Reference: TN 22-0007

Dear Medicaid Director:

We have reviewed the proposed amendment to Attachment 4.19-D of your Medicaid State plan submitted under transmittal number (TN) 22-0007. This amendment proposes to provide a supplemental payment, which will allow eligible nursing homes to increase resident facing staffing services.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), and 1903(a) of the Social Security Act and the implementing Federal regulations at 42 CFR 447 Subpart C.

This is to inform you that Medicaid State plan amendment NY-22-0007 is approved effective April 1, 2022. The CMS-179 and the amended plan page(s) are attached.

If you have any additional questions or need further assistance, please contact Kristina Mack at 617-565-1225 or Kristina.Mack-Webb@cms.hhs.gov.

Sincerely,

Rory Howe
Director

1905(a)(4)(A) Nursing Facility Services

Minimum Staffing Requirements for Nursing Homes

Effective for rate year April 1, 2022 through March 31, 2023, the State will distribute \$187 million to Qualified facilities for the purposes of meeting the following minimum staffing requirements.

1. Minimum Direct Resident Care Spending

Nursing homes will be required to spend a minimum of 40 percent of revenue on resident-facing staffing and 70 percent of revenue on direct resident care, provided that 15 percent of costs associated with resident-facing staffing contracted out by a facility for services provided by registered professional nurses, licensed practical nurses, or certified nurse aides who have completed certification and training approved by the department will be deducted from the calculation of the amount spent on resident-facing staffing and direct resident care.

Additionally, nursing home total operating revenues must not exceed total operating and non-operating expenses by more than five percent of total operating and non-operating expenses.

Excess revenues and deficiencies in spending on resident-facing staffing and direct resident care will be recouped by the state, effective upon commencement of compliance determinations for the calendar year 2022.

- a. "Revenue" will mean the total operating revenue from or on behalf of residents of the residential health care facility, government payers, or third-party payers, to pay for a resident's occupancy of the residential health care facility, resident care, and the operation of the residential health care facility as reported in the residential health care facility cost reports submitted to the department; provided, however, that revenue will exclude the average increase in the capital portion of the Medicaid reimbursement rate from the prior three years, the capital portion of the Medicaid reimbursement rate for all nursing homes with a CMS Overall Rating of 4 or 5, grant funds from the federal government for reimbursement of COVID-19 pandemic-related expenses, and funding received as reimbursement for residential health care facilities assessment.
- b. "Resident-facing staffing" will include all staffing expenses in the ancillary and program services categories of the residential health care cost reports.
- c. "Direct resident care" will include all expenses in the following categories of the residential health care cost reports: (i) Nonrevenue Support Services - Plant Operation & Maintenance, Laundry and Linen, Housekeeping, Patient Food Service, Nursing Administration, Activities Program, Nonphysician Education, Medical Education, Medical Director's Office, Housing, Social Service, Transportation; (ii) Ancillary Services - Laboratory Services, Electrocardiology, Electroencephalography, Radiology, Inhalation Therapy, Podiatry, Dental, Psychiatric, Physical Therapy, Occupational Therapy, Speech/Hearing Therapy, Pharmacy, Central Services Supply,

Approval Date March 6, 2024

Supersedes TN #NEW

Effective Date April 01, 2022

**New York
110(d)(32.1)**

1905(a)(4)(A) Nursing Facility Services

Minimum Staffing Requirements for Nursing Homes (continued)

1. Minimum Direct Resident Care Spending (continued)

- c. Medical Staff Services provided by licensed or certified professionals including and without limitation Registered Nurses, Licensed Practical Nurses, and Certified Nursing Assistant; and (iii) Program Services - Residential Health Care Facility, Pediatric, Traumatic Brain Injury (TBI), Autoimmune Deficiency Syndrome (AIDS), Long Term Ventilator, Respite, Behavioral Intervention, Neurodegenerative, Adult Care Facility, Intermediate Care Facilities, Independent Living, Outpatient Clinics, Adult Day Health Care, Home Health Care, Meals on Wheels, Barber & Beauty Shop, and Other similar program services that directly address the physical conditions of residents. Direct resident care does not include, at a minimum and without limitation, administrative costs (other than nurse administration), capital costs, debt service, taxes (other than sales taxes or payroll taxes), capital depreciation, rent and leases, and fiscal services.
- d. "Cost Report" will mean the annual financial and statistical report (RHCF IV) submitted to the department which includes the residential health care facility's revenues, expenses, assets, liabilities, and statistical information.
- e. "Hospital-Based Nursing Homes" will mean nursing homes that are required to complete a RHCF II Cost Report. Hospital-based nursing homes will be required to provide supplementary data to calculate revenue, resident-facing staffing, and direct resident care costs because their cost report data does not include this information.

2. Supplemental Payment to Qualified Facilities

Qualified facilities are those that met the requirement to spend 40 percent or more of revenue on resident-facing staffing and 70 percent or more of revenue on direct resident care and whose total operating revenues did not exceed total operating and non-operating expenses by more than five percent of total operating and non-operating expenses.

- a. The facility's percentage of revenue spent on resident-facing staffing is calculated by dividing a facility's resident-facing staffing expense by the facility's total revenue.
- b. The facility's percentage of revenue spent on direct resident care is calculated by dividing a facility's direct resident care expense by the facility's total revenue.
- c. The facility's percentage of excess revenue is calculated by subtracting a facility's total operating expenses and total nonoperating expenses from the facility's total operating revenue, and dividing this calculation by the sum of the facility's total operating and non-operating expenses.

TN #22-0007

Approval Date March 6, 2024

Supersedes TN #NEW

Effective Date April 01, 2022

**New York
110(d)(32.2)**

1905(a)(4)(A) Nursing Facility Services

Minimum Staffing Requirements for Nursing Homes (continued)

2. Supplemental Payment to Qualified Facilities (continued)

d. The data used in the calculations of section 2a. and 2b. and 2c. above is as follows:

State Fiscal Year	State Cost Report
FY23	2020

e. If the percentage calculated in section (2)(a) is equal to or greater than forty percent and the percentage calculated in section (2)(b) is equal to or greater than seventy percent and the percentage calculated in (2)(c) is less than or equal to five percent, then the facility is a Qualified Facility and eligible to receive the supplemental payment. The supplemental payment for each Qualified Facility will be calculated as follows:

- i. Divide the Qualified Facility's total Certified Bed count as reported in the Cost Report by the total Certified Beds for all Qualified Facilities.
- ii. Multiply the value by the total funding available for Qualified Facilities.

f. The State will withhold the Federal Financial Participation (FFP) of excess Medicaid revenues for the claiming period, and return the FFP of any recouped funds to the Centers for Medicaid and Medicare Services in accordance with federal overpayment regulations.
