Documentation demonstrating that the notice requirements have been met are submitted with the SPA. The state also provides opportunity for additional public notice if cost sharing is substantially modified during the SPA approval process.

○ 3%
○ 2%
○ 1%
Other: %
The state calculates family income for the purpose of the aggregate limit on the following basis:
C Quarterly
(Monthly
The state has a process to track each family's incurred premiums and cost sharing through a mechanism that does not rely on beneficiary documentation.
Describe the mechanism by which the state tracks each family's incurred premiums and cost sharing (check all that apply):
As claims are submitted for dates of services within the family's current monthly or quarterly cap period, the state applies the incurred cost sharing for that service to the family's aggregate limit. Once the family reaches the aggregate limit, based on incurred cost sharing and any applicable premiums, the state notifies the family and providers that the family has reached their aggregate limit for the current monthly or quarterly cap period, and are no longer subject to premiums or cost sharing.
Managed care organization(s) track each family's incurred cost sharing, as follows:
Other process:
Describe how the state informs beneficiaries and providers of the beneficiaries' aggregate family limit and notifies beneficiaries and providers when a beneficiary has incurred premiums and cost sharing up to the aggregate family limit and individual family members are no longer subject to premiums or cost sharing for the remainder of the family's current monthly or quarterly cap period:
Beneficiaries are sent a notice indicating their monthly cap and subsequent notices anytime they experience a modification to that cap resulting from a change in circumstance. Additionally, beneficiaries are sent a notice they are no longer subject to cost-sharing for the reminder of that month if they incur expenses up to the limit. This information can also be accessed through a self-service voice response system. Providers receive notification through the Pharmacy Online Processing System (POPS).
The state has a documented appeals process for families that believe they have incurred premiums or cost sharing over the aggregate limit for the current monthly or quarterly cap period.
Describe the appeals process used:
All members are informed of their right to appeal in monthly cost sharing cap notices. Through this process members may request a standard fair hearing through our Board of Hearings to remedy concerns they have exceeded the monthly cost sharing cap.
Members may also contact MassHealth customer service to report overpayments. Through this process, a member may initiate an internal review and reconciliation of overpayments. Our customer service vendor will work with MassHealth

Eligibility and Claims Operations to review eligibility case facts and incurred cost sharing. If we identify an overpayment, we will issue a reimbursement to the provider where the overpayment occurred if member is fee-for-service. If the member is enrolled in a managed care entity, the managed care plan will handle the reimbursement. This customer service process is not intended to replace the fair hearing process, but instead seeks to provide members with an informal way to resolve errors or report a change that may impact their cost sharing cap. Members will still have the option to pursue a fair hearing regardless of whether they use this customer service process.

Describe the process used to reimburse beneficiaries and/or providers if the family is identified as paying over the aggregate limit for the month/quarter:

The state implemented a process by which beneficiary and providers can contact the agency for administrative review of cost sharing claims. If determined the beneficiary was charged cost sharing in excess of the monthly individual cap, the state will administratively reprocess claims and the provider will be responsible for returning the copayment collected. If determined a cost sharing was erroneously deducted from a provider claim, the state will administratively reprocess the claim and the provider will be responsible for returning the copayment collected.

Describe the process for beneficiaries to request a reassessment of their family aggregate limit if they have a change in circumstances or if they are being terminated for failure to pay a premium:

Beneficiaries will have their family aggregate limit assessed and individual limit adjusted if needed on a monthly basis. Additionally, beneficiaries may contact the state at any time during the month to request their family aggregate limit be reassessed. The state will also have the ability to turn off cost sharing at the individual level at any time.

The state imposes additional aggregate limits, consistent with 42 CFR 447.56(f)(5).
