**COMMUNITY-BASED RESPITE CARE**

Community-based respite services are provided for a minimum of one hour and a maximum of six hours per day, and may not be billed on the same day as out of home respite.

Effective July 1, 2022, a rate increase of 7.25% across community-based Behavioral Health services was implemented in the agency’s fee schedule and is effective for all 1915(i) services provided on or after that date. A link to the published fee schedule can be found by going to the Behavioral Health Information section of [https://mmcphilth.md.gov/Pages/Provider-Information.aspx](https://mmcphilth.md.gov/Pages/Provider-Information.aspx), clicking on the “PBHS Fee Schedule”, and selecting “PMHS 1915(i) Fee Schedule”.

State developed fee schedule rates are the same for both governmental and private individual practitioners and the fee schedule and any annual/periodic adjustments to the fee schedule are published at the above link.

The community-based respite care rate adheres to the CMS-accepted methodology for cost-based rates which includes salary, fringe benefits, indirect costs, and transportation costs. The rate was based on the following staffing assumptions: 68% billable time, 1 FTE respite worker with a caseload of 15, 0.15 FTE administrative staff (respite supervisor at 0.10 FTE and administrative support at 0.05 FTE).

Payment for Community Based Respite Care service as outlined per Attachment 3.1-i page 23-25 is reimbursed in accordance with the fee schedule referenced on page 54 paragraph two. Community Based Respite Care providers are defined per Attachment 3.1-i page 25-26.
OUT OF HOME RESPITE CARE

Out of Home respite services are provided on an overnight basis for a minimum of 12 hours. The service has a maximum of 24 units per year, subject to medical necessity criteria override. The service may not be billed on the same day as community-based respite.

Effective July 1, 2022, a rate increase of 7.25% across community-based Behavioral Health services was implemented in the agency’s fee schedule and is effective for all 1915(i) services provided on or after that date. A link to the published fee schedule can be found by going to the Behavioral Health Information section of https://mmcp.health.maryland.gov/Pages/Provider-Information.aspx, clicking on the “PBHS Fee Schedule”, and selecting “PMHS 1915(i) Fee Schedule”.

State developed fee schedule rates are the same for both governmental and private individual practitioners and the fee schedule and any annual/periodic adjustments to the fee schedule are published at the above link.

The rate development was originally based on the Fiscal Year 2012 Maryland Interagency Rates Committee (IRC) rates for residential child care facilities and child placement agencies. The IRC is charged with developing and operating a rate process for residential child care and child placement agency programs that is fair, equitable and predictable, and is comprised of representatives from the Department of Budget and Management, Maryland Department of Health /Behavioral Health Administration, Department of Human Services/Social Services Administration, Department of Juvenile Services, Governor’s Office for Children and the Maryland State Department of Education.

The IRC identifies programs as “preferred” or "non-preferred." The rate development was originally based on the average per diem rate for preferred programs including group homes, therapeutic group homes, and treatment foster care providers because these are comparable settings to out of home respite care.

Payment for Out Of Home Respite Care service as outlined per Attachment 3.1-i page 26-27 is reimbursed in accordance with the fee schedule referenced on page 55 paragraph three. Out Of Home Respite Care providers are defined per Attachment 3.1-i page 27-29.

For Individuals with Chronic Mental Illness, the following services:

- HCBS Day Treatment or Other Partial Hospitalization Services
- HCBS Psychosocial Rehabilitation

INTENSIVE IN-HOME SERVICES (IIHS) – EVIDENCE BASE PRACTICES (EBP)

The approved Intensive In-Home Services (IIHS) providers will bill the Maryland Department of Health (MDH) directly for the services rendered. No more than one unit of service may be billed for services delivered at the same
time by the same staff. Private and public IIHS providers will be reimbursed at the same rate.

An IIHS provider may bill for a week only if an IIHS activity occurred for the covered youth on at least one day of the billable week. A minimum of one (1) face-to-face contact is required per week. At least fifty percent (50%) of therapist’s contacts with the youth and/or family must be face-to-face. A minimum of fifty percent (50%) of the therapist’s time must be spent working outside the agency and in the youth’s home or community, as documented in the case notes. An individual can only receive IIHS services from one provider at a time. Partial hospitalization/day treatment and other family therapies cannot be charged at the same time. IIHS providers are expected to provide crisis response services for the youth on their caseload.

The rate development adheres to the CMS-accepted methodology for cost-based rates, which includes salary, fringe benefits, indirect costs, and transportation costs based on an average of the mileage experience in current IIHS program. Cost estimates conform to our experience with programs similar to IIHS in Maryland, including the salaries paid.

An evidence-based practice (EBP) is defined as a program, intervention or service that:

1. Is recognized by MDH as an EBP for youth;
   a. Are derived from rigorous, scientifically controlled research; and
   b. Can be applied in community settings with a defined clinical population;

2. Has a consistent training and service delivery model;

3. Utilizes a treatment manual; and

4. Has demonstrated evidence that successful program implementation results in improved, measurable outcomes for recipients of the service intervention.

The rate for the IIHS-EBP (and, in particular, the caseload used) was based on Functional Family Therapy, an established EBP in Maryland. The rate is higher for those programs that are identified as an EBP, in keeping with the established practice of different reimbursement rates for an EBP versus non-EBP service (e.g., Mobile Treatment Services and Assertive Community Treatment).
The weekly rate for the IIHS-EBP program is based on the cost of a therapist with a maximum caseload of 11 and a maximum length of stay in the program of 16 weeks. The supervisor caseload is a ratio of 1:5. The rate includes other costs, including mileage costs (at least 50% of face-to-face contacts must be in the home or community, and the therapist must see the youth and family face-to-face at least once each week), rent, and communications costs.

Payment for Intensive In-Home service as outlined per Attachment 3.1-i page 20-21 and is reimbursed in accordance with the fee schedule referenced on page 56 paragraph four. Intensive In-Home providers are defined per Attachment 3.1-i page 21-23.

INTENSIVE IN-HOME SERVICES (IIHS)—NON EVIDENCE BASED PRACTICE (NON EBP)

The approved Intensive In-Home Services (IIHS) providers will bill the Maryland Department of Health directly for the services rendered. No more than one unit of service may be billed for services delivered at the same time by the same staff. Private and public IIHS providers will be reimbursed at the same rate.
