individual to maintain his or her health status and the functional skills necessary to live and work in the community, as well as participate in community activities. PAS is only available to individuals who require personal assistance services to meet their ADLs. PAS does not include skilled nursing services. Following an individual's assessment of the need for PAS and development of a plan of care, the individual decides whether to have PAS through a personal care agency or whether to self direct his or her care. Those choosing consumer-directed care will receive the services of a fiscal agent covered as an administrative activity. All personal care aides must meet the following requirements: 1) be at least 18 years of age or older; 2) be able to read and write in English to the degree necessary to perform the expected tasks; 3) be physically able to do the work; 4) may not be a member of the beneficiary's family. A family member is defined to be a legally responsible relative, as defined by State law; 5) Possess basic math, reading and writing skills; 6) Submit to a criminal records check and, if the individual is a minor, consent to a search of the DSS Child Protective Services Central Registry. The aide will not be compensated for services provided to the individual if either of these records checks verifies the aide has been convicted of crimes described in Section 32.1-162.9:1 of the Code of Virginia or if the aide has a founded complaint confirmed by the DSS Child Protective Services Central Registry; and 7) receive periodic tuberculosis (TB) screening. Additional requirements based on service delivery model: 1) Personal care aides working for a personal care agency provider must be licensed. 2) Consumer Directed personal care aides: a.) have the required skills to perform consumer-directed services as specified in the individual's supporting documentation; b) be willing to attend training at the individual's or individual's representative's request. The PAS program has a soft cap of 56 hours that may be exceeded based on medical necessity.

Type of service delivery system(s) the state/territory will use for this Alternative Benefit Plan(s).

Select one or more service delivery systems:

- Managed care.
 - Managed Care Organizations (MCO).
 - Prepaid Inpatient Health Plans (PIHP).
 - Prepaid Ambulatory Health Plans (PAHP).

Managed Care Options

Managed Care Assurance

- The state/territory certifies that it will comply with all applicable Medicaid laws and regulations, including but not limited to sections 1903(m), 1905(t), and 1932 of the Act and 42 CFR Part 438, in providing managed care services through this Alternative Benefit Plan. This includes the requirement for CMS approval of contracts and rates pursuant to 42 CFR 438.6.

Managed Care Implementation

Please describe the implementation plan for the Alternative Benefit Plan under managed care including member, stakeholder, and provider outreach efforts.

The Alternative Benefit Plan for a portion of the Medicaid Buy-In population is already functioning under managed care. As such it already has well-established member, stakeholder, and provider outreach efforts under way. DMAS and its stakeholder partners will continue to monitor these efforts to ensure efficient and effective delivery of managed care services to this population. If additional services are needed, the services will be provided through the fee-for-service program.

MCO: Managed Care Organization

The managed care delivery system is the same as an already approved managed care program.

The managed care program is operating under (select one):

- Section 1915(a) voluntary managed care program.
- Section 1915(b) managed care waiver.
- Section 1932(a) mandatory managed care state plan amendment.
- Section 1115 demonstration.
- Section 1937 Alternative (Benchmark) Benefit Plan state plan amendment.

Alternative Benefit Plan

Identify the date the managed care program was approved by CMS:

Describe program below:

The Virginia Medicaid Managed Care program (Medallion) operating with contracted MCOs was initially approved by CMS January 1, 1996. Since its inception, this program continued to expand the number of populations covered as well as the geographical area served. In July 2013, the managed care program expanded to cover the entire state of Virginia.

The CCC Plus waiver was approved April 27, 2017 with an effective date of July 1, 2017 and was approved for five years. The latest CMS re-approval of the CCC Plus waiver was July 1, 2021.

Medicaid Buy-In individuals are enrolled in Medicaid MCOs unless they have other health insurance coverage (TPL), including Medicare. Individuals that have TPL are enrolled in the Medicaid fee-for-service (FFS) program and receive wrap-around coverage, including any ABP services not provided by the primary health insurer, through the FFS program.

The Alternative Benefit Plan will be provided through primary care case management (PCCM) consistent with applicable managed care requirements (42 CFR Part 438, section 1903(m) of the Social Security Act, and section 1932 of the Social Security Act).

#type# Procurement or Selection Method

Indicate the method used to select #type#s:

Alternative Benefit Plan

- Mandatory participation.
- Voluntary participation. Indicate the method for effectuating enrollment:

Describe method of enrollment in MCOs:

Once individuals are enrolled in Medicaid, they will receive a letter indicating that they may select one of the contracted MCOs. These letters shall indicate an assigned MCO in which the member will be enrolled if he does not make a selection within a period specified by DMAS of not less than 30 days. (Individuals are assigned through a system algorithm based upon the member's history with a contracted MCO.) DMAS has sole responsibility for determining enrollment in the contractor's plan. DMAS utilizes an independent enrollment broker under contract to DMAS to assist members with making plan choices after initial preassignment and during open enrollment.

Additional Information: #type# (Optional)

Provide any additional details regarding this service delivery system (optional):

Fee-For-Service Options

Indicate whether the state/territory offers traditional fee-for-service and/or services managed under an administrative services organization:

- Traditional state-managed fee-for-service
- Services managed under an administrative services organization (ASO) arrangement

Please describe this fee-for-service delivery system, including any bundled payment arrangements, pay for performance, fee-for-service care management models/non-risk, contractual incentives as well as the population served via this delivery system.

The Medicaid fee-for-service (FFS) system provides services to Medicaid-eligible individuals state-wide. The program covers newly-Medicaid-enrolled individuals until they can enroll in a Medicaid-contracted MCO in the managed care program. It also covers the following services and individuals that are carved out of or excluded from the managed care program: IEP school health services, dental services, and home and community-based waiver services. The FFS program provides dental health services for Medicaid individuals through an administrative service organization (ASO). Transportation services are provided through a capitated arrangement with a private contractor.
