Dental services may be provided in an amount beyond established limits with prior authorization, upon a demonstration of medical necessity.

Individuals up to age 21 can access dental benefits without limitation when medically necessary.
10. Dental services.

Dental services under this section are covered by Ohio Medicaid in accordance with 42 CFR 440.100.

Payment for Dental services is the lesser of the billed charges or an amount based on the Medicaid maximum for the service, except for ‘Rural Dental Providers.’ The Medicaid maximum is the amount listed on the Department’s Dental services fee schedule.

Effective for dates of service on and after January 1, 2016, the maximum reimbursement for dental services rendered by a provider whose office address is in a rural Ohio county is the lesser of the billed charges or 105 percent of the Medicaid maximum for the particular service.

All rates are published on the agency's website at: https://medicaid.ohio.gov/PROVIDERS/FeeScheduleandRates.aspx.

The agency's dental services fee schedule was set as of April 1, 2021 and is effective for services provided on or after that date.

By-report services require manual review by the appropriate single state agency staff. The reimbursement rate for these services is determined using one of a variety of different payment methodologies. Examples of the possible methodologies are pricing using a similar service, product, or procedure that has an established reimbursement rate or a percentage of charges. The specific methodology utilized depends on the service, product, or procedure performed.

Except as otherwise noted in the plan, state-developed fee schedules and rates are the same for both governmental and private providers.

Selected dental services are subject to a co-payment as specified in Attachment 4.18-A of the State plan.
