospective per diem rate shall be paid to qualifying hospitals for well baby care rendered to infants who are discharged at the same time that the mother is discharged. The per diem rate for well baby care shall be the same prospective rate that is paid for nursery boarder baby service.

Qualifying Criteria

Non-state, non-rural hospitals that perform more than 1,500 Medicaid deliveries per year shall be eligible for this payment. The Department will verify that qualifying hospitals meet the required delivery threshold each state fiscal year. Well baby payments shall be discontinued should a hospital fail to meet the qualifying criteria.

b. Outlier Payments

In compliance with the requirement of §1902(s)(1) of the Social Security Act, additional payment shall be made for catastrophic costs associated with services provided to 1) children under age six who received inpatient services in a disproportionate share hospital setting, and 2) infants who have not attained the age of one year who received inpatient services in any acute care setting.

Cost is defined as the hospital-specific cost to charge ratio based on the hospital's cost report period ending in state fiscal year (SFY) 2000 (July 1, 1999 through June 30, 2000).

For new hospitals and hospitals that did not provide Medicaid Neonatal Intensive Care Unit (NICU) services in SFY 2010, the hospital-specific cost to charge ratio will be calculated based on the first full year cost reporting period that the hospital was open or that Medicaid NICU services were provided.

The hospital specific cost to charge ratio will be reviewed bi-annually to determine the need for adjustment to the outlier payment.

A deadline of six months subsequent to the date that the final claim is paid shall be established for receipt of the written request filing for outlier payments. In addition, effective March 1, 2011, outlier claims for dates of service on or before February 28, 2011 must be received by the Department on or before May 31, 2011 in order to qualify for payment. Claims for this time period received by the Department after May 31, 2011 shall not qualify for payment.

STATE OF LOUISIANA

PAYMENT FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – INPATIENT HOSPITAL CARE:

G. Transplant Services

Reimbursement Methodology

Reimbursement shall be limited to the lesser of allowable cost, net of capital and medical education cost, or the hospital-specific per diem limitation calculated for each type of transplant.

1. Allowable cost is defined as the ratio of cost to charges from the annual filed cost report multiplied by the covered charges, net of capital and medical education cost, for the specific transplant type.
2. The per diem limitation is calculated by deriving the hospital's per diem for the transplant type from the hospital's base period trended forward using the Medicare target rate inflation percentage for prospective payment system (PPS)-exempt hospitals.
3. The base period is the cost reporting period for the hospital's fiscal year ending September 30, 1983 through August 31, 1984. The base period for types of transplants that were not performed in the base period shall be the first subsequently filed cost report that includes costs for that type of transplant.
4. Reasonable capital and medical education costs as calculated per the annual filed cost report shall be paid as a pass through cost and included in cost report settlement amounts.

Qualifying Criteria

The hospital must be a Medicare approved transplant center for each type of organ transplant to qualify for reimbursement of Medicaid transplant services. Bone marrow transplant, stem cell transplant, and certain autologous immunotherapies (such as CAR T-cell therapy) services shall only be allowable for payment to hospitals that are accredited by the Foundation for the Accreditation of Cellular Therapy (FACT).
