RE: Transmittal Number 23-0007 Nevada §1915(i) Home and Community-Based Services (HCBS) State Plan Amendment (SPA)

Dear Ms. Weeks:

The Centers for Medicare & Medicaid Services (CMS) is approving the state's request to amend its 1915(i)-state plan home and community-based services (HCBS) benefit, transmittal number 23-0007. The effective date for this amendment is March 29, 2023. With this amendment, the state is clarifying agency roles and responsibilities regarding data collection .

Enclosed are the following approved SPA pages that should be incorporated into your approved state plan:

- Attachment 3.1-I.2, pages 1 – 47

CMS reminds the state that the state must have an approved spending plan to use the money realized from section 9817 of the ARP. Approval of this action does not constitute approval of the state's spending plan.

It is important to note that CMS approval of this change to the state's 1915(i) HCBS state plan benefit solely addresses the state's compliance with the applicable Medicaid authorities. CMS approval does not address the state's independent and separate obligations under federal laws including, but not limited to, the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, or the Supreme Court's Olmstead decision. Guidance from the Department of Justice concerning compliance with the Americans with Disabilities Act and the Olmstead decision is available at http://www.ada.gov/olmstead/q&a_olmstead.htm.

	Division of Child and Family Services	
	a separate agency of the state that is not a division/unit of the Medicaid agency. In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the State plan HCBS benefit and issues policies, rules and regulations related to the State plan HCBS benefit. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this delegation of authority is available through the Medicaid agency to CMS upon request.	

4. Distribution of State plan HCBS Operational and Administrative Functions.

- ☒ (By checking this box the state assures that): When the Medicaid agency does not directly conduct an administrative function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. When a function is performed by an agency/entity other than the Medicaid agency, the agency/entity performing that function does not substitute its own judgment for that of the Medicaid agency with respect to the application of policies, rules and regulations. Furthermore, the Medicaid Agency assures that it maintains accountability for the performance of any operational, contractual, or local regional entities. In the following table, specify the entity or entities that have responsibility for conducting each of the operational and administrative functions listed (*check each that applies*):

(Check all agencies and/or entities that perform each function):

0 (By checking the following boxes the State assures that):

5. ☒ **Conflict of Interest Standards.** The state assures the independence of persons performing evaluations, assessments, and plans of care. Written conflict of interest standards ensures, at a minimum, that persons performing these functions are not:
- related by blood or marriage to the individual, or any paid caregiver of the individual
 - financially responsible for the individual
 - empowered to make financial or health-related decisions on behalf of the individual
 - providers of State plan HCBS for the individual, or those who have interest in or are employed by a provider of State plan HCBS; except, at the option of the state, when providers are given responsibility to perform assessments and plans of care because such individuals are the only willing and qualified entity in a geographic area, and the state devises conflict of interest protections. *(If the state chooses this option, specify the conflict-of-interest protections the state will implement):*
-
6. ☒ **Fair Hearings and Appeals.** The state assures that individuals have opportunities for fair hearings and appeals in accordance with 42 CFR 431 Subpart E.
7. ☒ **No FFP for Room and Board.** The state has methodology to prevent claims for Federal financial participation for room and board in State plan HCBS.
8. ☒ **Non-duplication of services.** State plan HCBS will not be provided to an individual at the same time as another service that is the same in nature and scope regardless of source, including Federal, state, local, and private entities. For habilitation services, the state includes within the record of each individual an explanation that these services do not include special education and related services defined in the Individuals with Disabilities Education Improvement Act of 2004 that otherwise are available to the individual through a local education agency, or vocational rehabilitation services that otherwise are available to the individual through a program funded under §110 of the Rehabilitation Act of 1973.

Number Served

1. Projected Number of Unduplicated Individuals To Be Served Annually.

(Specify for year one. Years 2-5 optional):

Annual Period	From	To	Projected Number of Participants
Year 1	7/1/2020	12/31/2020	475
Year 2			
Year 3			
Year 4			
Year 5			

2. ☒ **Annual Reporting.** (By checking this box the state agrees to): annually report the actual number of unduplicated individuals served and the estimated number of individuals for the following year.

Financial Eligibility

1. ☒ **Medicaid Eligible.** (By checking this box the state assures that): Individuals receiving State plan HCBS are included in an eligibility group that is covered under the State's Medicaid Plan and have income that does not exceed 150% of the Federal Poverty Line (FPL). (This election does not include the optional categorically needy eligibility group specified at §1902(a) (10) (A) (ii) (XXII) of the Social Security Act. States that want to adopt the §1902(a) (10) (A) (ii) (XXII) eligibility category make the election in Attachment 2.2-A of the state Medicaid plan.)

2. Medically Needy (Select one):

☒ The State does not provide State plan HCBS to the medically needy.

☐ The State provides State plan HCBS to the medically needy. (Select one):

☐ The state elects to disregard the requirements section of 1902(a) (10) (C) (i) (III) of the Social Security Act relating to community income and resource rules for the medically needy. When a state makes this election, individuals who qualify as medically needy on the basis of this election receive only 1915(i) services.

☐ The state does not elect to disregard the requirements at section 1902(a) (10) (C) (i) (III) of the Social Security Act.

Evaluation/Reevaluation of Eligibility

1. **Responsibility for Performing Evaluations / Reevaluations.** Eligibility for the State plan HCBS benefit must be determined through an independent evaluation of each individual). Independent evaluations/reevaluations to determine whether applicants are eligible for the State plan HCBS benefit are performed (Select one):

☐ Directly by the Medicaid agency

- | | |
|---|---|
| ● | By Other (<i>specify State agency or entity under contract with the State Medicaid agency</i>): |
| | Division of Child and Family Services (DCFS), Clark County Department of Family Services (DFS), and Washoe County Human Services Agency (HSA) |

2. **Qualifications of Individuals Performing Evaluation/Reevaluation.** The independent evaluation is performed by an agent that is independent and qualified. There are qualifications (that are reasonably related to performing evaluations) for the individual responsible for evaluation/reevaluation of needs-based eligibility for State plan HCBS. (*Specify qualifications*):

For simplification the term Care Coordinator will be used to encompass either the Child Welfare Agency Case Worker, DCFS Care Manager, or DCFS Wraparound Facilitator.

- Youth with the highest level of need receive High Fidelity Wraparound due to intensive behavioral healthcare needs. Youth may possibly be routed to FOCUS or SAFE and may have a Care Manager or Case Worker leading their Child and Family Team (CFT).

The Child Welfare Agency Case worker will determine eligibility within Clark and Washoe Counties. DCFS Care Manager is an all-encompassing term including the Wraparound Facilitator, they are responsible for determining eligibility in the remaining 15 counties in Nevada. However due to a prior recipient relationship, county need, or recipient acuity level the DCFS Care Manager may determine eligibility within Clark and Washoe Counties. This is a fluid process as the state is the safety net provider and when necessary, lends its resources to the counties.

Qualified Mental Health Associate (QMHA) –

A person who meets the following documented minimum qualifications:

1. Licensure as a Registered Nurse (RN) in the State of Nevada or holds a bachelor's degree from an accredited college or university in a human, social services or behavioral field with additional understanding of RMH treatment services and case file documentation requirements; or

- d. Psychological Interns registered through the Psychological Board of Examiners defined in NAC 641.165. Interns must be supervised in accordance with state regulations and may only provide services within the scope of their licensure.

3. **Process for Performing Evaluation/Reevaluation.** Describe the process for evaluating whether individuals meet the needs-based State plan HCBS eligibility criteria and any instrument(s) used to make this determination. If the reevaluation process differs from the evaluation process, describe the differences:

The Care Coordinator will use a comprehensive biopsychosocial assessment and the level of care decision support tools, the Early Childhood Service Intensity Instrument (ECSII) for youth ages 0-5 or the Child and Adolescent Service Intensity Instrument (CASII) for youth ages 6-18. The Care Coordinator will review clinical indicators of impaired functioning: Prior psychological assessment records, prior placement history, and prior treatment history.

The Care Coordinator will evaluate whether an individual meets the needs-based State plan HCBS eligibility criteria and whether the individual is eligible for the 1915(i)-state plan benefit.

Re-evaluation occurs every 90 days and based on the individual case.

4. ☒ **Reevaluation Schedule.** *(By checking this box the state assures that):* Needs-based eligibility reevaluations are conducted at least every twelve months.

TN#: 23-0007

Approval Date:

Effective Date: March 29, 2023

Supersedes:

June 16, 2023

5. ☒ **Needs-based HCBS Eligibility Criteria.** *(By checking this box the state assures that):* Needs-based criteria are used to evaluate and reevaluate whether an individual is eligible for State plan HCBS.

The criteria take into account the individual's support needs, and may include other risk factors: *(Specify the needs-based criteria):*

Children/youth must need minimum requirements to be considered for 1915(i) services:

1. Impaired Functioning & Service Intensity: The Care Coordinator and CFT will use a comprehensive biopsychosocial assessment and the level of care decision support tools the Early Childhood Service Intensity Instrument (ECSII) for youth ages 0-5 or the Child and Adolescent Service Intensity Instrument (CASII) for youth ages 6-18. The Wraparound Facilitator and CFT will review clinical indicators of impaired functioning: Prior psychological assessment records, prior placement history, and prior treatment history. Youth must demonstrate significant levels of behavioral health needs as evidenced by a minimum CASII or ECSII level of 1.

AND

2. Other Community Alternatives: The accessibility and/or intensity of currently available community supports and services are inadequate to meet these needs due to the severity of the impairment without the provision of one or more of the services contained in the HCBS Benefit, as determined by the DCFS or its designee, as evidenced by at least one of the following risk factors:

- At risk of higher level of care placement due to recent placement disruption within the past six months;
- Current placement in emergency shelter or congregate care due to behavioral and mental health needs;
- In need of transition to community-based living arrangement with intensive behavioral supports when returning or stepping down from residential treatment center or other higher level of care placement; and/or
- At risk of higher level of care placement because prior traditional family foster care and/or less restrictive community treatment services have not been successful.

6. ☒ **Needs-based Institutional and Waiver Criteria.** *(By checking this box the state assures that):* There are needs-based criteria for receipt of institutional services and participation in certain waivers that are more stringent than the criteria above for receipt of State plan HCBS. If the state has revised institutional level of care to reflect more stringent needs-based criteria, individuals receiving institutional services and participating in certain waivers on the date that more stringent criteria become effective are exempt from the new criteria until such time as they no longer require that level of care. *(Complete chart below to summarize the needs-based criteria for State Plan HCBS and corresponding more-stringent criteria for each of the following institutions):*

7. ☒ **Target Group(s).** The state elects to target this 1915(i) State plan HCBS benefit to a specific population based on age, disability, diagnosis, and/or eligibility group. With this election, the state will operate this program for a period of five years. At least 90 days prior to the end of this five-year period, the state may request CMS renewal of this benefit for additional five-year terms in accordance with 1915(i)(7)(C) and 42 CFR 441.710(e)(2). (*Specify target group(s)*):

Target Group. Youth must meet all the following:

- ✓ Youth must be under 19 years of age at the time of enrollment; they may continue in HCBS benefit through age 19
- ✓ and
- ✓ Youth must have a Diagnostic and Statistical Manual of Mental Disorders (DSM-5) or Diagnostic Classification of Mental Health and Developmental Disorders of Infancy and Early Childhood (DC: 0-3) diagnosis.

☐ **Option for Phase-in of Services and Eligibility** If the state elects to target this 1915(i) State plan HCBS benefit, it may limit the enrollment of individuals or the provision of services to enrolled individuals in accordance with 1915(i)(7)(B)(ii) and 42 CFR 441.745(a)(2)(ii) based upon criteria described in a phase-in plan, subject to CMS approval. At a minimum, the phase-in plan must describe: (1) the criteria used to limit enrollment or service delivery; (2) the rationale for phasing-in services and/or eligibility; and (3) timelines and benchmarks to ensure that the benefit is available statewide to all eligible individuals within the initial 5-year approval. (*Specify the phase-in plan*):

8. ☒ **Adjustment Authority.** The state will notify CMS and the public at least 60 days before exercising the option to modify needs-based eligibility criteria in accord with 1915(i) (1) (D) (ii).
9. **Reasonable Indication of Need for Services.** In order for an individual to be determined to need the 1915(i) State plan HCBS benefit, an individual must require: (a) the provision of at least one 1915(i) service, as documented in the person-centered service plan, and (b) the provision of 1915(i) services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the person-centered service plan. Specify the state's policies concerning the reasonable indication of the need for 1915(i) State plan HCBS:

i.	Minimum number of services.	The minimum number of 1915(i) State plan services (one or more) that an individual must require in order to be determined to need the 1915(i) State plan HCBS benefit is:

Home and Community-Based Settings

(By checking the following box, the State assures that):

1. ☒ **Home and Community-Based Settings.** The State plan HCBS benefit will be furnished to individuals who reside and receive HCBS in their home or in the community, not in an institution. *(Explain how residential and non-residential settings in this SPA comply with Federal home and community-based settings requirements at 42 CFR 441.710(a) (1)-(2) and associated CMS guidance. Include a description of the settings where individuals will reside and where individuals will receive HCBS, and how these settings meet the Federal home and community-based settings requirements, at the time of submission and in the future):*

(Note: In the Quality Improvement Strategy (QIS) portion of this SPA, the state will be prompted to include how the state Medicaid agency will monitor to ensure that all settings meet federal home and community-based settings requirements, at the time of this submission and ongoing.)

State plan HCBS benefits will be furnished to children and young adults aged 0-18 who reside and receive HCBS in a home in the community, not in an institution. This may include residence in a home or apartment that is a licensed specialized foster care home. These settings are the private homes of foster parents or group homes who must meet a number of standard environmental and physical space dimensions of the home which are geared toward the individual needs of the children who live there. The 1915i Operating Agencies: State and County Agencies will verify the settings through a site visit to ensure these homes are compliant with Federal HCB settings requirements at 42 CFR 441.710(a) (1)-(2) prior to enrollment. The SMA will verify the site visit and adherence to the settings rule as part of the enrollment checklist. Further verification of post review is outlined within the plan of quality assurance. Nevada Administrative Code (NAC) 424 requires for an annual inspection of licensed foster homes and adherence to settings rule will be monitored. Additionally, at each six-month check-in the County Caseworker or State Wraparound Facilitator (depending on who completed the eligibility checklist) will go through the settings checklist comprised of the points below with each recipient. Settings which fail to meet the settings criteria will not be able to bill until in compliance; those failing to get into compliance within 30 days will be disenrolled. NAC424 outlines that each foster home shall plan activities that provide for and stimulate social relationship, creative activities, and hobbies. Children with SFC must be afforded an opportunity to participate in neighborhood, school, and other community groups appropriate to the age and needs of each child to the same standard as children not receiving HCBS services. Adherence to NAC424 as outlined before is determined at time of enrollment, annual inspections and at six-month check-in.

The child in the specialized foster care program will:

- Live in foster homes which are part of the community and close to provider services.
- Have a room(s) which meet the needs of the child from a physical and behavioral health perspective.
- Be free to move around in the home and is not restrained in any way.
- Be allowed to make life choices appropriate for the age of the child.
- If capable, assist in the selection of services and supports.
- Be in settings that can include additional foster care children and members of the foster family.
- Have some services provided directly in the foster home. Other services will occur in provider locations.

The development of the person-centered service plan will focus on a strengths and needs-driven approach that provides intensive care management in a team setting using a Child and Family Team approach. The CFT team includes the Care Coordinator, child or youth, caregiver(s), support persons identified by the family (paid and unpaid), and service providers, including the youth's treating clinician as available.

The process is designed to promote youth and parent involvement as active members of the CFT. The goals of CFT meetings are to manage care and services to avoid fragmentation, ensure access to appropriate and person-centered care, and provide a team approach to address needs. Youth and parent/guardian involvement is essential in the assessment of safety; strengths; medical, social, behavioral, educational, and cultural needs; skill building; family/caregiver supports and services; and goals.

The Care Coordinator will utilize assessments to create the individualized POC for children and families. The plan will include needs, outcomes, and strategies that are:

- Specific. The CFT, including the family should know exactly what must be completed or changed and why.
- Measurable. Everyone should know when the needs have been met. Outcomes will be measurable to the extent that they are behaviorally based and written in clear and understandable language.
- Achievable. The CFT and family should be able meet the identified needs in a designated time period given the resources that are accessible and available to support change.

The person-centered POC will include detailed service plans for applicable 1915(i) services. The CFT shall develop the initial POC, which will be documented by the Care Coordinator. The Care Coordinator will also be responsible for documenting updates to the POC, including recommendations and decisions made by the CFT, in accordance with timeframes as listed in DCFS policy.

The Care Coordinator is responsible to submit the developed POC to the QIO-like vendor for approval.

- 6. Supporting the Participant in Development of Person-Centered Service Plan.** Supports and information are made available to the participant (and/or the additional parties specified, as appropriate) to direct and be actively engaged in the person-centered service plan development process. *(Specify: (a) the supports and information made available, and (b) the participant's authority to determine who is included in the process):*

DCFS offers tiered care coordination services to best meet the needs of youth with serious emotional disturbance (SED). Youth with the highest level of need receive High Fidelity Wraparound.

While we anticipate that nearly all youth who are eligible for 1915(i) State plan benefit will also qualify for High Fidelity Wraparound due to intensive behavioral healthcare needs, we have included in this application the possibility that youth may be routed to FOCUS or SAFE and may have a Care Manager or Case Worker leading their Child and Family Team (CFT) and the development of their POC.

Youth with intermediate level of need (not in Washoe or Clark counties) are offered FOCUS Care Coordination, an evidence-informed intermediate level care coordination program created by the National Wraparound Implementation Center which also provides training and technical assistance to Nevada in

our implementation of High-Fidelity Wraparound. FOCUS Care Coordination is a new, evidence-informed intermediate level care coordination program created by the National Wraparound Implementation Center which also provides training and technical assistance to Nevada in our implementation of High-Fidelity Wraparound. FOCUS care coordination is built around the following elements of service: Families are laughing, i.e. positive relationships are necessary for healing; Outcomes; Coordination; Unconditional positive regard; and Short-term process (FOCUS). Youth receiving FOCUS will have a Care Manager directing the development of the POC.

Youth in Washoe and Clark Counties are offered care coordination utilizing, the Safety Assessment Family Evaluation (SAFE) model. This is a strengths-based, family-centered, and trauma-informed model to inform child welfare agency decision-making. Child safety is the primary focus of the SAFE model, and focus is given to children who may be unsafe based on the presence of uncontrolled danger threats. SAFE uses standardized tools and decision-making criteria to assess family behaviors, conditions, and circumstances, including individual child vulnerabilities and caregiver protective capacities, to make well-founded child safety decisions. The practice model's approach to safety assessment and management recognizes that issues concerned with child safety change as the child protective services intervention proceeds. Youth receiving SAFE will have a Case Worker directing the development of the POC.

The child's/youth's family is informed verbally and in writing about overall services available in the State Plan HCBS benefit at the time they make the choice to receive 1915(i) services. One of the key philosophies in the Wraparound process is family-driven care. This means that parent(s) or legal guardian, youth and family members are the primary decision makers in the care of their family. The Care Coordinator is responsible for working with the participant, family, and team to develop the Plan of Care through the process outlined below.

Within 72 hours of notification of enrollment, the Care Coordinator contacts the participant and family to schedule a face-to-face meeting. At the first meeting between the Care Coordinator, participant, and family after enrollment, the Care Coordinator will:

- (a) Administer the appropriate assessments, as designated by DCFS;
- (b) Work with the participant and family to develop an initial crisis plan that includes response to immediate service needs;
- (c) Execute signing of releases of information and all necessary consents
- (d) Provide an overview of the wraparound process; and
- (e) Facilitate the family sharing their story.

The Care Coordinator will, with the participant and family: identify needs that they will work on in the planning process; determine who will attend team meetings; contact potential team members, provide them with an overview of the care management process, and discuss expectations for the first team meeting; conduct an initial assessment of strengths of the participant, their family members and potential team members; and establish with the family their vision statement.

The team, which includes the participant and his or her family and informal and formal supports will determine the family vision which will guide the planning process; identify strengths of the entire team; be notified of the needs that the team will be working on; determine outcome statements for meeting identified needs; determine the specific services and supports required to achieve the goals

identified in the POC; create a mission statement that the team generates and commits to following; identify the responsible person(s) for each of the strategies in the POC; review and update the crisis plan; and meet at least every 30 days to coordinate the implementation of the POC and update the POC as necessary.

The plan must also address the methods used to ensure the active participation of the client and/or the legally responsible person and others to develop such goals and to identify the steps or actions each CFT member will take to respond to the assessed service needs of the participant. This will be demonstrated by the CFT members signing and dating the plan and any updates made to the plan during plan updates and reviews language.

The Care Coordinator in collaboration with the team shall reevaluate the POC at least every 90 days with re-administration of DCFS-approved assessments as appropriate.

7. **Informed Choice of Providers.** *(Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the 1915(i) services in the person-centered service plan):*

All participants or legal guardians read and sign a "Statement of Understanding" form. The Statement of Understanding reads, "The 1915(i) HCBS are optional Nevada Medicaid services. Assessment of my diagnoses and needs will direct the services to be provided, as determined by the Child and Family Team led by the Care Coordinator. I have the opportunity to participate as an active member of the Child and Family Team. The Child and Family team will support me in selecting providers for medically necessary HCBS services. My family and I had a voice and choice in the selection of services, providers, and interventions, when possible, in the SAFE, FOCUS, or Wraparound process of building my family's Plan of Care. I choose to receive HCBS. I understand that I have to be eligible for Medicaid to remain in this program. I have been offered a choice among applicable services and available providers." By signing this form participants acknowledge they have chosen from a list of available providers.

Provider enrollment into the program will not be limited; an ongoing enrollment of providers will promote choice and accessibility.

8. **Process for Making Person-Centered Service Plan Subject to the Approval of the Medicaid Agency.** *(Describe the process by which the person-centered service plan is made subject to the approval of the Medicaid agency):*

DHCFP, through an Interlocal agreement with DCFS, delegates the responsibility for service plan approval to an independent contracted entity (QIO-like vendor). As part of its routine operations, DHCFP's contracted entity, must review each service plan submitted to ensure the plan addresses all pertinent issues identified through the assessment. The DHCFP contractor enters the determination of his/her review in the Provider Portal database. The Provider Portal database interfaces with the Medicaid Management Information System (MMIS) for processing and tracking of eligible individuals, 1915(i) services and claims reimbursements. The DHCFP contractor informs DHCFP and DCFS of any issues related to the review and approval or denial of service plans. DHCFP retains the authority and oversight of the 1915(i) program delegated to DCFS. In addition, the DHCFP and DCFS reviews and approves the policies, processes and standards for developing and approving the care plan.

Based on the terms and conditions of this State Plan Amendment, the Medicaid agency may review and overrule the approval or disapproval of any specific plan of care acted upon by DCFS serving in its capacity as the operating agency for the 1915(i) HCBS benefit program.

9. **Maintenance of Person-Centered Service Plan Forms.** Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §74.53. Service plans are maintained by the following (*check each that applies*):

- Specifies the State plan HCBS that the individual will be responsible for directing;
- Identifies the methods by which the individual will plan, direct or control services, including whether the individual will exercise authority over the employment of service providers and/or authority over expenditures from the individualized budget;
- Includes appropriate risk management techniques that explicitly recognize the roles and sharing of responsibilities in obtaining services in a self-directed manner and assures the appropriateness of this plan based upon the resources and support needs of the individual;
- Describes the process for facilitating voluntary and involuntary transition from self-direction including any circumstances under which transition out of self-direction is involuntary. There must be state procedures to ensure the continuity of services during the transition from self-direction to other service delivery methods; and
- Specifies the financial management supports to be provided.

7. Voluntary and Involuntary Termination of Participant-Direction. *(Describe how the state facilitates an individual's transition from participant-direction, and specify any circumstances when transition is involuntary):*

Information about these method(s) must be made publicly available and included in the person-centered service plan.):</i>
<input type="radio"/>	

	Expenditure Safeguards. <i>(Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards.</i>

Quality Improvement Strategy

Quality Measures

(Describe the state's quality improvement strategy. For each requirement, and lettered sub-requirement, complete the table below):

1. Plan of Care a) address assessed needs of 1915(i) participants; b) are updated annually; and (c) document choice of services and providers.
2. Eligibility Requirements: (a) an evaluation for 1915(i) State plan HCBS eligibility is provided to all applicants for whom there is reasonable indication that 1915(i) services may be needed in the future; (b) the processes and instruments described in the approved state plan for determining 1915(i) eligibility are applied appropriately; and (c) the 1915(i) benefit eligibility of enrolled individuals is reevaluated at least annually or if more frequent, as specified in the approved state plan for 1915(i) HCBS.
3. Providers meet required qualifications.
4. Settings meet the home and community-based setting requirements as specified in this SPA and in accordance with 42 CFR 441.710(a)(1) and (2).
5. The SMA retains authority and responsibility for program operations and oversight.
6. The SMA maintains financial accountability through payment of claims for services that are authorized and furnished to 1915(i) participants by qualified providers.
7. The state identifies, addresses, and seeks to prevent incidents of abuse, neglect, and exploitation.

(Table repeats for each measure for each requirement and lettered sub-requirement above.)

System Improvement

(Describe the process for systems improvement as a result of aggregated discovery and remediation activities.)

1. Methods for Analyzing Data and Prioritizing Need for System Improvement

On an ongoing basis, the Operating Agency Care Coordinator Supervisors, Operating Agency QA, Administering Agency QA, Administering Agency Behavioral Health Unit will collaborate in a Quality Improvement Team to assess quality improvements needed to ensure required performance measures are met. Monthly Comprehensive QI meetings review performance measures below 86% to determine remediation and mitigation efforts using CMS guidelines. Such guidelines include, but are not limited to, identifying probable cause, development of interventions to improve performances, trend analysis on performance measures, etc. On an as needed basis, the QA Unit conducts educational trainings with the Operating Agencies regarding how to perform case file and provider reviews. Provider reviews are entered into the provider database to be tracked and deficiencies flagged. Depending on the deficiency, referrals are sent to an appropriate state agency for review and corrective action plan as appropriate.

Case Management records are in a case management database which generates reports needed for QA case file reviews. Provider records are managed through the Medicaid Management Information System (MMIS) and reviewed by the SMA Fiscal Agent and Provider Enrollment Unit. Electronic submission of claims is also done through InterChange, which has built-in edits to ensure claims are processed correctly and appropriately.

Serious Occurrence Reports (SORs) are tracked through a Child Welfare (CPS) which is monitored and reviewed by the Operating Agencies Care Coordinator Supervisors.

2. Roles and Responsibilities

The SMA QA complete annual reviews of the performance measures outlined above excluding provider reviews which are conducted by the 1915(i) Unit.

1915(i) and QA Unit participate in monthly and quarterly comprehensive QI meetings.

3. Frequency

QI Team meet monthly to discuss remediations on deficiencies found during the annual review. QI Team also meet quarterly to review remediations and discuss system improvement to determine changes as needed to the process. The QIS is evaluated in its entirety prior to the 5-year renewal.

4. Method for Evaluating Effectiveness of System Changes

Through QI Team meetings, trend analysis is conducted on remediation efforts to determine effectiveness of such efforts and those performance measures needing continual improvement. As potential trends develop, specific activities will be identified that may need changing and an evaluation is conducted to remedy the issue.
