For primary care and specialty physicians meeting the eligibility and practice criteria of and enrolled in the HIV Enhanced Fees for Physicians (HIV-EFP) program, and the Preferred Physicians and Children’s program (PPAC), fees for visits are based on the Products of Ambulatory Care (PAC) structure: fees are based on recipient diagnosis, service location and visit categories which reflect the average amount of physician time and resources for that level of visit. The PAC fee structure incorporates a regional adjustment for upstate and downstate physicians. Reimbursement for the initial and subsequent prenatal care and postpartum visit for MOMS is based on the Products of Ambulatory Care (PAC) rate structure. Reimbursement for delivery only services and total obstetrical services for physicians enrolled in MOMS is fixed at 90% of the fees paid by private insurers. Ancillary services and procedures performed during a visit must be claimed in accordance with the regular Medicaid fee schedule described in the first paragraph above. HIV-EFP, PPAC and MOMS fees were developed by the Department of Health and approved by the Division of the Budget. For services provided on and after June 1, 2003, a single fee, regionally adjusted (upstate and downstate) and based on program specific average cost per visit shall be established for the HIV-EFP and PPAC programs, respectively, and shall be paid for each visit.
