

Medicaid and CHIP National Summary of Renewal Outcomes – August 2023 and National Summary to Date

November 2023

National Summary of Renewal Outcomes

- This National Summary of Renewal Outcomes provides an overview of Medicaid and Children’s Health Insurance Program (CHIP) data on states’ progress resuming their regular processes for renewing individuals’ coverage after the end of the Families First Coronavirus Response Act (FFCRA) Medicaid continuous enrollment condition.
- States must submit specific metrics about Medicaid and CHIP renewals initiated and completed for a cohort in a given month using the “Unwinding Eligibility and Enrollment Data Reporting Template” (Unwinding Data Report).
- The data in this summary include metrics required by the Consolidated Appropriations Act, 2023 (CAA, 2023), as well as other state-reported data and calculations that provide additional context to understand renewal outcomes.
- For more information on this data set as well as methodologies and limitations, see the Data Sources and Metrics Definitions Overview under the [“Understanding the Data” tab](#).
- State-specific notes for the data can be found in the [Medicaid and CHIP CAA Reporting Metrics](#).
- Additional data are available at [Medicaid.gov/unwinding-data](https://www.Medicaid.gov/unwinding-data).

Context and Data Notes: Understanding Renewal Timelines & Reporting

- **Medicaid and CHIP renewal outcomes are reported by cohort.** States report outcomes for all individuals in the month in which renewals for the cohort are due, even if some renewals were completed in a prior month.
- **States began unwinding in February, March, or April 2023** by initiating their first cohort of renewals.
- **The length of states' renewal process varies.** Most states take between 45 and 90 days to complete renewals for a cohort. As a result, states are completing renewals on different schedules and will report outcomes in different months.
- **As of August 31st, 2023, all states and the District of Columbia had completed at least one full cohort of unwinding-related renewals.**
- States have flexibility in how to distribute Medicaid and CHIP renewals during the unwinding period, and nearly half of states (22) elected to prioritize renewals for some or all individuals identified by the state as likely ineligible for Medicaid and/or CHIP.
- For more information on state renewal timelines and prioritization of renewals, please [see 2023 State Timelines for Initiating Unwinding-Related Renewals](#).

Context and Data Notes: Interpreting Renewal Outcomes

- Multiple factors, including state-adopted mitigations and other strategies, may influence renewal outcomes and reporting in a state. For example:
 - States with an *ex parte* mitigation strategy that use data sources to complete a renewal after a form is sent may report those renewals as completed based on the return of a renewal form and underreport the number of individuals renewed on an *ex parte* basis.
 - Some states are temporarily holding some or all procedural terminations as a mitigation strategy to ensure compliance with federal renewal requirements or have voluntarily implemented a strategy to delay procedural terminations to conduct additional outreach. These states may report zero procedural terminations and/or a significantly higher share of pending renewals at the end of a reporting month.
 - Some states have restored eligibility for people initially found ineligible due to systems or other errors. This is frequently not identifiable in the data.
- Please consider these factors, states' distribution and prioritization of renewals, and other information when interpreting renewal outcomes and comparing information across states. Data limitations in the [Medicaid and CHIP CAA Reporting Metrics](#) provide additional state-specific information.
- For additional information, see:
 - [COVID-19 PHE Unwinding Section 1902\(e\)\(14\)\(A\) Waiver Approvals](#), and
 - [Summary of State Mitigation Strategies for Complying with Medicaid Renewal Requirements](#)

Context and Data Notes: Holding Procedural Terminations

- Among states that had a cohort of unwinding-related renewals due in the following month(s), these states paused some or all procedural terminations:
 - **March cohort:** Idaho
 - **April cohort:** Idaho, Oklahoma, and Wyoming
 - **May cohort:** Delaware, Kansas, Kentucky, Maine, West Virginia, and Wyoming
 - **June cohort:** Arkansas, District of Columbia, Delaware, Illinois, Iowa, Kansas, Kentucky, Maine, Michigan, Minnesota, Missouri, New Jersey, New York, Oklahoma, South Carolina, West Virginia, and Wyoming
 - **July cohort:** Arkansas, District of Columbia, Delaware, Illinois, Iowa, Kansas, Kentucky, Maine, Michigan, Minnesota, Missouri, New Jersey, New York, Oklahoma, South Carolina, West Virginia, and Wyoming
 - **August cohort:** District of Columbia, Delaware, Illinois, Kansas, Kentucky, Maryland, Maine, Michigan, New Jersey, New York, South Carolina, and Virginia
- States report renewal outcomes by cohort in the month the renewal is due. In most states, the effective date for procedural terminations is the beginning of the following month in which the renewal was due (e.g., procedural terminations for renewals due and reported in the month of March would have an effective termination date of April 1).

August 2023 Renewal Outcome Data

National Summary of Outcomes of Medicaid and CHIP Unwinding-Related Renewals Due in August 2023

For 50 states and the District of Columbia reporting at least one full cohort of unwinding-related renewals in August 2023	Number	Percent of beneficiaries due for renewal in the reporting month
Total number of beneficiaries due for renewal in the reporting month	7,428,192	100%
Beneficiaries due for renewal in the reporting month whose coverage was renewed	3,804,556	51.2%
Renewed for Medicaid/CHIP on an <i>ex parte</i> basis (based on available information)	2,340,350	31.5% (61.5% of total renewed)
Renewed for Medicaid/CHIP based on return of a renewal form	1,464,206	19.7% (38.5% of total renewed)
Beneficiaries due for renewal in the reporting month whose coverage was terminated	1,977,764	26.6%
Determined ineligible for Medicaid and CHIP based on the return of a renewal form	574,967	7.7% (29.1% of total terminated)
Terminated from Medicaid/CHIP for a procedural or administrative reason	1,402,797	18.9% (70.9% of total terminated)
Beneficiaries due for renewal in the reporting month whose renewal was pending at the end of the month	1,645,872	22.2%

These data represent the outcome of renewals due in August 2023 (effective September 1, 2023) in 50 states and the District of Columbia that had completed at least one full cohort of unwinding-related renewals as of August 31st. Numbers and percentages may not sum due to rounding.

Closed for Procedural Reason	1.4 million	19% (71% of total terminated)	5.5 million (20% of total due) (73% of total terminated)
Pending/Incomplete Renewals at the end of the Month	1.6 million	22%	6.3 million (23% total due)

Notes:

- These data represent the outcomes of renewals due in August 2023 (effective September 1, 2023) and from March-August 2023 in all 50 states plus DC. Total renewals initiated to-date represents data from February-August 2023. Except for renewals initiated, data for MA from May-July 2023 are excluded due to reporting issues. Numbers and percentages may not sum due to rounding.
- Pending renewals to date reflect the sum of total pending renewals at the end of each reporting month and not the cumulative total of pending renewals as of the end of August. States may complete renewals pending in the month after the reporting month. Some states may have reinstated coverage for individuals who were terminated from Medicaid/CHIP in subsequent months. Those reinstatements are not reflected in the data.
