Re: Montana 22-0031

Dear Mr. Randol,

We have reviewed the proposed amendment to Attachment 4.19-A of your Medicaid State plan submitted under transmittal number (TN) 22-0031. Effective for services on or after October 1, 2022, this amendment updates the reimbursement methodology for inpatient hospitals services for State Fiscal Year 2023.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903(a) and 1923 of the Social Security Act and the implementing Federal regulations at 42 CFR 447 Subpart C. We are pleased to inform you that Medicaid State plan amendment TN 22-0031 is approved effective October 1, 2022. The CMS-179 and the amended plan page are attached.

If you have any questions, please contact Christine Storey at [christine.storey@cms.hhs.gov](mailto:christine.storey@cms.hhs.gov) or (303) 844-7044.

Sincerely,

Rory Howe  
Director

9. SUBJECT OF AMENDMENT

DPHHS proposes to adopt Version 39.1 of the 3M All Patient Refined Diagnosis Related Groups (APR-DRG) grouper. This grouper update includes changes to DRG relative weights, average length of stays, and adds and/or deletes some DRGs. The department proposes to increase the base rate for 'General Hospitals' to \$5,390 and the base rate for 'Centers of Excellence' to \$8,030. These changes to APR-DRG are projected to provide for an increase of \$511,712 for SFY 2023.

22. REMARKS

## REIMBURSEMENT FOR INPATIENT HOSPITAL SERVICES

## A. MONTANA MEDICAID PROSPECTIVE PAYMENT (DRG) REIMBURSEMENT

Except as specified in Subsection B, the Inpatient Prospective Payment Method applies to all inpatient stays in all acute care general, rehabilitation and mental health (psychiatric/substance abuse treatment) hospitals and units located in Montana or out-of-state.

## 1. Primacy of Medicaid Policy

Some features of the Medicaid Inpatient Prospective Payment Method are patterned after similar payment policies used by Medicare. When specific details of the payment method differ between Medicaid and Medicare, then the Medicaid policy prevails.

## 2. APR-DRG Reimbursement

For admissions dated October 1, 2016 and after, the Department will reimburse hospitals the lesser of a per-stay rate based on All Patient Refined Diagnosis Related Groups (APR-DRGs) or billed charges. APR-DRGs classify each case based on information contained on the inpatient Medicaid claim such as diagnosis, procedures performed, patient age, patient sex, and discharge status. The APR-DRG determines the reimbursement when the DRG Relative Weight is multiplied by the DRG Base Price.

The APR-DRG relative weights values, average national length of stay (ALOS), outlier thresholds, and APR-DRG grouper are contained in the APR-DRG Calculator effective October 1, 2022. The APR-DRG calculator can be referenced on the state's website: <https://medicaidprovider.mt.gov/>.

Hospitals reimbursed using the Inpatient Prospective Payment Method are not subject to retrospective cost reimbursement.

## 3. DRG Relative Weights

For each DRG a relative weight factor is assigned. The relative weight is applied to determine the DRG Base Payment that will be paid for each admit-through-discharge case regardless of the specific services provided or the length of stay. The DRG relative weight is a weight assigned that reflects the typical resources consumed. DRG weights are reviewed and updated annually by the Department. The weights are adapted from national databases of inpatient stays and are then "re-centered" so that the average Montana Medicaid stay in a base year has a weight of 1.00.

When the Department determines that adjustments to relative weights for specific DRGs are appropriate to meet Medicaid policy goals related to access to quality care, a "policy adjustor" will be explicitly applied to increase or decrease these relative weights. Policy adjustors are intended to be budget neutral, that is, they change payments for one type of service relative to other types without increasing or decreasing payments overall.
