June 21, 2022

Ms. Farah Hanley
Medicaid Director
Medical Services Administration
400 S Pine St 7th Fl
Lansing, MI 48933-2250

RE: State Plan Amendment (SPA) Transmittal Number 22-0004

Dear Ms. Hanley:

The Centers for Medicare & Medicaid Services (CMS) reviewed your Medicaid State Plan Amendment (SPA) submitted under transmittal number (TN) 22-0004. This amendment updates the Medicaid State Plan language pertaining to the coverage of medically necessary organ and tissue transplant procedures and related services.

We conducted our review of your submittal according to statutory requirements in Title XIX of the Social Security Act and implementing regulations 42 CFR 441.35. This letter is to inform you that MI Medicaid SPA 22-0004 was approved on June 21, 2022 with an effective date of 4/1/2022.

If you have any questions, please contact Keri Toback at 312 353 1754 or via email at keri.toback@cms.hhs.gov.

Sincerely,

James G. Scott, Director
Division of Program Operations

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Michigan

Standards for the Coverage of Organ Transplant Services

Coverage of Organ and Tissue Transplant Services

Organ and tissue transplant services, including inpatient and outpatient pre-and post-operative medical, surgical, hospital, and related transportation services, are covered for eligible beneficiaries when medically necessary. For purposes of this coverage, the term organ is defined as kidney, liver, heart, lung, pancreas, intestine (including the esophagus, stomach, small and/or large intestine, or any portion of the gastrointestinal tract), any vascularized composite allograft, or other organ defined in The National Organ Transplant Act of 1984, as amended, and Hematopoietic stem/progenitor cells, cornea, bone, and skin.

Coverage Criteria

Medically necessary transplant services are covered when the transplant is likely to prolong life and restore a range of physical and social function to activities of daily living. All other medical and surgical therapies that might be expected to affect short- and long-term survival must have been tried or considered. The following criteria must be satisfied for the coverage of organ transplant services:

- Transplant services meet the requirements contained in Section 1138(b) of the Social Security Act, Hospital Protocols for Organ Procurement, Food and Drug administration regulations, and Standards for Organ Procurement Agencies.
- Transplant services meet the general requirements for physician and hospital services.
- In making the selection of beneficiaries undergoing the procedure, similarly situated individuals are treated alike.
- Transplant Services must be reasonable in amount, duration, and scope to achieve their purpose.

Facility Requirements

Transplant services for organs defined in the national organ transplant act of 1984, as amended, must be provided in a facility that is a member of the organ procurement and transplantation network (OPTN) where applicable to the transplanted organ.

Prior Authorization

Prior authorization for organ transplant services is required for all beneficiaries, donors, and potential donor services related to organ transplants, with the exception of cornea and kidney. Prior authorization for transplant services, where applicable, is reviewed on a case-by-case basis. Approval is based on critical medical need for transplantation and a maximum likelihood of successful clinical outcomes.

Organ Procurement Services

Donor expenses, including facility costs and physician services, lodging, and transportation, incurred directly in connection with and immediately attributed to the transplant surgery, may be covered. The donor must exhaust all possible insurance sources before Medicaid is billed for the services.
