Describe program below:
Ohio has provided managed care since 1978 and operated a mandatory enrollment program since 1989. Currently, the majority of Ohio's Medicaid beneficiaries are enrolled in Medicaid managed care plans (MCPs). Approximately 1.7 million out of 2.3 million total Medicaid eligibles are covered under Medicaid managed care. The managed care beneficiaries are comprised of Covered Families and Children (CFC) and Aged, Blind, and Disabled (ABD) populations, including approximately 37,000 children with special health care needs. There are five managed care plans serving Medicaid beneficiaries across the state by way of three service regions. As a result, Medicaid managed care beneficiaries have a greater choice in selecting a plan that best suits their individual health care needs.

The Bureau of Managed Care has primary oversight for the monitoring of the MCPs. Other bureaus within ODM oversee managed care functions such as clinical, rate-setting and financial performance monitoring and assessment. Managed care has been implemented as a means to improve access to health care, continuity of care and quality of care for Medicaid beneficiaries, provider accountability and cost predictability. As a supplement to Ohio's existing 1932(a) authority, effective July 1, 2013, Ohio added SSI children under the age of 21 to the Medicaid managed care program under a 1915(b) waiver approved by CMS. CMS has also approved a 1915(b)(c) waiver, for an effective date of March 1, 2014 that will allow the enrollment of Medicaid-Medicare duals in managed care through the Integrated Care Delivery System (ICDS) Demonstration.

The Alternative Benefit Plan will be provided through primary care case management (PCCM) consistent with applicable managed care requirements (42 CFR Part 438, section 1903(m) of the Social Security Act, and section 1932 of the Social Security Act).

Enrollees new to the Medicaid system will be placed in a fee-for-service pool prior to their auto-assignment. Enrollees have up to 90 days from initial enrollment to choose a different plan without cause and annually during the open enrollment period.
