RE: TN 21-0011

Dear Ms. Frescatore:

We have reviewed the proposed New York State Plan Amendment (SPA) to Attachment 4.19-B transmittal number 21-0011, which was submitted to the Centers for Medicare & Medicaid Services (CMS) on March 22, 2021. New York State Department of Health updates the Ambulatory Patient Group (APG) methodology for Outpatient Hospitals.

Based upon the information provided by the State, we have approved the amendment with an effective date of January 21, 2020. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Tamara Sampson at 214-767-6431 or Tamara.Sampson@cms.hhs.gov.

Sincerely,

Todd McMillion
Director
Division of Reimbursement Review

23. REMARKS

**New York
1(e)(1)**

Ambulatory Patient Group System: Hospital-Based Outpatient

For dates of service beginning December 1, 2008, for hospital outpatient clinic and ambulatory surgery services, and beginning January 1, 2009, for emergency department services, through December 31, [2020] 2021, the operating component of rates for hospital based outpatient services [shall] will be reimbursed using a methodology that is prospective and associated with resource utilization to ensure that ambulatory services are economically and efficiently provided. The methodology is based upon the Ambulatory Patient Group (APG) classification and reimbursement system. This methodology incorporates payments for the separate covered Medicaid benefits in accordance with the payment methods for these services. Reimbursement for the capital component of these rates [shall] will be made as an add-on to the operating component as described in the APG Rate Computation section.

If a clinic is certified by the Office of People with Developmental Disabilities (OPWDD), reimbursement will be as specified in the OPWDD section of the State Plan.

The Ambulatory Patient Group patient classification system is designed to explain the amount and type of resources used in an ambulatory visit by grouping patients with similar clinical characteristics and similar resource use into a specific APG. Each procedure code associated with a patient visit is assigned to an APG using the grouping logic developed by 3M Health Information Systems. When evaluation and management codes are coded, the APG grouping logic also uses the diagnosis code to make the APG assignment. Ultimately, the procedures and diagnoses coded for a patient visit will result in a list of APGs that correspond on a one-for-one basis with each procedure coded for the visit.

TN #21-0011

Approval Date June 3, 2021

Supersedes TN #20-0011

Effective Date January 21, 2021
