RE: Montana State Plan Amendment (SPA) Transmittal Number 21-0006

Dear Director Randol:

We have reviewed the proposed Montana State Plan Amendment (SPA) to Attachment 4.19-B of your state plan, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on March 27, 2021. This plan amendment removes Medication Assisted Treatment (MAT) services from this SPA.

Based upon the information provided by the State, we have approved the amendment with an effective date of October 1, 2020. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact LaJoshica (Josh) Smith via 214-767-6453 or lajoshica.smith@cms.hhs.gov.

Sincerely,

Todd McMillion  
Director  
Division of Reimbursement Review
# Transmittal and Notice of Approval of State Plan Material

## For: Health Care Financing Administration

10/1/20

### 20. Signature of Regional Official:

| Single Agency Director Review |

### 21. Typed Name:
Todd McMillion

### 22. Title:
Director, Division of Reimbursement Review

### 23. Remarks:
I. Reimbursement for Physician Services shall be:

A. The lower of:

1. The provider’s usual and customary charge for the service;
   or
2. Reimbursement provided in accordance with the methodology described in Number II.

II. The Department’s fee schedule for Physician Services is determined:

A. In accordance with the Resource Based Relative Value Scale (RBRVS) methodology, by multiplying Medicare’s Relative Value Units (RVU), or Medicare’s base and time units for anesthesia services, which is numeric, by the Montana Medicaid specific conversion factor, which is a dollar amount, to equal a fee. Specific to Montana Medicaid, there is an ability to multiply the fee times a policy adjuster (either plus or minus) to affect the fee.

1. RBRVS means the version of the Medicare resource based relative value scale contained in the Medicare Physician Fee Schedule (MPFS) adopted by the Centers for Medicare and Medicaid Services (CMS). The Department will update Medicare additions, deletions, or changes to procedure codes on the first of each quarter.

2. RVU means a numerical value assigned by Medicare in the RBRVS methodology to each procedure code used to bill for services provided by a health care provider. The RVU assigned to a particular code expresses the relative effort and expense expended by a provider in providing one service as compared with another service.

3. For procedure codes that cannot be determined by the methodology in II. B. 1., by multiplying the average charge for the service by the payment-to-charge ratio. The payment-to-charge ratio means the percent determined by dividing the previous state fiscal year’s total Medicaid reimbursement for RBRVS provider covered services by the previous state fiscal year’s total Medicaid charges for RBRVS provider covered services.
4. Medication-Assisted Therapy (MAT) rates are bundled into two rates for qualified providers. These rates may be billed once per week per member by qualified providers which include physicians, psychiatrists and mid-level practitioners. Any provider delivering services through a bundle will be paid the bundled rate and cannot bill separately for services included in the bundled rate. Any Medicaid provider delivering separate services outside of the bundle may bill for those separate services in accordance with Montana Medicaid billing procedures.

The formula for setting the bundled rate was the aggregate fee of each service component within the bundled service. The state will periodically monitor the provision and economic sustainability of the service bundles. At least one of the services included in the bundle must be provided within the service payment unit for providers to bill the bundled rate. Effective for the dates of October 1, 2020 through September 30, 2025, MAT is provided under the authority of §1905(a)(29).

a. MAT Intake. This service bundle includes the following services:
   a face-to-face assessment by a physician or mid-level practitioner; integrated behavioral health assessment; tobacco screening; screening for alcohol misuse; presumptive drug screening; urine pregnancy test; and administration of medication.

b. MAT Established: This service bundle includes the following services: one visit with a physician or mid-level provider, face to face or by telemedicine, per month; member check-in, at the clinic, the member’s home or via telemedicine a minimum of once a week; monthly pregnancy test for human chorionic gonadotropin (HCG); monthly presumptive drug testing and update of the individualized treatment plan (ITP) every 30 days.

B. At least two of the services included in the bundle must be provided within the service payment unit for providers to bill the bundled rate. Room and board costs are excluded from all rates. Unless otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers of physician services. The agency’s rates were set as of the date on the Attachment 4.19B Introduction Page and are published at https://medicaidprovider.mt.gov/.
