Request for Comments on Templates for Documenting Compliance with Mental Health Parity and Addiction Equity Act Requirements in Medicaid and CHIP

All-State Medicaid and CHIP Call
October 2024

Background

- CMS has developed new templates and instructional guides for States to document how their Medicaid and separate CHIP mental health (MH) and substance use disorder (SUD) benefits comply with Medicaid and CHIP parity regulations (refer to CMS-2333-F).
- We posted these draft templates and guides for public comment on Sept. 9th on Medicaid.gov at https://www.medicaid.gov/medicaid/downloads/parity-temp-rfc.pdf
- Most provisions of the Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA) apply to coverage provided to enrollees of Medicaid managed care organizations (MCOs), and coverage provided by Medicaid Alternative Benefit Plans (ABPs) and separate CHIP programs regardless of delivery system.
- MH/SUD parity requirements do not apply to benefits for Medicaid beneficiaries who are not enrolled in an MCO and/or ABP, and who receive only traditional State plan services through an FFS delivery system, prepaid inpatient health plan (PIHP), and/or prepaid ambulatory health plan (PAHP). However, CMS encourages States to provide for parity between MH/SUD and medical or surgical (M/S) benefits for all Medicaid and separate CHIP beneficiaries.

Current Processes for Ensuring Compliance with MH/SUD Parity in Medicaid and CHIP

Medicaid MCO Programs

- States submit parity documentation to CMS with the MCO contract for review and approval.
- States post parity documentation on their State Medicaid Agency's website.

Separate CHIP

States submit State
 Plan Amendments
 (SPAs) and
 documentation to
 CMS to demonstrate
 compliance with
 MH/SUD parity
 requirements.

ABP

States submit ABP SPAs
 to CMS that require
 States to identify any
 benefit limitations and
 provide descriptions of
 benefits that
 demonstrate
 compliance with
 MH/SUD parity
 requirements.

Refer to June 2024 CMCS Informational Bulletin for more details.

Draft Templates for Documenting Compliance with Medicaid and CHIP MH/SUD Parity Requirements

- The draft templates and guides open for comment are intended to:
 - Clarify for States and plans what information to submit to demonstrate parity compliance with MH/SUD parity requirements in a standardized format
 - Streamline the review process to minimize submission of duplicative information and support coordination of review across CMS divisions
 - Reduce time spent by States and plans collecting information to document compliance and improve efficiency and effectiveness of review and analysis of the information submitted to ensure compliance requirements by CMS

Draft Templates for Documenting Compliance with Medicaid and CHIP MH/SUD Parity Requirements (continued)

- Aligned with and designed to help States collect the Managed Care Plan and State FFS benefit information needed to complete the State Summary Template
- States complete this template using the information collected from the Managed Care Plan and State FFS Reporting Templates
- States submit to CMS
