Re: New Jersey State Plan Amendment (SPA) #20-0006

Dear Ms. Jacobs:

The Centers for Medicare & Medicaid Services (CMS) reviewed your Medicaid State Plan Amendment (SPA) submitted under transmittal number (TN) #20-0006 on September 9, 2020. This amendment proposes to include the substance use disorder care management services to the state's Alternative Benefits Plan.

We conducted our review of your submittal according to statutory requirements in Title XIX of the Social Security Act and implementing regulations, section 1937 and 42 CFR Part 440. This letter is to inform you that New Jersey Medicaid SPA #20-0006 was approved on January 7, 2022, with an effective date of July 1, 2020.

If you have any questions, please contact Terri Fraser at (410) 786-5573 or via email at Terri.Fraser@cms.hhs.gov.

Sincerely,

A solid black rectangular box redacting the signature of James G. Scott.

Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A) (i)(VIII) of the Act ABP2a

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

Yes

Explain how the state has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements.

For NJ FamilyCare ABP, the state compared its State Plan benefits with those offered through its base benchmark plan, the largest commercial plan, Horizon HMO. The state concluded that the Medicaid State Plan offers all the Essential Health Benefits at the same or richer amount, duration and scope.

Selection of Benchmark Benefit Package or Benchmark-Equivalent Benefit Package ABP3

Select one of the following:

- The state/territory is amending one existing benefit package for the population defined in Section 1.
- The state/territory is creating a single new benefit package for the population defined in Section 1.

Name of benefit package:

Selection of the Section 1937 Coverage Option

The state/territory selects as its Section 1937 Coverage option the following type of Benchmark Benefit Package or Benchmark-Equivalent Benefit Package under this Alternative Benefit Plan (check one):

- Benchmark Benefit Package.
- Benchmark-Equivalent Benefit Package.

The state/territory will provide the following Benchmark Benefit Package (check one that applies):

- The Standard Blue Cross/Blue Shield Preferred Provider Option offered through the Federal Employee Health Benefit Program (FEHBP).
- State employee coverage that is offered and generally available to state employees (State Employee Coverage):
- A commercial HMO with the largest insured commercial, non-Medicaid enrollment in the state/territory (Commercial HMO):
- Secretary-Approved Coverage.
 - The state/territory offers benefits based on the approved state plan.
 - The state/territory offers an array of benefits from the section 1937 coverage option and/or base benchmark plan benefit packages, or the approved state plan, or from a combination of these benefit packages.
 - The state/territory offers the benefits provided in the approved state plan.
 - Benefits include all those provided in the approved state plan plus additional benefits.
 - Benefits are the same as provided in the approved state plan but in a different amount, duration and/or scope.
 - The state/territory offers only a partial list of benefits provided in the approved state plan.
 - The state/territory offers a partial list of benefits provided in the approved state plan plus additional benefits.

Please briefly identify the benefits, the source of benefits and any limitations:

Selection of Base Benchmark Plan

Alternative Benefit Plan

The state/territory must select a Base Benchmark Plan as the basis for providing Essential Health Benefits in its Benchmark or Benchmark-Equivalent Package.

The Base Benchmark Plan is the same as the Section 1937 Coverage option.

Indicate which Benchmark Plan described at 45 CFR 156.100(a) the state/territory will use as its Base Benchmark Plan:

- Largest plan by enrollment of the three largest small group insurance products in the state's small group market.
- Any of the largest three state employee health benefit plans by enrollment.
- Any of the largest three national FEHBP plan options open to Federal employees in all geographies by enrollment.
- Largest insured commercial non-Medicaid HMO.

Plan name:

Other Information Related to Selection of the Section 1937 Coverage Option and the Base Benchmark Plan (optional):

The state assures that all services in the base benchmark have been accounted for throughout the benefit chart found in ABP 5.

The state assures the accuracy of all information in ABP 5 depicting amount, duration and scope parameters of services authorized in the currently approved Medicaid state plan.

Community Mental Health Rehabilitation Services - Psychiatric Emergency Rehabilitation Services (PERS)

Service Description:

Psychiatric Emergency Rehabilitation Services (PERS) services are provided to a person who is experiencing a behavior health crisis, designed to interrupt and/or ameliorate a crisis experience including an assessment, immediate crisis resolution and de-escalation, and referral and linkage to appropriate services to avoid, where possible, more restrictive levels of treatment. The goals of PERS are symptom reduction, stabilization, and restoration to a previous level of functioning. All activities must occur within the context of a potential or actual behavioral health crisis. PERS is a face-to-face intervention and can occur in a variety of locations, including but not limited to an emergency room or clinic setting, in addition to other community locations where the person lives, works, attends school, and/or socializes. Eligible providers of PERS services must meet the rehab qualifications under the SPA and individuals may choose from any providers meeting the established provider qualifications.

Specific services include;

- A. An assessment of risk and mental status; as well as the need for further evaluation or other mental health services. Includes contact with the client, family members or other collateral sources (e.g. caregiver, school personnel) with pertinent information for the purpose of an assessment and/or referral to other alternative mental health services at an appropriate level.
- B. Short-term PERS including crisis resolution and de-briefing with the identified Medicaid eligible individual.
- C. Follow-up with the individual, and as necessary, with the individual's caretaker and/or family member(s).
- D. Consultation with a physician or with other qualified providers to assist with the individuals' specific crisis

Certified assessors and/or licensed professional of the healing arts shall assess, refer and link all Medicaid eligible individuals in crisis. This shall include but not be limited to performing any necessary assessments; providing crisis stabilization and de-escalation; development of alternative treatment plans; consultation, training and technical assistance to other staff; consultation with the psychiatrist; monitoring of consumers; and arranging for linkage, transfer, transport, or admission as necessary for Medicaid eligible individuals at the conclusion of the PERS.

PERS specialists shall provide PERS counseling, on and off-site; monitoring of consumers; assessment under the supervision of a certified assessor and/or licensed professional of the healing arts; and referral and linkage, if indicated. PERS specialists who are nurses may also provide medication monitoring and nursing assessments.

Psychiatrists in each crisis program perform psychiatric assessments, evaluation and management as

Alternative Benefit Plan

needed; prescription and monitoring of medication; as well as supervision and consultation with PERS program staff.

Consumer Participation Criteria

These rehabilitation services are provided as part of a comprehensive specialized psychiatric program available to all Medicaid eligible consumers. PERS services must be medically necessary. The medical necessity for these rehabilitative services must be recommended by a licensed practitioner of the healing arts who is acting within the scope of his/her professional licensed and applicable state law to promote the maximum reduction of symptoms and/or restoration of an individual to his/her best age-appropriate functional level. All individuals who are identified as experiencing a seriously acute psychological/emotional change which results in a marked increase in personal distress and which exceeds the abilities and the resources of those involved to effectively resolve it are eligible. Individuals may choose from any providers meeting the established provider qualifications outlined in this SPA.

Provider Qualifications:

Programs shall be certified by Medicaid and/or its designee as meeting state requirements for PERS programs.

PERS services are delivered by certified assessors, temporary assessors, PERS specialists, and licensed professionals of the healing arts. Prior to achieving full status as a certified assessor, an individual shall serve as a temporary assessor for one year, complete certification training, and pass a proficiency exam.

Certified assessors must have:

1. a MA/MS in a mental health related field from an accredited institution, plus one year of post-master's full time professional experience in a psychiatric setting; OR
2. a BA/BS in a mental health related field from an accredited institution, plus three years of post-bachelor's full time professional experience in a mental health setting, one of which is in a crisis setting; OR
3. a BA/BS in a mental health related field from an accredited institution, plus two years of post-bachelor's full time professional experience in a mental health setting, one of which is in a crisis setting and currently enrolled in a master's program; OR
4. a licensed registered nurse with three years full-time, post RN, professional experience in the mental health field, one of which is in a crisis setting.

PERS specialists shall have:

1. A MA/MS in a mental health related field from an accredited institution; OR
2. A BA/BS in a mental health related field from an accredited institution, plus two years of full time professional experience in a psychiatric setting; OR
3. Licensure as a registered professional nurse.

Each PERS program is supervised by a medical director who is a psychiatrist. A licensed professional of the healing arts who is acting within the scope of his/her professional licensed and applicable state law is available for consultation and able to recommend treatment 24 hours a day, seven days a week to the PERS program.

Amount, Duration and Scope:

A unit of service is defined according to the HCPCS approved code set unless otherwise specified.

PERS services by their nature are crisis services and are not subject to prior approval. Components that are not provided to, or directed exclusively toward the treatment of, the Medicaid eligible individual are not eligible for Medicaid coverage.

The PERS services should follow any established crisis plan already developed for the consumer as part of an individualized treatment plan, called a care plan. The PERS activities must be intended to achieve identified care plan goals or objectives.

Alternative Benefit Plan

Remove

If no crisis plan has yet been developed for the consumer, then the PERS services should stabilize the individual, identify appropriate aftercare for the consumer including referral and linkage to a community provider who will develop a formal care plan, admission to an inpatient/residential setting where a formal care plan will be developed or the development of an alternative care plan by the certified assessor. In all circumstances, the goal of PERS should be the de-escalation and stabilization of the individual as well as determining longer-term care goals through the implementation of or development of a care plan either directly or through referral. The crisis/aftercare/care plan (care plan) should be developed in a person-centered manner with the active participation of the individual, family and providers and be based on the individual's condition and the standards of practice for the provision of these specific rehabilitative services. An individual in crisis may be represented by a family member or other collateral contact who has knowledge of the individual's capabilities and functioning. The care plan should identify the medical or remedial services intended to reduce the identified condition as well as the anticipated outcomes of the individual. The care plan must specify the frequency, amount and duration of services. The care plan must be recommended by a licensed practitioner of the healing arts and should, where possible, be signed by the consumer as appropriate for his or her diagnosis. The care plan developed during PERS will specify a timeline for reevaluation as applicable. Ideally, the care plan developed in PERS will be replaced almost immediately (e.g., in a few weeks) by a more permanent care plan once the individual is stabilized and in a longer term community or institutional placement. The reevaluation should involve the individual, family and providers and include a reevaluation of plan to determine whether services have contributed to meeting the stated goals. A new care plan should be developed if there is no measureable reduction of disability or restoration of functional level. The new plan should identify a different rehabilitation strategy with revised goals and services. Coordination with crisis intervention teams in community support services is required and includes receiving referrals from individuals enrolled in that program and ensuring coordination back to that community program where necessary de-escalation and stabilization has occurred.

Substance use must be recognized and addressed in an integrated fashion as it may add to the risk of increasing the need for engagement in care. Individuals may not be excluded from service due to active, current, substance abuse or history of substance abuse.

Limitations:

Providers must maintain medical records that include a copy of the care plan, the name of the individual, dates of services provided, nature, content and units of rehabilitation services provided, and progress made toward functional improvement and goals in the care plan. Services cannot be provided to a resident of an institution including any residents of Institutions for Mental Disease (IMD). Room and board is not included in Medicaid coverage of PERS.

Services provided to children and youth must include communication and coordination with the family and/or legal guardian and custodial agency for children in state custody. Coordination with other child serving systems should occur as needed to achieve the treatment goals and should include appropriate referrals to the child mobile response program(s). All coordination must be documented in the youth's medical record.

Adults with SMI who are at risk for high utilization of medical and behavioral health care services.

Other:

This benefit is identical to NJ FamilyCare Plan A Standard Medicaid Plan 1945 described on pages: Attachment 3.1 H page 9 of 48 to page 48 of 48.

Service Descriptions: Comprehensive Care Management: Care Management is the primary coordinating function in a BHH. The goal of Care Management is the assessment of consumer needs, development of the care plan, coordination of the services identified in the care plan and the ongoing assessment and revisions to the plan based on evaluation of the consumer's needs. The Care Manager is the Team Leader. Comprehensive care management services are conducted by registered nurses, physician's assistants or advanced practice nurses.

Service Limitations: Entry to this service is based on diagnostic and service utilization criteria. An adult consumer must have a diagnosis of Serious Mental Illness (SMI) and be at risk for high utilization of services.

Consumer Eligibility: NJ plans to provide Behavioral Health Home (BHH) services to adults with a Serious Mental Illness (SMI) who are high utilizers of services or who are at risk of high utilization of services in the counties identified in the NJ FamilyCare Plan A Standard Medicaid Plan 1945 described on pages: Attachment 3.1 H page 9 of 48 to page 48 of 48. For this service SMI is defined a mental illness that causes serious impairments in emotional and behavioral functioning that interfere with an individual's capacity to remain in the community unless supported by treatment and services. The determination of risk is made using the Chronic Illness and Disability Payment System (CDPS).

Enrollment: NJ Division of Medical Assistance and Health Services (DMAHS) and Division Mental Health and Addiction Services (DMHAS) will partner with providers to identify and refer to the BHH service. Using claims data, DMAHS will identify consumers for the BHH service. NJ DMAHS will notify the consumers via hard copy mail of their eligibility, how to engage in the service, and choice of provider. Individuals will not be auto enrolled in the BHH service. For those individuals receiving the ABP benefit package, BHH eligibility is driven by diagnosis. The list of BHH eligible diagnosis will be available to BHH providers enabling them to screen individuals for eligibility and enroll in the BHH. The BHH will also be required to outreach to consumers who are not currently receiving services.

Provider Specifications:

- A mental health treatment provider licensed by DHS.
- Certified to provide BHH by DHS
- Accredited by NCQA or other nationally recognized accrediting body as a Health Home within two years of initial state certification

Provider Eligibility: All BHH provider agencies must be licensed as a mental health provider by the New Jersey Department of Human Services (NJ DHS) and serve Bergen County and Mercer County residents. The DMHAS will use a qualification process to certify licensed mental health providers as BHHs. Providers will have two years from certification as a BHH to become accredited as a BHH by a nationally recognized and state approved accrediting body.

Provider Infrastructure: The BHH Core Team will include: a Nurse Care Manager, a Care Coordinator, a Health and Wellness Educator, consultative services of a Psychiatrist and a Primary Care Physician, and Support Staff. Physician time for BHH services is limited to the time spent in face to face team meetings and consultation. Optional team members include a nutritionist/dietician, Peer, pharmacist and Hospital

Liaison. Support for both the required and optional members were built into the BHH rate.

Staff Qualifications:

Care Management is the primary coordinating function in a BHH (BHH). The goal of Care Management is the assessment of consumer needs, development of the care plan, coordination of the services identified in the care plan and the ongoing assessment and revisions to the plan based on evaluation of the consumer's needs. The Care Manager is the Team Leader. Comprehensive care management services are conducted by licensed registered nurses, physician's assistants or advanced practice nurses.

Care Coordination services are provided by Care Coordinators and other Health Team members with the primary goal of implementing the individualized service plan, with active involvement by the consumer, to ensure the plan reflects consumer needs and preferences. Care coordination emphasizes access to a wide variety of services required to improve overall health and wellness. Care Coordinators can be trained social workers or Licensed Practical Nurses.

Health promotion activities are conducted with an emphasis on empowering the consumer to improve health and wellness. Health Promotion can be provided by any member of the team, a certified peer wellness counselor or other certified health educator.

Individual and family support services (including authorized representatives) can be delivered by nurse care manager or other members of the home health team. Helping the individual and family recognize the importance of family and community support in recovery, health and wellness, and helping them develop and strengthen family and community supports to aid in the process of recovery and health maintenance.

BHHs provide comprehensive transitional care and follow-up to consumers transitioning from inpatient care and/or emergency care to the community. Comprehensive transitional care can be provided by the Nurse Care Manager or other BHH team members.

Referral to community and social support services involves providing assistance for consumers to obtain necessary community and social supports. Referral activities are most often provided by the Care Coordinator but can be performed by any member of the team.

EPSDT Assurances

If the target population includes persons under 21, please complete the following assurances regarding EPSDT. Otherwise, skip to the Prescription Drug Coverage Assurances below.

The alternative benefit plan includes beneficiaries under 21 years of age.

Prescription Drug Coverage Assurances

- The state/territory assures that it meets the minimum requirements for prescription drug coverage in section 1937 of the Act and implementing regulations at 42 CFR 440.347. Coverage is at least the greater of one drug in each United States Pharmacopeia (USP) category and class or the same number of prescription drugs in each category and class as the base benchmark.
- The state/territory assures that procedures are in place to allow a beneficiary to request and gain access to clinically appropriate prescription drugs when not covered.
- The state/territory assures that when it pays for outpatient prescription drugs covered under an Alternative Benefit Plan, it meets the requirements of section 1927 of the Act and implementing regulations at 42 CFR 440.345, except for those requirements that are directly contrary to amount, duration and scope of coverage permitted under section 1937 of the Act.
- The state/territory assures that when conducting prior authorization of prescription drugs under an Alternative Benefit Plan, it complies with prior authorization program requirements in section 1927(d)(5) of the Act.

Other Benefit Assurances

- The state/territory assures that substituted benefits are actuarially equivalent to the benefits they replaced from the base benchmark plan, and that the state/territory has actuarial certification for substituted benefits available for CMS inspection if requested by CMS.
- The state/territory assures that individuals will have access to services in Rural Health Clinics (RHC) and Federally Qualified Health Centers (FQHC) as defined in subparagraphs (B) and (C) of section 1905(a)(2) of the Social Security Act.
- The state/territory assures that payment for RHC and FQHC services is made in accordance with the requirements of section 1902(bb) of the Social Security Act.
- The state/territory assures that it will comply with the requirement of section 1937(b)(5) of the Act by providing, effective January 1, 2014, to all Alternative Benefit Plan participants at least Essential Health Benefits as described in section 1302(b) of the Patient Protection and Affordable Care Act.
- The state/territory assures that it will comply with the mental health and substance use disorder parity requirements of section 1937(b)(6) of the Act by ensuring that the financial requirements and treatment limitations applicable to mental health or substance use disorder benefits comply with the requirements of section 2705(a) of the Public Health Service Act in the same manner as such requirements apply to a group health plan.
- The state/territory assures that it will comply with section 1937(b)(7) of the Act by ensuring that benefits provided to Alternative Benefit Plan participants include, for any individual described in section 1905(a)(4)(C), medical assistance for family planning services and supplies in accordance with such section.
- The state/territory assures transportation (emergency and non-emergency) for individuals enrolled in an Alternative Benefit Plan in accordance with 42 CFR 431.53.

Alternative Benefit Plan

- The state/territory assures, in accordance with 45 CFR 156.115(a)(4) and 45 CFR 147.130, that it will provide as Essential Health Benefits a broad range of preventive services including: “A” and “B” services recommended by the United States Preventive Services Task Force; Advisory Committee for Immunization Practices (ACIP) recommended vaccines; preventive care and screening for infants, children and adults recommended by HRSA's Bright Futures program/project; and additional preventive services for women recommended by the Institute of Medicine (IOM).

Service Delivery Systems

ABP8

Provide detail on the type of delivery system(s) the state/territory will use for the Alternative Benefit Plan's benchmark benefit package or benchmark-equivalent benefit package, including any variation by the participants' geographic area.

Type of service delivery system(s) the state/territory will use for this Alternative Benefit Plan(s).

Select one or more service delivery systems:

- Managed care.
 - Managed Care Organizations (MCO).
 - Prepaid Inpatient Health Plans (PIHP).
 - Prepaid Ambulatory Health Plans (PAHP).
 - Primary Care Case Management (PCCM).

- Fee-for-service.
- Other service delivery system.

Managed Care Options

Managed Care Assurance

- The state/territory certifies that it will comply with all applicable Medicaid laws and regulations, including but not limited to sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438, in providing managed care services through this Alternative Benefit Plan. This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

All current beneficiaries who will begin receiving the Alternative Benefit Plan will be notified that their benefit package is changing to Plan ABP effective 1/1/14. Those not already enrolled in managed care will be required to pick a health plan. New Jersey published the public notice for the Alternative Benefit Plan on September 17, 2013 which allows for a 30-day comment period. We are in the process of making ManagedCare contract revisions to include Plan ABP for 1/1/14 contract. A provider newsletter has been developed and will go out to all FFS providers and managed care organizations outlining the new Alternative Benefit Plan. All new applicants are asked to select a health plan on the application. Once enrolled the member received an enrollment letter with their health plan selection and an overview of the Plan ABP benefits.

MCO: Managed Care Organization

The managed care delivery system is the same as an already approved managed care program.

The managed care program is operating under (select one):

- Section 1915(a) voluntary managed care program.
- Section 1915(b) managed care waiver.
- Section 1932(a) mandatory managed care state plan amendment.

Alternative Benefit Plan

- Section 1115 demonstration.
- Section 1937 Alternative (Benchmark) Benefit Plan state plan amendment.

Identify the date the managed care program was approved by CMS:

Describe program below:

Additional Information: MCO (Optional)

Provide any additional details regarding this service delivery system (optional):

The State of New Jersey operates the NJ FamilyCare program, which includes the mandatory managed care program.

The objective of mandatory enrollment in managed care is to reduce costs, prevent unnecessary utilization, reduce inappropriate utilization, and assure adequate access to quality care for Medicaid recipients.

The basic concept of this program is to enroll Medicaid recipients in MCOs which will provide or prior authorize all primary care and all necessary specialty services. The MCO is responsible for monitoring the health care and utilization of nonemergency services. Neither emergency nor family planning services are restricted under this program.

The MCO will assist the participant in gaining access to the health care system and will monitor on an ongoing basis the participant's condition, health care needs, and service delivery. The plan will be responsible for locating, coordinating and monitoring all primary care and other medical and ancillary services on behalf of recipients enrolled in the plan.

Recipients enrolled under the program will be offered a choice of at least two managed care entities but will be restricted to receive services included in the program either from the plan or from another qualified provider to whom the participant was referred by the plan. The recipient's health care delivery will be managed by the plan. The program's intent is to enhance existing provider-patient relationships and to establish a relationship where there has been none. The program will enhance continuity of care and efficient and effective service delivery

Fee-For-Service Options

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

- Traditional state-managed fee-for-service
- Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

Employer Sponsored Insurance and Payment of Premiums

ABP9

The state/territory provides the Alternative Benefit Plan through the payment of employer sponsored insurance for participants with such coverage, with additional benefits and services provided through a Benchmark or Benchmark-Equivalent Benefit Package.

Yes

Provide a description of employer sponsored insurance, including the population covered, the amount of premium assistance by population, employer sponsored insurance activities including required contribution, cost-effectiveness test requirements, and benefit information:

Program Overview:

The NJ Premium Support Program operates under a Section 1115 demonstration waiver and is designed to cover Title XXI individuals eligible for NJ FamilyCare (CHIP) who have access to cost-effective employer-sponsored health plans. Assistance is provided in the form of a direct reimbursement to the family for the entire premium deduction (or a portion thereof) required for participation in the employer-sponsored health insurance plan. Beneficiaries are reimbursed on a regular schedule, to coincide with their employer's payroll deduction, so as to minimize any adverse financial impact on the beneficiary.

Benefit Package:

If the employer's health plan is not equal to Plan D under NJFC, then the "wraparound" services for children and adults are provided through our Fee-for-service network. ("Wraparound service" means any service that is not covered by the enrollee's employer plan that is an eligible service covered by NJ FamilyCare for the enrollee's category of eligibility.)

Cost Effectiveness Test:

Cost-effectiveness is determined through an algorithm designed to ensure that the total cost (including administrative costs) for an enrollee is less than what it would cost for that enrollee to participate in one of our Managed Care Organizations (MCO's).

There is currently a requirement for a 50% contribution by the employer and the plan must meet certain benchmarks for the system to determine the case to be cost-effective.

Future Plans:

Starting in July 2014, the NJ Premium Support Program will be operating under new guidelines as a result of obtaining approval from CMS for its Comprehensive Waiver.

Cost-effectiveness:

Cost-effectiveness shall be determined in the aggregate by comparing the cost of all eligible family members' participation in the NJ FamilyCare program against the total cost to the State, including administrative costs, of reimbursing eligible members for their employer-sponsored insurance. The amounts used for the calculations shall be derived from actuarial tables used by the NJ FamilyCare program and actual costs reported by the employer during the processing of the NJFC/PSP application.

Minimum employer contributions of 10% will be acceptable if the remaining criteria make the plans cost-effective in the aggregate.

The state/territory otherwise provides for payment of premiums.

Yes

Provide a description including the population covered, the amount of premium assistance by population, required contributions, cost-effectiveness test requirements, and benefits information.

The NJ Medicaid Payment of Premiums Program derives its authority from Transmittal Letter #91-23-MA (Oct. 1991) and is governed by 42 USC 1396e (for group policies) and 42 USC 1396 d (for individual policies). It currently covers medically fragile

Alternative Benefit Plan

Title XIX clients who have access to either employer-based health insurance or health insurance policies in the individual market.

The program pays the entire premium amount for the eligible client and the cost shares are picked up by one of our Managed Care Organizations, which serves as the client's secondary insurance. The latter also pays for any "wraparound" benefits to which a client is entitled under the State Plan.
