Re: Washington State Plan Amendment (SPA) – 25-0010

Dear Director Moran and Trinity Wilson:

The Centers for Medicare & Medicaid Services (CMS) reviewed your Medicaid State Plan Amendment (SPA) submitted under transmittal number (TN) 25-0010. This amendment proposes to add services of Psychological Associates to the State Plan and update the title of Certified Peer Specialists and Certified Peer Specialist Trainees to Certified Peer Support Specialists and Certified Peer Support Specialist Trainees.

We conducted our review of your submittal according to statutory requirements in Title XIX of the Social Security Act and implementing regulations 42 CFR 440.60 and 42 CFR 440.130. This letter informs you that Washington's Medicaid SPA TN WA-25-0010 is approved on November 3, 2025, with an effective date of January 1, 2026.

Enclosed are copies of Form CMS-179 and approved SPA pages to be incorporated into the Washington State Plan.

If you have any questions, please contact Edwin Walaszek at (212) 616-2512 or via email at Edwin.Walaszek1@cms.hhs.gov.

Sincerely,

Nicole McKnight
On Behalf of Courtney Miller, MCOG Director

(b) Services:**i. Crisis Intervention**

Screening, evaluation, assessment, and clinical intervention are provided to all Medicaid enrolled persons experiencing a behavioral health crisis. A behavioral health crisis is defined as a significant change in behavior in which instability increases and/or risk of harm to self or others increases. The reasons for this change could be external or internal to the person. If the crisis is not addressed in a timely manner, it could lead to significant negative outcomes or harm to the person or others. Crisis intervention services are available on a 24-hour basis, 365 days a year. Crisis intervention services are intended to stabilize the person in crisis, prevent further deterioration, and provide immediate treatment and intervention, de-escalation, and coordination/referral efforts with health, social, and other services and supports as needed to affect symptom reduction, harm reduction, and/or to safely transition persons in acute crisis to the appropriate environment for continued stabilization. Crisis intervention should take place in a location best suited to meet the needs of the person and in the least restrictive environment available. Crisis intervention services may be provided prior to completion of an intake evaluation.

The following practitioners may furnish crisis intervention services within their scope of practice as defined by state law:

- Mental Health Professional (MHP)
- Mental Health Care Provider, under the supervision of an MHP
- Certified Peer Counselor, under the supervision of an MHP
- Certified Peer Support Specialist, under the supervision of an MHP
- Certified Peer Support Specialist Trainee, under the supervision of an MHP
- Certified Behavioral Health Support Specialist under the supervision of an MHP

Additional Information:

In order to claim increased FMAP for services using the 'community-based mobile crisis intervention services' model, the requirements described in section 1947(b) of the Act must be met, including providing services to persons outside of a hospital or other facility setting, through a multidisciplinary team, trained in trauma-informed care, de-escalation strategies, and harm reduction. The team must include, at a minimum, at least one individual who may conduct an assessment within their authorized scope of practice under state law and other professionals or paraprofessionals with appropriate expertise in behavioral health care.

ii. **Crisis Stabilization**

Services provided to Medicaid enrolled persons who are experiencing a behavioral health crisis. This service includes follow-up after a crisis intervention. These services are to be provided in the person's own home or another home-like setting, or a setting which provides safety for the person and the Mental Health Professional. Crisis stabilization services may include short-term assistance with life skills training and understanding medication effects. It may also include providing services to the person's natural and community supports, as determined by a Mental Health Professional, for the benefit of supporting the person that experienced the crisis. Crisis stabilization services may be provided prior to an intake evaluation for behavioral health services. Crisis stabilization services may be provided by a team of professionals, as deemed appropriate and under the supervision of a Mental Health Professional.

iii. Intake evaluation, assessment, and screenings (Mental Health)

This service is an evaluation of a person's behavioral health, along with their ability to function within a community, to establish the medical necessity for treatment, determine service needs, and formulate recommendations for treatment. Intake evaluations must be initiated prior to the provision of any other behavioral health services, except those specifically stated as being available prior to an intake. Services may begin before the completion of the intake once medical necessity is established.

Mental health intake evaluation, assessment, and screening services may be provided by a Mental Health Professional within their scope of practice as defined by state law. Psychological assessment and tests must be performed by or under the supervision of a licensed psychologist or psychiatrist.

iv. Intake evaluation, assessment, and screenings (Substance Use or Problem Gambling Disorder)

This service is a comprehensive evaluation of a person's behavioral health, along with their ability to function within a community, to determine current priority needs and formulate recommendations for treatment. The intake evaluation for substance use disorder includes a review of current intoxication and withdrawal potential; biomedical complications; emotional, behavioral, and/or cognitive complications; readiness to change; relapse potential; and recovery environment. Intake evaluations for problem gambling disorders include a biopsychosocial clinical assessment. Information from the intake is used to work with the person to develop an individualized service plan to address the identified issues.

Intake evaluations must be initiated prior to the provision of any other substance use or problem gambling disorder services. Services may begin before the completion of the intake once medical necessity is established.

vii. Mental Health Treatment Interventions

Services delivered in a wide variety of settings that promote recovery using therapeutic techniques. These services are provided, as medically necessary, along a continuum from outpatient up through residential and inpatient levels of care, and include evaluation, stabilization, and treatment. Services provided in facility settings must have the appropriate state facility licensure.

Treatment services include the use of planned interventions to achieve and maintain maximum level of functioning for the person.

Treatment interventions include cognitive and behavioral interventions designed with the intent to stabilize the individual and return them to more independent and less restrictive treatment. Services are conducted with the person, their family, or others at their behest, for the direct benefit of the person. Services may include individual, family, and group therapy, as well as skill building/self-care necessary to maintain/restore functioning. Services may also include therapeutic psychoeducation, which focuses on assisting the individual and their identified supports in increasing knowledge of mental health and recovery, use and efficacy of medication, symptom reduction and management, effective problem solving, and emotional/behavioral regulation skills. Intensive or brief intervention treatment models may be utilized, as well as using a multi-disciplinary team-based approaches.

Additional information:

Individual and Family treatment may take place without the person present, with their consent, as required by law. However, the service must be for the benefit of attaining the goals identified by the person in their individualized service plan.

viii. Peer Support

This service provides scheduled activities that promote wellness, recovery, self-advocacy, development of natural supports, and maintenance of community living skills. Services are provided by Certified Peer Counselors, Certified Peer Support Specialists, or Certified Peer Support Specialist Trainees as noted in the individuals' Individualized Service Plan, or without an Individualized Service Plan when provided during/post crisis episode.

Certified Peer Counselors, Certified Peer Support Specialists, or Certified Peer Support Specialist Trainees work with adults and youth and the parents/caregiver of children receiving or who have received behavioral health services. They draw upon their experiences to help peers find hope and make progress toward recovery and wellness goals. Certified Peer Counselors, Certified Peer Support Specialists, and Certified Peer Support Specialist Trainees model skills in recovery and self-management to help individuals meet their self-identified goals.

Certified Peer Counselors, Certified Peer Support Specialists, and Certified Peer Support Specialist Trainees must provide peer support services under the supervision of an MHP or SUDP who understands recovery. The peer's and clinical supervisor's expertise should be aligned with the needs of the populations served by the Certified Peers.

ix. Behavioral Health Care Coordination and Community Integration

A range of activities furnished to engage persons in treatment and assist them in transitioning from a variety of inpatient, residential, or non-permanent settings back into the broader community. To be eligible, the person must need transition support services in order to ensure timely and appropriate behavioral health treatment and care coordination.

Activities include assessment for discharge or admission to community behavioral health care, integrated behavioral health treatment planning, resource identification and linkage, and collaborative development of individualized service planning that promote continuity of care. These specialized behavioral health community integration activities are intended to promote discharge, maximize the benefits of the transition plan, minimize the risk of unplanned readmission, and increase the community tenure for the person. Services focus on reducing the disabling symptoms of mental illness or substance use disorder and managing behaviors resulting from other medical or developmental conditions that jeopardize the person's ability to live in the community. Services are individualized interventions for the individual or collateral contacts for the benefit of the person and may include skill-building to develop skills promoting community tenure. This service may be provided prior to an intake evaluation or assessment.

(b) Services**i. Crisis Intervention**

Evaluation, assessment, and clinical intervention are provided to all Medicaid enrolled persons experiencing a behavioral health crisis. A behavioral health crisis is defined as a significant change in behavior in which instability increases, and/or risk of harm to self or others increases. The reasons for this change could be external or internal to the person. If the crisis is not addressed in a timely manner, it could lead to significant negative outcomes or harm to the person or others. Crisis services are available on a 24-hour basis. Crisis intervention services are intended to stabilize the person in crisis, prevent further deterioration, and provide immediate treatment and intervention, de-escalation, and coordination/referral efforts with health, social, and other services and supports as needed to effect symptom reduction, harm reduction, and/or to safely transition persons in acute crisis to the appropriate environment for continued stabilization. Crisis intervention should take place in a location best suited to meet the needs of the person and in the least restrictive environment available. Crisis intervention services may be provided prior to completion of an intake evaluation.

The following practitioners may furnish crisis intervention services within their scope of practice as defined by state law:

- Mental Health Professional (MHP)
- Mental Health Care Provider, under the supervision of an MHP
- Certified Peer Counselor, under the supervision of an MHP
- Certified Peer Support Specialist, under the supervision of an MHP
- Certified Peer Support Specialist Trainee, under the supervision of an MHP
- Certified Behavioral Health Support Specialist under the supervision of an MHP

Additional Information:

In order to claim increased FMAP for services using the 'community-based mobile crisis intervention services' model, the requirements described in section 1947(b) of the Act must be met, including providing services to persons outside of a hospital or other facility setting through a multidisciplinary team, trained in trauma-informed care, de-escalation strategies, and harm reduction. The team must include, at a minimum, at least one individual who may conduct an assessment within their authorized scope of practice under state law and other professionals or paraprofessionals with appropriate expertise in behavioral health care.
