Columbia, SC 29202-8206

RE: TN 25-0002

Dear Director Medina,

The Centers for Medicare & Medicaid Services (CMS) has reviewed the proposed South Carolina State Plan Amendment (SPA) to Attachment 4.19-B SC-25-0002, which was submitted to CMS on June 23, 2025. This plan amendment updates the Supplemental Teaching Physician (STP) Payment Program.

We reviewed your SPA submission for compliance with statutory requirements including in sections 1902(a)(2), 1902(a)(13), 1902(a)(30), and 1903 as it relates to the identification of an adequate source for the non-federal share of expenditures under the plan, as required by 1902(a)(2), of the Social Security Act and the applicable implementing Federal regulations.

Based upon the information provided by the state, we have approved the amendment with an effective date of April 1, 2025. We are enclosing the approved CMS-179 and a copy of the new state plan pages.

If you have any additional questions or need further assistance, please contact Ysabel Gavino via email at Maria.Gavino@cms.hhs.gov.

Sincerely,

A black rectangular box redacting the signature of Todd McMillion.

Todd McMillion
Director
Division of Reimbursement Review

South Carolina Medicaid Supplemental Teaching Physician (STP) Payment Program

South Carolina supplemental teaching physician providers are defined as those providers with teaching physicians who are employed by or under contract with South Carolina Medical Universities and/or their component units. The teaching physician would involve residents and/or medical students in the care of his or her patients or directly supervise residents in the care of patients. The teaching physician must be present within the facility or in the office suite and immediately available to furnish assistance and direction throughout the performance of the service. It does not mean that the teaching physician must be present in the room when the service is performed.

Effective for services provided on and after October 1, 2016, the Medicaid Agency will reimburse teaching physician providers under the Average Commercial Rate (ACR) method. The Medicaid Agency employed the following methodology to determine the payments under the ACR method effective April 1, 2025:

- The base year claims data used for payment purposes is based upon incurred dates of service from January 1, 2024 through December 31, 2024.
- Next, the STP providers identified and provided a list of their qualifying teaching physicians for the base period.
- Next, each STP provider identified all enrolled Medicaid physicians who are employed by or under contract with the qualifying teaching hospital and/or Medical University and pulled all claims billed by these physicians to their commercial carriers during the base period. The top five commercial carriers would be determined based upon the volume of claims (with charges and payment information provided) incurred by the Medicaid enrolled physicians.
- Next, once the top five commercial carriers were determined by each individual STP provider, the fee schedule rates applicable to the top five commercial carriers were provided via procedure code. To account for changes in commercial fee schedule rates during the base period, providers were allowed to simply weight the rates by the number of months based upon the effective date of the rate change or pull charge and payment data applicable to each claim (including both the commercial carrier payment plus the patient coinsurance, copay, and deductible payments) and determine a weighted average commercial rate over the entire base period.
