Effective April 1, 2022, Medicaid-eligible pregnant individuals will be able to access full Medicaid benefits for the duration of their pregnancy and the 12-month postpartum period, regardless of any changes in income or household size. The 12-month postpartum coverage period will begin on the last day of the pregnancy and end on the last day of the 12th month.

Eligibility for the postpartum expansion will vary based on whether they are newly applying for Medicaid or already enrolled and the end date of the pregnancy.

Pregnant people who are applying for postpartum coverage but are not enrolled in Medicaid at the time of application ("new applicants") will be covered through the twelfth month following their pregnancy end date. New applicants who are not currently pregnant and who have not had a pregnancy within the last three months will not be eligible for postpartum coverage. If a new applicant is not pregnant at the time of the application but had a pregnancy within the last three months and accessed a Medicaid-covered service during that time, they are covered through the 12th month following the pregnancy end date if they apply for the retroactive coverage.

People who are already enrolled in Medicaid ("existing enrollees"), who are currently pregnant will be covered through the twelfth month following their pregnancy end date. Existing enrollees who are not currently pregnant and have not had a pregnancy within the last twelve months are not eligible for extended Medicaid coverage. An existing enrollee is not currently pregnant but had a pregnancy within the last twelve months is eligible for Medicaid coverage through the twelfth month following their pregnancy end date.

The state provides continuous eligibility for pregnant individuals and extended postpartum coverage in accordance with the following provisions:

A. Mandatory Continuous Eligibility for Pregnant Women

The state provides continuous eligibility to pregnant individuals who were eligible and enrolled under the state plan, without regard to any changes in income that otherwise would result in ineligibility, through the last day of the month in which a 60-day postpartum period (beginning on the last day of the pregnancy) ends. This extension does not apply to pregnant individuals eligible only during a period of presumptive eligibility.

B. Optional 12-Month Postpartum Continuous Eligibility for Pregnant Women

The state provides continuous eligibility to pregnant individuals who were eligible and enrolled under the state plan while pregnant (including during a period of retroactive eligibility) through the last day of the month in which a 12-month postpartum period (beginning on the last day of the pregnancy) ends. The 12-month postpartum continuous eligibility option applies for the period beginning on the effective date of this reviewable unit and is available through March 31, 2027 (or other date as specified by law).

1. This extension does not apply to pregnant individuals eligible only during a period of presumptive eligibility.
2. Full benefits are provided for a pregnant or postpartum individual under this option. This includes all items and services covered under the state plan (or waiver) that are not less in amount, duration, or scope than, or are determined by the Secretary to be substantially equivalent to, the medical assistance available for an individual described in subsection 1902 (a)(10)(A)(i) of the Act.
3. Continuous eligibility is provided to pregnant individuals eligible and enrolled under the state plan through the end of the 12-month postpartum period who would otherwise lose eligibility because of a change in circumstances, unless:
   a. The individual requests voluntary termination of eligibility;
   b. The individual ceases to be a resident of the state;
   c. The Medicaid agency determines that eligibility was determined incorrectly at the most recent determination or redetermination of eligibility because of agency error or fraud, abuse or perjury attributed to the individual; or
   d. The individual dies.
