As such it already has well-established member, stakeholder, and provider outreach efforts under way. Describe program below:

The Virginia Medicaid Managed Care program (Medallion) operating with contracted MCOs was initially approved by CMS January 1, 1996. Since its inception, this program continued to expand the number of populations covered as well as the geographical area served. In July 2013, the managed care program expanded to cover the entire state of Virginia.

The CCC Plus waiver was approved April 27, 2017 with an effective date of July 1, 2017 and was approved for five years. The latest CMS re-approval of the CCC Plus waiver was July 1, 2021.

Medicaid Buy-In individuals are enrolled in Medicaid MCOs unless they have other health insurance coverage (TPL), including Medicare. Individuals that have TPL are enrolled in the Medicaid fee-for-service (FFS) program and receive wrap-around coverage, including any ABP services not provided by the primary health insurer, through the FFS program.

Mandatory participation.

Voluntary participation. Indicate the method for effectuating enrollment:

Describe method of enrollment in MCOs:

Once individuals are enrolled in Medicaid, they will receive a letter indicating that they may select one of the contracted MCOs. These letters shall indicate an assigned MCO in which the member will be enrolled if he does not make a selection within a period specified by DMAS of not less than 30 days. (Individuals are assigned through a system algorithm based upon the member's history with a contracted MCO.) DMAS has sole responsibility for determining enrollment in the contractor's plan. DMAS utilizes an independent enrollment broker under contract to DMAS to assist members with making plan choices after initial preassignment and during open enrollment.
