Service Delivery Systems

ABP8

Provide detail on the type of delivery system(s) the state/territory will use for the Alternative Benefit Plan's benchmark benefit package or benchmark-equivalent benefit package, including any variation by the participants' geographic area.

Type of service delivery system(s) the state/territory will use for this Alternative Benefit Plan(s).

Select one or more service delivery systems:

- Managed care.
 - Managed Care Organizations (MCO).
 - Prepaid Inpatient Health Plans (PIHP).
 - Prepaid Ambulatory Health Plans (PAHP).
 - Primary Care Case Management (PCCM).

Managed Care Options

Managed Care Assurance

- The state/territory certifies that it will comply with all applicable Medicaid laws and regulations, including but not limited to sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438, in providing managed care services through this Alternative Benefit Plan. This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

As part of implementing its Alternative Benefit Plans, certain MassHealth programs and coverage types under Massachusetts' 1115 Demonstration ended on December 31, 2013 and members enrolled in those programs and coverage types are receiving coverage under a different program or coverage type, including MassHealth Standard, as of January 1, 2014. MassHealth's outreach efforts to members include providing written notice to these members explaining that their coverage is changing, that they are receiving the same or richer benefits starting January 1, 2014, and how to select a health plan. Most members affected by this transition are familiar with the MassHealth managed care delivery system. Such members have previously been required to choose between other MassHealth managed care options (such as an MCO or MassHealth's PCC Plan) or, if not currently in MassHealth, have had commercial coverage similar to MassHealth's managed care delivery system. Therefore, requiring Standard ABP members to enroll in a MassHealth managed care option is consistent with Massachusetts' goal of providing continuity for individuals who fluctuate between Medicaid and commercial insurance products. MassHealth customer service is prepared to answer questions from any caller about this transition, including questions about selecting a health plan.

MassHealth has also undertaken outreach efforts to stakeholders and providers. Stakeholders and providers have been kept apprised of MassHealth's implementation through Massachusetts' 1115 Demonstration Amendment process, regular stakeholder meetings, the Alternative Benefit Plan public comment period, and the state regulatory process.
