13.c. Preventive Services: Community Violence Prevention Services

A. General Description:

Community violence prevention services are provided by a certified violence prevention professional (VPP) to a Medicaid beneficiary who has received treatment for an injury (which includes both medical and behavioral health treatment for a physical and/or behavioral health injury) sustained as a result of an act of community violence. Covered services are provided for the purpose of promoting improved health outcomes and positive behavioral change and preventing further violence. In accordance with 42 C.F.R. § 440.130(c), these services must be recommended by a physician or other qualified licensed practitioner of the healing arts within the practitioner's scope of practice under state law and are designed to prevent further impacts of community violence, prevent future community violence, prolong life, and promote the physical and mental health and efficiency of the individual

B. Service Description:

Community violence prevention services are evidence-based, trauma-informed, supportive and non-psychotherapeutic services provided by a certified violence prevention professional in any appropriate setting, for the purpose of promoting improved health outcomes and positive behavioral change, preventing further injury and future violence. The services are tailored for each person based on the individualized screening and assessment.

Covered services include: screening; assessment of needs; development of individualized service plan; peer support; counseling, including counseling to address and mitigate the impact of trauma; mentorship; conflict mediation; crisis intervention; patient education; discharge planning; and care coordination services that are part of the community violence prevention services and which facilitate the beneficiary's access to appropriate services, including medical, behavioral health, social, and other necessary services, all of which are designed to prevent further impacts of community violence, prevent future community violence, prolong life, and promote the beneficiary's physical and mental health in accordance with the individualized service plan.
