RE: Massachusetts State Plan Amendment (SPA) Transmittal Number 19-0028

Dear Deputy Secretary Tsai:

We have reviewed the proposed Massachusetts State Plan Amendment (SPA) to Attachment 4.19-B of your state plan, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on December 30, 2019. This plan amendment creates supplemental payments to qualifying in-state acute hospitals and also creates an in-state acute inpatient hospital pay-for-performance incentive program.

Based upon the information provided by the state, we have approved the amendment with an effective date of October 1, 2019. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact James Moreth at 206-615-2043 or James.Moreth@cms.hhs.gov.

Sincerely,

[Redacted Signature]

Todd McMillion
Director
Division of Reimbursement Review

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

I. Introduction

A. Overview

This attachment describes methods used to determine rates of payment for acute outpatient hospital services for RY20.

1. Except as provided in subsection 2, below, for dates of service in RY20 (October 1, 2019 through September 30, 2020), in-state Hospitals will be paid in accordance with this Attachment for Outpatient Services provided at Hospital Outpatient Departments, and at those Hospital-Licensed Health Centers (HLHCs) and other Satellite Clinics that are provider-based in accordance with 42 CFR 413.65.
2. In-state Critical Access Hospitals will be paid in accordance with the methods set forth in **Exhibit 1**, which is attached hereto and incorporated by reference into this Attachment, for dates of service in RY20 beginning October 1, 2019 through September 30, 2020.
3. The supplemental payment methodologies specified in **Section III.F** are effective in RY20 beginning October 1, 2019 through September 30, 2020.
4. In-state Acute Hospitals are defined in **Section II**.
5. This **Section I.A.5** describes the payment methods to out-of-state acute outpatient hospitals for acute outpatient hospital services.
 - a. Except as provided in **subsections 5.c** and **5.d**, below, all out-of-state acute outpatient hospitals are paid utilizing an adjudicated payment per episode of care (APEC) payment methodology (“Out-of-State APEC”) as described in **subsection 5.b**, below, for APEC-covered services, and in accordance with the applicable MassHealth fee schedule for services for which in-state acute hospitals are not paid the APEC. “APEC-covered services” are outpatient services for which in-state acute hospitals are paid the APEC.
 - b. The Out-of-State APEC for each payable episode will equal the sum of (i) the episode-specific total EAPG payment and (ii) the APEC outlier component (if applicable), as further described in **subsections 5.b.(1) and (2)**, below. Components of the Out-of-State APEC that are based on the in-state method will simultaneously adjust effective with the 2nd RY20 Period (as defined in **Section II**) to reflect updates being implemented effective with the 2nd RY20 Period to the in-state method, as applicable.
 - (1) The “episode-specific total EAPG payment” is equal to the sum of all of the episode’s claim detail line EAPG payment amounts, where each claim detail line EAPG payment amount is equal to the product of the APEC Outpatient Statewide Standard in effect for in-state acute hospitals, and the claim detail line’s Adjusted EAPG Weight. The 3M EAPG Grouper’s discounting, consolidation and packaging logic is applied to each of the episode’s claim detail line’s MassHealth EAPG Weights to produce the claim detail line’s Adjusted EAPG Weight for this purpose.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

- (2) The “APEC outlier component” is equal to the Marginal Cost Factor in effect for in-state acute hospitals multiplied by the difference between the episode-specific case cost and the episode-specific outlier threshold. If the episode-specific case cost is less than the episode-specific outlier threshold, the APEC outlier component is \$0.
- (i) The “episode-specific case cost” is determined by multiplying the sum of the allowed charges for all of the claim detail lines with APEC-covered services in the episode that adjudicate to pay, by the applicable outpatient cost-to-charge ratio. For High MassHealth Volume Hospitals (as defined in **subsection 5.d**, below), the outpatient cost-to-charge ratio is hospital-specific. For all other out-of-state acute hospitals, the median in-state acute outpatient hospital cost-to-charge ratio in effect based on MassHealth episode volume is used.
 - (ii) The “episode-specific outlier threshold” is equal to the sum of the episode-specific total EAPG payment corresponding to the episode, and the Fixed Outpatient Outlier Threshold in effect for in-state acute hospitals.
 - (iii) An APEC outlier component is not payable if the episode-specific total EAPG payment is \$0.
- c. Out-of-state acute hospitals will be paid for APEC Carve-Out Drugs (as defined in **Section II**) in accordance with the payment method applicable to such drug as in effect for in-state acute hospitals on the date of service.
- d. If an inpatient service payable by MassHealth is not available in-state, payment for the related acute hospital outpatient services will be made at the rate of payment established for the medical service under the other state’s Medicaid program (or equivalent), or such other rate as MassHealth determines necessary to ensure member access to services. This provision does not apply to “High MassHealth Volume Hospitals”, which are defined as any out-of-state acute hospital that, during the most recent federal fiscal year for which complete data is available, had at least 100 MassHealth discharges.
- e. The payment methods in this **Section I.A.5** are the same for private and governmental providers.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

B. Non-Covered Services

The payment methods specified in this Attachment do not apply to the following Outpatient Hospital Services:

1. Behavioral Health Services for Members Enrolled with the Behavioral Health Contractor

MassHealth contracts with a Behavioral Health (BH) Contractor to provide Behavioral Health Services to Members enrolled with the BH Contractor.

Hospitals are not entitled to, and may not claim for, any payment from EOHHS for any services that are BH Contractor-covered services or are otherwise payable by the BH Contractor.

2. MCO Services

MassHealth contracts with Managed Care Organizations (MCOs) to provide medical services, including Behavioral Health Services, to Members enrolled with the MCO. . Hospitals are not entitled to any payment from EOHHS, and may not claim such reimbursement for any services provided to Members enrolled with an MCO that are MCO-covered services or are otherwise reimbursable by the MCO.

3. Air Ambulance Services

In order to receive payment for air ambulance services, providers must have a separate contract with EOHHS for such services.

4. Ambulatory Services Not Governed by this Attachment

The following services provided by Hospitals to MassHealth Members on an outpatient basis are not paid pursuant to this Attachment: audiology dispensing, vision care dispensing, ambulance services, psychiatric day treatment, dental, early intervention, home health, adult day health and adult foster care, outpatient covered drugs processed through the MassHealth Pharmacy On-Line Processing System (POPS), and services of designated emergency mental health providers / emergency services programs (DEPs/ESPs).

5. Behavioral Health Diversionary Services

In order to receive reimbursement for Behavioral Health Diversionary Services, providers must have a separate contract with EOHHS for such services.

II. Definitions

The definitions set forth in the “**1st RY20 Period**” column, below, apply during the **1st RY20 Period** (as defined below). The definitions set forth in the “**2nd RY20 Period**” column, below, apply during the **2nd RY20 Period** (as defined below), unless (i) that column specifies that there is no change to the definition, or (ii) for purposes of the APEC payment methodology set forth in **Section III.B**, the Episode’s first date of service for Emergency Department or Observation Services that extend past midnight occurred in the 1st RY20 Period, in which case, the definitions set forth in the **1st RY20 Period** column continue to apply.

<u>Defined Term</u>	<u>Definition Applicable During</u> <u>1st RY20 Period</u>	<u>Definition Applicable During</u> <u>2nd RY20 Period</u>
1st RY20 Period	The “1 st RY20 Period” is the portion of RY20 from October 1, 2019 through October 31, 2019.	No change to definition.
2nd RY20 Period	The “2 nd RY20 Period” is the portion of RY20 from November 1, 2019 through September 30, 2020.	No change to definition.
3M EAPG Grouper	The 3M Corporation’s EAPG Grouper version 3.12, configured for the MassHealth APEC payment method.	The 3M Corporation’s EAPG Grouper version 3.14, configured for the MassHealth APEC payment method.
Accountable Care Organization (ACO)	An entity that enters into a population-based payment model contract with EOHHS as an accountable care organization, wherein the entity is held financially accountable for the cost and quality of care for an attributed or enrolled member population. ACOs include Accountable Care Partnership Plans (ACPPs), Primary Care ACOs, and MCO-Administered ACOs.	No change to definition.
Accountable Care Partnership Plan (ACPP)	A type of ACO with which the MassHealth agency contracts under its ACO program to provide, arrange for, and coordinate care and certain other medical services to members on a capitated basis and which is approved by the Massachusetts Division of Insurance as a health-	No change to definition.

<u>Defined Term</u>	<u>Definition Applicable During</u> <u>1st RY20 Period</u>	<u>Definition Applicable During</u> <u>2nd RY20 Period</u>
	under the MassHealth program.	
Observation Services	Outpatient Hospital Services provided anywhere in an Acute Hospital to evaluate a Member's condition and determine the need for admission to an Acute Hospital. Observation Services are provided under the order of a physician, consist of the use of a bed and intermittent monitoring by professional licensed clinical staff, and may be provided for more than 24 hours.	No change to definition.
Outpatient Department (also referred to as Hospital Outpatient Department)	A department or unit located at the same site as the Hospital's inpatient facility, or a School-Based Health Center that operates under the Hospital's license and provides services to Members on an ambulatory basis. Hospital Outpatient Departments include day surgery units, primary care clinics, specialty clinics and Emergency Departments.	No change to definition.
Outpatient Services (also Outpatient Hospital Services)	Preventive, diagnostic, therapeutic or palliative services provided to a Member on an outpatient basis, by or under the direction of a physician or dentist, in a Hospital Outpatient Department, Hospital-Licensed Health Center or other Satellite Clinic. Such services include, but are not limited to, emergency services, primary care services, Observation Services, ancillary services, day surgery services, and recovery room services. Payment rules regarding Outpatient Services are found in 130 CMR Parts 410 and 450, Appendix E to the MassHealth Acute Outpatient	No change to definition.

	Hospital Manual, MassHealth billing instructions and the RFA.	
PAPE Covered Services	MassHealth-covered Outpatient Services provided by Hospital Outpatient Departments or Satellite Clinics that were paid utilizing the PAPE payment methodology under prior Acute Outpatient Hospital SPAs (including SPA 016-016 for the period up through December 29, 2016).	No change to definition.
Payment Amount Per Episode (PAPE)	An outpatient payment methodology that was utilized in prior Acute Outpatient Hospital SPAs. The PAPE was a fixed Hospital-specific all-inclusive facility payment that was made for all PAPE Covered Services provided by a Hospital to a MassHealth Member on an outpatient basis in one Episode (as defined in prior Acute Outpatient Hospital SPAs, including SPA 016-016 for the RY17 period up through December 29, 2016), with the exception of those services that were excluded from the PAPE payment methodology as described in those prior SPAs. The PAPE methodology was replaced by the APEC payment methodology during RY17, effective with dates of service on or after December 30, 2016.	No change to definition.
Primary Care ACO	A type of ACO with which the MassHealth agency contracts under its ACO program.	No change to definition.

Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

III. Payment for Outpatient Services

A. Overview

Except as otherwise provided for Outpatient Services specified in **Sections I.B, III.C through III.E**, and in **Exhibit 1**, Hospitals will receive a Hospital-specific, Episode-specific payment for each Episode known as the Adjudicated Payment per Episode of Care (APEC), calculated as set forth in **Section III.B**, below. This payment methodology is applicable to all public and private providers.

Except as otherwise provided for medically necessary services to a MassHealth Standard or CommonHealth member under 21, hospitals will not be paid for Outpatient Hospital Services specified as non-payable in Subchapter 6 of the MassHealth Acute Outpatient Hospital Manual.

For dates of service in RY20 beginning October 1, 2019 through September 30, 2020, Critical Access Hospitals are paid in accordance with **Exhibit 1**.

B. Adjudicated Payment per Episode of Care (APEC)

1. Rate Year 2020 APEC Payment Methodology

RY20 is bifurcated into the 1st RY20 Period and the 2nd RY20 Period for purposes of applying the APEC payment methodology. The APEC methodology is set forth in **Section III.B.2**, below. The “**1st RY20 Period**” column applies to dates of service in the 1st RY20 Period, and incorporates applicable definitions in **Section II** that apply to the 1st RY20 Period. The “**2nd RY20 Period**” column applies to dates of service in the 2nd RY20 Period, and incorporates applicable definitions in **Section II** that apply to the 2nd RY20 Period. As an exception, for Episodes that extend past midnight in the case of Emergency Department or Observation Services, if the Episodes’ first date of service occurs in the 1st RY20 Period, then the 1st RY20 Period APEC methodology applies to the entire Episode. The 1st RY20 Period APEC methodology is the same methodology that applied during the 2nd RY19 Period effective beginning November 1, 2018, under approved SPA TN--018-018.

1st RY20 Period (for dates of service in the 1st RY20 Period)	2nd RY20 Period (for dates of service in the 2nd RY20 Period)
2. Description of APEC payment method Hospitals will receive a Hospital-specific, Episode-specific all-inclusive facility payment for each payable Episode known as the APEC. The APEC will equal the sum of (1) the Episode-Specific Total EAPG Payment, plus (2), if applicable, an APEC Outlier Component, as further described below.	2. State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

C. Physician Payments

1. A Hospital may receive payment for the professional component of physician services provided by Hospital-Based Physicians to MassHealth members.
2. Such payment shall be as specified in Attachment 4.19B, section 8.d. of the State Plan. Hospitals will not be paid separately for professional fees for practitioners other than Hospital-Based Physicians as defined in **Section II**.
3. Hospitals will be paid for physician services only if the Hospital-Based Physician took an active patient care role, as opposed to a supervisory role, in providing the Outpatient Service(s) on the billed date(s) of service. The Hospital-Based Physician may not bill for any professional component of the service that is billed by the Hospital.
4. Physician services provided by residents and interns are not payable separately.
5. Hospitals will not be paid for physician services if those services are (1) provided by a Community-Based Physician; or (2) as further described herein.
6. In order to qualify for payment for Hospital-Based Physician services provided during the provision of Observation Services, the reasons for the Observation Services, the start and stop time of the Observation Services, and the name of the physician ordering the Observation Services, must be documented in the Member's medical record.

D. Outpatient Hospital Services Payment Limitations

1. Payment Limitations on Hospital Outpatient Services Preceding an Admission

Hospitals will not be separately paid for Outpatient Hospital Services when an inpatient admission to the same Hospital, on the same date of service, occurs following the Outpatient Hospital Services.

2. Payment Limitations on Outpatient Services to Inpatients

Hospitals will not be paid for Outpatient Services provided to any Member who is concurrently an inpatient of any Hospital. The Hospital is responsible for payment to any other provider of services delivered to a Member while an inpatient of that Hospital.

E. Laboratory Services

1. Payment for Laboratory Services

- a. Hospitals will be paid for laboratory services as specified in Attachment 4.19-B, section 8.b. of the State Plan.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

2. Physician Services

No additional payment shall be made for any physician service provided in connection with a laboratory service, except for surgical pathology services. The maximum allowable payment is payment in full for the laboratory service.

E-1. Payment for APEC Carve-Out Drugs

Payment to Hospitals for APEC Carve-Out Drugs administered to Members during an outpatient hospital visit will be the lowest of (1) the Hospital's Actual Acquisition Cost of the Drug; (2) the Wholesale Acquisition Cost (WAC) of the Drug; and (3) if available, the Medicare Part B rate for the Drug, each as determined by EOHHS.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

F. Payment for Unique Circumstances

1. High Public Payer Hospital Supplemental Payment

a. Eligibility

In order to qualify for this supplemental payment, a Hospital must have received greater than 63% of its Gross Patient Service Revenue (GPSR) in FY18 from government payers and uncompensated care as determined by the Hospital's FY18 Massachusetts Hospital Cost Report.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to qualifying Hospitals.

“MCO” for purposes of this **Section III.F.1** includes only “traditional” MCOs, and excludes ACPPs, Senior Care Organizations (SCOs), and One Care plans.

The supplemental payment amount for each qualifying hospital will be determined by apportioning a total of \$6.5 million to qualifying hospitals on a pro rata basis according to each qualifying hospital's number of ACPP, Primary Care ACO, MCO, and PCC Plan outpatient episodes in FY20, with each qualifying hospital's FY20 ACPP and Primary Care ACO episode volume weighted at 60%, each qualifying hospital's FY20 MCO episode volume weighted at 20%, and each qualifying hospital's FY20 PCC Plan episode volume weighted at 20%.

For purposes of this calculation, “ACPP, Primary Care ACO, MCO, and PCC Plan outpatient episodes in FY20” refer to paid outpatient episodes of care delivered by the qualifying hospital to MassHealth Members enrolled in an ACPP, a Primary Care ACO, an MCO, or the PCC Plan, as determined by EOHHS utilizing, for the ACPP and MCO episode volume, ACPP and MCO encounter data submitted by each ACPP and MCO for FY20 and residing in the MassHealth data warehouse as of March 31, 2021, and for the PCC Plan and Primary Care ACO episode volume, Medicaid paid claims data for FY20 residing in MMIS as of March 31, 2021, for which MassHealth is primary payer. Only ACPP and MCO encounter data and MMIS paid claims data pertaining to qualifying High Public Payer Hospitals (as specified in **Section III.F.1.a**) is considered in determining the pro rata share.

2. Essential MassHealth Hospitals

a. Eligibility

In order to qualify for payment as an Essential MassHealth Hospital, a Hospital must itself meet, or be within a system of Hospitals, any one of which meets, at least four of the following criteria, as determined by EOHHS, provided that all Hospitals within

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

such system are owned or controlled, directly or indirectly, by a single entity that (i) was created by state legislation prior to 1999; and (ii) is mandated to pursue or further a public mission:

- (1) The Hospital is a non-state-owned public Acute Hospital.
- (2) The Hospital meets the current MassHealth definition of a non-profit teaching Hospital affiliated with a Commonwealth-owned medical school.
- (3) The Hospital has at least 7% of its total patient days as Medicaid days.
- (4) The Hospital is an acute care general Hospital located in Massachusetts which provides medical, surgical, emergency and obstetrical services.
- (5) The Hospital enters into a separate contract with EOHHS relating to payment as an Essential MassHealth Hospital.

Based on these criteria, Cambridge Health Alliance (CHA) and the UMass Memorial Health Care, Inc. Hospitals (UMass Hospitals) are the only Hospitals eligible for this payment.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to Essential MassHealth Hospitals.

This payment is based on approval by EOHHS of the Hospital's accurately submitted and certified EOHHS Office of Medicaid Uniform Medicaid and Low Income Uncompensated Care Cost & Charge Report (UCCR) for the hospital fiscal year corresponding with the payment.

For the UMass hospitals, the Federal Fiscal Year 2020 (FFY20) outpatient payment amount will be \$1,200 times the total number of Episodes with dates of service during FFY20, not to exceed \$2.0 million. Notwithstanding such maximum outpatient amount, EOHHS may make outpatient payments to the UMass Hospitals of up to an additional 10% of the UMass Total Maximum Essential Amount (as defined in this paragraph, below), subject to compliance with all applicable federal rules and payment limits, and satisfying all other conditions of this **Section III.F.2** as it applies to the UMass Hospitals, so long as the total FFY20 inpatient and outpatient Essential MassHealth Hospital supplemental payment amounts to the UMass Hospitals under this paragraph and under **Section III.J.2.b** of Attachment 4.19-A(1) (TN-019-027) do not, in the aggregate, exceed the UMass Total Maximum Essential Amount. The UMass Total Maximum Essential Amount is \$10.0 million.

For CHA, the Federal Fiscal Year outpatient payment amount will be the difference between the non-state-owned public hospital Upper Payment Limit (calculated on an

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

annual basis) and other payments made under this Attachment, not to exceed \$17.5 million. Notwithstanding such maximum outpatient amount, EOHHS may make outpatient payments to CHA of up to an additional 10% of the CHA Total Maximum Essential Amount (as defined in this paragraph, below), subject to compliance with all applicable federal rules and payment limits, and satisfying all other conditions of this **Section III.F.2** as it applies to CHA, so long as the total inpatient and outpatient Essential MassHealth Hospital supplemental payment amounts to CHA for the Federal Fiscal Year under this paragraph and under **Section III.J.2.b** of Attachment 4.19-A(1) (TN-019-027) do not, in the aggregate, exceed the CHA Total Maximum Essential Amount. The CHA Total Maximum Essential Amount is \$25.0 million.

The 10% provisions referenced above in this section may be invoked if, upon reconciliation, an applicable inpatient hospital limit would be exceeded if the UMass Hospitals or CHA (as applicable) were paid their maximum FFY20 inpatient Essential MassHealth Hospital Supplemental Payment amount under **Section III.J.2.b** of Attachment 4.19-A(1) (TN-019-027), or if the UMass Hospitals or CHA (as applicable) have insufficient inpatient utilization or otherwise to support such maximum inpatient payment amount.

Essential MassHealth Hospital payments will be made after EOHHS' receipt of the hospital's certified UCCR, finalization of payment data and applicable payment amounts, and receipt of any necessary approvals, but no later than 1 year after receipt of the hospital's final reconciliation UCCR (which must be submitted by 45 days after the Hospital's Medicare 2552 Report for the payment year has been finalized by Medicare's Fiscal Intermediary).

3. Acute Hospitals with High Medicaid Discharges

a. Eligibility

In order to qualify for payment as an Acute Hospital with High Medicaid Discharges, a Hospital must be an Acute Hospital that has more than 2.7% of the statewide share of Medicaid discharges, determined by dividing each Hospital's total Medicaid discharges as reported on the Hospital's Massachusetts hospital cost report by the total statewide Medicaid discharges for all Hospitals.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to Acute Hospitals that have higher Medicaid discharges when compared with other participating MassHealth Hospitals.

The payment amount is based on Medicaid payment, cost and charge data for the federal fiscal year. The payment equals the variance between the Hospital's outpatient Medicaid payment and outpatient Medicaid costs, not to exceed the Hospital's Health Safety Net Trust Fund-funded payment amount for the federal

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

fiscal year. Acute Hospital with High Medicaid Discharges payments will be made after finalization of payment data, applicable payment amounts, and obtaining any necessary approvals.

4. High Medicaid Volume Safety Net Hospital HLHC Supplemental Payment

In order to qualify for a High Medicaid Volume Safety Net Hospital HLHC supplemental payment, a Hospital must be a High Medicaid Volume Safety Net Hospital that operates an HLHC that experienced a volume of at least 75,000 outpatient episodes in FY18, as determined by EOHHS through a review of MMIS claims (“Qualifying HLHC”). Based on these criteria, Boston Medical Center is the only hospital eligible for this payment.

Subject to compliance with all applicable federal statutes, regulations, state plan and waiver provisions, payment limits, and full federal financial participation, EOHHS will make \$2.0 million in total aggregate supplemental payments to Hospitals that qualify for this payment pursuant to the preceding paragraph, divided equally among all qualifying Hospitals, provided that each such Hospital agrees to spend such funds solely for the benefit of its Qualifying HLHC. The payment amount will be specified in an agreement between EOHHS and each qualifying Hospital.

5. Claiming Enhanced Federal Match for Supplemental Payments

In accordance with 42 U.S.C. § 1396a(a)(10)(A)(i)(VIII), 42 CFR 433.204, 42 CFR 435.119, 42 CFR 457.622(a), and subregulatory guidance at 78 Fed. Reg. 19918 (Apr. 2, 2013), EOHHS claims enhanced Federal Medical Assistance Percentage (FMAP) for expenditures incurred providing medical assistance to the “New Adult Group” (also known as the “Expansion” group or “Group VIII”) or child health assistance to children enrolled in its Title XXI State Plan. Collectively, these populations are the Enhanced Populations.

Consistent with these authorities, EOHHS claims FMAP on those portions of the supplemental payments described in section III.F, as applicable, that are identified with covered acute outpatient hospital services provided to the Enhanced Populations. If there are changes to the federal law or regulation that allow for other individuals to be included in this population, the corresponding FMAP that applies to that new population will be utilized for purposes of claiming FMAP on supplemental payments that are identified with covered acute inpatient hospital services provided to those individuals.

To calculate the portion of the supplemental payments on which EOHHS will claim FMAP, EOHHS will query the MMIS to identify fee-for-service acute outpatient hospital claims paid over a representative fiscal year attributable to (1) all populations in the aggregate impacted by the supplemental payment and (2) the Enhanced Populations impacted by the supplemental payment (using Claims Aid Categories to identify the relevant claims). Using these figures, EOHHS will then

**State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services**

calculate the percentages of the total acute outpatient hospital claims that are attributable to each of the Enhanced Populations. EOHHS will then multiply the supplemental payment made in that quarter by each of those percentages to calculate the portions of that supplemental payment that are attributable to each of the Enhanced Populations. EOHHS will claim the appropriate FMAP on each of the resulting figures.

IV. [Reserved]

V. Other Provisions

A. Federal Limits

If any portion of the payment methodology is not approved by CMS or is in excess of applicable federal limits, EOHHS may recoup any payment made to a Hospital in excess of the approved methodology. Any such recovery shall be proportionately allocated among affected hospitals. Any FFP associated with such overpayments will be returned to CMS.

B. Future Rate Years

Adjustments may be made each Rate Year to update rates and shall be made in accordance with the Hospital RFA and Contract in effect on that date.

C. New Hospitals/Hospital Change of Ownership

For any newly participating Hospital, or any Hospital which is party to a merger, sale of assets, or other transaction involving the identity, licensure, ownership or operation of the Hospital during the effective period of the state plan, EOHHS, in its sole discretion, shall determine, on a case-by-case basis (1) whether the Hospital qualifies for payment under the state plan, and, if so, (2) the appropriate rates of payment. Such rates of payment shall be determined in accordance with the provisions of the state plan to the extent EOHHS deems possible. EOHHS's determination shall be based on the totality of the circumstances. Any such rate may, in EOHHS's sole discretion, affect computation of the statewide average or statewide standard payment amount and/or any efficiency standard.

D. Data Sources

If data sources specified in this Attachment are not available, or if other factors do not permit precise conformity with the provisions of this Attachment, EOHHS shall select such substitute data sources or other methodology(ies) that EOHHS deems appropriate in determining Hospitals' rates.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

VI. Other Quality and Performance Based Payment Methods

A. Provider Preventable Conditions

Citation

42 CFR 447, 434, 438, and 1902(a)(4), 1902(a)(6), and 1903

Payment Adjustment for Provider Preventable Conditions

The Medicaid agency meets the requirements of 42 CFR Part 447, Subpart A, and sections 1902(a)(4), 1902(a)(6), and 1903 with respect to non-payment for provider-preventable conditions.

Other Provider-Preventable Conditions

The State identifies the following Other Provider-Preventable Conditions for non-payment under Attachment 4.19-B (1), (Acute Outpatient Hospital Services) of this State plan, where applicable.

☒ Wrong surgical or other invasive procedure performed on a patient; surgical or other invasive procedure performed on the wrong body part; surgical or other invasive procedure performed on the wrong patient.

☒ Additional Other Provider-Preventable Conditions identified below:

- The following Hospital Acquired Conditions as identified by Medicare, as they may be updated by CMS:
 1. Foreign object retained after surgery.
 2. Air Embolism
 3. Blood incompatibility
 4. Stage III and IV Pressure Ulcers
 5. Falls and Trauma, related to:
 - fractures
 - dislocations
 - intracranial injuries
 - crushing injuries
 - burns
 - other injuries
- In addition, the following:
 1. Intraoperative or immediately postoperative / post procedure death in a ASA class 1 patient
 2. Patient death or serious injury associated with the use of contaminated drugs, devices or biologics provided by the healthcare setting.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

3. Patient death or serious injury associated with the use or function of a device in patient care, in which the device is used or functions other than as intended.
4. Patient death or serious injury associated with patient elopement (disappearance)
5. Patient suicide, attempted suicide, or self-harm resulting in serious injury, while being cared for in a healthcare setting.
6. Patient death or serious injury associated with a medication error (e.g., errors involving the wrong drug, wrong dose, wrong patient, wrong time, wrong rate, wrong preparation or wrong route of administration)
7. Maternal death or serious injury associated with labor or delivery in a low-risk pregnancy while being cared for in a healthcare setting.
8. Death or serious injury of a neonate associated with labor and delivery in a low risk pregnancy.
9. Unstageable pressure ulcer acquired after admission / presentation in a healthcare setting.
10. Patient death or serious injury resulting from the irretrievable loss of an irreplaceable biological specimen.
11. Patient death or serious injury resulting from failure to follow up or communicate laboratory, pathology, or radiology test results.
12. Death or serious injury of a patient or staff associated with the introduction of a metallic object into the MRI area.
13. Patient death or serious injury associated with the use of physical restraints or bedrails while being cared for in a health care setting.
14. Death or serious injury of a patient or staff member resulting from a physical assault (i.e., battery) that occurs within or on the grounds of a healthcare setting.

No reduction in payment for a provider preventable condition will be imposed on a provider when the condition defined as a PPC for a particular patient existed prior to the initiation of treatment for that patient by that provider.

Reduction in provider payment may be limited to the extent that the following apply: (i) the identified provider preventable conditions would otherwise result in an increase in payment; (ii) the State can reasonably isolate for nonpayment the portion of the payment directly related to treatment for, and related to, the provider preventable condition.

A State plan must ensure that nonpayment for provider-preventable conditions does not prevent access to services for Medicaid beneficiaries.

Payment Method:

EOHHS will pay hospitals in accordance with the requirements of 42 CFR Part 447, Subpart A, and sections 1902(a)(4), 1902(a)(6) and 1903 with respect to non-payment for provider-preventable conditions.

State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services

Provider preventable conditions (“PPCs”) are defined as those conditions that are identified as Other Provider-Preventable Conditions (“OPPCs”) above. The OPPCs include the three National Coverage Determinations (the “NCDs”) and the Additional Other Provider Preventable Conditions (“Additional OPPCs”) that are listed above.

When a Hospital reports a PPC, MassHealth will reduce payments to the Hospital as follows:

1. APEC:
 - a. MassHealth will not pay the APEC if the Hospital reports that only-PPC-related services were delivered during the episode of care, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
 - b. MassHealth will pay the APEC, as adjusted to exclude PPC-related costs/services, if the Hospital reports that non-PPC related services were also delivered during the same episode of care, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
2. Outpatient Hospital Payments for Hospital-Based Physician Services: MassHealth will not pay for outpatient Hospital-based physician services reported as PPC-related services.
3. Follow-Up Care in Same Hospital: If a Hospital reports that it provided follow-up outpatient hospital services that were solely the result of a previous PPC (inpatient or outpatient) that occurred while the member was being cared for at a facility covered under the same hospital license., MassHealth will not pay for the reported follow-up services. If the hospital reports that non-PPC-related services were provided during the follow-up episode of care, payment will be made, but adjusted in the case of an APEC payment to exclude PPC-related costs/services, and MassHealth will exclude all PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.

The federal non-payment provision also applies to third party liability and crossover payments by MassHealth.

Charges for services, including co-payments or deductibles, deemed non-billable to MassHealth are not billable to the member.

In the event that individual cases are identified throughout the PPC implementation period, the Commonwealth shall adjust reimbursement according to the methodology above.

**State Plan Under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services**

B. Serious Reportable Events

The non-payment provisions set forth in this Section VI.B. apply to the following serious reportable events (SREs), where applicable:

1. Discharge or release of a patient / resident of any age, who is unable to make decisions, to other than an authorized person.
2. Any incident in which systems designated for oxygen or other gas to be delivered to a patient contains no gas, the wrong gas or are contaminated by toxic substances
3. Any instance of care ordered by or provided by someone impersonating a physician, nurse, pharmacist, or other licensed health care provider.
4. Abduction of a patient / resident of any age.
5. Sexual abuse / assault on a patient or staff member within or on the grounds of the healthcare setting.

Hospitals are prohibited from charging or seeking payment from MassHealth or the Member for Hospital and Hospital-Based Physician services that are made necessary by, or are provided as a result of, a serious reportable event occurring on premises covered under the Hospital license that was preventable, within the Hospital's control, and unambiguously the result of a system failure, as described in DPH regulations at 105 CMR 130.332 as in effect on the date of service. Non-reimbursable Hospital and Hospital-Based Physician services include:

1. All services provided during the outpatient visit during which a preventable SRE occurred; and
2. All services provided during readmissions and follow-up outpatient visits as a result of a non-billable SRE provided:
 - a. at a facility under the same license as the Hospital at which a non-billable SRE occurred; or
 - b. on the premises of a separately licensed hospital with common ownership or a common corporate parent of the Hospital at which a non-billable SRE occurred.
3. Charges for services, including co-payments or deductibles, deemed non-billable to MassHealth are not billable to the Member.

The non-payment provision also applies to third-party liability and crossover payments by MassHealth.

A Hospital not involved in the occurrence of a preventable SRE that also does not meet the criteria in number 2 above, and that provides inpatient or outpatient services to a patient who previously incurred an SRE may bill MassHealth for all medically necessary Hospital and Hospital-Based Physician services provided to the patient following a preventable SRE.

State Plan under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services
Exhibit 1: RY19 Payment Method for Critical Access Hospitals
Effective October 1, 2018 through September 30, 2019

EXHIBIT 1
RY20 Payment Method Applicable to Critical Access Hospitals
Effective October 1, 2019 through September 30, 2020

Section I. Overview

The payment methods set forth in this **Exhibit 1** apply to Critical Access Hospitals for RY20 (October 1, 2019 through September 30, 2020).

Section II. Payment Method - General

EOHHS will pay Critical Access Hospitals an amount equal to 101 percent of the Hospital's allowable costs as determined by EOHHS utilizing the Medicare cost-based reimbursement methodology, for both inpatient and outpatient services in RY20, as more fully described below. Interim payments will be made to Critical Access Hospitals based on the rates and methods set forth in this **Exhibit 1**, which payments are provisional in nature and subject to the completion of a cost review and settlement for the time period beginning October 1, 2019 through September 30, 2020, as described in **Section II(B)** of this **Exhibit 1**. The interim payments made for Outpatient Services to Critical Access Hospitals will be made on the same basis as payment would be made for those same Outpatient Services to all other Hospitals (e.g., per Episode for Outpatient Services paid by the APEC), and the timing of the interim payments will not differ from the timing that Outpatient Services are paid to all other Hospitals. Subject to this **Exhibit 1, Attachment 4.19-B(1)** otherwise applies to Critical Access Hospitals. If a Hospital loses its designation as a Critical Access Hospital, the payment methods for such hospital shall revert to the standard acute hospital rate methodologies, and payments may be adjusted accordingly. Reversion to any such rate methodologies shall not affect the payment rates to other participating acute hospitals for the applicable rate year.

(A) Payment for Outpatient Services

Critical Access Hospitals will be paid for Outpatient Services in accordance with **Attachment 4.19-B(1)** with the following changes.

For dates of service in RY20, Critical Access Hospitals will be paid a Hospital-specific, Episode-specific Adjudicated Payment per Episode of Care (APEC) for those Outpatient Services for which all other in-state Hospitals are paid an APEC.

Notwithstanding **Section III.B** of this **Attachment 4.19-B(1)**, for dates of service in the 1st RY20 Period, the hospital-specific, episode-specific APEC for each Critical Access Hospital was calculated as follows:

State Plan under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services
Exhibit 1: RY19 Payment Method for Critical Access Hospitals
Effective October 1, 2018 through September 30, 2019

- (1) EOHHS calculated a cost per Episode for outpatient services for each Critical Access Hospital by dividing the amount reported on worksheet E-3, part VII, column 2, line 21 of the Hospital's FY17 CMS-2552-10 cost report, by the Hospital's number of FY17 Medicaid (MassHealth) Episodes. Episode volume was derived from FY17 paid claims data residing in MMIS for which MassHealth was primary payer.
 - (2) EOHHS then multiplied the cost per Episode amount for each Critical Access Hospital by the Inflation Factors for Operating Costs between RY17 and RY19, as defined in **Section II** of **Attachment 4.19-B(1)**, to derive the Critical Access Hospital's 1st RY20 Period inflation-adjusted cost per Episode.
 - (3) EOHHS then divided each Critical Access Hospital's 1st RY20 Period inflation-adjusted cost per Episode by each Hospital's FY17 outpatient casemix index (CMI), as determined by EOHHS.
 - (4) That result is the 1st RY20 Period CAH-specific Outpatient Standard Rate per Episode.
 - (5) The Critical Access Hospital's APEC for a specific Episode is then determined by substituting the 1st RY20 Period CAH-specific Outpatient Standard Rate per Episode for the Wage Adjusted APEC Outpatient Standard and calculating a CAH APEC payment as otherwise described in **Section III.B.2** of this Attachment 4.19-B(1), utilizing the methodology applicable to the 1st RY20 Period.
- Notwithstanding **Section III.B** of this **Attachment 4.19-B(1)**, for dates of service in the 2nd RY20 Period, the hospital-specific, episode-specific APEC for each Critical Access Hospital was calculated as follows:

- (1) EOHHS calculated a cost per Episode for outpatient services for each Critical Access Hospital by dividing the amount reported on worksheet E-3, part VII, column 2, line 21 of the Hospital's FY18 CMS-2552-10 cost report, by the Hospital's number of FY18 Medicaid (MassHealth) Episodes. Episode volume was derived from FY18 paid claims data residing in MMIS for which MassHealth was primary payer.
- (2) EOHHS then multiplied the cost per Episode amount for each Critical Access Hospital by the Inflation Factors for Operating Costs between RY18 and RY20, as defined in **Section II** of **Attachment 4.19-B(1)**, to derive the Critical Access Hospital's 2nd RY20 Period inflation-adjusted cost per Episode.
- (3) EOHHS then divided each Critical Access Hospital's 2nd RY20 Period inflation-adjusted cost per Episode by each Hospital's FY18 outpatient casemix index (CMI), as determined by EOHHS.

State Plan under Title XIX of the Social Security Act
State: Massachusetts
Methods Used to Determine Rates of Payment for Acute Outpatient Hospital Services
Exhibit 1: RY19 Payment Method for Critical Access Hospitals
Effective October 1, 2018 through September 30, 2019

(4) That result is the 2nd RY20 Period CAH-specific Outpatient Standard Rate per Episode.

(5) The Critical Access Hospital's APEC for a specific Episode is then determined by substituting the 2nd RY20 Period CAH-specific Outpatient Standard Rate per Episode in place of the Wage Adjusted APEC Outpatient Standard and calculating a CAH APEC payment as otherwise described in **Section III.B.2** of this Attachment 4.19-B(1), utilizing the methodology applicable to the 2nd RY20 Period.

(B) Post RY20 Cost Review and Settlement

EOHHS will perform a post-Rate Year 2020 review to determine whether the Critical Access Hospital received aggregate interim payments in an amount equal to 101% of allowable costs utilizing the Medicare cost-based reimbursement methodology for both inpatient and outpatient services for FY20, as such amount is determined by EOHHS ("101% of allowable costs"). See also Exhibit 1 to Attachment 4.19-A(1). EOHHS will utilize the Critical Access Hospital's FY20 CMS-2552-10 cost reports, including completed Medicaid (Title XIX) data worksheets, and such other information that EOHHS determines is necessary, to perform this post RY20 review. "Aggregate interim payments" for this purpose shall include all state plan payments to the hospital for FY20, but excluding, if applicable, any state plan supplemental payments made to a Critical Access Hospital based on its status as a qualifying Hospital as defined in **Section III.F.1 of Attachment 4.19-B(1)**.

If the Critical Access Hospital was paid less than 101% of allowable costs, EOHHS will pay the Critical Access Hospital the difference between 101% of allowable costs and the aggregate interim payments. If the Critical Access Hospital was paid more than 101% of allowable costs, the Critical Access Hospital shall pay to EOHHS, or EOHHS may recoup the amount that equals the difference between the aggregate interim payments and 101% of allowable costs.

This post RY20 review and settlement will take place within twelve (12) months after EOHHS has obtained all accurate and complete data needed to perform the review and settlement calculation. EOHHS estimates that it will have accurate and complete data by September 30, 2021. Assuming this date, the settlement will be complete by September 30, 2022.
