The Base Benchmark Plan is the same as the Section 1937 Coverage option. No
Indicate which Benchmark Plan described at 45 CFR 156.100(a) the state/territory will use as its Base Benchmark Plan:

Any of the largest three state employee health benefit plans by enrollment.
Any of the largest three national FEHBP plan options open to Federal employees in all geographies by enrollment.
C Largest insured commercial non-Medicaid HMO.
Plan name: PacificSource Preferred CoDeduct Value 3000 35 70
Other Information Related to Selection of the Section 1937 Coverage Option and the Base Benchmark Plan (optional):

It is Oregon's intention to provide the expansion population with the full set of Medicaid benefits provided to the State's categorically eligible population. This approach will help minimize disruptions for individuals who move among different benefit packages within The Oregon Health Plan. Under our authority for Secretary-approved coverage as an ABP, CMS is approving a package of benefits that the state has determined includes at least all essential health benefits as defined using the required process, and other benefits that are both:1) covered in accordance with the traditional benefit package under the approved state plan and 2) included on the states prioritized list, as approved by the Secretary, to the extent that the state has authority under its section 1115 demonstration to apply the prioritized list to coverage.

Oregon is proposing to use the PacificSource Preferred CoDeduct Value 3000 35 70 small group plan as the base benchmark plan for the ABP. This plan was also chosen by Oregon as the State's essential health benefits benchmark plan in the commercial market. The state assures that all services in the base benchmark have been accounted for throughout the benefit chart found in ABP5. The state assures the accuracy of all information in ABP5 depicting amount, duration and scope parameters of services authorized in the currently approved Medicaid state plan.

Describe program below:
As authorized under an 1115 Demonstration Waiver Oregon's delivery system transitioned from using separate Managed Care Entities (MCE) known as Fully Capitated Health Plans (FCHP), Dental Care Organizations (DCO) and Mental Health Organizations (MHO) to Coordinated Care Organizations (CCO) beginning in August 2012. A CCO is an MCE responsible for physical, dental, and behavioral health services, all of which were previously provided through the aforementioned separate MCEs; CCOs are located throughout the state.
As a result of this transition, the state's direct contracts with DCOs covered only fee-for-service OHP beneficiaries. Initially, CCOs were required by Oregon law to provide dental services for their members by contracting with any DCO in its service area; these contracts were required to be in place by July 2014. This is no longer required so CCOs can choose whether to contract with DCOs, with dental providers directly, or both. Effective 1/1/23, fee-for-service OHP beneficiaries served under the state's direct contracts with DCOs will be transitioned into the CCOs for dental services. As a result, OHA will only hold direct contracts with CCO entities.
OHA previously transitioned Non-Emergent Medical Transportation (NEMT) from the 1915(b) waiver authority to the 1115 Demonstration for both coordinated care and fee-for-service OHP beneficiaries.
The Alternative Benefit Plan will be provided through primary care case management (PCCM) consistent with applicable managed care requirements (42 CFR Part 438, section 1903(m) of the Social Security Act, and section 1932 of the Social Security Act).
